Item 2. Rights of Shareholders; Dissenter's Right of Appraisal

BDO Unibank, Inc. (**BDO**) respects the inherent rights of shareholders in accordance with law. BDO recognizes that all shareholders should be treated fairly and equally whether they are controlling or minority, local or foreign. To ensure this, the By-Laws of BDO provide that all shares of each class should carry the same rights, and any changes in the voting rights shall be approved by shareholders.

When a proposed corporate action would involve a substantial and fundamental change in BDO in the cases provided by law, a stockholder may exercise his/her appraisal rights. Pursuant to Section 80 of the Revised Corporation Code of the Philippines, a stockholder may exercise his/her appraisal right by dissenting on any of the following corporate actions and demanding payment of the fair value of his/her shares:

(1) In case an amendment to the articles of incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence;
(2) In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets as provided in the Corporation Code;
(3) In case of merger or consolidation; and
(4) In case of investment of corporate funds for any purpose other than the primary purpose of the corporation.

The procedure for the exercise of a stockholder's appraisal right is as follows:

(1) A stockholder shall have dissented to such corporate action;

(2) Within thirty (30) days after the date on which the vote was taken, the dissenting stockholder shall make a written demand on BDO for payment of the fair value of his/her shares.

Failure to make the demand within such period shall be deemed a waiver of the appraisal right.

(3) Within ten (10) days after demanding payment for his/her shares, the dissenting stockholder shall submit to BDO the certificate(s) of stock representing his/her shares for notation thereon that such shares are dissenting shares. His/Her failure to do so shall, at the option of BDO, terminate his/her appraisal rights.

(4) No demand for payment as aforesaid may be withdrawn by the dissenting stockholder unless BDO consents thereto.

(5) If the corporate action is implemented or effected, BDO shall pay to such dissenting stockholder, upon surrender of the certificate(s) of stock representing his/her shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of a merger if such be the corporate action involved.

(6) If within a period of sixty (60) days from the date the corporate action was approved by the stockholders, the dissenting stockholder and BDO cannot agree on the fair value of the shares, it shall be appraised and determined by three (3) disinterested persons, one of whom shall be named by the stockholder, another by BDO, and the third by the two (2) thus chosen.

(7) The findings of a majority of the appraisers shall be final, and their award shall be paid by BDO within thirty (30) days after such award is made. No payment shall be made to any dissenting stockholder unless BDO has unrestricted retained earnings in its books to cover such payment.

(8) Upon payment of the agreed or awarded price, the stockholder shall forthwith transfer his/her shares to BDO.

No matter will be presented for shareholders' approval during the annual meeting that may give rise to the exercise of the right of appraisal.

Item 3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

(a) No director or officer of BDO since the beginning of the last fiscal year, or any nominee for election as director, nor any of their associates, has any substantial interest, direct or indirect, by security holdings or otherwise, in any matter to be acted upon at the meeting, other than election to office.

(b) No director of BDO has informed BDO in writing that he/she intends to oppose any action to be taken by BDO at the meeting.

Villar Street, Makati City. Any questions and issues relating to the validity and sufficiency, both as to form and substance, of proxies shall only be raised during said forum and resolved by the Corporate Secretary. The Corporate Secretary's decision shall be final and binding on the shareholders, and those not settled at such forum shall be deemed waived and may no longer be raised during the meeting.

Prospects for the Future/Plans of Operation

The Bank expects continued economic growth as GDP drivers remain intact, due to sustained consumption spending, and the declining impact of inflation and interest rates. The Philippines is expected to still be among the fastest growing economies in the ASEAN. The Government's Cabinet-level Development Budget Coordination Committee (DBCC) however, forecasts GDP growth to range between 6.0%-8.0% in 2025, backed by robust private consumption with decelerating inflation and higher investments.

Key drivers of domestic consumption remain in place with foreign worker remittances growing at around 3%, Business Process Outsourcing (BPO) revenues growing at 6-7%, and labor conditions improving with unemployment rates at historical low levels. Private sector balance sheets are also healthy while the demographic profile and consumption trends continue to be attractive.

The Bank is ready to further support the country's economic growth through its unparalleled physical and digital network, providing easy and seamless access to its comprehensive suite of banking products and services throughout the country. Additionally, the Bank continues to expand its reach in both urban and underserved communities across the country through physical branches and digital channels.

While decelerating inflation will allow the Bangko Sentral ng Pilipinas (BSP) scope to lower interest rates in 2025, the economy faces the threat of unexpected commodity supply shocks and flat global growth. Fiscal consolidation efforts resulting in constrained government spending may also temper government's contribution to economic activity.

(xi) Risk Management

Risk management at BDO begins at the highest level of the organization. At the helm of the risk management infrastructure is the Board of Directors who is responsible for establishing and maintaining a sound risk management system. The Board of Directors assumes oversight over the entire risk management process.

The Board of Directors has the ultimate responsibility for all risks taken by the Bank. It regularly reviews and approves the institution's tolerance for risks, as well as, the business strategy and risk philosophy of the Bank. It takes the lead in disseminating the institution's risk philosophy and control culture throughout the organization. It approves strategies and implementing policies affecting the management of all types of risks relating to the Bank's activities. It sets the risk-based organizational structure that will implement and ensure the effectiveness of the overall risk control system of the Bank. Towards this end, it is regularly updated on developments that could materially affect the Bank's liquidity position or the value of its resources. Likewise, the Board is responsible for overseeing the investment and credit activities of the Bank.

The Board of Directors has constituted committees tasked with key functions in the over-all risk framework of the Bank. The Risk Management Committee (RMC) is responsible for the development and oversight of the Bank's risk management program. The Executive Committee (EXCOM) has responsibility over the approval processes of the Bank's loans and investments, property-related proposals, as well as, other credit-related issues over a prescribed amount delegated by the Board of Directors. The Asset and Liability Committee (ALCO) is tasked with managing the Bank's balance sheet and off-balance sheet activities, maintaining adequate liquidity, ensuring sufficient capital and appropriate funding to meet all business requirements within regulatory limits. The Risk Management Group (RMG) is mandated to adequately and consistently evaluate, manage, control, and monitor the overall risk profile of the Bank's activities across the different risk areas (i.e. credit, liquidity, market, interest rate, operational, and environmental and social risks).

The Bank operates an enterprise-wide risk management system to address the risks it faces in its banking activities, including credit, liquidity, market, interest rate, operational risks (including business continuity risk, IT risk, information security and cybersecurity risks, data privacy risk, and social media risk), consumer protection risk, and environmental & social risks. The Bank's Risk Management Committee has overall responsibility for the Bank's risk management system and sets risk management policies across the full range of risks to which the Bank is exposed. It is responsible for approving the risk management plan developed by management, defining the policies,

limits, and strategies for managing and controlling the major risks of the Bank. It oversees the system of limits of discretionary authority that the Board of Directors delegates to management under its purview, ensures that the system of limits of discretionary authority remains effective, that the limits are observed, and immediate corrective actions are taken whenever limits are breached. It is also responsible for evaluating the risk management plan as needed to ensure its continued relevance, comprehensiveness and effectiveness.

VII. COMPLIANCE WITH LEADING PRACTICES ON CORPORATE GOVERNANCE

Corporate governance in BDO Unibank, Inc. encompasses effective oversight, strict regulatory compliance and sustainable value creation. These core values are designed to safeguard and promote the best interest of all stakeholders, ensuring a balanced, ethical, and forward-looking approach to business operations and governance.

BDO's steadfast commitment to the highest standards of corporate governance is applied across the institution through consistent implementation of the principles of accountability, fairness, integrity, and transparency. This approach has built BDO's market reputation on the solid foundation of an upstanding corporate culture and responsible business conduct, underpinned by a well-structured and effective system of governance.

BDO complies with the SEC Code of Corporate Governance for Publicly Listed Companies and with the Enhanced Corporate Governance Guidelines for BSP-Supervised Financial Institutions. It applies relevant international best practices of corporate governance issued by globally recognized standards-setting bodies such as the Organisation for Economic Co-operation and Development (OECD) and the ASEAN Corporate Governance Scorecard (ACGS), which serve as essential points of reference. Please refer to BDO's ACGS Self-Assessment Report (ACGS-BDO-Self-Assessment-May2024.pdf) published in our corporate website.

This report describes the highlights of our corporate governance practices throughout the financial year ending December 31, 2024.

1. *Composition of the Board* – The Board is composed of eleven (11) members and aided by four (4) advisors. The present members of the Board have extensive experiences in banking, credit management, investment management, accounting and finance, insurance, legal management, business management, and strategy formulation, bank regulations including anti-money

laundering, information technology, sustainability, and risk management. It is led by Non-Executive Chairperson with seven (7) Independent Directors, three (3) Non-Executive Directors including the Chairperson, and one (1) Executive Director who is the President and CEO.

The present composition of the Board exceeds the minimum regulatory standards which require that independent and non-executive directors account for the majority. Independent and Non-Executive Directors of the Bank comprise 91% (10 of 11) of the Board. With seven (7) of 11 Board seats occupied by independent directors, the Bank goes beyond the 1/3 minimum requirement of the *Bangko Sentral ng Pilipinas* and the *Securities and Exchange Commission*.

Board advisors are considered integral to the Board, with their opinions and recommendations highly valued by the Board members. The four (4) advisors are experts in their own fields and provide valuable insights and independent perspectives to the Board. The presence of a female Board advisor complements the three (3) female non-executive directors in the Board, one of whom is an independent director.

On August 31, 2024, former Department of Trade and Industry Secretary Alfredo E. Pascual was appointed Independent Director enhancing the Board's diversity and insight. He filled the vacancy due to the resignation of former director Walter C. Wassmer.

2. *Composition of the Board-level Committees* – Independent directors chair eight (8) of nine (9) board-level committees, namely Board Audit, Corporate Governance, Risk Management, Related Party Transactions, IT Steering, Nominations, Compensation, and Trust. This ensures that key issues and strategies are objectively reviewed, constructively challenged, thoroughly discussed and rigorously examined.

3. *Audited financial statements for calendar year 2023* – The Bank's audited financial statements for calendar year 2023 were disclosed to the public on February 26, 2024, 57 days from year end, following the best practice recommendation of the ASEAN Corporate Governance Scorecard of within 60 days from year-end. This practice has been consistently done for the past nine (9) years.

4. *Executive Sessions of Independent/Non-Executive Directors* – Independent and Non-Executive Directors (INED) regularly convene meetings with the heads of the control functions (i.e. Chief Risk Officer, Chief Compliance Officer, and Chief Audit Executive) as well as the external auditor. These meetings are held without the presence of management or any bank executive, allowing for candid discussions on various matters outside the formal Board Audit

Committee and Risk Management Committee meetings. Additionally, the INED engage with the heads of business and operating units to gain deeper insights and foster more comprehensive discussions with the Banks management. These meetings are chaired by the Lead Independent Director.

In 2024, the INED conducted three (3) sessions, and the results of these sessions were discussed with the Bank's Executive Directors in two (2) separate sessions. Recognizing the vital role of branch banking and consumer banking businesses to the Bank's success, the INED held a focused session with the Group Heads of these units of the Bank to discuss, among others, the strategy of the Bank for addressing digitalization challenges and taking advantage of growth opportunities. The INED also asked for updates on: new accounting regulations; developments on audit management systems and enterprise AML system; manpower resources, succession / transition; Internal Audit Group (IAG)'s priorities/focus areas, challenges, and initiatives; overview of the Bank's Risk Management Group (RMG) framework, function, plans and initiatives; and, Financial Action Task Force (FATF) greylist / Hong Kong and Macau Anti-Money Laundering (AML) practices.

5. *Annual Board performance self-assessment* – The Corporate Governance Committee oversees the conduct of a yearly Board assessment that focuses on the performance of the Board, directors, Committees and senior management. The annual assessment is facilitated by an external firm, which is more than the regulatory requirement of every three (3) years. To the Committee, engaging an independent party every year, rather than every three years as recommended by the SEC, provides more governance inputs to the Board and allows a more effective comparability and continuity. The performance evaluation process begins with sending out customized Board Evaluation Questionnaires to each director and advisor who are required to complete them and provide additional context, as applicable. The results are independently tabulated and assessed by the external facilitator, supplemented by interviews with the directors, advisors and selected senior management officers.

   The Bank re-engaged Isla Lipana & Co./PwC Philippines (PwC) as external facilitator for the Bank's 2023 Board Effectiveness Evaluation (BEE). PwC facilitated and conducted a peer and self-evaluation process on the Board, Board-level Committees and individual directors, with additional insights from selected senior management officers.

   Based on the assessment report by PwC, the Board has proactive involvement in crucial governance areas. The Board members bring varied skills and perspectives, enabling comprehensive analysis and robust strategic guidance thereby fulfilling the Bank's commitment to effective governance and sustainable business practices. The results further indicate strong oversight

and engagement by the Board with senior management. The Chairperson and CEO consistently demonstrate exceptional leadership and competence effectively implementing board decisions and fostering a culture of excellence and innovation. The Board-level Committees, on the other hand, were assessed to have generally strong performance of their mandates.

The Board-level Committees consistently demonstrate a high-level of engagement and oversight with senior management. This active involvement ensures that strategic objectives are met, and that the organization remains on course. Evaluation results also highlight the strong leadership exhibited by the Board-level Committee chairpersons, who effectively guide their respective committees, foster collaboration, and drive impactful decision-making. Their leadership is instrumental in maintaining the Board's overall effectiveness and ensuring robust governance practices.

This report sets out the main corporate governance practices of the Bank in relation to the following OECD guiding principles:

Rights and Equitable Treatment of Stakeholders

The Bank's dividend policy is reviewed by the Board and Management periodically and amends it as appropriate. Upon Board approval, necessary disclosures are made in compliance with such regulatory requirements. Dividends are paid within 30 days from date of declaration. To uphold this principle, the Bank's Amended By-Laws stipulates that all shares within each class must carry identical rights, and any modification to voting rights requires shareholder approval. The Bank also recognizes and accepts the votes cast by nominees and custodians on behalf of the beneficial owners as valid. Additionally, shareholders have the right to exercise their right of appraisal in accordance with Sec. 80 of the Revised Corporation Code.

Consumer Protection

BDO's financial consumer protection framework is anchored on disclosure and transparency, protection of client information, fair treatment, effective recourse, and protection of consumer assets against fraud and misuse. The framework ensures that consumer protection practices are embedded in BDO's operations and considered in the development and implementation of the Bank's products and services.

The Board is responsible for maintaining effective oversight of the Bank's consumer protection policies and programs, while senior management implements Board-approved strategies and ensures appropriate control mechanisms. Governance and oversight are reinforced through various roles, including senior management, which documents and implement consumer protection policies; the Compliance Office and Internal Audit, which support the Board in overseeing adherence to these policies; and the Operational Risk Management Unit (ORMU), which embeds operational risk culture and reports top compliant drivers and corrective measures to the Board on a quarterly basis. This structure ensures that consumer protection risks are mitigated, compliance is maintained, and significant developments are disclosed.

BDO enforces and monitors the Consumer Assistance Management System (CAMS) through established policies, streamlined processes, and dedicated teams to ensure customer satisfaction and regulatory compliance. The CAMS Manual outlines consumer protection policies, including compliant resolution procedures, and customer communication standards. Specialized teams manage consumer inquiries, requests, and complaints, ensuring accurate, prompt, and effective service. A tracking system records clients' interactions, enabling trend identification and service level evaluation. Customer feedback and complaints are analyzed and reported to the Board's Risk Management Committee on a periodic basis. BDO continuously improves CAMS by incorporating feedback, adapting to regulatory changes, and aligning with industry best practices. In 2024, CAMS logged approximately 7 million customer cases, with only 7% being problem related.

Customer Service

At BDO, we are committed to embodying a "We Find Ways" mindset as an integral part of our Customer Experience Philosophy. This principle underscores our dedication to creating a banking experience that extends beyond basic transactions by offering a diverse range of products and providing personalized services. We achieve this through a comprehensive understanding of our customers' financial objectives and life circumstances.

As part of BDO's ongoing commitment to enhancing customer experience, the Bank implemented a new customer service hotline number, 8888-0000, effective July 2024. The introduction of additional self-service options within the IVR menu, along with other modernization efforts, has contributed to a significant improvement in the Contact Center's answer rate during the last quarter of the year. This enhancement has been positively noted by customers, who have shared their feedback on various social media platforms.

The Data Privacy Management Program (DPMP) serves as the framework for protecting the data privacy rights of the Bank's data subjects and ensuring compliance to Republic Act No. 10173, otherwise known as the Data Privacy Act (DPA) of 2012. This framework is based on the National Privacy Commission's (NPC) Five Pillars of Data Privacy Accountability and Compliance as follows:

4. *Implementation of Data Privacy and Protection Measures.* BDO, in its commitment to data privacy and protection, adheres to the general principles of Transparency, Legitimate Purpose, and Proportionality, in processing personal and sensitive personal information of its customers in all phases of the data life cycle as follows:

    - *Transparency.* The Bank provides its customers clear and concise privacy provisions as incorporated in its bank forms/documents, such as the BDO Group Data Privacy Statement and the BDO Group Data Privacy Consent, to ensure that customers are well-informed of the purposes of data processing, the parties involved, and the rights of individuals.

Each business and support unit has its own Compliance Officer for Privacy (COP) which coordinates with the DPO to ensure the proper implementation of the Bank's DPMP across the BDO Group.

5. *Data Privacy Breach Reporting Procedures.* The Bank has a data privacy breach reporting procedure in place. The DPO conducts training on a regular basis to enhance the Bank's awareness on data privacy risks, which includes breach reporting procedures consistent with regulatory requirement of NPC.

The Risk Management Committee (RMC) has oversight over data privacy risk. The DPO updates the RMC with respect to the Bank's compliance to the Data Privacy Management Program on a regular basis.

Creditors, Counterparties and Suppliers

The Bank is dedicated to fulfilling its contractual obligations with all creditors and counterparties, adhering to the agreed-upon covenants. In its business dealings, the Bank commits to honor all binding trade-related agreements and conditions based on widely accepted industry practices, mutual understanding, and cooperation with counterparties. According to the law, creditors and counterparties will be prioritized in the payment of the Bank's obligations during normal operations and in the event of liquidation. This ensures fairness, transparency, and integrity in all its dealings.

Employees

The Bank highly values its Human Resources and is committed to ensuring their protection and well-being. To achieve this, the Bank has implemented comprehensive policies and programs that address the following areas:

a. Code of Conduct and Business Ethics

As a financial institution, BDO believes that practicing right conduct and ethical behavior inspires and strengthens the confidence of all its stakeholders. The Code outlines the principles and policies that govern the institutions' activities, setting forth the rules of conduct in the workplace and the standards of behavior of its directors, officers and employees in their interactions with external shareholders. These principles reflect the core values BDO subscribes to and promotes.

The Code applies at all times to all members of the BDO Unibank Group Board of Directors and employees in their dealings with clients, suppliers, business partners and service providers. It encompasses the Bank's commitment to a gender friendly workplace, concern for occupational health, safety and workplace environment, as well as transparency, integrity and accountability, compliance with laws and regulations, good standards of behavior, personal conduct and ethics in doing business.

The Code is updated specifically on disclosures on conflict of interest, whether actual, potential or perceived, in the areas of:

- employee's/director's individual interest in external businesses,
- next of kin in supplier/service provider or customer's business,
- engagement in another entity,
- election/appointment in government/political office, and
- relatives employed in BDO.

Additionally, the Code now requires directors or officers appointed or running for any public office, whether in the Philippines or abroad, to resign from BDO prior to acceptance or filing of candidacy. If BDO becomes aware of such activities, the individuals are deemed resigned. There is also a requirement to disclose whether consultancy or contractual assignments are full-time or part-time.

These changes ensure that BDO maintains a clear separation between its operations and any political activities and/or outside engagements, thereby reducing potential conflicts of interest and upholding the integrity of its governance practices.

b. Training and Development

- *BDO Employees*

  BDO continues to provide training opportunities aligned with business requirements and employees' potentials and capabilities. Training programs include orientation for new hires, job specific technical training, management and leadership training programs which aim to develop and enhance the knowledge, skills, managerial and leadership capabilities,

attitude and mindset of employees and anchor on the sustained strength of the We Find Ways culture. The Bank allocates a yearly training budget for these developmental programs. The actual average training hours by employee segment are as follows:

	Staff	Junior Managers	Middle Managers	Senior Officers
Average Training Hours	**29**	**28**	**21**	**18**
No. of Employees Trained	**20,713**	**13,540**	**7,656**	**2,095**

Improvements in the design and delivery of eCourses and targeted training programs continue to ensure more effective retention of the knowledge learned for operational application. While courses on regulatory requirements are continued to be mandated for sound governance, targeted technical courses for specialized skills are facilitated by external resource facilitators with expertise in identified topics to ensure capability resiliency and readiness for digital transformation.

- *Directors and Key Officers*
  To ensure the enhancement of directors' skills and knowledge, the Board undergoes a continuing education program. Each year, all directors and key officers are updated, briefed and required to attend a corporate governance seminar on relevant topics to ensure that they are attuned with the developments in the business and regulatory environments, including emerging opportunities and risks in the financial industry. All incumbent directors of BDO Unibank complied with the annual corporate governance training requirement of four (4) hours in 2024. They attended the in-house corporate governance seminar held on July 26, 2024, along with members of the Bank's senior management, directors and key officers of entities in the BDO Group. Global consulting and service partners of the Bank provided updates and insights on banking trends, emerging computer systems capabilities or intelligence and cyber threat landscape for banks and financial services, and insurance. The topic highlighted Resilience, Productivity and Synergies as the top strategic technology trends for 2024 and underscored how a collective governance approach may address the risks and concerns that come with these new developments and future proof the Bank. The seminar also highlighted the emerging major global cyber threats for financial industries, their impact on the business and provided insights on the available digital risk protection that can be considered in strengthening security measures that are already in place.

