Cebu Landmasters Launches First Solar-Integrated Homes, 85% Sold in 3 Days

Background/Description of the Disclosure

1. The First Solar-Integrated Community in GenSan: Cebu Landmasters launches Casa Mira Homes GenSan, its 18th Casa Mira project and first solar-integrated economic housing community, delivering sustainable and affordable living to hardworking Filipino families. In just 3 days, 85% or 1,034 units were sold, generating Php 4.3 billion in sales.
2. Casa Mira made more Sustainable - Energy Savings & Eco-Friendly Features: The 21-hectare master-planned development offers 1,218 solar-ready units with several housing models having built-in 2.2 KW panels that can store up to 5 KWH and cut household energy costs by an estimated Php600–P3,000 monthly. Homes also feature natural lighting, water-saving fixtures, and rainwater storage.
3. Generous Open Spaces and Convenient Location: With 60% open space, amenities like pools, a clubhouse, and a sports court, plus proximity to hospitals, shopping centers, and UST GenSan, the community offers a well-rounded, sustainable lifestyle in a prime location.

For more details and information, please refer to the attached Press Release.

Leading developer in VisMin Cebu Landmasters, Inc. (CLI) is marking a major milestone in sustainable and affordable housing with the successful launch of Casa Mira Homes GenSan, the listed company's first solar-integrated residential development.

Located on a 21-hectare site in Barangay Lagao, General Santos City, Casa Mira Homes GenSan introduced its solar-integrated units to the market with overwhelming response, achieving 85% sellout or a total of 1,034 units sold and generating Php 4.3 billion in reservation sales in just three days.

"We're truly grateful for how warmly the GenSan market has embraced this sustainable concept," said Jose Soberano III, Chairman and CEO of Cebu Landmasters. "It reflects how today's Filipino families are becoming more mindful, not just about owning a home, but about making smarter, greener choices that benefit both their finances and the environment. Casa Mira Homes GenSan captures our vision of giving more to Filipino families by making sustainability affordable and accessible at the community level."

Casa Mira is CLI's flagship housing brand known for delivering more value to Filipino families, now made even more future-ready with solar integration.

Casa Mira Homes GenSan offers 1,218 single-detached units and townhouses, thoughtfully designed with large windows for natural light, water-saving fixtures, and household rainwater storage tanks. Flexible lot sizes cater to diverse needs, with single-detached homes ranging from 48 to 80 sqm, and townhouses from 46 to 55 sqm.

The offered units feature a sustainable design and solar integration. Calla and Cora single-detached homes have built-in 2.2 KW solar panel systems capable of storing up to 5 KWH per house, translating to potential estimated energy savings of Php 600 to Php 3,000 monthly. Other models such as Townhouses and Cielo single-detached units are also solar-power ready.

The development also dedicates 60% of the area to open space, with amenities such as a clubhouse, adult and kiddie pools, a basketball court, a multi-purpose hall, and landscaped gardens. Located near hospitals, shopping centers, and the University of Sto. Tomas GenSan, the project ensures residents have access to essential services and lifestyle conveniences.

Casa Mira Homes GenSan, the 18th project of the brand, is part of CLI's growing footprint across Visayas and Mindanao, where it has nearly 130 projects in 17 key cities in the region to date. The listed company also opened a Makati office early this year as part of its strategic expansion into Luzon.

As part of CLI's commitment to sustainability, this milestone brings green living to the affordable segment, an approach that will be carried forward in future Casa Mira developments across VisMin and beyond.

About Cebu Landmasters

Cebu Landmasters is the number one developer in Visayas and Mindanao, as ranked in the 2024 Colliers Philippines Real Estate Market Study. Its projects consistently achieve high sell-out rates—clear proof of strong market demand and buyer trust in the region.

CLUBHOUSE
Architect's Perspective

More for the Filipino Family. Casa Mira Homes GenSan dedicates 60% of its space to open areas, including a clubhouse, pools, sports court, and lush gardens. Each home is thoughtfully designed with ample natural light, water-saving fixtures, and rainwater storage, promoting a sustainable lifestyle every day.

CORA UNIT
Architect's Perspective

Empowering Sustainable and Affordable Living. Casa Mira Homes GenSan offers solar-ready townhouses and Cielo units, with optional 5 KWH panels for Calla and Cora homes, giving homeowners potential estimated savings of P600-P3,000 per month. A smart step toward an eco-friendly, cost-efficient future.

Empowering Sustainable and Affordable Living.
