**Uratex expands renewables footprint,
earns “Powered by Renewable Energy” badge from ACEN RES**

7 April 2025 – *The Sleep Specialist* Uratex, the Philippines’ leading sleep specialist and foam and mattress manufacturer, has significantly amplified its commitment to sustainability by transitioning four additional facilities to 100% renewable energy through ACEN RES, the retail electricity arm of the Ayala group.

This achievement was celebrated with the unveiling of the “Powered by Renewable Energy” gold badge awarded by ACEN RES to Uratex, recognizing the latter’s leadership in the shift towards clean energy in its industry. ACEN RES’s “Powered by Renewable Energy” badge is a first-of-its-kind in the Philippines, signifying a company’s dedication to environmental stewardship through renewable energy adoption.

Uratex facilities in Magallanes, Shaw, Marcos Highway (Metro Manila) and Isabela now join seven other Uratex locations across Luzon and Cebu already powered by renewable sources under the Green Energy Option Program (GEOP), a government initiative allowing electricity consumers to shift to renewable energy and choose their supplier.

This expansion reinforces Uratex’s holistic sustainability strategy, which includes innovative product development using recycled materials and continuous operational efficiency improvements.

Peachy Cheng-Medina, managing director of Uratex Group of Companies, said: “We recognize the importance of strong partnerships, and we’re incredibly grateful to have ACEN. We look up to the Ayala Group and appreciate how our smaller steps towards sustainability are supported by your larger vision. Thank you for your partnership and for inspiring us to push forward.”

Miguel de Jesus, managing director and chief operating officer for Philippine Operations at ACEN, emphasized the significance of the partnership: “We are thrilled to celebrate Uratex’s expanded commitment to renewable energy. This partnership not only helps accelerate the sustainability journey of Uratex but also enables ACEN to build more renewable energy capacity and support the country’s goal of increasing the share of renewables in the energy mix.

“We look forward to a continued and expanding collaboration, exploring opportunities beyond just energy supply. We are committed to nurturing strong partnerships within the Ayala group, and we see immense potential to create synergies across our diverse businesses, including banking, communications, green mobility, and land development. By working together, we can unlock new avenues for innovation and sustainable growth,” he added.

###

ABOUT ACEN RES

ACEN RES is the retail electricity unity of ACEN, the Ayala group’s listed energy platform. ACEN is one of the fastest-growing renewable energy platforms in Asia Pacific, with the Philippines as its core and largest market, accounting for 40% of its capacity. It also has a

significant presence in Australia, Vietnam, India and Lao PDR, along with strategic investments in Indonesia and other markets. The company currently has ~7 GW of attributable renewable energy capacity spanning operational, under-construction and committed projects.

As a developer, builder, and operator, ACEN leverages its agility and collaborative approach to accelerate the energy transition. Committed to unlocking access to clean, reliable, and affordable renewable energy, the company is on track to achieve 100% renewable energy generation by 2025 and reach Net Zero greenhouse gas emissions by 2050—turning bold ambitions into real impact for businesses, communities and indigenous groups.

About URATEX

The RGC/Uratex Group of Companies is the biggest mattress manufacturer in the country. It is also the largest manufacturer and marketer of full-range automotive and commercial polyurethane foam products in the Philippines. It also produces automotive parts, textile, plastic furniture and containers. It serves a multitude of industries in the local and export markets.