  Apart from the in-house corporate governance training, some of the Bank's incumbent directors also attended external training programs and annual

corporate governance fora offered by regulators or distinguished training providers about updates on Anti-Money Laundering, ASEAN Corporate Governance Scorecard (ACGS) for Publicly Listed Companies and relevant topics about impact of raging 2023 technology and a local investment fund. Some members of the senior management also received external training on corporate governance, internal audit quality assurance, reinsurance and reinsurance brokerage operations, and signature verification, in addition to the regulatory/mandatory online courses available in the Bank's eLearning portal.

Society, Community and the Environment

Helping Build a Sustainable Future

Guided by its mission to support sustainable development, BDO Foundation made significant strides in 2024, helping Filipinos in need and implementing initiatives that contributed to the achievement of Sustainable Development Goals (SDGs). Working with partners in the public and private sectors, as well as BDO branches and business units, the corporate social responsibility arm of BDO Unibank embarked on programs in areas of financial inclusion and disaster response, rehabilitation and rebuilding.

Financial Education Programs
SDG 4, 10, and 17

BDO Foundation continued to implement financial education programs in line with its financial inclusion advocacy. In support of the National Strategy for Financial Inclusion of the Bangko Sentral ng Pilipinas (BSP), the Foundation pursued efforts to help raise financial literacy levels in the country, improve the economic well-being of beneficiaries and contribute to nation-building.

In partnership with BSP, the Foundation continued to collaborate with the following government agencies:

In addition to the aforementioned partners, BDO Foundation signed a memorandum of agreement on June 25, 2024 with Niras Asia Manila—an organization deputized by the Department of Transportation (DOTr) and contracted by the Asian Development Bank—for the implementation of *Kitabuhayan*, a financial education program that benefits communities relocated due to DOTr's railway projects.

The Foundation also signed an agreement with the Department of Social Welfare and Development (DSWD) and BSP on October 31, 2024 for the integration of financial education into the training programs of the DSWD Academy for the agency's personnel and social welfare officers of local government units.

Representatives of the government institutions, officers of BSP's Economic and Financial Learning Office and BDO Foundation managers worked closely, guided by their ultimate goal of institutionalizing financial education into the existing initiatives of the partner agencies.

Through the financial education programs, the partners shared financial literacy lessons on such topics as saving, budgeting and financial planning, fraud and scams, debt management, investments, entrepreneurship, insurance and retirement planning with beneficiaries.

Beneficiaries included students, teachers and non-teaching personnel, overseas Filipino workers (OFWs), civil servants, armed forces personnel, police personnel, firefighters, fisher folk, farmers, technical-vocational learners, micro-entrepreneurs and families displaced by railway projects.

For its financial education program for armed forces personnel, BDO Foundation received recognition from Singapore-based Asian Banking & Finance (ABF) and the League of Corporate Foundations (LCF) in the Philippines.

ABF conferred BDO Foundation the Financial Inclusion Initiative of the Year award at the Retail Banking Awards. LCF, on the other hand, awarded the Foundation the Outstanding CSR Project in Financial Inclusion accolade at the LCF Corporate Social Responsibility Guild Awards. The award-giving bodies cited the Foundation for its efforts to help improve the economic well-being of the men and women of the military.

The first of its kind in the country, the ongoing financial education program supports the AFP Transformation Roadmap and efforts to "build a better and stronger armed force, a world-class organization that is a source of national pride."

Through the partnership project, BDO Foundation, AFP and BSP help improve the financial literacy of Philippine Air Force, Philippine Army and Philippine Navy personnel. The initiative equips officers, enlisted personnel and civilian human resources with the knowledge, skills and tools to make sound financial decisions. It helps the target beneficiaries receive high marks in their personal performance scorecards, particularly in the aspect of personal finance.

Interventions included the development of discussion guides, integration of financial education modules into AFP career courses, production of six financial education videos, publication of trainer's manual, training of trainers and establishment of a system for nationwide deployment. These efforts enabled the partners to effectively embed financial education into the military's capacity building programs.

To further broaden the reach of its programs with national government agencies, BDO Foundation worked with various local government units to implement initiatives designed to help improve the financial literacy of LGU personnel, their constituents and other beneficiaries. The Foundation accomplished the following:

Partner LGUs	**Achievements**

In support of BSP's financial inclusion advocacy, BDO Foundation participated in the BSP Financial Education Congress. The event, which gathered partners and stakeholders in the public and private sectors, served as a platform to build a network of financial inclusion advocates, promote programs and share lessons.

The two-day event held at the Philippine International Convention Center was highlighted by the Sustainable Finance Practices learning session, which featured BDO Sustainability Office head Marla Alvarez as one of the speakers. Another session, titled Empowering Individuals and Communities through Tailored Fin Ed Programs for Financial Independence and Resilience, was moderated by financial inclusion advocate and business journalist Salve Duplito, who was sponsored by BDO Foundation.

Following a ceremonial launch in the BSP Financial Education Congress in 2023, BDO Foundation and BSP continued to develop the Financial Education E-learning Modules in 2024 as part of efforts to make learning resources accessible to more people.

The online courses on personal finance—available on-demand for free—expand the coverage and accelerate the implementation of the Foundation and BSP's partnership programs. The modules share lessons using videos, interactive activities and end-of-session assessments. Through the Financial Education E-learning Modules, BDO Foundation and BSP hope to change the financial education landscape by making learning digital, borderless and accessible to all Filipinos in the country and abroad. Those who enroll will go through a pre-test and a post-test, and completers will receive an e-certificate.

Nine modules are grouped into three batches:

- Batch one: Financial planning, saving and budgeting, and debt management
- Batch two: Basics of investing, fraud and scam prevention, and financial consumer protection
- Batch three: Digital financial literacy, Personal Equity and Retirement Account (PERA), relevant economic indicators

Last year, the partners launched batch one in an event witnessed by BDO Foundation trustees and BSP senior officials. At the launch, BSP announced the availability of the first three modules in the BSP E-Learning Academy or BELA, an online platform with courses on personal finance, economics and central banking.

TESDA also made the first three modules available to its personnel and technical-vocational education and training learners through the TESDA Online Program, the agency's web-based platform for training courses.

The next six modules will be released in 2025 initially through the online learning platforms of the BSP and BDO. All modules will eventually be made available to target beneficiaries and the public through partner government institutions. Users will be able to access courses using personal computers, laptops, and mobile devices.

For all its efforts to contribute to the achievement of the National Strategy for Financial Inclusion and work together with public and private sector partners, BDO Foundation was recognized by the BSP at the 2024 Outstanding BSP Stakeholders Appreciation Ceremony. BSP Governor Dr. Eli Remolona, Jr. and BSP Deputy Governor Bernadette Romulo-Puyat presented a certificate of appreciate to the Foundation in an event witnessed by central bank officials. The ceremony served as a platform for BSP to recognize partners that help promote its advocacies.

Through its financial education programs, BDO Foundation will continue to support BSP's efforts to foster an empowered citizenry that actively contributes to the economy. The Foundation will continue working with partners to institutionalize financial education in capacity building programs, uplift the economic well-being of the public and improve the financial literacy of the Filipino citizenry.

Relief operations
SDG 2

Since its inception in 2008, BDO Foundation has consistently provided aid for Filipinos affected by natural or man-made disasters across the country, as an expression of its solidarity with people in affected communities and with the goal of helping ease their suffering.

In 2024, in line with its disaster response advocacy, the Foundation mounted relief operations in provinces placed under a state of calamity, mobilizing volunteers for the immediate distribution of relief goods in different communities. Volunteers from partner organizations, local government personnel and BDO employees—working together in the spirit of *bayanihan*—distributed packs containing food, rice and drinking water to beneficiaries in evacuation sites and various barangays.

The relief goods reached families affected by typhoons, floods, fire and an oil spill incident.

The initiative was made possible by employees of BDO and BDO Network Bank branches, who helped BDO Foundation assess situations in affected areas, determine the number of beneficiaries and coordinate logistics. It was supported by partners including parishes, diocesan social action centers, non-governmental organizations, local government units, the military and the police.

Rehabilitation of rural health units
SDG 3

Since the start of the program in 2012, BDO Foundation has rehabilitated rural health units (RHUs) all over the country. The Foundation rehabilitated its 190th

RHU last year as part of continuing efforts to help improve the primary healthcare delivery system in the Philippines.

BDO Foundation renovates health centers, particularly their exteriors, layout and interior design, lobbies and waiting areas, offices, birthing clinics, consultation rooms, treatment rooms and pharmacies. It installs new signages, furniture and fixtures to help health workers accommodate more patients. In RHUs with available space, the Foundation builds breastfeeding stations for nursing mothers, play areas for children and waiting lounges for the elderly.

The improvement of facilities empowers and motivates doctors, nurses and midwives to serve their communities more effectively. It enables them to provide primary healthcare services more efficiently to their constituents. The program benefits mothers, infants and children, adolescents, persons with disabilities, senior citizens and indigenous peoples living in remote areas. Ultimately, the initiative helps improve the health and well-being of the people.

Like other BDO Foundation projects, the rehabilitation of RHUs was supported by officers of BDO and BDO Network Bank branches, who recommended health centers that needed assistance. The program was also made possible in partnership with local government leaders and health officers as well as Department of Health (DOH) provincial areas offices, which provided guidance on the renovation.

Working together, BDO Foundation and its partners helped health centers receive better assessment scores from the DOH and accreditation from the Philippine Health Insurance Corporation. The Foundation helped improve the primary healthcare delivery system, one of the goals under the Philippine health agenda, as it gave Filipinos access to high-quality patient care.

Christmas gift-giving program
SDG 2

BDO Foundation continued to provide food assistance for communities all over the country through “Handog sa ‘Yo ng BDO Foundation”, its Christmas gift-giving initiative. For the fifth consecutive year, the Foundation organized the nationwide distribution of food packs to help families celebrate the season. It partnered with non-governmental organizations Ako Ang Saklay, Ako Bakwit, Caritas Philippines and Tanging Yaman Foundation for the project.

Employee volunteer program
SDG 1, 2, 4, 11 and 17

BDO Foundation, BDO’s Human Resources Group, Marketing Communications Group and Sustainability Office continued to work together for the implementation

of the BDO Employee Volunteer Program. Designed to promote employee engagement and encourage participation in BDO's corporate citizenship initiatives, the program undertook projects in the areas of poverty and hunger, the environment, education, and financial inclusion.

It is continually finding ways to improve and expand the scope of its financial education interventions, disaster response efforts and rehabilitation program, among other corporate citizenship initiatives, to reach more beneficiaries all over the country.

Inspired by BDO's "We find ways" philosophy and backed by the BDO community, BDO Foundation will continue to work hard for a sustainable, resilient and financially inclusive future.

Case study: Making fin ed more engaging for Filipinos
It was a simple solution that proved to be effective.

Instead of teaching Filipino fishers' financial literacy concepts through traditional lectures, a technical working group composed of BDO Foundation, Bureau of Fisheries and Aquatic Resources (BFAR), and Bangko Sentral ng Pilipinas (BSP) officers found a way to make learning more engaging for the target audience.

The team co-developed "Fish N' LEarn", a gamified training intervention that forms part of the partners' financial education program for fisher folk.

The teaching tool contributes to the achievement of Sustainable Development Goals in the areas of financial inclusion, poverty reduction and environmental protection. Aligned with BSP's National Strategy for Financial Inclusion, the game

supports the Department of Agriculture's goal to attain a food-secure and resilient Philippines with empowered and prosperous farmers and fisher folk.

Fish N' LEarn mimics real-life events that influence the financial behaviors of fishers. A game master facilitates sessions, enabling participants to learn lessons in an experiential manner. Lessons cover such topics as saving, budgeting and financial planning, debt management, entrepreneurship, insurance, and the conservation of marine resources.

Through the financial education game, BDO Foundation, BFAR and BSP aim to help improve the financial literacy, productivity and income-generating capability of an estimated 1.9 million fisher folk all over the Philippines.

Although the program is far from reaching all target beneficiaries, slowly but surely, Fish N' LEarn is making inroads into fishing communities across the country. The initiative is making an impact on the lives of fishers and their families, according to interviews conducted by BFAR.

Speaking in their local dialects, beneficiaries shared stories of how the game is helping them achieve financial independence.

Teresita Gepanao, president of the Malabasa Fisherfolk's Association in Misamis Oriental, said, "I enjoyed learning through Fish N' LEarn. What I liked about it was learning the importance of banking, investments and insurance as protection against typhoons, fire and other disasters. I also liked being able to simulate situations that affect us using play money."

"I shared with my children the lessons I learned particularly those about saving for the future and avoiding unnecessary loans," she added. "This is critical because as fishers, our source of livelihood is not guaranteed."

Agripina Montañez, a member of the Lala Fishermen Cooperative in Lanao del Norte, echoed these sentiments, "Without this training, we wouldn't learn about savings and insurance. With this training, we realized that there are different ways we can address challenges to sustain our livelihood."

"Now, we make it a point to deposit our cooperative's monthly earnings in a bank. From the bottom of our hearts, thank you for helping us learn financial literacy lessons," she continued.

Inspired by the success of Fish N' LEarn, partners have produced two more financial education games. BDO Foundation, BSP and the Agricultural Credit Policy Council have developed *KITA Mo Na!*, a training tool for farmers. The Foundation and Niras Asia Manila have also created *Kitabuhayan*, which trainers

will use to teach financial literacy lessons to people displaced by projects of the Department of Transportation.

BDO Foundation and its partners are leveraging innovative interventions to help improve the financial literacy and economic well-being of various beneficiaries. As its financial education programs are deployed across the country, the Foundation reaffirms its commitment to support efforts that promote financial inclusion, raise financial literacy levels and secure the financial future of Filipinos.

Case study: Finding hope in health centers affected by disasters

"It's not only about the renovation of the building. It's not just about the tables and chairs you gave us. You helped with our mental health. You gave us hope when you rehabilitated our rural health unit."

This was the message of Dr. Reina Jane Demandante, municipal health officer of Clarin Primary Care Facility in Bohol, to BDO Foundation and the people who made the rehabilitation of their health center a reality.

Clarin Primary Care Facility is one of the more 180 rural health units (RHUs) BDO Foundation has renovated since 2012. It is also one of the more than 20 RHUs the Foundation has turned over in Bohol alone.

The nationwide initiative forms part of BDO Foundation's efforts to help improve the healthcare delivery system in the country. The ongoing program contributes to the achievement of Sustainable Development Goal no. 3 to ensure healthy lives and promote the well-being of all people at all ages.

Like many coastal community health centers rehabilitated by the Foundation, the aforementioned facility was affected by Typhoon Odette, one of the most devastating to hit the country in recent history. "The storm surge caused by Odette flooded the building with neck-deep mud. The electricals were soaked in muddy water. The roof was blown off. The records were damaged. The condition of the place really made me cry," remembered Dr. Demandante or Doc RJ as she is fondly referred to in the community.

"While cleaning the RHU, we transferred to a different building, in a small room that we shared with another office. We didn't have electricity. We didn't have water. We had no laboratory. It was depressing and demoralizing not to be able to perform our jobs, help people and provide services to our constituents," she said.

BDO Foundation learned about the situation in Clarin through Dr. Dewy Demandante, husband of Doc RJ and municipal health officer of neighboring Sagbayan Municipal Health Unit, which was also rehabilitated by the Foundation.

After assessing the condition of Clarin Primary Care Facility, BDO Foundation immediately included the structure in its list of RHUs for rehabilitation. Guided by Doc RJ and supported by local government leaders, the Foundation improved its interiors and exteriors, layout, waiting areas, offices, clinics, consultation and treatment rooms, making the entire facility more comfortable for both health workers and patients.

“Patients now feel safe. Persons with disabilities and senior citizens feel comfortable. Victims of abuse who visit the RHU for counselling now have privacy. Children enjoy the play area,” the doctor shared. More than 21,000 people in the 24 barangays of the fifth-class municipality stand to benefit from the rehabilitated health center.

To the officers of BDO Foundation and BDO branches in Bohol, Dr. Demandante conveyed a message of thanks on behalf of her colleagues in the province, “My fellow doctors and I extend a warm and sincere thank you to BDO Foundation for making this possible. May God bless you and give you many more years to be able to serve the community and help more people.”

Environmental Initiatives

BDO's green financing was the catalyst for the Bank’s firs program for sustainable finance in 2010. Through its cooperation with the International Finance Corporation (IFC) of the World Bank, BDO has financed many of the first large-scale Renewable Energy, Energy Efficiency, and Green Building projects nationwide. In 2017, at the time when green bonds were a novel financial instrument, BDO was the first bank to issue a USD150 million green bond in the Philippines and East Asia Pacific, with IFC as its sole investor.

In January 2022, BDO successfully raised PhP52.7 billion worth of Peso-denominated Fixed-Rate ASEAN Sustainability Bonds which was the largest issuance in the Philippines at that time. The proceeds from the issuance were allocated to 37 green and social projects. Of these, 23 have positive environmental impacts and 14 have positive social impacts.

In 2024, BDO issued its second and third ASEAN Sustainability Bonds and raised PhP63.3 billion and PhP55.7 billion, respectively, with both bonds oversubscribed from the original target issuance of PhP5 billion. The projects that will be financed through these bonds’ proceeds will follow the Bank’s comprehensive Sustainable Finance Framework (SFF) that has 29 eligible categories under its Green, Blue, Social, and Orange/Gender financing categories.

In May 2022, BDO issued its maiden Blue Bond amounting to USD100 million, with the IFC as sole anchor investor. This landmark Blue Bond will expand financing for projects that help preserve clean water resources and prevent marine pollution,

while supporting the country's climate goals. The BDO Blue Bond is the first private sector issuance in Southeast Asia and the first to use IFC's Blue Finance Guidelines.

In the Blue Bond Impact Report released in December 2023, the proceeds from the issuance have been partially allocated to two water management companies for water conservation, and one waste management company for wastewater recycling. These companies ensure water reuse and recycling, preventing the direct flow of wastewater to rivers and other bodies of water that eventually lead to the ocean.

In September 2022, BDO released its Energy Transition Finance (ETF) Statement which commits to continue its current practice of not lending to new coal-fired power plant capacity, in place since 2019. Additionally, the Bank commits to reduce its coal exposure by 50% by 2033, while ensuring that its coal exposure does not exceed 2% of its total loan portfolio by 2033. The Bank also committed to expanding financing for renewable energy capacity and greenhouse gas (GHG) avoidance and provide access to capital to support its customer's transition to lower GHG emissions.

In 2023, the BDO Board approved the Environmental & Social Risk Management System (ESRMS) which outlines how the Bank will identify, assess, and manage environmental and social risks associated with its lending, investments, and operations. The ESRMS fully incorporates the Bank's key focus areas, focus sectors with high probability of E&S risks, and risk appetites for these focus areas and sectors. In the same year, BDO updated its SFF to include 19 additional categories under its Green, Blue, Social, and the addition of Orange/Gender financing, bringing the total of the current BDO SFF to 29 eligible categories. While the previous SFF initially applied to the Bank's Institutional Banking Group handling corporate and commercial loans, as well as bond issuances, the updated SF framework now applies to all business units and subsidiaries covering the loan and investment activities of the Bank.

In updating the SF framework, BDO referred to various local and international standards and guidelines including those from the International Capital Market Association (ICMA), ASEAN Capital Markets Forum (ACMF), International Finance Corporation (IFC), the ASEAN Taxonomy board, the Philippine Sustainable Finance Taxonomy Standards, the Philippines Department of Finance (DOF) Sustainable Finance Framework, and Securities and Exchange Commission (SEC) Guidelines on Eligible Green, Social, Sustainable, and Blue Projects and Activities for the issuance of Sustainable Finance instruments in the Philippines.

Guided by the Philippine government's focus on adaptation, with mitigation as a co-benefit, the categories aim to address adaptation projects that will help build

climate resilience across sectors, while simultaneously expanding project categories that bring down the country's greenhouse gas emissions.

The Bank wanted to expand the scope of its sustainable finance so that the proceeds of its sustainability bonds can support more types of projects, delivering more measurable impact. Additionally, this framework sets clear expectations from clients, avoiding greenwashing in the Bank’s portfolio.

This framework has been approved by the Bank’s Board of Directors during the latter part of 2023 and received a Second Party Opinion (SPO) from Morningstar Sustainalytics, a leading and independent Environmental, Social and Governance (ESG) research and ratings provider based in New York.

In its SPO issued last July 19, 2024, Sustainalytics states “BDO is well positioned to issue green, blue, social, gender, orange and sustainability bonds and loans, and other debt financing instruments and that the BDO Sustainable Finance Framework is robust, transparent and in alignment with the four core components of the Green Bond Principles 2021, Social Bond Principles 2023, Green Loan Principles 2023, Social Loan Principles 2023, ASEAN Sustainability Bond Standards 2018 (ASEAN SUS), ASEAN Green Bond Standards 2018 (GBS) and ASEAN Social Bond Standards 2018 (SBS).” Furthermore, it mentions that “the eligible categories for the use of proceeds are aligned with those recognized by the Green Bond Principles (GBP), Social Bond Principles (SBP), Green Loan Principles (GLP), Social Loan Principles (SLP), ASEAN Sustainability Bond Standard, Green Bond Standard (GBS), and Social Bond Standard (SBS). Sustainalytics considers that investments in the eligible categories will lead to positive environmental or social impacts and advance the UN Sustainable Development Goals, specifically SDGs 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 and 14.”

BDO imposes exclusion from certain industries such as production or trade in weapons and munitions, online gaming and equivalent enterprises, hydroelectric plant with weir height of more than 50 meters, illegal mining, illegal fishing, and child labor, which are deemed to have adverse environmental and social effects to community.

BDO's practice in green financing is firmly based on its SF Framework which provides guidelines and parameters for green and social impact financing. With continued innovation in green financing, the Bank is positioned to lead Sustainable Finance across various industries.

Within the organization, the Bank continues to raise awareness on its environmental impact, promote good environmental practices in the workplace, and mobilize employee volunteers for activities that address sustainable goals on poverty, hunger, the environment, education, financial literacy, and human rights in its communities.

Evaluation System

The Bank's Corporate Governance Manual mandates that all Board-level committees report regularly to the Board of Directors, ensuring compliance with the Manual's policies and procedures. The Bank upholds the principle and regulatory mandate of checks and balances across the entire Group by maintaining the segregation of powers and ensuring the independence of audit, compliance, and risk management functions. To support these independent checks and balances, the Board has appointed the Chief Audit Executive, Chief Risk Officer, and Chief Compliance Officer to assist in its oversight functions.

In its ongoing commitment to good corporate governance, the Board has empowered the Audit Committee to oversee the financial reporting process, internal control and risk management systems, internal and external audit functions, and compliance with applicable laws and regulations.

Their oversight function covers the following areas:

- On *financial reporting*, the committee reviews the integrity of the reporting process to ensure the accuracy and reliability of financial statements and

compliance with financial reporting standards and disclosure requirements set for listed companies.

- On *internal control and risk management*, it monitors and evaluates the adequacy, soundness and effectiveness of the Bank's established internal control and risk management systems, policies and procedures including implementation across all units of the Bank to provide reasonable assurance against fraud or other irregularities and material misstatement or loss.

It reviews non-audit work, if any, ensuring that it would not conflict with their duties as external auditors or may pose a threat to their independence. It approves the annual audit plan and reviews audit results focusing on significant findings with financial impact and its resolution. It reviews the implementation of corrective actions to ensure that these are done in a timely manner to address deficiencies, non-compliance with policies, laws and regulations. Annually, it evaluates the performance of the Chief Audit Executive and the internal and external audit functions.

Additionally, the CGC oversees the continuing education program for directors and key officers, proposing relevant trainings session. It also reviews management's plan for succession to key leadership positions, ensuring the necessary skills and expertise are in place to support the Bank's strategic directions.

During the year, the Corporate Governance Committee achieved the following:

- *Annual Continuing Education of Directors*
  The Corporate Governance Committee played a pivotal role in ensuring that directors adhered to the regulatory requirement for an annual corporate governance seminar, integral to their ongoing education. It ensured that all incumbent Board members successfully met the SEC's mandatory 4-hour requirement for the 2024 Annual Corporate Governance Seminar. Furthermore, the seminar was well-attended by the respective directors and key officers of BDO's subsidiaries, reflecting the bank's commitment to inclusive and comprehensive governance education across its entire corporate structure. The seminar received from participants an above-average rating of 4.82 (5 as highest) indicating its effectiveness. - *Revision of key governance documents*
  The CG Committee approved and endorsed several revisions to key governance documents. This included amendments to the:

  - *BDO Code of Conduct and Business Ethics*
    The Code now requires directors or officers who are appointed to or run for any public office, whether in the Philippines or abroad, to resign from BDO prior to acceptance or filing of candidacy. If BDO becomes aware of such activities, the individuals are deemed resigned. There is also an additional requirement to disclose whether consultancy or contractual assignments are full-time or part-time.

    These changes ensure that BDO maintains a clear separation between its operations and any political activities, thereby reducing potential conflicts of interest and maintaining the integrity of its governance practices.

  - *Personal Trading Policy*
    BDO's Personal Trading Policy aims to ensure compliance with securities laws, promote fairness, and preserve the bank's reputation in fair securities dealing. The policy applies to all Directors, employees and officers with access to material, price-sensitive information, covering both BDO and non-BDO shares. These measures help prevent insider trading, ensure transparency, and uphold market integrity, positively impacting the bank by fostering trust among stakeholders and reinforcing its commitment to ethical practices.

  - *Interlocking Positions Policy*
    The interlocking policy was fully referenced to the BSP's Manual of Regulations for Banks (MORB), including the definition of a substantial shareholder. The term conflict of interest on the other hand was aligned with BDO's Code of Conduct. The annual performance metrics for head of control functions have been standardized.

    These updates ensure that BDO's policies are consistent with regulatory standards, enhancing transparency and accountability in managing interlocking positions. It further helps mitigate risks associated with conflicts of interest and ensures that performance evaluations are uniformly applied.

  - *Corporate Governance Manual*
    The 2024 Corporate Governance Manual reiterates a more diversified board composition, rigorous director training programs; highlights the Related Party Transaction (RPT) policies; as well as emphasizes BDO's

sustainability principles. The Bank's subsidiaries and affiliates (BDO Group) are now expected to align with the revised Manual, as necessary and appropriate, taking into consideration corporate governance codes issued by their respective primary regulators which have oversight / control over them. These changes aim to improve decision-making, transparency, accountability, and long-term sustainability. It also reflects BDO's commitment to continuous improvement in corporate governance.

- *Board Level Committees Terms of Reference*
  The Committee incorporated in the Terms of Reference of all Board Committees the definition and the extent of the role of Board Advisors to further enhance the evaluation process. This underscores the independent role of the advisors and the importance of their expertise and diverse perspectives, enriching the Board oversight evaluation process. This strategic decision underscores the Committee's proactive approach to continuously improving corporate governance practices. It reflects a commitment to ensuring robust oversight, fostering a culture of accountability, and adapting to evolving governance standards. This move will enhance the quality of evaluations and drive better governance outcomes across the organization.

- *Sustainability Oversight*
  The Corporate Governance Committee reviewed the updates on the Bank's key initiatives for sustainable finance and BDO operations with sustainability impact. Among these were: the implementation of the Environmental and Social Risk Management System (ESRMS); the engagement with a third party provider to account for the Bank's carbon emissions on projects financed by the Bank and reporting such based on the recommendations of the Task Force for Climate-based Financial Disclosures (TCFD); the contents of the 2023 BDO Sustainability Report; and, the Bank's Environmental, Social, and Governance (ESG) Dashboard. The Committee also tackled the updates on the benchmarking results of BDO with other companies in terms of its sustainability progress and initiatives and the several local and regional awards and recognitions that the Bank received. Other updates were on the benchmarking results related to TIME World's Best Companies 2023, and Brand Finance ranking for the Philippines and the financial sector, as well as local and international recognitions: The Retail Banker International Asia Trailblazer Award 2024, the Euromoney Excellence Awards 2024, Asia Corporate Excellence & Sustainability (ACES) Awards 2024, The Asset ESG Corporate Awards 2024, and the 5 Golden Arrows from the ASEAN Corporate Governance Scorecard Awards, among several regional recognitions for the Bank's ESG practices.

  The Corporate Governance Committee also discussed the impact of the allocation ASEAN Sustainability Bonds (ASB) proceeds. Of the total proceeds, Php38.4 billion financed environmental projects aimed at mitigating climate

change and promoting renewable energy. These investments supported solar and wind energy installations, which have significantly reduced greenhouse gas emissions and contributed to the Philippines' transition to cleaner energy sources. The funds also financed energy-efficient infrastructure, such as green buildings, resulting in measurable reductions in energy consumption and promoting sustainable urban development.

On the social side, Php14.4 billion funded projects that enhance the quality of life for underserved communities. This included Php8,802 million for employment generation through microfinance services, and Php5,621 million for the agriculture, fisheries, and food security sectors which represent roughly a quarter of the nation's workforce.

The projects funded under BDO's first ASB issuance align with the 17 United Nations Sustainable Development Goals (SDGs), particularly SDG 7 (Affordable and Clean Energy), SDG 11 (Sustainable Cities and Communities), and SDG 13 (Climate Action).

- *Board Effectiveness Evaluation*
  The Corporate Governance Committee engaged PricewaterhouseCoopers (PwC) as the independent assessor for the 2023 Board Effectiveness Evaluation (BEE), demonstrating the bank's commitment to transparency and objectivity in evaluating its governance practices. The executive summary of the 2022 BEE results provided the Committee with valuable insights on the strengths and areas of improvements of the Board, Board Committee, Directors and Senior Management as whole.

  The results of the 2023 BEE highlighted the areas of strength and opportunities for improvement. The Board's performance was evaluated in ten (10) areas, namely: (i) Board responsibilities, (ii) Board composition, (iii) Board conduct, (iv) Board interaction and communication, (v) Chairperson, (vi) Chief Executive Officer, (vii) Board administration process, (viii) strategic Board meeting sessions, (ix) Board oversight of risks and (x) Board oversight of Sustainability/ESG).

  A new area was introduced in the Part A questionnaire for 2023 called Board Oversight of Sustainability/ESG, which is also expected to be carried forward in the next editions of the BEE. In the last three (3) years, the importance of Environmental, Social and Governance (ESG) has been discussed including comments/suggestions on further enhancing ESG and sustainability.

  Based on the assessment report by PwC, the Board has proactive involvement in crucial governance areas. The Board members bring varied skills and perspectives, enabling comprehensive analysis and robust strategic guidance thereby fulfilling the Bank's commitment to effective governance and sustainable business practices. The results further indicate strong oversight and engagement by the Board with senior management. The Chairperson and

Report of Independent Auditors

The Board of Directors and Stockholders

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of BDO Unibank, Inc. and subsidiaries (collectively referred to as the BDO Unibank Group) and of BDO Unibank, Inc. (the Parent Bank), which comprise the statements of financial position as at December 31, 2024 and 2023, and the statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2024, and notes to financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the BDO Unibank Group and of the Parent Bank as at December 31, 2024 and 2023, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2024 in accordance with Philippine Financial Reporting Standards (PFRS Accounting Standards).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the BDO Unibank Group and of the Parent Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The following are the key audit matters identified in our audit of the financial statements of the BDO Unibank Group and the Parent Bank:

(a) Valuation of Loans and Other Receivables

Description of the Matter

The BDO Unibank Group and the Parent Bank are required to recognize allowance for impairment on their loans and other receivables using the expected credit loss (ECL) model in accordance with PFRS 9, *Financial Instruments*. As of December 31, 2024, the BDO Unibank Group and the Parent Bank had loans and other receivables amounting to P3,272,518 million and P3,168,757 million, respectively, net of allowance for impairment of P92,091 million and P89,414 million, respectively. Loans and other receivables are the most significant resources of the BDO Unibank Group and the Parent Bank which account for 67% and 68% of the BDO Unibank Group and the Parent Bank's total resources, respectively.

The allowance for impairment of loans and other receivables is considered to be a matter of significance as it requires the application of critical management judgment and use of subjective estimates in determining how much impairment loss is required to be recognized in the financial statements. These judgment and estimates are disclosed in the BDO Unibank Group's and the Parent Bank's accounting policies in Notes 2 and 3 to the financial statements.

The BDO Unibank Group and the Parent Bank use an ECL model in determining the impairment of their loans and other receivables. The assessment of credit risk of a portfolio of assets entails estimations as to the likelihood of defaults occurring, the associated loss ratios and of default correlations of the related counterparties. Furthermore, the BDO Unibank Group and the Parent Bank incorporated forward-looking information into both the assessment of whether the credit risk of an instrument has increased significantly from its initial recognition and the measurement of ECL. The BDO Unibank Group and the Parent Bank have identified and documented key drivers of credit risk and credit losses for each loan portfolio and, using an analysis of historical data, have estimated relationships between macro-economic variables, credit risk and credit losses.

The disclosures of the BDO Unibank Group and the Parent Bank on the allowance for impairment of loans and other receivables, and the related credit risk are included in Notes 4 and 11 to the financial statements.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to the adequacy of allowance for impairment of loans and other receivables, included among others, evaluating the BDO Unibank Group's and the Parent Bank's accounting policies and methodologies as to whether they: (a) are established and implemented consistent with the underlying principles of PFRS 9; (b) are appropriate in the context of the BDO Unibank Group's and Parent Bank's lending activities and asset portfolio given different segments of credit exposures and the relevant regulatory framework; and, (c) are supported by pertinent processes and controls, including documentations of policies that capture in sufficient detail the judgment, including estimation applied in the development of the Group's ECL model.

With respect to the use of judgment and estimation of inputs and assumptions used in the ECL model, our procedures included:

- testing the design and operating effectiveness of relevant controls over credit review process as it relates to the determination of credit risk rating used in impairment provisioning;

- assessing the BDO Unibank Group's and Parent Bank's segmentation of credit risk exposures based on homogeneity of credit risk characteristics and evaluating the appropriateness of impairment approach applied on each loan portfolio;

- engaging our Firm's specialist in evaluating the appropriateness of methodologies and assumptions used in the ECL calculation including testing the discriminatory power of the Internal Credit Risk Rating System for each loan portfolio across all quarters during the year;

- evaluating the reasonableness of the credit risk ratings assigned to loan accounts to assess appropriateness of credit risk monitoring;

- testing the BDO Unibank Group's and Parent Bank's loan classification and staging scheme based on the determined days past due and other qualitative factors, including proper tagging of non-performing loans;

- evaluating management's quantitative and qualitative criteria in determining events that constitute default and significant increase in credit risk against the requirements set forth in PFRS 9;

- for probability of default, checking whether indications of default on selected accounts per loan type were properly captured within the observation period and were considered in the calculation of historical default rates;

- for loss given default, validating the accuracy of historical recoveries and associated costs for each loan portfolio by inspecting relevant records of collections and disposals of related collaterals from selected defaulted accounts;

- reconciling exposure at default against relevant loan databases;

- on selected individually assessed loan accounts, evaluating the accuracy of management's forecast of recoverable cash flows based on agreed restructuring agreement and valuation of collaterals and estimates of recovery from other sources of collection;

- for forward-looking information used, evaluating whether the forecasted macro-economic factors, which include gross domestic product growth, unemployment rates and core inflation rates were appropriate and traceable to trusted publicly available information. In addition, assessing the level of significance of correlation of selected macro-economic factors to the default rates as well as the impact of these variables to the ECL; and,

- evaluating the completeness and appropriateness of the disclosures to the financial statements against the requirements of relevant reporting standards.

(b) Valuation of Derivatives

Description of the Matter

In general, the fair valuation of the investments of the BDO Unibank Group and the Parent Bank is computed with reference to external sources and readily available market value. The fair valuation of investments of the BDO Unibank Group and the Parent Bank is considered a key area of focus in our audit due to the use of inputs from external sources in computing the market value of some investments with no readily available market value. To the extent practicable, certain financial instruments are measured using models with observable data; however, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates.

As of December 31, 2024, the derivative financial assets and derivatives with negative fair values of the BDO Unibank Group that are carried at fair value amounted to P8,291 million and P6,361 million, respectively, while that of the Parent Bank amounted to P4,633 million and P3,090 million, respectively.

The details of such investments are disclosed in Note 10, while the disclosures of the BDO Unibank Group and the Parent Bank on exposure to investments valuation risk are included in Note 4 to the financial statements.

How the Matter was Addressed in the Audit

Our audit procedures, included among others, the following:

- evaluating whether fair value prices used were appropriate by testing the inputs against reliable market sources;
- recomputing the fair values based on the inputs and compared with the market values reported by the BDO Unibank Group and the Parent Bank; and,
- reviewing the appropriateness of the method used in fair market valuation.

(c) Valuation of Goodwill and Other Intangible Assets with Indefinite Useful Lives

Description of the Matter

The BDO Unibank Group has goodwill of P4,535 million, with allowance for impairment of P1,514 million, as of December 31, 2024, and the significant portion of which relates to the acquisition of BDO Network Bank, Inc. (BDO Network). Furthermore, the BDO Unibank Group and the Parent Bank have other intangible assets with indefinite useful lives amounting to P3,522 million as of December 31, 2024.

This annual impairment testing of goodwill and other intangible assets with indefinite useful lives is considered to be a key audit matter because the management's process in assessing the recoverability of the intangible assets is complex. In addition, the assumptions used in determining the cash generating units (CGUs) where the goodwill and other intangible assets with indefinite useful lives are allocated and estimating the recoverable amount involves significant judgment. The recoverable amount of the CGUs has been computed using discounted cash flows method. This valuation method uses several key assumptions, including estimates for forecasted statement of financial position and net profit of CGUs, terminal value growth rates and discount rate.

The BDO Unibank Group's disclosures about goodwill and other intangible assets are included in Notes 2, 3 and 17 to the financial statements.

How the Matter was Addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to impairment of goodwill and other intangible assets with indefinite useful lives included, among others, evaluating the appropriateness of assumptions and methodologies used by the management, in particular, those relating to the forecasted statement of financial position and statement of income or financial performance as well as the discount and growth rates used. We have involved our Firm valuation specialist to assist in evaluating the appropriateness of assumptions used in estimating the recoverable amount of CGUs. In addition, we recalculated the value-in-use of the CGUs and compared it with the carrying amount. We also reviewed the BDO Unibank Group's disclosures about those assumptions to which the outcome of the impairment test is most sensitive; specifically, those that have the most significant effect on the determination of the recoverable amount of goodwill and other intangible assets with indefinite useful lives. Furthermore, our audit of the financial statements of BDO Network as of and for the year ended December 31, 2024 did not identify events or conditions that may cast significant doubt on BDO Network's ability to continue as a going concern.

(d) Accounting for Legal Merger Between the Parent Bank and its Subsidiary

Description of the Matter

The Parent Bank, together with The Podium Complex (TPCI and, formerly, SM Keppel Land, Inc.), a wholly owned subsidiary, executed a merger effective December 1, 2024, which was previously approved by a majority vote of the Parent Bank's Board of Directors (BOD) and by the vote of the stockholders owning or representing at least two-thirds of the outstanding capital stock on January 27, 2024 and April 19, 2024, respectively. The same was filed with the Banko Sentral ng Pilipinas (BSP) and the Securities and Exchange Commission (SEC) and was subsequently approved on October 22, 2024, and November 18, 2024, respectively.

The merger of the Parent Bank and TPCI was of importance to our audit due to the significance of the amounts involved and complexity of the transaction and its accounting treatment. Such merger is classified as business combination under common control and is out of scope of PFRS 3, *Business Combination*, and, accordingly, significant judgment is involved in determining the appropriate accounting policies to be applied.

The Parent Bank has accounted for the merger using the pooling of interest method, wherein the assets and liabilities of TPCI are included in the Parent Bank's separate financial statements at their book values as reported in its consolidated financial statements and no goodwill is recognized as a result of the combination. At the date of merger, the Parent Bank recognized additional assets and liabilities amounting to P16,580 million and P9,746 million, respectively, and issued common shares with a fair value of P7,076 million, consequently recognizing merger reserves amounting to P6,256 million.

The Parent Bank's accounting policy and disclosures of the merger and pooling of interest method are included in Notes 2 and 30 to the financial statements.

How the Matter was Addressed in the Audit

Our audit procedures, included among others, the following:

- reviewing the minutes of meeting of the BOD for the approval of the merger and the approval of the BSP and SEC;
- reviewing the Articles and Plan of Merger to understand the key terms and conditions, and confirming our understanding with the management;
- evaluating the appropriateness of the application of the pooling of interest method used by the management, including identification and measurement of individual assets and liabilities of TPCI in accordance with the terms of Articles and Plan of Merger and relevant PFRS Accounting Standards and interpretations; and,
- assessing the adequacy of disclosures made in the financial statements of the Parent Bank.

Other Information

Management is responsible for the other information. The other information comprises the information included in the BDO Unibank Group's SEC Form 20-IS (Definitive Information Statement) and SEC Form 17-A, and Annual Report for the year ended December 31, 2024, but does not include the financial statements and our auditors' report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2024 are expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the BDO Unibank Group's and the Parent Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the BDO Unibank Group and the Parent Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the BDO Unibank Group's and the Parent Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the BDO Unibank Group's and the Parent Bank's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the BDO Unibank Group's and the Parent Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the BDO Unibank Group and the Parent Bank to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the BDO Unibank Group and the Parent Bank to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. As discussed in Note 31 to the financial statements, the Parent Bank presented the supplementary information required by the Bureau of Internal Revenue (BIR) under Revenue Regulations (RR) No. 15-2010 in a supplementary schedule filed separately from the basic financial statements. RR No. 15-2010 requires the supplementary information to be presented in the notes to the financial statements. The supplementary information for the years ended December 31, 2024 and 2023 required by the BSP as disclosed in Note 35 to the financial statements is presented for purposes of additional analysis. Such supplementary information required by BIR and BSP is the responsibility of management. The supplementary information is not a required part of the basic financial statements prepared in accordance with PFRS Accounting Standards; it is neither a required disclosure under the Revised Securities Regulation Code Rule 68 of the SEC.

1.2 Russia - Ukraine Conflict

On February 24, 2022, Russia started its military offensive on Ukraine which caused far-reaching impact for economies, markets, and businesses. The ongoing military conflict resulted in a wide range of sanctions against Russia, including certain Russian entities and individuals and led to significant casualties, dislocation of population, damage to infrastructure, slowdown of business operations in both countries, disruption of supply chains and commodity flows that impact prices of items such as petroleum products, cereals, iron, and steel.

A prolonged conflict between Russia and Ukraine may result in a significant slowdown in the global and Philippine economy and therefore a potential consequential deterioration in the business outlook for the Philippines. However, as of end-2024, the BDO Unibank Group, whose business is primarily in the Philippines, has not been affected in a material way by the Russia-Ukraine conflict, despite its inflationary impact on commodity prices and disruption in supply chains. The Philippines remains a domestically-focused, import-dependent consumption economy, and Philippine Gross Domestic Product (GDP) numbers remained strong and resilient. This, in turn, has led to improved loan growth, steady margins despite declines in interest rates and continued improvement in net income, not just for the BDO Unibank Group, but for the industry in general.

With Donald Trump's re-election as US President, the US government has initiated discussions with Russia on finding a peaceful resolution to the Ukraine conflict. While further negotiations are anticipated, a favorable outcome remains uncertain. Failure to resolve the conflict may lead to renewed disruptions to global supply chains that could impact economic activity, leading to slower growth and less spending.

The BDO Unibank Group is carefully monitoring developments. However, the BDO Unibank Group believes that its strong market position and solid financial condition will insulate the BDO Unibank Group against rekindled short-term risks relating to the conflict.

1.3 Israel - Hamas Conflict

On October 7, 2023, Hamas militants from Gaza commenced simultaneous incursions into several areas in neighboring Israel, damaging housing and infrastructure, inflicting casualties and taking hundreds of hostages. Israel Defense Forces responded by turning back the attackers and mounting an invasion of Gaza, with the objective of addressing the Hamas threat and rescuing the hostages. The conflict resulted in significant destruction of Gaza and fatalities from both sides, including non-combatants.

A wider conflict in the Middle East (ME) poses a major risk to the Philippine economy, resulting from energy supply disruptions involving major oil-producing countries. In such a situation, the Philippines, which is a net energy importer, would be negatively impacted by higher oil prices and increased inflation, reduced consumer purchasing power, and overall uncertainties in the economic growth outlook. A wider ME conflict may also negatively impact OFW remittances from the region, which accounts for approximately 17% of the total. OFW remittances are a significant contributor to domestic consumption.

The Israel-Hamas conflict expanded beyond Gaza when Houthi rebels in Yemen, in solidarity with the Palestinians, began attacking merchant ships passing through the Red Sea. This forced shipping companies to suspend or re-route their vessels' operations on threat of being attacked. Vessels passing through the Red Sea account for an estimated 11% of global trade and 30% of global container shipping volume.

On January 15, 2025, a three-stage ceasefire agreement between Israel and Hamas to halt Gaza conflict was announced. The ceasefire arrangement included provisions for the release of captives, the withdrawal of Israeli forces and the return of Palestinians to their homes in northern Gaza. However, the ceasefire's success remains uncertain amid allegations by Hamas that Israel has not adhered to the agreement's terms.

The conflict's impact on the Philippine economy and BDO Unibank Group has been negligible so far, and the BDO Unibank Group continues to closely monitor developments on this issue.

1.4 Impact of Trump Executive Orders on Tariffs and Immigration

After assuming office last January 20, 2025, US President Donald Trump started imposing tariffs on imports from Canada, Mexico and China, and intensified mass deportations of illegal immigrants through a series of Executive Orders (EO).

The EOs are foreseen to directly affect the global economy, and indirectly the Philippine economy, via foreign exchange and interest rates. Import tariffs and tighter labor supply may translate to higher US inflation and interest rates as well as a stronger US dollar (USD), all else equal.

However, the potential impact on the Philippine economy may be relatively minimal as the Philippines is not a major player in the global supply chain with goods exports being a relatively low contributor to GDP. The country also has a well-diversified migrant work force that is not dependent on the US. While the US officially accounts for 40% of all remittance inflows as most remittances are coursed through global banks, actual worker deployment is much more diversified.

Given the unpredictable nature of recent developments and uncertain outcome, the BDO Unibank Group is carefully monitoring changes that may be related to the BDO Unibank Group and the Philippine economy. Still, BDO Unibank Group believes that its established market position and strong financial condition will mitigate risks relating to the Trump administration's policies.

1.5 Approval of Financial Statements

The financial statements of the BDO Unibank Group and the Parent Bank as of and for the year ended December 31, 2024 (including the comparative financial statements as of December 31, 2023, with corresponding figures as of January 1, 2023, and for the years ended December 31, 2023 and 2022) were authorized for issue by the Parent Bank's Board of Directors (BOD) on February 22, 2025.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information that have been used in the preparation of these financial statements are summarized below and in the succeeding pages. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of Preparation of Financial Statements

(a) Statement of Compliance with Financial Reporting Standards in the Philippines

The consolidated financial statements of BDO Unibank Group and the separate financial statements of the Parent Bank have been prepared in accordance with Philippine Financial Reporting Standards (PFRS Accounting Standards). PFRS Accounting Standards are adopted by the Financial and Sustainability Reporting Standards Council (FSRSC), from the pronouncements issued by the International Accounting Standards Board (IASB) and approved by the Philippine Board of Accountancy.

The financial statements have been prepared using the measurement bases specified by PFRS Accounting Standards for each type of resources, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

(b) Presentation of Financial Statements

The financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The BDO Unibank Group and the Parent Bank present a statement of comprehensive income separate from the statement of income.

(c) Functional and Presentation Currency

These financial statements are presented in Philippine pesos, the BDO Unibank Group and the Parent Bank's functional and presentation currency, and all values are presented in millions, except for per share data or when otherwise indicated (see also Note 2.19).

Items included in the financial statements of BDO Unibank Group and the Parent Bank are measured using its functional currency. Functional currency is the currency of the primary economic environment in which BDO Unibank Group and the Parent Bank operate.

(d) Prior Period Restatement and Reclassification of Accounts

In 2024, the BDO Unibank Group presented separately in the consolidated financial statements the assets and liabilities of the life insurance business held primarily for the beneficial interests of the life insurance policyholders. Such assets and liabilities were reclassified and presented within the line items Investments Securities and Other Assets for Life Insurance Contracts – net, and Insurance Contract and Other Liabilities for Life Insurance Contracts, respectively. The profit or loss items comprising pre-tax income attributable to insurance operations is also presented separately in the consolidated statement of income of the BDO Unibank Group. The reclassifications made did not affect the consolidated financial position, equity and cash flows of the BDO Unibank Group, and the presentation of the separate financial statements of the Parent Bank.

Further, in 2024, the BDO Unibank Group and Parent Bank reclassified certain transaction costs directly attributable to the acquisition, issue or disposal of financial assets or liabilities to the related interest income and interest expense. Such transaction costs were previously recognized as part of Other Operating Expenses in the statement of income. The reclassifications made did not affect the BDO Unibank Group's and Parent Bank's financial position, equity and cash flows.

Presented below and in the succeeding pages is the analysis of the effects of the prior period restatement in the BDO Unibank Group's statements of financial position as of December 31 and January 1, 2023 to align with the current year presentation.

2.2 Adoption of Amended PFRS Accounting Standards

(a) Effective in 2024 that are Relevant to BDO Unibank Group and the Parent Bank

The BDO Unibank Group and the Parent Bank adopted for the first time the following amendments to PFRS Accounting Standards, which are mandatorily effective for annual periods beginning on or after January 1, 2024:

PAS 1 (Amendments)	:	Presentation of Financial Statements – Classification of Liabilities as Current or Non-current, and Non-current Liabilities with Covenants
PAS 7 and PFRS 7 (Amendments)	:	Statement of Cash Flow, and Financial Instruments: Disclosures – Supplier Finance Arrangements
PFRS 16 (Amendments)	:	Leases – Lease Liability in a Sale and Leaseback

Discussed below are the relevant information about these pronouncements.

(i) PAS 1 (Amendments), *Presentation of Financial Statements – Classification of Liabilities as Current or Non-current*. The amendments provide guidance on whether a liability should be classified as either current or non-current. The amendments clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and that the classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability. The application of these amendments had no significant impact on the BDO Unibank Group and the Parent Bank's financial statements.

(ii) PAS 1 (Amendments), *Presentation of Financial Statements – Non-current Liabilities with Covenants*. The amendments specifies that if the right to defer settlement for at least 12 months is subject to an entity complying with conditions after the reporting period, then those conditions would not affect whether the right to defer settlement exists at the end of the reporting period for the purposes of classifying a liability as current or non-current. For non-current liabilities subject to conditions, an entity is required to disclose information about the conditions, whether the entity would comply with the conditions based on its circumstances at the reporting date and whether and how the entity expects to comply with the conditions by the date on which they are contractually required to be tested. The application of these amendments had no significant impact on the BDO Unibank Group and the Parent Bank's financial statements.

(iii) PAS 7 and PFRS 7 (Amendments), *Statement of Cash Flows, Financial Instruments: Disclosures – Supplier Finance Arrangements*. The amendments add a disclosure objective to PAS 7 stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows. In addition, PFRS 7 is amended to add supplier finance arrangements as an example within the requirements to disclose information about an entity's exposure to concentration of liquidity risk. The application of these amendments had no significant impact on the BDO Unibank Group and the Parent Bank's financial statements.

(iv) PFRS 16 (Amendments), *Leases – Lease Liability in a Sale and Leaseback*. The amendments requires a seller-lessee to subsequently measure lease liabilities arising from a leaseback in a way that it does not recognize any amount of the gain or loss that relates to the right of use it retains. In addition, the new requirements do not prevent a seller-lessee from recognizing in profit or loss any gain or loss relating to the partial or full termination of a lease. The application of these amendments had no significant impact on the BDO Unibank Group and the Parent Bank's financial statements.

(b) Effective Subsequent to 2024 but not Adopted Early

There are new standards and amendments to existing standards effective for annual periods subsequent to 2024, which are adopted by the FSRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have significant impact on the BDO Unibank Group and the Parent Bank's financial statements.

(i) PFRS 17 *Insurance Contracts – Insurance Contracts* (effective from January 1, 2025). The new standard for insurance contracts, which covers recognition, measurement, presentation and disclosure, will replace PFRS 4, *Insurance Contracts*. On December 15, 2021, the FSRSC amended the effective date of PFRS 17 from January 1, 2023 to January 1, 2025. In line with this, the Insurance Commission (IC) issued Circular Letter No. 2020-62 on May 18, 2020 providing further deferral of the implementation of PFRS 17 for life insurance and non-life insurance industry by two years after the IASB effective date.

This new standard requires a current measurement model where estimates are remeasured in each reporting period. Moreover, contracts are measured using the building blocks of:

- discounted probability-weighted cash flows;
- an explicit risk adjustment; and,
- a contractual service margin (CSM) representing the unearned profit of the contract which is recognized as revenue over the coverage period.

PFRS 17 further allows a choice between recognizing changes in discount rates either in the statement of income or directly in other comprehensive income. The choice is likely to reflect how insurers account for financial assets under PFRS 9, *Financial Instruments*.

In addition, the standard provides an optional simplified premium allocation approach for the liability for the remaining coverage for short duration contracts, which are often written by non-life insurers.

A modification of the general measurement model called the variable fee approach is also introduced by PFRS 17 for certain contracts written by life insurers where policyholders share in the returns from underlying items. When applying the variable fee approach, the entity's share of the fair value changes of the underlying items is included in the CSM. The results of insurers using this model are therefore likely to be less volatile than under the general model.

In preparation for the adoption of PFRS 17, the BDO Unibank Group continues to perform end to end system tests, preparing policy and accounting data required for these tests and updating the accounting and actuarial policies and processes to comply with PFRS 17 requirements. Also, the BDO Unibank Group is still assessing the quantitative impact of the initial application of the new standard to its financial statements.

(ii) PFRS 17 (Amendments), *Insurance Contracts – Initial Application of PFRS 17* and PFRS 9 – *Comparative Information* (effective from January 1, 2025)

(iii) PAS 21 (Amendments), *The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability* (effective from January 1, 2025)

(iv) PFRS 9 and PFRS 7 (Amendments), *Financial Instruments, and Financial Instruments: Disclosures – Amendments to the Classification and Measurement of Financial Instruments* (effective from January 1, 2026)

(v) PFRS 18, *Presentation and Disclosure in Financial Statements* (effective from January 1, 2027). The new standard impacts the classification of profit or loss items (i.e., into operating, investing and financing categories) and the presentation of subtotals in the statement of income (i.e., operating profit and profit before financing and income taxes). The new standard also changes the aggregation and disaggregation of information presented in the primary financial statements and in the notes. It also introduces required disclosures about management-defined performance measures. The amendments, however, do not affect how an entity recognizes and measures its financial condition, financial performance and cash flows.

(vi) PFRS 19, *Subsidiaries without Public Accountability: Disclosures* (effective from January 1, 2027)

(vii) PFRS 10 and PAS 28 (Amendments), *Consolidated Financial Statements and Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* (effective date deferred indefinitely)

2.3 Basis of Consolidation

The BDO Unibank Group's consolidated financial statements comprise the accounts of the Parent Bank, and its subsidiaries as enumerated in Notes 2.3(c) and 15, after the elimination of material intercompany transactions. All intercompany resources and liabilities, equity, income, expenses and cash flows relating to transactions between entities under the BDO Unibank Group, are eliminated in full on consolidation. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the consolidated financial statements.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Bank, using consistent accounting principles.

The Parent Bank accounts for its investments in subsidiaries, associates, and transactions with non-controlling interests as follows:

(a) Investments in Subsidiaries

In the consolidated statements of the BDO Unibank Group, the acquisition method is applied to account for acquired subsidiaries. Acquisition method requires recognizing and measuring the identifiable resources acquired, the liabilities assumed and any non-controlling interest in the acquiree.

On the other hand, business combinations arising from transfers of interests in entities that are under the common control of the shareholders that controls BDO Unibank Group are accounted for under the pooling-of-interest method and reflected in the financial statements at the date of the combination of the entities under common control; for this purpose, no restatement of financial information for periods prior to the transaction is made. The resources and liabilities acquired are recognized in BDO Unibank Group's financial statements at their carrying amounts (i.e., in the case of a legal merger of a subsidiary to the Parent Bank, at the carrying values in the consolidated financial statements).

Investments in subsidiaries are initially recognized at cost and subsequently accounted for using the equity method in the Parent Bank's financial statements (see Note 2.10).

(b) Investment in Associates

Investments in associates are initially recognized at cost and subsequently accounted for using the equity method. Acquired investment in associate is subject to the purchase method.

All subsequent changes to the ownership interest in the equity of the associates are recognized in the BDO Unibank Group and the Parent Bank's carrying amount of the investments. Changes resulting from the profit or loss generated by the associates are credited or charged against the Share in net income of subsidiaries and associates as part of Miscellaneous - net under Other Operating Income account in the statement of income for BDO Unibank Group and Parent Bank, respectively.

Changes resulting from other comprehensive income of the associate or items recognized directly in the associate's equity are recognized in other comprehensive income or equity of the BDO Unibank Group and the Parent Bank, as applicable. However, when the BDO Unibank Group and the Parent Bank's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the BDO Unibank Group and the Parent Bank do not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the BDO Unibank Group and the Parent Bank resume recognizing its share of those profits only after its share of the profits exceeds the accumulated share of losses that has previously not been recognized.

(c) Transactions with Non-controlling Interests

BDO Unibank Group's transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners of BDO Unibank Group in their capacity as owners.

In BDO Unibank Group's financial statements, the non-controlling interest component is shown in its statement of changes in equity, and in its statement of income and statement of comprehensive income for the share of profit or loss and movement of other comprehensive income, respectively, during the year.

On June 28, 2024, BDO Unibank subscribed to additional 38,930,613 of BDO Network common shares at the total subscription price of P1,494, thereby increasing its shareholdings from 84.91% to 85.99% in 2024.

On September 26, 2024, non-controlling interests infused additional capital amounting to P264 in BDO Network, decreasing the BDO Unibank Group's ownership to 84.92%.

2.4 Financial Assets and Financial Liabilities

Regular purchases and sales of financial assets are recognized on their settlement date (i.e., the date that the BDO Unibank Group commits to purchase or sell the asset).

(a) Classification, Measurement and Reclassification of Financial Assets

The classification and measurement of financial assets are described below.

(i) Financial Assets at Amortized Cost

Where the business model is to hold assets to collect contractual cash flows, the BDO Unibank Group assesses whether the financial instruments' cash flows represent solely payments of principal and interest (SPPI). In making this assessment, the BDO Unibank Group considers whether the contractual cash flows are consistent with a basic lending arrangement, i.e., interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement [see Note 3.1(c)]. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss (FVTPL).

The BDO Unibank Group's financial assets at amortized cost are presented as Cash and Other Cash Items, Due from BSP, Due from Other Banks, Loans and Other Receivables, Investment securities at amortized cost under Trading and Investment Securities and certain accounts under Investment Securities and Other Assets for Life Insurance Contracts and Other Resources accounts in the statement of financial position.

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items, due from BSP and other banks, foreign currency notes and coins (FCNC), reverse repurchase agreements, certain interbank bank loans receivables and investment securities at amortized cost with original maturities of three months or less from placement date.

(ii) Financial Assets at Fair Value Through Other Comprehensive Income

At initial recognition, BDO Unibank Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at fair value through other comprehensive income (FVOCI); however, such designation is not permitted if the equity investment is held by the BDO Unibank Group for trading or as mandatorily required to be classified as FVTPL. The BDO Unibank Group has designated certain equity instruments as at FVOCI.

(iii) Financial Assets at Fair Value Through Profit or Loss

Equity securities are classified as financial assets at FVTPL, unless the BDO Unibank Group designates an equity investment that is not held for trading as at FVOCI at initial recognition. The BDO Unibank Group's financial assets at FVTPL include equity securities which are held for trading purposes.

The fair values of these financial assets are determined by reference to active market transactions or using valuation technique when no active market exists.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are SPPI.

(b) Effective Interest Rate Method and Interest Income

Interest income is recognized using the effective interest rate (EIR) method for all financial instruments measured at amortized cost and financial instruments designated at FVTPL. Interest income on interest bearing financial assets measured at FVOCI are also recorded by using the EIR method.

The BDO Unibank Group recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognizes the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive (negative) adjustment to the carrying amount of the asset in the statement of financial position with an increase (reduction) in interest income. The adjustment is subsequently amortized through interest and similar income in the statement of income.

The BDO Unibank Group calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

For financial assets that have become credit-impaired subsequent to initial recognition [see Note 2.4(c)], interest income is calculated by applying the effective interest rate to the net carrying amount of the financial assets (after deduction of the loss allowance). If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis. For financial assets that were credit-impaired on initial recognition, interest income is calculated by applying a credit-adjusted effective interest rate to the amortized cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

(c) Impairment of Financial Assets

At the end of the reporting period, the BDO Unibank Group assesses its expected credit loss (ECL) on a forward-looking basis associated with its financial assets which consist of debt instruments carried at amortized cost and FVOCI and other contingent accounts such as committed credit lines and unused commercial letter of credits. No impairment loss is recognized on equity investments. The BDO Unibank Group considers a broader range of information in assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect collectability of the future cash flows of the financial assets.

The BDO Unibank Group measures loss allowances at an amount equal to lifetime ECL, except for the following financial instruments for which they are measured as 12-month ECL:

- debt securities that are identified to have 'low credit risk' at the reporting date; and,
- other financial instruments (other than lease receivables) on which credit risk has not increased significantly since their initial recognition.

For these financial instruments, the allowance for impairment is associated with the probability of default (PD) of a financial instrument in the next 12 months (referred to as 'Stage 1' financial instruments). When there has been a significant increase in credit risk subsequent to the initial recognition of the financial asset, a lifetime ECL (which are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial asset) will be recognized (referred to as 'Stage 2' financial instruments). 'Stage 2' financial instruments also include loan accounts and facilities where the credit risk has improved and have been reclassified from 'Stage 3'. A lifetime ECL shall also be recognized for 'Stage 3' financial instruments, which include financial instruments that are subsequently credit-impaired, as well as purchased or originated credit impaired (POCI) assets.

The BDO Unibank Group's definition of credit risk and information on how credit risk is mitigated by the BDO Unibank Group are disclosed in Note 4.3.

(d) Measurement of ECL

The measurement of the ECL reflects: (i) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes; (ii) the time value of money; and, (iii) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions. The BDO Unibank Group's detailed ECL measurement as determined by the management is disclosed in Note 4.3.5.

(e) Derecognition of Financial Assets – Modification of Loans

When the BDO Unibank Group renegotiates or otherwise modifies the contractual cash flows of loans to customers, the BDO Unibank Group assesses whether or not the new terms are substantially different to the original terms. The BDO Unibank Group considers, among others:

- if the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay;
- whether any substantial new terms are introduced that will affect the risk profile of the loan;
- significant extension of the loan term when the borrower is not in financial difficulty;
- significant change in the interest rate;
- change in the currency the loan is denominated in; and/or,
- insertion of collateral, other security or credit enhancements that will significantly affect the credit risk associated with the loan.

If the terms are substantially different, the BDO Unibank Group derecognizes the financial asset and recognizes a "new" asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the BDO Unibank Group also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are recognized as gain or loss on derecognition of financial assets in profit or loss.

As to the impact on ECL measurement, the expected fair value of the "new" asset is treated as the final cash flow from the existing financial asset at the date of derecognition. Such amount is included in the calculation of cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the BDO Unibank Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognizes a modification gain or loss in profit or loss.

(f) Classification and Measurement of Financial Liabilities

Financial liabilities include deposit liabilities, bills payable, insurance contract (see Note 2.12) and other liabilities for life insurance contracts and other liabilities (including derivatives with negative fair values, except taxes payable, unearned income and capitalized interest and other charges).

- *Deposit liabilities and other liabilities* are recognized initially at fair value and subsequently measured at amortized cost less settlement payments.

- *Bills payable* are recognized initially at fair value, equivalent to the issue proceeds (fair value of consideration received), net of direct issue costs. Bills payable are subsequently measured at amortized cost. Any difference between proceeds, net of transaction costs, and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

- *Derivatives with negative fair values* are recognized initially and subsequently measured at fair value with changes in fair value recognized in profit or loss (see Note 2.5).

- *Lease deposits from operating and finance leases* (presented as Lease deposits under Other Liabilities account in the statement of financial position) are initially recognized at fair value. The excess of the principal amount of the deposits over its fair or present value is immediately recognized as day-one gain and is included as part of Miscellaneous - net under Other Operating Income account in the statement of income. Meanwhile, interest expense on the subsequent amortization of the lease deposits is accrued using the effective interest method and is included as part of Interest Expense account in the statement of income.

- *Dividend distributions to shareholders* are recognized as financial liabilities when the dividends are declared by BDO Unibank Group and subject to the requirements of BSP Circular No. 888.

(g) Financial Guarantees and Undrawn Loan Commitments

The BDO Unibank Group issues financial guarantees and loan commitments. Financial guarantees are those issued by the BDO Unibank Group to creditors as allowed under existing rules and regulations whereby it guarantees third party obligations by signing as guarantor in the contract or agreement. Undrawn loan commitments and letters of credit are commitments under which, over the duration of the commitment, the BDO Unibank Group is required to provide a loan or credit with pre-specified terms to the customer.

The nominal contractual value of financial guarantees and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not reflected in the statement of financial position. These contracts are in the scope of the ECL requirements where the BDO Unibank Group estimates the expected portion of the irrevocable undrawn loan commitments that will be drawn over their expected life based on the BDO Unibank Group's historical observations of actual drawdowns and forward-looking forecasts. The ECL related to financial guarantees and loan commitments without outstanding drawn amounts is recognized under Other Liabilities account in the statement of financial position.

2.5 Derivative Financial Instruments

BDO Unibank Group is a party to various foreign currency forwards, cross-currency swaps and interest rate swaps. These contracts are entered into as a service to customers and as a means of reducing or managing BDO Unibank Group's foreign exchange and interest rate exposures, as well as for trading purposes. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

For more complex instruments, BDO Unibank Group uses valuation models, which usually use the discounted cash flow approach [see Note 3.2(c)]. Some or all of the inputs into these models may not be market observable, and are derived from market prices or rates or are estimated based on assumptions.

Certain derivatives, if any, may be designated as either: (i) hedges of the fair value of recognized assets or liabilities or firm commitments (fair value hedge); or, (ii) hedges of highly probable future cash flows attributable to a recognized asset or liability, or a forecasted transaction (cash flow hedge). Changes in the fair value of derivatives are recognized in profit or loss. The method of recognizing the resulting fair value gain or loss on derivatives that qualify as hedging instrument, if any, depends on the hedging relationship designated by BDO Unibank Group.

2.6 Premises, Furniture, Fixtures and Equipment

Land is stated at cost less impairment losses, if any. All other premises, furniture, fixtures and equipment are carried at cost less accumulated depreciation, amortization and any impairment in value. Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the depreciable assets as follows:

Buildings	10 to 50 years
Furniture, fixtures and equipment	3 to 15 years
Leasehold rights and improvements	5 to 10 years

2.7 Investment Properties

Investment properties are stated at cost. The cost of an investment property comprises its purchase price and directly attributable costs incurred. This also includes land and building acquired by BDO Unibank Group from defaulting borrowers not held for sale in the next 12 months. For these properties, the cost is recognized initially at fair value. Investment properties, except land, are depreciated on a straight-line basis over a period of 10 to 50 years.

BDO Unibank Group adopted the cost model in measuring its investment properties; hence, these are carried at cost less accumulated depreciation and any impairment in value.

Depreciation and impairment loss are recognized in the same manner as in premises, furniture, fixtures and equipment (see Notes 2.6 and 2.18).

2.8 Real Properties for Development and Sale

Real properties for development and sale (included as part of Other Resources account) consist of subdivision land for sale and development, and land acquired for home building, home development, and other types of real estate development. These are carried at the lower of aggregate cost and net realizable value. Costs, which are determined through specific identification, include acquisition costs and costs incurred for development, improvement and construction of subdivision land.

2.9 Non-current Assets Held for Sale

Non-current assets held for sale include other properties (chattels) acquired through repossession or foreclosure that BDO Unibank Group intends to sell within one year from the date of classification as held for sale.

BDO Unibank Group classifies a non-current asset as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. In the event that the sale of the asset is extended beyond one year, the extension of the period required to complete the sale does not preclude an asset from being classified as held for sale if the delay is caused by events or circumstances beyond BDO Unibank Group's control and there is sufficient evidence that BDO Unibank Group remains committed to sell the asset.

2.10 Equity Investments

In the Parent Bank's financial statements, investments in subsidiaries and associates (presented under Equity Investments account in the statements of financial position) are accounted for under the equity method of accounting and are initially recognized at cost less allowance for impairment, if any (see Note 2.18).

2.11 Intangible Assets

Intangible assets include goodwill, trading rights, branch licenses, customer lists, trademark and computer software licenses.

Goodwill represents the excess of the cost of acquisition over the fair value of the net assets acquired at the date of acquisition. Goodwill is subsequently carried at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units for the purpose of impairment testing. Each of those cash-generating units is represented by each primary reporting segment.

Trading rights represent the rights given to securities subsidiaries of BDO Unibank Group in stock brokerage to preserve access to the trading facilities and to transact business on PSE. Trading right is assessed as having an indefinite useful life. It is carried at the amount allocated from the original cost of the exchange membership seat (after a corresponding allocation was made to the value of the PSE shares) less allowance for impairment loss, if any. BDO Unibank Group has no intention to sell its trading right in the future as it intends to continue to operate its stock brokerage business. The trading right is tested annually for any impairment in realizable value (see Note 2.18).

Branch licenses, on the other hand, represent the rights given to BDO Unibank Group to establish certain number of branches as an incentive in acquiring distressed banks or as provided by the BSP in addition to the current branches of the acquired banks. Branch licenses are assessed as having an indefinite useful life and are tested annually for any impairment (see Note 2.18).

Customer lists consist of information about customers such as their name, contact information, and managed accounts under BDO Unibank Group's trust business. The customer list is classified as intangible asset with indefinite useful life, hence, would be reviewed for impairment by assessing at each reporting date whether there is any indication that the trust business brought about by the customer lists may be impaired (see Note 2.18).

Trademark pertains to the license granted to the Parent Bank for the exclusive right to use the trademark, service mark, name or logo of Diners Club International, Ltd. (Diners) in connection with the Parent Bank's operation of Diners Club card business in the Philippines. The trademark is covered by a trademark license agreement with a term of five years, renewable every five years, subject to certain conditions set by trademark owner. This intangible asset is recognized at an amount equal to the excess of purchase price for the acquisition of Diners credit card portfolio over the acquisition-date fair value of the net assets acquired. As of December 31, 2024, the trademark is fully amortized subject to automatic renewal every five years.

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and install the specific software. These costs are amortized on straight-line basis over the expected useful life of five years.

2.12 Insurance Contract Liabilities

(a) Legal Policy Reserves

Life insurance contract liabilities are recognized when the contracts are entered into and the premiums are recognized. The provision for life insurance contracts is calculated on the basis of a prospective actuarial valuation method and assumptions subject to the provisions of the Insurance Code and guidelines set by the IC.

The BDO Unibank Group uses gross premium valuation (GPV) as the basis for valuation of the reserves for traditional life insurance policies. GPV is calculated as the sum of the present value of future benefits and expenses, less the present value of future gross premiums arising from the policy discounted at the appropriate risk-free discount rate provided by the IC. For this purpose, the expected future cash flows shall be determined using the best estimate assumptions with due regard to significant recent experience and appropriate margin for adverse deviation (MfAD) from the expected experience. The methods and assumptions shall be in accordance with the internationally accepted actuarial standards and consider the generally accepted actuarial principles concerning financial reporting framework promulgated by the Actuarial Society of the Philippines, which considers other assumptions such as morbidity, lapse and/or persistency, non-guaranteed benefits and MfAD.

The changes in legal policy reserves for traditional life insurance policies are recognized as follows:

(i) the increase or decrease in legal policy reserves in the current year due to other assumptions excluding change in discount rate will be recognized to profit or loss; and,

(ii) remeasurement on life insurance reserves due to changes in discount rates will be recognized in other comprehensive income.

(b) Insurance Contracts with Fixed and Guaranteed Terms

Liabilities are determined as the sum of the present value of future benefits and expenses less the present value of future gross premiums discounted at rates prescribed by the IC. Future cash flows are determined using best estimate assumptions with regard to significant recent experience and appropriate margin for adverse deviation from the expected experience.

BDO Unibank Group has different assumptions for different products. However, the reserves are computed to comply with the statutory requirements, wherein discount rates are based on risk-free discount rates provided by IC and other assumptions such as mortality, disability, lapse, and expenses taking into account BDO Unibank Group's experience.

(c) Variable Unit-linked Insurance (VUL) Contracts

BDO Unibank Group, through BDO Life, issues unit-linked insurance contracts. In addition to providing insurance coverage, a unit-linked contract links payments to units of an internal investment fund set up by BDO Unibank Group with the consideration received from the policyholders. Premiums received from the issuance of unit-linked insurance contracts are recognized as premiums revenue. As allowed by PFRS 4, BDO Unibank Group chose not to unbundle the investment portion of its unit-linked products.

The reserve for unit-linked liability is increased by additional deposits and changes in unit prices and is decreased by policy administration fees, mortality and surrender charges and any withdrawals. At each reporting date, this reserve is computed on the basis of the number of units allocated to the policyholders multiplied by the unit price of the underlying investment funds. The assets and liabilities underlying the internal investment funds have been consolidated with the general accounts of BDO Unibank Group.

(d) Liability Adequacy Test

Liability adequacy tests are performed annually to ensure the adequacy of the insurance contract liabilities. In performing these tests, current best estimates of future contractual cash flows, claims handling and policy administration expenses are used. Any deficiency is immediately charged against profit or loss initially by establishing a provision for losses arising from the liability adequacy tests.

2.13 Equity

Equity consists of the following:

(a) Capital stock represents the nominal value of shares that have been issued.

(b) Additional paid-in capital includes any premiums received on the issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

(c) Surplus reserves consist of (i) reserve for trust business - represents the accumulated amount set aside by BDO Unibank Group under existing regulations requiring the BDO Unibank Group to carry to surplus 10% of its net profits accruing from its trust business until the surplus shall amount to 20% of the regulatory capital as prescribed by BSP; (ii) reserve for insurance fund and additional working capital for underwriting and equity trading securities and reserve fund requirement for subsidiaries engaged in the security brokerage business (see Note 22.5); (iii) share options outstanding (SOO) - represents the accumulated total of employee share options' amortizations over the vesting period as the share-based employee remuneration are recognized and reported in the statement of income. SOO will be deducted for any exercise or forfeiture of share options already vested; and, (iv) appropriation for general loan loss provision (GLLP) as prescribed by the BSP to meet the required 1% GLLP on Stage 1 loans.

(d) Merger reserves pertain to the difference between the consideration paid and the carrying amounts of the net assets acquired in a business combination under common control.

(e) Other reserves pertain to the amount recognized from changes in BDO Unibank Group's ownership interest in any of its subsidiaries that do not result in loss of control.

(f) Surplus free includes all current and prior period results as disclosed in the statement of income and which are available and not restricted for use by BDO Unibank Group, reduced by the amounts of dividends declared, if any.

(g) Net unrealized gain or loss (NUGL) on FVOCI composed of cumulative mark-to-market valuation of outstanding securities and accumulated impairment on debt securities classified as FVOCI.

(h) Accumulated actuarial gains or (losses) from the remeasurements of post-employment defined benefit plan.

(i) Revaluation increment pertains to gains from the revaluation of land under premises, furniture, fixtures and equipment, which is treated as part of the deemed cost of the assets (see Note 2.6).

(j) Remeasurement on life insurance reserves arises from the increase or decrease of the reserves brought about by changes in discount rates.

(k) Accumulated translation adjustment pertains to foreign exchange differences arising on translation of the resources and liabilities of foreign branch and subsidiaries that are taken up in other comprehensive income (see Note 2.19).

(l) Accumulated share in other comprehensive income (loss) of subsidiaries and associates pertains to changes resulting from the BDO Unibank Group and the Parent Bank's share in other comprehensive income (loss) of subsidiaries and associates or items recognized directly in the subsidiaries and associates' equity.

(m) Non-controlling interests represent the portion of the net resources and profit or loss not attributable to BDO Unibank Group, which are presented separately in BDO Unibank Group's statement of income, statement of comprehensive income and within the equity in BDO Unibank Group's statement of financial position and changes in equity.

2.14 Related Party Transactions and Relationships

The BDO Unibank Group has established policies and procedures on related party transactions (RPT) in accordance with the BSP and Securities and Exchange Commission (SEC) regulations. These include definition of related parties, coverage of RPT policy, guidelines in ensuring arm's-length terms, identification and prevention or management of potential or actual conflicts of interest which arise from RPTs, adoption of materiality thresholds, internal limits for individual and aggregate exposures, whistle-blowing mechanisms, and restitution of losses and other remedies for abusive RPTs. The RPT Committee reviews, approves and endorses to the BOD for final approval all material RPTs.

Material RPT whose value exceeds 10% of the BDO Unibank Group's total resources based on the latest audited consolidated financial statements, either singly or aggregated within a 12-month period, with the same related party, shall require review of an external independent party appointed by the BOD. The approval of two-thirds vote of the BOD, with at least a majority of the independent directors voting affirmatively shall be obtained prior to the execution of the material RPT. In case that majority of the independent directors' vote is not secured, the material RPT may be ratified by the vote of the stockholders representing at least two-thirds of the outstanding capital stock.

The RPT policy applies to the Parent Bank, its subsidiaries and affiliates, as appropriate, to ensure that every related party transaction is conducted in a manner that will protect the BDO Unibank Group from any conflict of interest which may arise between the BDO Unibank Group and its related parties. The policy also covers the proper review, approval, ratification and disclosure of transactions between the BDO Unibank Group and any of its related party/ies in compliance with legal and regulatory requirements. The policy likewise requires any member of the RPT Committee who has a potential interest in any RPT to abstain from the discussion and endorsement of the RPT. Similarly, any member of the BOD who has an interest in the transaction must abstain from the deliberation and approval of any RPT.

2.15 Other Income and Expense Recognition

A contract with a customer that results in a recognized financial instrument in the BDO Unibank Group's financial statements may be partially within the scope of PFRS 9 and partially within the scope of PFRS 15, *Revenue from Contracts with Customers*. In such case, the BDO Unibank Group first applies PFRS 9 to separate and measure the part of the contract that is in-scope of PFRS 9, and then applies PFRS 15 to the residual part of the contract.

The BDO Unibank Group also earns service fees and commissions in various banking services, and gains on sale of properties, which are supported by contracts approved by the parties involved. These revenues are accounted for by the BDO Unibank Group in accordance with PFRS 15.

For revenues arising from these various banking services which are to be accounted for under PFRS 15, the following provides information about the nature and timing of satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

(a) *Service charges, fees and commissions* – Service charges, fees and commissions are generally recognized over time as the service is being provided and is based on the various criteria of recognition for each specific income source. These include the following accounts:

  (i) *Commission and fees* arising from loans, deposits, and other banking transactions are taken up as income based on agreed terms and conditions.

  (ii) *Loan syndication fees* are recognized as revenue when the syndication has been completed and that BDO Unibank Group retained no part of the loan package for itself or retained a part at the same effective interest rate for the other participants.

  (iii) *Arranger fees* arising from negotiating or participating in the negotiation of a transaction for a third party such as arrangement of the acquisition of shares or other securities or the purchase or sale of businesses are recognized at the completion of the underlying assumptions.

  (iv) *Portfolio and other management advisory and service fees* are recognized based on the applicable service contracts, usually on a time-proportionate basis.

(b) *Asset management services* – The BDO Unibank Group recognizes trust fees related to asset management services, which include trust and fiduciary services. Trust fees related to investment funds are recognized ratably over the period the service is provided. The same principle is applied for wealth management, financial planning and custody services that are continuously provided over an extended period of time.

For other income outside the scope of PFRS 15, the following provides information about the nature and the related revenue recognition policies:

(a) *Trading and securities gains (losses)* – These are recognized when the ownership of the securities is transferred to the buyer and is computed as the difference between the selling price and the carrying amount of the securities disposed of. These also include trading gains and losses as a result of the mark-to-market valuation of investment securities classified as FVTPL.

(b) *Gain or loss from assets sold or exchanged* – Income or loss from assets sold or exchanged is recognized when the title to the properties is transferred to the buyer or when the collectability of the entire sales price is reasonably assured. This is included in the statement of income as part of Other Operating Income account.

(c) *Recovery on charged-off assets* – Income arising from collections on accounts or recoveries from impairment of items previously written off are recognized in the year of recovery. This is included in the statement of income as part of Other Operating Income account.

The BDO Unibank Group recognizes an expense and liability relative to the fair value of the reward points earned by clients and customers [see Note 3.2(j)] since such points are redeemable primarily from the goods or services provided by a third party participating in the program, for example, SM Group (a related party) and rewards partners of the Parent Bank.

2.16 Provisions and Contingencies

The BDO Unibank Group offers rewards to active account holders in relation to its credit card and marketing rewards program. Provisions for rewards are recognized at a certain rate of the account holders' availments, determined by management based on redeemable amounts [See Note 3.2 (j)]

2.17 Leases

BDO Unibank Group accounts for its leases as follows:

(a) BDO Unibank Group as Lessor

Leases, wherein BDO Unibank Group substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item, are classified as finance leases and are presented as receivable at an amount equal to BDO Unibank Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on BDO Unibank Group's net investment outstanding in respect of the finance lease.

(b) BDO Unibank Group as Lessee

Subsequent to initial recognition, the BDO Unibank Group depreciates the right-of-use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The BDO Unibank Group also assesses the right-of-use asset for impairment when such indicators exist (see Note 2.18).

BDO Unibank Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense as incurred.

On the statement of financial position, right-of-use assets and lease liabilities have been presented as part of Premises, Furniture, Fixtures and Equipment and Other Liabilities, respectively.

2.18 Impairment of Non-financial Assets

Intangible assets with an indefinite useful life, such as goodwill, branch licenses, customer lists and trading rights are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

2.19 Foreign Currency Transactions and Translations

(a) Foreign Currency Transactions

The financial statements of the Foreign Currency Deposit Unit (FCDU) of BDO Unibank Group are translated at the prevailing current exchange rates (for statement of financial position accounts) and average exchange rate during the period (for statement of income accounts) for consolidation purposes.

(b) Foreign Currency Translation

The accounting records of BDO Unibank Group are maintained in Philippine pesos except for foreign branches and subsidiaries, which are maintained in USD, Canadian Dollar (CAD), European Union Euro (Euro), Great Britain Pound (GBP), Japanese Yen (JPY), Hong Kong Dollars (HKD) or Singapore Dollar (SGD).

On consolidation, exchange differences arising from the translation of foreign branch and net investment in foreign subsidiaries are recognized in other comprehensive income as part of Accumulated Translation Adjustment account. When a foreign operation is sold, the cumulative amount of exchange differences is recognized in profit or loss.

The translation of the financial statements into Philippine peso should not be construed as a representation that the USD, CAD, Euro, GBP, JPY, HKD or SGD amounts could be converted into Philippine peso amounts at the translation rates or at any other rates of exchange.

2.20 Compensation and Benefits Expense

BDO Unibank Group provides post-employment benefits to employees through a defined benefit plan and defined contribution plan, and other employee benefits.

BDO Unibank Group's defined benefit post-employment plan covers all regular full-time employees. The post-employment plan is tax-qualified, noncontributory and administered by a trustee. The defined benefit obligation (DBO) is calculated annually by independent actuaries using the projected unit credit method.

A defined contribution plan is a post-employment plan under which BDO Unibank Group pays the required employer's contributions into an independent entity, such as the Social Security System. BDO Unibank Group has no legal or constructive obligations to pay further contributions after payment of the required employer's contribution.

Short-term employee benefits include wages, salaries, bonuses, and non-monetary benefits provided to current employees, which are expected to be settled before 12 months after the end of the reporting period during which the employee services are rendered, but do not include termination benefits.

Termination benefits are payable when employment is terminated by BDO Unibank Group for authorized cause before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits.

BDO Unibank Group recognizes a liability and an expense for bonuses based on the BDO Unibank Group's bonus policy. A provision is recognized by BDO Unibank Group where it is contractually obliged to pay the benefits or where there is a past practice that has created a constructive obligation.

BDO Unibank Group has an employee stock option plan (ESOP) for its senior officers (from vice-president up) for their contribution to BDO Unibank Group's performance and attainment of team goals. None of the BDO Unibank Group's stock plan is cash-settled.

The stock options are measured at their fair values using the Black-Scholes option model. The stock options allocated to the qualified officers is based on the performance of the senior officers as determined by management and it requires a vesting period of five years. These are adjusted accordingly for any resignation or disqualification. The vested options may be exercised within three years from vesting date. The cost of ESOP is amortized over five years (vesting period) starting from the approval of the BOD. The annual amortization of stock options is included in Compensation and benefits under Other Operating Expenses account in the statement of income with corresponding recognition of SOO (included as part of Surplus Reserves under the Equity section of the statements of financial position).

2.21 Earnings Per Share

Basic earnings per share is determined by dividing consolidated net profit by the weighted average number of common shares issued and outstanding during the period, after retroactive adjustment for any stock dividend declared in the current period.

The diluted earnings per share is computed in the same manner, however, consolidated net profit attributable to common shares and the weighted average number of common shares outstanding are adjusted to reflect the effects of potentially dilutive convertible preferred shares and stock option plan granted by BDO Unibank Group to the qualified officers (to the extent that shares under the stock option plan shall be issued from the unissued authorized capital stock and not purchased from the market or stock exchange).

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

BDO Unibank Group and the Parent Bank's financial statements, prepared in accordance with PFRS Accounting Standards, require management to make judgments and estimates that affect the amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates and the differences could be significant.

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying BDO Unibank Group's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the financial statements.

(a) Application of ECL to Financial Assets at Amortized Cost and Financial Assets at FVOCI

BDO Unibank Group uses the general approach to calculate ECL for all debt instruments carried at amortized cost and FVOCI, together with loan commitments and financial guarantee contracts. The allowance for impairment is based on the ECLs associated with the PD of a financial instrument in the next 12 months, unless there has been a significant increase in credit risk since origination of the financial instrument, in such case, a lifetime ECL for the instrument is recognized. This is where significant judgment is required.

BDO Unibank Group has established a policy to perform an assessment, at the end of each reporting period, whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument (see Note 4.3.5).

(b) Evaluation of Business Model Applied in Managing Financial Instruments

BDO Unibank Group manages its financial assets based on business models that maintain adequate level of financial assets to match its expected cash outflows, largely its core deposit funding arising from customers' withdrawals and continuing loan disbursements to borrowers, while maintaining a strategic portfolio of financial assets for trading activities consistent with its risk appetite.

BDO Unibank Group developed business models which reflect how it manages its portfolio of financial instruments. BDO Unibank Group's business models need not be assessed at entity level or as a whole but shall be applied at the level of a portfolio of financial instruments (i.e., group of financial instruments that are managed together by BDO Unibank Group) and not on an instrument-by-instrument basis (i.e., not based on intention or specific characteristics of individual financial instrument).

In determining the classification of a financial instrument, BDO Unibank Group evaluates in which business model a financial instrument or a portfolio of financial instruments belong to taking into consideration the objectives of each business model established by BDO Unibank Group (e.g., held-for-trading, generating accrual income, direct matching to a specific liability) as those relate to BDO Unibank Group's investment, trading and lending strategies.

(c) Testing the Cash Flow Characteristics of Financial Assets and Continuing Evaluation of the Business Model

In determining the classification of financial assets, BDO Unibank Group assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are SPPI on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortized cost criteria. In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, BDO Unibank Group assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows).

If the resulting difference is significant, the SPPI criterion is not met. In view of this, BDO Unibank Group considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

If more than an infrequent sale is made out of a portfolio of financial assets carried at amortized cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows.

In making this judgment, BDO Unibank Group considers certain circumstances documented in its business model manual to assess that an increase in the frequency or value of sales of financial instruments in a particular period is not necessarily inconsistent with a held-to-collect business model if BDO Unibank Group can explain the reasons for those sales and why those sales do not reflect a change in BDO Unibank Group's objective for the business model.

(d) Distinction Between Investment Properties and Owner-occupied Properties

BDO Unibank Group determines whether a property qualifies as investment property. In making its judgment, BDO Unibank Group considers whether the property generates cash flows largely independent of the other assets held by BDO Unibank Group. Owner-occupied properties generate cash flows that are attributable not only to the property but also to the other resources used in the supply process.

Some properties comprise a portion that is held to earn rental or for capital appreciation and another portion that is held for use in the supply of services or for administrative purposes. If the portions can be sold separately (or leased out separately under finance lease), BDO Unibank Group accounts for those portions separately. If the portion cannot be sold separately, the property is accounted for as investment property only if insignificant portion is held for use in the supply of services or for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property. The BDO Unibank Group considers each property separately in making its judgment.

(e) Distinction Between Operating and Finance Leases for Contracts where BDO Unibank Group is the Lessor

The BDO Unibank Group has entered into various lease agreements as a lessor. Critical judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer or retention of significant risks and rewards of ownership of the properties covered by the agreements. Failure to make the right judgment will result in either overstatement or understatement of resources.

(f) Determination of Lease Term

In determining the lease term, management considers all relevant factors and circumstances that create an economic incentive to exercise a renewal option or not exercise a termination option. Renewal options and/or periods after termination options are only included in the lease term if the lease is reasonably certain to be extended or not terminated.

For leases of land and office spaces, the factors that are normally the most relevant are (i) if there are significant penalties should BDO Unibank Group pre-terminate the contract, and (ii) if any leasehold improvements are expected to have a significant remaining value, BDO Unibank Group is reasonably certain to extend and not to terminate the lease contract. Otherwise, the BDO Unibank Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

The BDO Unibank Group did not include the renewal period as part of the lease term of the land and office spaces because the terms of most of the contracts are renewable upon the mutual agreement of the parties.

The lease term is reassessed if an option is actually exercised or not or the BDO Unibank Group becomes obliged to exercise or not. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the BDO Unibank Group.

(g) Classification and Fair Value Determination of Acquired Properties

The BDO Unibank Group classifies its acquired properties as Premises, Furniture, Fixtures and Equipment if used in operations, chattels as Non-current assets held for sale (presented under Other Resources account) if expected to be recovered through sale rather than use, real properties as Investment Properties if intended to be held for capital appreciation or lease, as financial assets if qualified as such in accordance with PFRS 9 or as Other properties (presented under Other Resources account) if held for sale but the depreciable properties (other than building) are not yet disposed within certain years. At initial recognition, the BDO Unibank Group determines the fair value of the acquired properties through internally or externally generated appraisal. The appraised value is determined based on the current economic and market conditions as well as the physical condition of the properties. The BDO Unibank Group's methodology in determining the fair value of acquired properties is further discussed in Note 7.5.

(h) Assessment of Significant Influence on Entities in which BDO Unibank Group Holds Less than 20% Ownership

The management considers that the BDO Unibank Group and the Parent Bank have significant influence on NLEX Corporation even though it holds less than 20% of the ordinary shares in the latter. In making this judgment, management considered the BDO Unibank Group and the Parent Bank's voting rights, which is based on its acquired right to nominate a director in NLEX Corporation as granted in the Amended and Restated Shareholders' Agreement (ARSA).

The ARSA provides that investors shall be entitled to nominate one director for as long as it owns at least 10% of the equity of NLEX Corporation or shall be entitled to nominate two directors for as long as it owns at least 16.5% of the equity of NLEX Corporation.

Failure to make the right judgment will result in either overstatement or understatement of resources, liabilities, income and expenses.

(i) Determination of Timing of Satisfaction of Performance Obligations

The BDO Unibank Group determines that its revenues from services for account management and loan administration shall be recognized over time while all other revenue streams are recognized at point in time. In making its judgment, the BDO Unibank Group considers the timing of receipt and consumption of benefits provided by the BDO Unibank Group to the customers. As the work is performed, the BDO Unibank Group becomes entitled to payments. This demonstrates that the customers simultaneously receive and consume the benefits of the BDO Unibank Group's rendering of these retail and corporate banking services as it performs.

In determining the best method of measuring the progress of the BDO Unibank Group's rendering of aforementioned services, the management considers the output method, which uses direct measurements of the value to the customer of the services transferred to date relative to the remaining services promised as basis in recognizing revenues. Such measurements include results of performance completed to date and time elapsed.

(j) Determination of Branch Licenses Having Indefinite Useful Lives

The BDO Unibank Group's branch licenses were regarded as having indefinite useful lives considering there is no foreseeable limit to the period over which such assets are expected to generate net cash inflows for the BDO Unibank Group. The assessment of having indefinite useful lives is reviewed periodically and is updated whether events and circumstances such as the period of control over these assets and legal or similar limits on the use of these assets continue to support such assessment.

(k) Recognition of Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. Similarly, possible outflows of economic benefits to the BDO Unibank Group that do not yet meet the recognition criteria of a liability are considered contingent liabilities, hence, are not recognized in the financial statements. Judgment is exercised by management to distinguish between provisions and contingencies. Relevant disclosures are presented in Note 34.

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of resources and liabilities within the next reporting period:

(a) Estimation of Allowance for ECL

The measurement of the allowance for ECL on financial assets at amortized cost and debt instruments measured at FVOCI is an area that requires the use of significant assumptions about the future economic conditions and credit behavior (e.g., likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 4.3.5.

The carrying value of financial assets at FVOCI, Investment securities at amortized cost, Loans and Other Receivables, are financial assets at FVOCI for life insurance contracts, and the analysis of the allowance for impairment on such financial assets, are shown in Notes 10.2, 10.3, 11, 16.1 and 18, respectively.

(b) Fair Value Measurement for Financial Instruments

Management applies valuation techniques to determine the fair value of financial instruments where active market quotes are not available. Valuation techniques are used to determine fair values which are validated and periodically reviewed by management. To the extent practicable, models use observable data, however, areas such as counterparty credit risk, volatilities and correlations require management to make estimates. Changes in assumptions could affect the reported fair value of financial instruments.

The carrying values of the BDO Unibank Group's financial assets at FVTPL and financial assets at FVOCI and the amounts of fair value changes recognized during the years on those assets are disclosed in Notes 10.1, 10.2, and 16.1.

(c) Determination of Fair Value of Derivatives

The fair value of derivative financial instruments that are not quoted in an active market is determined through valuation techniques normally using the discounted cash flow model.

The value produced by a model or other valuation technique, in some instances, is adjusted to allow for a number of factors as appropriate, because valuation techniques cannot appropriately reflect all factors market participants take into account when entering into a transaction.

Valuation adjustments are recorded to allow for model risks, bid-ask spreads, liquidity risks as well as other factors. Management believes that these valuation adjustments are necessary and appropriate to fairly state financial instruments carried at fair value in the statement of financial position.

(d) Estimation of Useful Lives of Premises, Furniture, Fixtures and Equipment, Investment Properties and Other Resources

The BDO Unibank Group estimates the useful lives of premises, furniture, fixtures and equipment, investment properties and other properties, including trademark and computer software license, based on the period over which the assets are expected to be available for use. The estimated useful lives of these assets are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. Actual results, however, may vary due to changes in estimates brought about by changes in factors mentioned above.

The carrying amounts of premises, furniture, fixtures and equipment are analyzed in Note 12 while investment properties and other resources, including trademark, goodwill and branch licenses, are analyzed in Notes 14 and 17, respectively.

(e) Determination of Appropriate Discount Rate in Measuring Lease Liabilities

The BDO Unibank Group measures its lease liabilities at present value of the lease payments that are not paid at the commencement date of the lease contract. The lease payments were discounted using a reasonable rate deemed by management equal to the BDO Unibank Group's incremental borrowing rate. In determining a reasonable discount rate, management considers the term of the leases, the underlying asset and the economic environment. Actual results, however, may vary due to changes in estimates brought about by changes in such factors.

(f) Determination of Assumptions for Management's Estimation of Fair Value of Investment Properties

Investment properties are measured using the cost model. The fair value disclosed in Note 14 to the financial statements is determined by BDO Unibank Group using the discounted cash flows valuation technique which are mainly based on existing market conditions and actual transactions at each reporting period such as selling price under installment sales, expected timing of sale and appropriate discount rates. The expected selling price is determined by either an independent or internal appraiser on the basis of current appraised values of the properties or similar properties in the same location and condition (see Note 7.5).

For investment properties with appraisal conducted prior to the end of the current reporting period, management determines whether there are significant circumstances during the intervening period that may require adjustments or changes in the disclosure of fair value of those properties. A significant change in key inputs and sources of information used in the determination of the fair value disclosed for those assets may result in adjustment in the carrying amount of the assets reported in the financial statements if their fair value will indicate evidence of impairment.

(g) Determination of Realizable Amount of Deferred Tax Assets

BDO Unibank Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Significant judgment is applied by the management to determine the amount of deferred tax assets that can be recognized based on the likely timing and level of BDO Unibank Group's future taxable income. The BDO Unibank Group assessed its projected performance in determining the sufficiency of the future taxable income to support the recognition of deferred tax assets.

The carrying value of deferred tax assets, which management assessed to be utilized within the next two to three years, as of December 31, 2024 and 2023 is disclosed in Note 31.1.

(h) Impairment of Non-financial Assets

In determining value in use, management estimates the expected future cash flows from each cash-generating unit and determines the suitable interest rate in order to calculate the present value of those cash flows. Discount factors are determined individually for each cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

Except for goodwill and other intangible assets with indefinite useful lives, PAS 36, *Impairment of Assets*, requires that an impairment review be performed when certain impairment indicators are present. Though management believes that the assumptions used in the estimation of fair values reflected in the financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

Impairment losses recognized in profit or loss are disclosed in Note 18.

(i) Valuation of Post-employment Defined Benefit

The determination of BDO Unibank Group's obligation and cost of post-employment and other retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 26.2 and include, among others, discount rates, expected rate of return on plan asset and salary increase rates. A significant change in any of these actuarial assumptions may generally affect the recognized expense, other comprehensive income or losses and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment benefit obligation and expense and an analysis of the movements in the estimated present value of post-employment benefit obligation, as well as the significant assumptions in estimating such obligation are presented in Note 26.2.

(j) Recognition of Reward Points

The BDO Unibank Group provides rewards points to its banking clients and customers based on the month-to-date average daily balance they maintain in their personal current and savings accounts and credit card usages. Reward points are redeemable in a wide selection of reward categories, including travel, merchandise of third parties, reward credits and gift certificates. Certain loyalty points for credit card have no expiration date unless the credit card is cancelled but for other rewards program, unredeemed points may expire at some future date.

The BDO Unibank Group sets up a liability to cover the cost of future reward redemptions for points earned to date. The estimated liability is based upon points earned by the clients and the current cost per point of redemption. The estimated points to be redeemed are measured and adjusted based on many factors including but not limited to past redemption behavior of the clients, product type on which the points are earned and their ultimate redemption rate on the points earned to date but not yet redeemed.

The BDO Unibank Group continually evaluates its estimates for rewards based on developments in redemption patterns, cost per point redeemed and other factors. The estimated liability for unredeemed points is impacted over time by the amount of points earned and redeemed, weighted-average cost per point, redemption choices made by the clients and other membership rewards program changes. The calculation is most sensitive to changes in the estimated ultimate redemption rate. This rate is based on the expectation that a large majority of all points earned will eventually be redeemed.

The carrying value of the rewards points accrued by BDO Unibank Group are presented as part of Accrued expenses under Other Liabilities account in the statement of financial position as disclosed in Note 21.

(k) Valuation of Legal Policy Reserves

Legal policy reserves represent estimates of present value of future benefits and expenses in excess of present value of future gross premiums. These estimates are based on interest rates, mortality/morbidity tables, lapses and valuation method subject to the provisions of the Code and guidelines set by the IC.

The liability for life insurance contracts uses the discount rate as provided by the IC with other assumptions based on best estimate with regard to significant recent experience and appropriate MfAD from the expected experience. At each reporting date, these estimates are reassessed for adequacy and changes will be reflected in adjustments to the liability. The main assumptions used relate to mortality, morbidity, lapse, discount rate and expense.

For life insurance contracts, estimates are made as to the expected number of deaths and lapses for each of the years in which the BDO Unibank Group is exposed to risk. The BDO Unibank Group uses mortality tables and lapse rates subject to the guidelines set by the IC as the basis of these estimates. The estimated number of lapses, deaths, illness or injury determines the value of possible future benefits to be paid out, which will be factored into ensuring sufficient cover by reserves, which in return is monitored against current and future premiums (see Note 16.2).

(l) Fair Value Measurement of Share Options

The BDO Unibank Group estimates the fair value of the executive stock option by applying the Black-Scholes option pricing model, considering the terms and conditions on which the stock option plan was granted. The estimates and assumptions used include, among others, the option's vesting period, applicable risk-free interest rate, expected dividend yield, volatility of the BDO Unibank Group's share price, and fair value of the BDO Unibank Group's common shares. Changes in these factors can affect the fair value of stock options at grant date.

4. RISK MANAGEMENT

The BOD is responsible for establishing and maintaining a sound risk management system. The BOD assumes oversight over the entire risk management process and has the ultimate responsibility for all risks taken.

The BOD has constituted the Risk Management Committee (RMC) as the Board-Level Committee responsible for the oversight of the risk management program. Considering the importance of appropriately addressing credit risk, the BOD has also constituted the Executive Committee. The Executive Committee is responsible for approving credit-specific transactions, while the RMC is responsible for approving risk appetite levels, policies, and risk tolerance limits related to credit portfolio risk, market risk, liquidity risk, interest rate risk, operational risk (including business continuity risk, information technology (IT) risk, information security and cyber-security risk, data privacy risk, and social media risk), consumer protection risk and environmental and social risk to ensure that current and emerging risk exposures are consistent with BDO Unibank Group's strategic direction and overall risk appetite.

Within BDO Unibank Group's overall risk management system is the Assets and Liabilities Committee (ALCO), which is responsible for managing the BDO Unibank Group's statement of financial position, including the BDO Unibank Group's liquidity, interest rate and foreign exchange related risks. In addition, ALCO formulates investment and financial policies by determining the asset allocation and funding mix strategies that are likely to yield the targeted financial results.

The BDO Unibank Group operates an enterprise-wide risk management system to address the risks it faces in its banking activities. The Risk Management Group (RMG) is mandated to adequately and consistently evaluate, manage, control, and monitor the overall risk profile of the BDO Unibank Group's activities across the different risk areas, i.e., credit, market, liquidity, interest rate, and operational risks, including business continuity risk, IT risk, information security, cyber-security, and data privacy risk, to optimize the risk-reward balance and maximize return on capital. RMG also has the responsibility for recommending to the appropriate body, risk policies across the full range of risks to which the BDO Unibank Group is exposed. RMG functionally reports to the RMC.

The evaluation, analysis, and control performed by the Risk Function, in conjunction with the Risk Takers, constitute the risk management process. The risk management process is applied at three levels: the transaction level, the business unit level, and the portfolio level. This framework ensures that risks are properly identified, quantified and analyzed, in the light of its potential effect on the BDO Unibank Group's business. The goal of the risk management process is to ensure rigorous adherence to the BDO Unibank Group's standards for precision in risk measurement and reporting and to make possible, in-depth analysis of the deployment of capital and the returns that are delivered to the shareholders.

In 2024, there was no significant change on the policies and process for managing the risk and the methods used to measure the risk of the BDO Unibank Group and the Parent Bank.

4.1 Liquidity Risk

Liquidity risk is the risk that there could be insufficient funds available to repay depositors, to fulfill commitments to lend, or to meet any other liquidity commitments. The BDO Unibank Group manages liquidity risk by holding sufficient liquid assets of appropriate quality to meet funding requirements, manage and control liquidity gaps through Maximum Cumulative Outflow (MCO) limits, regular liquidity stress testing to ensure positive cashflow across all identified stress scenarios, and establishment of a Liquidity Contingency Plan, to ensure adequate liquidity under both business-as-usual and stress conditions.

The analyses of the maturity groupings of resources, liabilities and off-book items as of December 31, 2024 and 2023 in accordance with account classification of the BSP are presented in the succeeding pages. The amounts disclosed in the maturity analysis are the contractual cash flows using the primary contractual maturities or behavioral assumptions on core levels (e.g., core deposit liabilities and core deposit substitutes with maturities within one year have been classified in the more than three years category), if the latter is more relevant for purposes of profiling the liquidity gap.

The negative liquidity gap in the MCO is due to the timing difference in the contractual maturities of resources and liabilities. The MCO measures the maximum funding requirement the BDO Unibank Group may need to support its maturing obligations. To ensure that the BDO Unibank Group maintains a prudent and manageable level of cumulative negative gap, the BDO Unibank Group maintains a pool of highly liquid assets in the form of tradable investment securities. Moreover, the BOD has approved the MCO Limits which reflect the BDO Unibank Group's overall appetite for liquidity risk exposure.

This limit is reviewed every year. Compliance to MCO Limits is monitored and reported to the BOD and senior management.

In case of breach in the MCO Limit, the RMG elevates the concern to the BOD through the RMC for corrective action by senior management. Additional measures to mitigate liquidity risks include reporting of funding concentration, short-term liquidity reporting, available funding sources, and liquid assets analysis. More frequent analysis of projected funding source and requirements as well as pricing strategies is discussed thoroughly during the weekly ALCO meetings.

Pursuant to applicable BSP regulations, the BDO Unibank Group is required to maintain reserves against deposit liabilities which are based on certain percentages of deposits. The required reserves against deposit liabilities shall be kept in the form of deposits placed in the BDO Unibank Group demand deposit accounts with the BSP. The BSP also requires the BDO Unibank Group to maintain asset cover of 100% for foreign currency-denominated liabilities of its FCDU.

4.1.1 Liquidity Risk Stress

To augment the effectiveness of the BDO Unibank Group's gap analysis, the BDO Unibank Group regularly assesses liquidity risk based on behavioral and hypothetical assumptions under stress conditions. Survivability and resilience of the BDO Unibank Group are assessed for a minimum stress period of 30 days for all crisis scenarios enumerated in BSP Circular No. 981, *Guidelines on Liquidity Risk Management*. The results of these liquidity stress simulations are reported monthly to RMC.

4.1.2 Foreign Currency Liquidity Management

The liquidity risk management policies and objectives described in this section also apply to the management of any foreign currency to which the BDO Unibank Group maintains significant exposure. Specifically, the BDO Unibank Group ensures that its measurement, monitoring and control systems account for these exposures as well. The BDO Unibank Group sets and regularly reviews limits on the size of the cash flow mismatches for each significant individual currency and in aggregate over appropriate time horizons. The BDO Unibank Group also assesses its access to foreign exchange markets when setting up its risk limits.

4.2 Market Risk

The BDO Unibank Group's exposure to market risk, the risk of future loss from changes in the price of a financial instrument, relates primarily to its holdings in foreign exchange instruments, debt securities, equity securities and derivatives. The BDO Unibank Group manages its risk by identifying, analyzing and measuring relevant or likely market risks. The Market and Liquidity Risk Management Unit of the Parent Bank recommends market risk limits based on relevant activity indicators for approval by BDO Unibank Group's RMC and the BOD.

4.2.1 Foreign Exchange Risk

The BDO Unibank Group manages its exposure to effects of fluctuations in the foreign currency exchange rates by maintaining foreign currency exposure within the existing regulatory guidelines and at a level that it believes to be relatively conservative for a financial institution engaged in that type of business.

The BDO Unibank Group's net foreign exchange exposure is computed as its foreign currency resources less foreign currency liabilities. BSP regulations impose a cap of 25% of qualifying capital or US$150 million, whichever is lower, on a bank's consolidated net open foreign exchange position. The BDO Unibank Group's foreign exchange exposure is primarily limited to the day-to-day, over-the-counter buying and selling of foreign exchange in BDO Unibank Group's branches as well as foreign exchange trading with corporate accounts and other financial institutions. The BDO Unibank Group, being a major market participant in the Philippine Dealing System, may engage in proprietary trading to take advantage of foreign exchange fluctuations.

The BDO Unibank Group's foreign exchange exposure at end-of-day is guided by the limits set forth in BDO Unibank Group's Risk Management Manual. These limits are within the prescribed ceilings mandated by the BSP. At the end of each day, BDO Unibank Group reports to the BSP on its compliance with the mandated foreign currency exposure limits. In addition, it also reports to the BSP on the respective foreign currency positions of its subsidiaries. The breakdown of the financial assets and financial liabilities as to foreign and peso-denominated balances as of December 31, 2024 and 2023 is as follows.

4.2.2 Interest Rate Risk

The BDO Unibank Group prepares an interest rate gap analysis in the Banking Book to measure the sensitivity of its resources, liabilities and off-book items to interest rate fluctuations. The Banking Book is a term for resources on a bank's statement of financial position that are expected to be held to maturity, usually consisting of customer loans to and deposits from retail and corporate customers. The Banking Book can also include those derivatives that are used to hedge exposures arising from the Banking Book activity, including interest rate risk. The focus of analysis is the impact of changes in interest rates on accrual or reported earnings. This analysis would give management a glimpse of the re-pricing profile of its interest sensitive resources and liabilities in the Banking Book.

An interest rate gap report is prepared by classifying all resources and liabilities into various time buckets according to contracted maturities if fixed or anticipated repricing dates if floating, or based on behavioral assumptions if more applicable. In the interest rate gap presented, loans and investments are profiled based on next repricing if floating or contracted maturity if fixed rate while non-maturity deposit liabilities are considered non-rate sensitive. The difference in the amount of resources and liabilities maturing or being repriced in any time period category would then give BDO Unibank Group an indication of the extent to which it is exposed to the risk of potential changes in net interest income. Interest rate financial instruments (e.g., interest rate derivatives) may be used to hedge the interest rate exposures in the Banking Book. There are however, no outstanding interest rate derivatives used as hedges in the Banking Book.

The analyses of the groupings of resources, liabilities and off-book items as of December 31, 2024 and 2023 based on the expected interest realization or recognition are shown below and in the succeeding pages.

The BDO Unibank Group and the Parent Bank's market risk management limits are generally categorized as limits on:

- Value-at-risk (VaR) – The RMG computes the VaR benchmarked at a level, which is a percentage of projected earnings. The BDO Unibank Group and the Parent Bank use the VaR model to estimate the daily potential loss that the BDO Unibank Group and the Parent Bank can incur from its trading book, based on a number of assumptions with a confidence level of 99%. The measurement is designed such that exceptions over limits should only arise in very exceptional circumstances.

- Stop loss – The RMG sets the amount of each risk-bearing activity at a percentage of the budgeted annual income for such activity.

- Nominal position – The RMG sets the nominal amount to prevent over-trading, excessive concentration, and to limit financial loss supplementing other established limits.

- Trading volume – The RMG sets the volume of transactions that any employee may execute at various levels based on the rank of the personnel making the risk-bearing decision.

- Earnings-at-risk (EAR) – The RMG computes the EAR based on the repricing profile of the Banking Book and benchmarks against projected annual net interest income and capital.

VaR is one of the key measures in BDO Unibank Group and Parent Bank's management of market risk. VaR is defined as a statistical estimate of the maximum possible loss on a given position during a time horizon within a given confidence interval. The BDO Unibank Group and the Parent Bank use a 99% confidence level and a 260-day observation period in VaR calculation. The BDO Unibank Group and the Parent Bank's VaR limit is established as a percentage of projected earnings and is used to alert senior management whenever the potential losses in the BDO Unibank Group and the Parent Bank's portfolios exceed tolerable levels. Because the VaR measure is tied to market volatility, it therefore allows management to react quickly and adjust its portfolio strategies in different market conditions in accordance with its risk philosophy and appetite. The VaR model is validated through back-testing.

Although VaR is an important tool for measuring market risk, the assumptions on which the model is based do give rise to some limitations. The limitations of the VaR methodology are recognized by supplementing VaR limits with other position and sensitivity limit structures, including limits to address potential concentration risks within each trading portfolio. In addition, the BDO Unibank Group and the Parent Bank use a wide range of stress tests to model the financial impact of a variety of exceptional market scenarios on individual trading portfolios and the BDO Unibank Group and the Parent Bank's overall position. Stress VaR is also performed on all portfolios as a complementary measure of risk. While VaR deals with risk during times of normality, stress testing is used to measure the potential effect of a crisis or low probability event.

A summary of the VaR position of the trading portfolios at December 31 follows:

For the BDO Unibank Group, the earnings perspective using an EAR approach is the more relevant measure for the interest rate risks in the Banking Book given a "going concern" assumption and also because the component of earnings in focus is net interest income.

EAR is a measure of likely earnings volatility for accrual portfolios. The appropriate yield curve used is the relevant benchmark rate and the volatilities of the relevant benchmark interest rate curve are calculated similar to the method employed for VaR. The volatility calculations make use of actual pre-defined time series data, using five-years' worth of yearly changes, at the 99% confidence level. The frequency of measurement for EAR is monthly. EAR Stress Test uses 300 basis points increase in USD interest rates and 400 basis points increase in Peso interest rates.

The EAR before tax in a rising and declining interest rate scenario for financial assets and liabilities repriced during 2024 and 2023 is shown in the succeeding pages.

The BDO Unibank Group and the Parent Bank are not exposed to commodity price risk. 4.3 Credit Risk

Credit risk is the risk that the counterparty in a transaction may default and arises from lending, trade finance, treasury, derivatives and other activities undertaken by the BDO Unibank Group. RMG undertakes several functions with respect to credit risk management including credit analysis, risk ratings for corporate accounts, and development and performance monitoring of credit risk rating and scoring models for both corporate and consumer loans. It also ensures that BDO Unibank Group's credit policies and procedures are adequate to meet the demands of the business.

RMG also subjects the loan portfolio to a regular portfolio quality review, credit portfolio stress testing and rapid portfolio reviews based on specific and potential events that may affect borrowers in particular geographic locations or industries.

BDO Unibank Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers. Such risks are monitored on a regular basis and subject to an annual or more frequent review. Approval for credit limits is secured from the Credit Committee. On the industry segments, set limits and exposures are monitored and reported to the RMC.

Exposure to credit risk is managed through regular analysis of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations and by changing these lending limits when appropriate. Exposure to credit risk is also managed in part by obtaining collateral or corporate and personal guarantees.

4.3.1 Credit Risk Assessment

Loan classification and credit risk rating are an integral part of the BDO Unibank Group's management of credit risk. On an annual basis, loans are reviewed, classified as necessary, and rated based on internal and external factors that affect its performance. On a monthly basis, loan classifications of impaired accounts are assessed and the results are used as basis for the review of loan loss provisions.

The BDO Unibank Group's definition of its loan classification and corresponding credit risk ratings are as follows:

- Pass/Current : Grades AAA to B
- Watchlisted : Grade B-
- Especially Mentioned : Grade C
- Substandard : Grade D
- Doubtful : Grade E
- Loss : Grade F

Once an account is Watchlisted or Adversely Classified, the resulting risk rating grade is aligned based on the above classification.

(a) Pass/Current

These are individual credits that do not have a greater-than-normal risk and do not possess the characteristics of adversely classified loans. These are credits that have the apparent ability to satisfy their obligations in full and therefore, no loss in ultimate collection is anticipated. These are adequately secured by readily marketable collateral or other forms of support security or are supported by sufficient credit and financial information of favorable nature to assure repayment as agreed.

(b) Watchlisted

Since early identification of troublesome or potential accounts is vital in portfolio management, a "Watchlisted" classification of credit accounts is maintained. These accounts are not adversely classified but they require more than normal attention to prevent these accounts from deteriorating to said category.

(c) Adversely Classified

Past due or individually impaired financial assets comprise accounts under the following loan classification:

(i) Especially Mentioned (EM)

It is an adverse classification of loans/accounts that have potential weaknesses and deserves management's close attention. These potential weaknesses, if left uncorrected, may affect the repayment of the loan.

(ii) Substandard

Accounts classified as "Substandard" are individual credits or portions thereof, that have well-defined weakness/(es) that may jeopardize repayment/liquidation in full, either in respect of the business, cash flow or financial position, which may include adverse trends or developments that affect willingness or repayment ability of the borrower.

(iii) Doubtful

Accounts classified as "Doubtful" are individual credits or portions thereof which exhibit more severe weaknesses than those classified as "Substandard" whose characteristics on the basis of currently known facts, conditions and values make collection or liquidation highly improbable, however, the exact amount remains undeterminable as yet. Classification as "Loss" is deferred because of specific pending factors, which may strengthen the assets.

(iv) Loss

Accounts classified as "Loss" are individual credits or portions thereof, which are considered uncollectible or worthless, and of such little value that their continuance as bankable assets are not warranted although the loans may have some recovery or salvage value.

This shall be viewed as a transitional category for loans and other credit accommodations, which have been identified as requiring write-off during the current reporting period even though partial recovery may be obtained in the future.

In addition, credit portfolio review is another integral part of the BDO Unibank Group's management of credit risk. This exercise involves the conduct of periodic post approval review of individual credits whose main objective is to help monitor and maintain sound and healthy risk asset portfolio. Parameters of the credit portfolio review are structured so as to reflect both sides of the risk management equation such as credit quality and process. This function actuates the philosophy that credit quality is derived from sound risk management process. The credit quality of financial assets is managed by the BDO Unibank Group using internal credit ratings.

4.3.2 Credit Quality Analysis

This section sets out information about the credit quality of loans and other receivables, financial assets measured at amortized cost, FVOCI debt investments. Unless specifically indicated for financial assets, the amounts represent gross carrying amounts. For loan commitments and other contingent accounts, the amounts in the table, represent the amounts committed. As of December 31, 2024 and 2023, there are no POCI financial assets in both BDO Unibank Group and Parent Bank's financial statements.

The following tables show the exposure to credit risk as of December 31, 2024 and 2023 for each internal risk grade and the related allowance for ECL:

4.3.4 Collateral Held as Security and Other Credit Enhancements

The BDO Unibank Group and the Parent Bank hold collateral against credit exposures from customers in the form of mortgage interests over property, other registered securities over assets, financial collateral including deposits, debt and equity securities, and guarantees. Estimates of fair value are based on the value of collateral assessed at the time of borrowing and are updated periodically. Collateral generally is not held over from due from other banks, interbank loans and investment securities, except when securities are held as part of reverse repurchase and securities borrowing activity.

There is no significant change in the quality of the collateral and other security enhancements held against the credit exposures except for the fair value of the collaterals driven by the change in market conditions.

Estimate of the fair value of collateral and other security enhancements held against the following credit exposures as of December 31, 2024 and 2023, as follows:

The BDO Unibank Group and the Parent Bank have acquired certain properties in settlement of loan account amounting to P5,411 and P5,313, respectively, in 2024 and P3,502 and P3,445, respectively, in 2023 (see Notes 14 and 17.4).

The BDO Unibank Group's manner of disposing the collateral for impaired loans and receivables is normally through sale of these assets after foreclosure proceedings have taken place.

The general creditworthiness of a corporate and individual customer tends to be the most relevant indicator of credit quality of a loan extended to it (see Note 4.3.2). However, collateral provides additional security and the BDO Unibank Group generally requests that corporate and individual borrowers provide it. The BDO Unibank Group may take collateral in the form of a first charge over real estate, floating charges over all corporate and individual assets and other liens and guarantees.

While the BDO Unibank Group is focused on corporate and individual customers' creditworthiness, it continuously and regularly updates the valuation of collateral held against all loans to corporate and individual customers. Most frequent updating, however, is required when the loan is put on a watch list and the loan is monitored more closely. The same applies to credit-impaired loans, as the BDO Unibank Group obtains appraisals or valuation of collateral to provide input into determining the management credit risk actions.

(a) Receivable from Customers and Other Receivables

The net carrying amount of credit impaired receivables (under stages 2 and 3) and the value of identifiable collateral held against those loans and advances as of December 31, 2024 and 2023 are as follows:

	2024		2023	
	Net Carrying Amount	**Identifiable Collateral**	Net Carrying Amount	Identifiable Collateral

For each loan, the value of disclosed collateral (mainly collateral properties) is capped at the nominal amount of the loan that it is held against.

(b) Debt Investment Securities

The BDO Unibank Group and the Parent Bank invest in non-collateralized debt securities issued by various government and corporate entities. The maximum exposure to credit risk of debt investment securities is equivalent to their carrying amount as of December 31, 2024 and 2023 as shown below:

4.3.5 Amounts Arising from Expected Credit Losses

At each reporting date, BDO Unibank Group assesses whether financial assets carried at amortized cost and debt financial assets carried at FVOCI are credit-impaired (referred to as Stages 2 and 3 financial assets). A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The assessment of credit risk of a portfolio of assets entails further estimations as to the likelihood of defaults occurring, of the associated loss ratios and of default correlations between counterparties. The BDO Unibank Group measures credit risk using PD, loss given default (LGD) and exposure at default (EAD).

(a) Significant Increase in Credit Risk (SICR)

As outlined in PFRS 9, a '3-stage' impairment model was adopted by the BDO Unibank Group based on changes in credit quality since initial recognition of the financial asset. A financial asset that is not credit-impaired on initial recognition is classified as 'Stage 1', with credit risk continuously monitored by the BDO Unibank Group as its ECL is measured at an amount equal to the portion of lifetime ECL that results from possible default events within the next 12 months. If an SICR since initial recognition is identified, the classification will be moved to 'Stage 2' but is not yet deemed to be credit-impaired. Such assessment is based on the following criteria in determining whether there has been a significant increase in credit risk that could result to rescheduling or restructuring: (i) qualitative indicators, such as net losses, intermittent delays in payment, affected by adverse economic conditions; and (ii) quantitative test based on movement in risk rating and PD. The borrowers can be moved to Stage 1 upon completion of the seasoning period which shall be 6 months of continuous payment with no incident of past due.

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the BDO Unibank Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the BDO Unibank Group's historical experience and expert credit assessment and including forward-looking information (FLI).

The objective of the assessment is to identify whether an SICR has occurred for an exposure by comparing:

- the remaining lifetime PD as of the reporting date; with
- the remaining lifetime PD for this point in time that was estimated at the time of initial recognition of the exposure (adjusted where relevant for changes in prepayment expectations).

(i) Credit risk grading

The BDO Unibank Group allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of default and applying experienced credit judgment. Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

The credit grades are defined and calibrated such that the risk of default increases exponentially at each higher risk grade so, for example, the difference in the PD between an AAA and AA rating grade is lower than the difference in the PD between a B and B- rating grade.

(ii) Generating the term structure of PD

Credit risk grades are a primary input into the determination of the term structure of PD for exposures. The BDO Unibank Group collects performance and default information about its credit risk exposures analyzed by jurisdiction or region and by type of product and borrower as well as by credit risk grading. For some portfolios, information from external credit reference agencies is also used.

The BDO Unibank Group employs statistical models to analyze the data collected and generates the term structure of PD estimates.

(iii) Determining whether credit risk has increased significantly

The BDO Unibank Group assesses whether credit risk has increased significantly since initial recognition at each reporting date. Determining whether an increase in credit risk is significant depends on the characteristics of the financial instrument and the borrower. What is considered significant varies across financial assets of the BDO Unibank Group.

The credit risk may also be deemed to have increased significantly since initial recognition based on qualitative factors linked to the BDO Unibank Group's credit risk management processes that may not otherwise be fully reflected in its quantitative analysis on a timely basis. This will be the case for exposures that meet certain heightened risk criteria, such as net loss, significant drop in risk ratings and intermittent delays in payments that could result to rescheduling or restructuring.

If there is evidence that there is no longer a significant increase in credit risk relative to initial recognition, then the loss allowance on an instrument returns to being measured using 12-month ECL.

(b) Definition of Default

The BDO Unibank Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the BDO Unibank Group in full, without recourse by the BDO Unibank Group to actions such as realizing security (if any is held);

- the borrower is more than 90 days past due on any material credit obligation to the BDO Unibank Group; or,

- it is becoming probable that the borrower will restructure the asset as a result of bankruptcy due to the borrower's inability to pay its credit obligations.

In assessing whether a borrower is in default, the BDO Unibank Group considers indicators that are qualitative (e.g., breaches of covenant) and quantitative (overdue or non-payment).

Inputs into the assessment of whether a financial instrument is in default as well as their significance may vary over time to reflect changes in circumstances.

These criteria have been applied to all financial instruments held by the BDO Unibank Group and are consistent with the definition of default used for internal credit risk management purposes. Such definition has been consistently applied in determining PD, EAD, and LGD throughout the ECL calculations of the BDO Unibank Group.

An instrument is considered to have cured when it no longer meets any of the default criteria for a consecutive period of six months. The cure period sets the tolerance period wherein the borrowers are allowed to update the payments in compliance with the regulatory requirements on transfer between stages.

(c) Measurement of ECL

The key inputs into the measurement of ECL are the term structure of PD, LGD and EAD.

ECL for exposures in Stage 1 is calculated by multiplying the 12-month PD by LGD and EAD. Lifetime ECL is calculated by multiplying the lifetime PD by LGD and EAD.

The methodology of estimating PDs is discussed above under the heading 'Generating the term structure of PD.

LGD is the magnitude of the likely loss if there is a default. The BDO Unibank Group estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties. The LGD models consider the structure, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset. For loans secured by retail property, loan-to-value (LTV) ratios are a key parameter in determining LGD. LGD estimates are recalibrated for different economic scenarios and, for real estate lending, to reflect possible changes in property prices. They are calculated on a discounted cash flow basis using the effective interest rate as the discounting factor.

EAD represents the expected exposure in the event of a default. The BDO Unibank Group derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract and arising from amortization. The EAD of a financial asset is its gross carrying amount at the time of default. For lending commitments, the EADs are potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts. For financial guarantees, the EAD represents the amount of the guaranteed exposure when the financial guarantee becomes payable. For some financial assets, EAD is determined by modelling the range of possible exposure outcomes at various points in time using scenario and statistical techniques.

As described above, and subject to using a maximum of a 12-month PD for Stage 1 financial assets, the BDO Unibank Group measures ECL considering the risk of default over the maximum contractual period (including any borrower's extension options) over which it is exposed to credit risk, even if, for credit risk management purposes, the BDO Unibank Group considers a longer period. The maximum contractual period extends to the date at which the BDO Unibank Group has the right to require repayment of an advance or terminate a loan commitment or guarantee.

For portfolios in respect of which the BDO Unibank Group has limited historical data, external benchmark information (e.g., PD from external credit rating agencies, Basel LGD) issued are used to supplement the internally available data. The portfolios for which external benchmark information represents a significant input into measurement of ECL include exposures to foreign borrowers and low default borrower segments.

There were no significant changes in the estimation techniques or significant assumptions made by the BDO Unibank Group in 2024.

(d) Collective Basis of Measurement of ECL

Where modelling of a parameter is carried out on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics such as:

- instrument type;
- credit risk gradings;
- collateral type;
- LTV ratio for retail mortgages;
- date of initial recognition;
- remaining term to maturity;
- industry; and,
- geographic location of the borrower.

The groupings are subject to the regular review by the BDO Unibank Group's RMG in order to ensure that credit exposures within a particular group remain appropriately homogenous.

(e) Forward-looking Information (FLI)

The BDO Unibank Group incorporates FLI into both the assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and the measurement of ECL.

The BDO Unibank Group has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

The relevant macro-economic variables for selection generally include, but are not limited to, GDP growth rate, unemployment rate, inflation rate, foreign exchange rates, stock market index, oil prices and interest rates.

Predicted relationships between the key macro-economic indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past 10 to 15 years.

The significance of the selected macro-economic variables as predictors of default may change over time as historical information is added. As such, the generated macro-economic models are updated at least on an annual basis.

As with any economic forecasts, the projections and likelihoods of occurrence are subject to a high degree of inherent uncertainty, and therefore, the actual outcomes may be significantly different from the projections. The BDO Unibank Group considers these forecasts to represent its best estimate of the possible outcomes and has analyzed the non-linearities and asymmetries within the BDO Unibank Group different product types to establish that the chosen scenarios are appropriately representative of the range of possible scenarios.

Management has also considered other FLIs not incorporated within the above economic scenarios, such as any regulatory, legislative, or political changes, but are not deemed to have a significant impact on the calculation of ECL. Management reviews and monitors the appropriateness of FLIs at least annually.

(f) Modified Financial Assets

The contractual terms of a loan may be modified for a number of reasons, including changing market conditions, customer retention and other factors not related to a current or potential credit deterioration of the customer.

When the terms of a financial asset are modified and the modification does not result in derecognition, the determination of whether the asset's credit risk has increased significantly reflects comparison of:

- its remaining lifetime PD at the reporting date based on the modified terms; with
- the remaining lifetime PD estimated based on data on initial recognition and the original contractual terms.

When modification results in derecognition, a new loan is recognized and allocated to Stage 1 (assuming it is not credit-impaired at that time).

The BDO Unibank Group renegotiates loans of customers in financial difficulties (referred to as 'restructuring') to maximize collection opportunities and minimize the risk of default.

The revised terms usually include extending the maturity, deferment of principal payment, changing the timing of interest payments and amending the terms of loan covenants. The proposals for loan restructuring are for approval by the BDO Unibank Group's Executive Committee.

For financial assets modified as part of the BDO Unibank Group's restructuring policy, the estimate of credit loss will reflect the probability to collect interest and principal. As part of this process, the BDO Unibank Group evaluates the borrower's payment performance against the modified contractual terms and considers various behavioral indicators.

Generally, restructuring is a qualitative indicator of an SICR and an expectation of forbearance may constitute evidence that an exposure is credit-impaired (see Note 4.3.2). A customer needs to demonstrate consistently good payment behavior over a period of time (in accordance with the new terms for six consecutive months or more) before the exposure is no longer considered to be credit-impaired/in default or the PD is considered to have decreased such that the loss allowance reverts to being measured at an amount equal to Stage 1.

The following tables provide a summary of the outstanding principal balance net of allowance for impairment of modified loans provided by the BDO Unibank Group and the Parent Bank as of December 31, 2024 and 2023:

(g) Write-offs

The BDO Unibank Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery of the financial asset. Indicators that there is no reasonable expectation of recovery include cessation of enforcement activity and, where the BDO Unibank Group's recovery method is through foreclosure of collateral and the value of the collateral is less than the outstanding contractual amounts of the financial assets to be written-off. The BDO Unibank Group and the Parent Bank have still, however, enforceable right to receive payment even if the financial assets have been written off except in certain cases.

The BDO Unibank Group and the Parent Bank had written off certain accounts from which it no longer has an enforceable right to receive payment amounting to P289 and P253, respectively, in 2024, and P306 and P279, respectively, in 2023.

Cash equivalents includes loans with amounts due from BSP and from other banks. Debt securities includes government and corporate bonds. These are held by the BSP, financial institutions and other counterparties that are reputable and with low credit risk; hence, ECL is negligible.

(i) Loss allowance

In 2024 and 2023, the BDO Unibank Group and the Parent Bank performed a recalibration of its existing ECL model to incorporate the most-recent default and recovery experience of the BDO Unibank Group and the Parent Bank and developments in the macroeconomic environment. Independent macroeconomic variables used to forecast the PD could either be dictated by their statistical significance in the model or economic significance. Inputs are updated to ensure that models are robust, predictive and reliable.

The tables below and in the succeeding pages show the reconciliation from the opening to the closing balance of the loss allowance by class of financial instrument.

4.4 Operational Risk

Operational risk is the risk of loss due to the BDO Unibank Group's:

- failure to comply with defined operational procedures;
- inability to address fraud committed internally or externally;
- inability to handle system failures; and,
- inability to cope with the impact of external events.

The BDO Unibank Group manages its operational risks by instituting policies to minimize its expected losses, allocating capital for the unexpected losses and having insurance and/or a business continuity plan to prepare for catastrophic losses.

Framework

True to its commitment to sound management and corporate governance, the BDO Unibank Group considers operational risk management as a critical element in the conduct of its business. Under BDO Unibank Group's Operational Risk Management (ORM) framework, the BOD has the ultimate responsibility for providing leadership in the management of operational risk in BDO Unibank Group.

The RMG provides the common risk language and management tools across the BDO Unibank Group as well as monitors the implementation of the ORM framework and policies. The business process owners, as risk owners, are responsible for identifying, assessing and limiting the impact of risk in their businesses/operations.

The BDO Unibank Group continues to conduct periodic Risk and Control Self-Assessment (RCSA) so that business process owners could document both their operational risks and control mechanisms they have put in place to manage those risks. This ORM tool allows the BDO Unibank Group to identify risks the business/operation faces, assess the severity of those risks, evaluate the adequacy of key controls associated to the identified risks, and take proactive action to address any deficiencies identified.

The BDO Unibank Group also continues to use Key Risk Indicators (KRI) as alerts for operational risk vulnerabilities. Reporting of top KRIs to the BOD through the RMC is done quarterly.

The BDO Unibank Group likewise uses Loss Data Collection, Analysis and Reporting that allows the BDO Unibank Group to gather data per Basel loss event category across business lines. The collected data are processed for information and appropriate escalation, root cause analysis, control effectiveness and enables action plans to prevent recurrence.

These ORM tools are continually being reviewed and enhanced to proactively manage operational risks. The Operational Risk Management Solution (ORMS) was implemented to automate the reporting of BDO Unibank Group's RCSAs, KRIs and operational losses. The bank-wide information asset inventory is regularly reviewed to address operational risks arising from information security concerns. The inventory identified critical applications and sensitive data based on the BDO Unibank Group's classification standards, information risks, as well as protection measures in place to mitigate these risks. Under the purview of information security is data privacy. The BDO Unibank Group's data privacy framework is in accordance with the R.A. No. 10173, *Data Privacy Act of 2012*.

Information technology risks which include current and prospective negative impact to earnings arising from failure of IT systems and realization of cyber security threats are appropriately managed through policies and measures that are integrated into BDO Unibank Group's day-to-day operations.

Operational risks arising from health, safety and environmental issues are appropriately managed through policies and measures that are integrated into BDO Unibank Group's Day-to-day operations. These include Environmental Consciousness, Occupational Health and Safety, and Community Health and Safety.

The BDO Unibank Group continues to review its preparedness for major disaster scenarios and implements required changes in its Business Continuity Plan.

4.5 Insurance Risk

The risk under an insurance contract is the risk that an insured event will occur, including the uncertainty of the amount and timing of any resulting claim. The principal risk the BDO Unibank Group faces under such contracts is that the actual claims and benefits payments exceed the carrying amount of insurance liabilities. This is influenced by the frequency of claims, severity of claims, actual benefits paid are greater than originally estimated, and subsequent development of long-term claims.

(a) Terms and Conditions

The BDO Unibank Group principally writes life insurance where the life of the policyholder is insured against death, illness, injury or permanent disability, usually for a predetermined amount. Life insurance contracts offered by the BDO Unibank Group mainly include whole life, term insurance, endowments, VUL products, group life insurance, and accident and health insurance.

(b) Underwriting risk

Underwriting risk represents the exposure to loss resulting from actual policy experience adversely deviating from assumptions made in the product pricing. Underwriting risks are brought about by a combination of the following:

- Mortality risk – risk of loss arising from the policyholder's death experience being higher than expected.
- Morbidity risk – risk of loss arising from the policyholder's health experience being higher than expected.
- Expense risk – risk of loss arising from expense experience being higher than expected.

- Policyholder decision risk - risk of loss arising due to policyholder experiences (lapses and surrenders) being different than expected.

Underwriting guidelines and limits for insurance and reinsurance contracts are regularly monitored for compliance and updated to reflect current requirements. To further control the underwriting risks, the BDO Unibank Group's Actuarial Department regularly assesses the adequacy of the insurance premiums and technical provisions. The risks of defaults by reinsurers are mitigated as the BDO Unibank Group only deals with accredited reinsurers. Additionally, provisions for known and unknown liabilities arising from the BDO Unibank Group's commitments are calculated using prudent actuarial methods.

The main underwriting strategies of the BDO Unibank Group to control risk are the use of reinsurance and the controlled granting of non-medical authority (NMA) to the sales force. The NMA is being given only to members of the sales force who either qualify by virtue of field experience or by passing a certain underwriting and training program. Actual experience is closely monitored and corrective actions are executed whenever necessary.

The BDO Unibank Group utilizes surplus reinsurance programs to manage its mortality risk from large fluctuations in claim experience.

4.6 Anti-Money Laundering Controls

The Anti-Money Laundering (AML) Program of the BDO Unibank Group and the Parent Bank is articulated in the Board-approved Money Laundering, Terrorist Financing and Proliferation Financing Prevention Program (MTPP) Manual. The MTPP encapsulates the policies and procedures covering the: (i) on-boarding of clients, Know Your Client and required due diligence; (ii) customer risk assessment; (iii) on-going monitoring of clients and their transactions; (iv) regulatory reporting; (v) record-keeping; (vi) training of all officers and staff including the BOD; (vii) Independent Compliance Testing (ICT); and, (viii) Institutional Risk Assessment.

For AML transaction monitoring and end-to-end AML investigation, the Parent Bank has made substantial investments in a robust AML Solution (SAS EAML 8.2) that continues to be deployed in phases in the Parent Bank, and in a similar fashion across the enterprise. This system also facilitates the preparation and filing of regulatory reports required under the AMLC Registration and Reporting Guidelines (ARRG), and will be further enhanced to ensure compliance with the recently issued AMLC Guidelines on Transaction Reporting and Compliance Submissions (GoTRACS).

The Chief Compliance Officer directly reports to the BOD through the Board Audit Committee and is also a member of the AML Committee of the Parent Bank. The AML Committee, composed of senior officers from various units, is tasked to oversee the operational implementation of BDO's AML/CTF/ CPF Program.

5. CAPITAL MANAGEMENT

5.1 Capital Management and Regulatory Capital

The Internal Capital Adequacy Assessment Process (ICAAP) document, as required by the BSP, articulates BDO Unibank Group's capital planning strategy and discusses governance, risk assessment, capital assessment and planning, capital adequacy monitoring and reporting, as well as internal control reviews. The Bank likewise incorporates sensitivity analysis and contingency planning, and has set benchmarks that will trigger management action when necessary. Annually as required, BDO Unibank Group submits its updated ICAAP to the BSP.

In implementing current capital requirements, the BSP requires BDO Unibank Group to maintain a prescribed ratio of qualifying capital to risk-weighted assets.

The BSP has adopted the Basel 3 risk-based capital adequacy framework effective January 1, 2014, which was amended on January 1, 2019, which requires BDO Unibank Group to maintain:

(a) Common Equity Tier 1 (CET 1) of at least 6.0% of risk-weighted assets;
(b) Tier 1 Capital of at least 7.5% of risk-weighted assets;
(c) Qualifying Capital (Tier 1 plus Tier 2 Capital) of at least 10.0% of risk-weighted assets;
(d) Capital Conservation Buffer of 2.5% of risk-weighted assets, comprised of CET 1 Capital; and,
(e) Countercyclical Capital Buffer (CCyB) of 0% subject to upward adjustment to a rate determined by the Monetary Board when systemic conditions warrant but not to exceed 2.5%.

The regulatory capital is analyzed as CET 1 Capital, Additional Tier 1 Capital and Tier 2 Capital, each adjusted for prescribed regulatory deductions.

Risk assets consist of total assets after exclusion of cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items as determined by the Monetary Board of the BSP.

BDO Unibank Group's policy is to maintain a strong capital base to promote investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on shareholder's return is also recognized and BDO Unibank Group recognizes the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

Under BSP Circular No. 854, universal banks with more than 100 branches are required to comply with the minimum capital requirement of P20 billion. As of December 31, 2024 and 2023, the Parent Bank has complied, and is well above the minimum capitalization requirement.

BSP issued Circular No. 856 on the guidelines on the framework for dealing with domestic systemically important banks (DSIB) that is consistent with the Basel principles, as amended by BSP Circular No. 1051 dated September 27, 2019. Banks, which are identified as DSIB, shall be required to have a higher loss absorbency (HLA) depending on their computed systemic importance. The HLA requirement is aimed at ensuring that DSIBs have a higher share of their statements of financial position funded by instruments, which increase their resilience as a going concern. The HLA requirement is to be met with CET 1 capital.

Under BSP Circular No. 1051, banks identified by the BSP as DSIB are required to put up lower HLA to meet the CET 1 capital ranging from 1.50% to 2.50%, effective October 17, 2019.

BSP Circular No. 1024 requires banks to put up a CCyB, which is set initially at 0%, composed of CET 1. CCyB may be subject to upward adjustment to a rate determined by the Monetary Board when systemic conditions warrant but not to exceed 2.5%. This took effect on January 4, 2019.

5.2 Leverage Ratio

On June 9, 2015, the BSP issued Circular No. 881, *Implementing Guidelines on the Basel III Leverage Ratio Framework*, which provides the implementing guidelines on the leverage ratio framework designed to act as a supplementary measure to the risk-based capital requirements. It sets out a minimum leverage ratio of 5.00% and shall be complied with at all times.

The Basel III leverage ratio is defined as the ratio of capital measure (Tier 1 Capital) and the exposure measure which include on-balance sheet, derivatives and securities financing transactions exposures and off-balance sheet items.

The BDO Unibank Group and the Parent Bank's Basel III Leverage Ratio (BLR) have been stable and are comfortably above the regulatory floor as reported to the BSP:

	BDO Unibank Group			Parent Bank		
	2024	2023	2022	**2024**	2023	2022
BLR	**10.3%**	9.9%	9.8%	**9.9%**	9.4%	9.4%

5.3 Liquidity Coverage Ratio and Net Stable Funding Ratio

On March 10, 2016, the BSP issued Circular No. 905, *Implementation of Basel III Framework on Liquidity Standards - Liquidity Coverage Ratio and Disclosure Standards*, which provides the implementing guidelines on liquidity coverage ratio (LCR) and disclosure standards that are consistent with the Basel III framework. Circular No. 905 requires the BDO Unibank Group to maintain available High Quality Liquid Assets (HQLA) to meet anticipated net cash outflows for a 30-day period under stress conditions. The BDO Unibank Group has fully complied with the LCR minimum requirement of 100% coverage effective January 1, 2019.

To strengthen the BDO Unibank Group's short-term liquidity position and as a defense against potential onset of liquidity stress, it maintains adequate stock of unencumbered HQLAs that consists of cash or assets that can be freely converted into cash at little or no loss of value in private markets.

The BDO Unibank Group and the Parent Bank's LCR as of December 31, 2024, 2023, and 2022 have been stable and are comfortably above the regulatory floor as summarized below.

	BDO Unibank Group			Parent Bank		
	2024	2023	2022	**2024**	2023	2022
LCR	**132.1%**	123.2%	140.7%	**134.1%**	123.5%	141.2%

Net Stable Funding Ratio (NSFR), as detailed in BSP Circular No. 1007, *Implementing Guidelines on the Adoption of the Basel III Framework on Liquidity Standards - Net Stable Funding Ratio*, is an assessment of the level of sustainable funding required to reduce funding risk over a one-year time horizon. The NSFR complements the LCR, which promotes short-term resilience of the BDO Unibank Group's liquidity profile. The BDO Unibank Group has fully complied with the NSFR minimum requirement of 100% coverage effective January 1, 2019.

To promote long-term resilience against liquidity risk, the BDO Unibank Group maintains a stable funding profile in relation to the composition of its assets and off-balance sheet activities and seeks to meet this objective by limiting overreliance on short-term wholesale funding and promoting enhanced assessment of funding risk across all on- and off-balance sheet accounts.

The BDO Unibank Group and the Parent Bank's Basel III NSFR as of December 31, 2024, 2023 and 2022 have been stable and are comfortably above the regulatory floor as summarized below.

	BDO Unibank Group			Parent Bank		
	2024	2023	2022	**2024**	2023	2022
NSFR	**122.1%**	124.1%	123.9%	**122.1%**	123.8%	123.5%

6. SEGMENT REPORTING

6.1 Business Segments

BDO Unibank Group's main operating businesses are organized and managed separately according to the nature of services provided and the different markets served, with each segment representing a strategic business unit. These are also the basis of BDO Unibank Group in reporting to its chief operating decision-maker for its strategic decision-making activities.

Management currently identifies BDO Unibank Group's five service lines as primary operating segments. In addition, minor operating segments, for which quantitative thresholds have not been met, as described in PFRS 8, *Operating Segments*, are combined as Others.

(a) ***Commercial banking*** – handles the entire lending (corporate and consumer), trade financing and cash management services for corporate and retail customers;

(b) ***Investment banking*** – provides services to corporate clients outside the traditional loan and deposit products. These services include loan syndications, underwriting and placing of debt and equity securities, financial advisory services, and securities brokerage;

(c) ***Private banking*** – provides traditional and non-traditional investment and structured products to high net worth individuals and institutional accounts;

(d) ***Leasing and financing*** – provides direct leases, sale and leaseback arrangements and real estate leases;

(e) ***Insurance*** – engages in insurance brokerage and life insurance business by providing protection, education, savings, retirement and estate planning solutions to individual and corporate clients through life insurance products and services; and,

(f) ***Others*** – includes remittance, holding, and realty management, none of which individually constitutes a separate reportable segment.

These segments are the basis on which BDO Unibank Group reports its segment information. Transactions between the segments are on normal commercial terms and conditions. Inter-segment transactions are eliminated in consolidation.

Funds are ordinarily allocated between segments, resulting in funding cost transfers disclosed in operating income. Interest charged for these funds is based on BDO Unibank Group's cost of capital. There are no other material items of income or expense between the segments.

Segment assets and liabilities comprise operating assets and liabilities including items such as taxation and borrowings.

Segment revenues and expenses that are directly attributable to primary operating segment and the relevant portions of BDO Unibank Group's revenues and expenses that can be allocated to that operating segment are accordingly reflected as revenues and expenses of that operating segment. Revenue sharing agreements are used to allocate external customer revenues to a segment on a reasonable basis.

There have been no significant changes from prior periods in the measurement methods used to determine reported segment information.

7.2 Fair Value Hierarchy

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and financial liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS Accounting Standards, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,

- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or financial liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When BDO Unibank Group uses valuation technique, it maximizes the use of observable market data where it is available and relies as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

7.3 Financial Instruments Measured at Fair Value

The financial assets and financial liabilities as of December 31, 2024 and 2023 are grouped into the fair value hierarchy as presented in the succeeding pages.

Unquoted equity securities consist of preferred and common shares of various unlisted local companies.

There have been no significant transfers among Levels 1 and 2 in the reporting periods.

Discussed below and in the succeeding page is the information about how fair values of the BDO Unibank Group and the Parent Bank's classes of financial assets are determined.

(a) Equity securities

(i) Quoted equity securities classified as financial assets at FVTPL or financial assets at FVOCI have fair values that were determined based on their closing prices on the PSE. These instruments are included in Level 1.

Financial assets at FVTPL included in Level 2 pertain to investments in Unit Investment Trust Funds (UITFs). The fair value of these financial assets were derived using the net asset value per unit (computed by dividing the net asset value of the fund by the number of outstanding units at the end of the reporting period), as published by banks and the Investment Company Association of the Philippines.

Golf club shares classified as financial assets at FVOCI are included in Level 2 as their prices are not derived from market considered as active due to lack of trading activities among market participants at the end or close to the end of the reporting period.

(ii) Unquoted equity securities consist of preferred shares and common shares of various unlisted local companies. For unquoted preferred shares, the fair value is determined based on their discounted amount of estimated future cash flows expected to be received or paid, or based on their cost which management estimates to approximate their fair values. Further, unlisted common share which are classified as financial assets at FVOCI securities, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument. These instruments are included in Level 3.

(b) Debt securities

The fair value of the debt securities of BDO Unibank Group and the Parent Bank, which are categorized within Level 1 and Level 2, is discussed below.

(i) Fair values of peso-denominated government debt securities issued by the Philippine government, are determined based on the reference price per Bloomberg which used Bloomberg Valuation (BVAL). These BVAL reference rates are computed based on the weighted price derived using an approach based on a combined sequence of proprietary BVAL algorithms of direct observations or observed comparables.

(ii) For corporate and other quoted debt securities, fair value is determined to be the current mid-price, which is computed as the average of ask and bid prices as appearing on Bloomberg.

(c) Derivatives

The fair values of Republic of the Philippines (ROP) warrants which are categorized within Level 1, is determined to be the current mid-price based on the last trading transaction as defined by third-party market makers. The fair value of other derivative financial instruments, which are categorized within Level 2, is determined through valuation techniques using the net present value computation [see Note 3.2(c)].

For financial assets and financial liabilities, management considers that the carrying amounts of those short-term financial instruments approximate their fair values. The following are the methods used to determine the fair value of financial assets and financial liabilities presented in the statements of financial position at their amortized cost.

(a) Cash and Other Cash Items

Cash consists primarily of funds in the form of Philippine currency notes and coins in the BDO Unibank Group and the Parent Bank's vault and those in the possession of tellers, including automated teller machines (see Note 8).

Other cash items includes cash items other than currency and coins on hand (see Note 17) such as checks drawn on the other banks or other branches that were received after the BDO Unibank Group and the Parent Bank's clearing cut-off time until the close of the regular banking hours. Carrying amounts approximate fair values in view of the relatively short-term maturities of these instruments.

(b) Due from BSP and Other Banks

Due from BSP pertains to deposits made by BDO Unibank Group to the BSP for clearing and reserve requirements. The fair value of floating rate placements and overnight deposits is their carrying amount. The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity, which for short-term deposits approximate the nominal value.

(c) Investment Securities at Amortized Cost

The fair value of investment securities at amortized cost is determined based on the reference price per Bloomberg which used Bloomberg Valuation (BVAL). These BVAL reference rates are computed based on the weighted price derived using an approach based on a combined sequence of proprietary BVAL algorithms of direct observations or observed comparables. For corporate and other quoted debt securities, fair value is determined to be the current mid-price, which is computed as the average of ask and bid prices as appearing on Bloomberg; hence categorized as Level 1 or Level 2.

(d) Loans and Other Receivables

Loans and other receivables are net of provisions for impairment. The estimated fair value of loans and receivables represents the discounted amount of estimated future cash flows expected to be received. Expected cash flows are discounted at current market rates to determine fair value.

(e) Deposits and Borrowings

The estimated fair value of demand deposits with no stated maturity, which includes noninterest-bearing deposits, is the amount repayable on demand. The estimated fair value of long-term fixed interest-bearing deposits is based on discounted cash flows using interest rates for new debts with similar remaining maturity. The fair value of Bills Payable under Level 2 is computed based on the average of ask and bid prices as appearing on Bloomberg. For Bills Payable categorized within Level 3, the BDO Unibank Group and the Parent Bank classify financial instruments that have no quoted prices or observable market data where reference of fair value can be derived; hence, fair value is determined based on their discounted amount of estimated future cash flows expected to be received or paid, or based on their cost which management estimates to approximate their fair values.

(f) Other Resources and Liabilities

Due to their short duration, the carrying amounts of other resources and liabilities in the statements of financial position are considered to be reasonable approximation of their fair values.

The fair value of the investment properties of the BDO Unibank Group and the Parent Bank as of December 31, 2024 and 2023 (see Note 14) was determined on the basis of a valuation carried out on the respective dates by either an independent or internal appraiser having appropriate qualifications and recent experience in the valuation of properties in the relevant locations. To some extent, the valuation process was conducted by the appraisers in discussion with the management of the BDO Unibank Group and the Parent Bank with respect to determination of the inputs such as size, age and condition of the land and buildings and the comparable prices in the corresponding property location.

In estimating the fair value of the properties, management takes into account the market participant's ability to generate economic benefits by using the assets in its highest and best use. Based on management's assessment, the best use of the investment properties of the BDO Unibank Group and the Parent Bank indicated above is their current use. The fair value discussed above as determined by the appraisers were used by the BDO Unibank Group and the Parent Bank in determining the fair value of investment properties and non-current assets held for sale.

The fair value of these investment properties and assets held for sale was determined based on the following approaches:

(a) Fair Value Measurement for Land

The Level 3 fair value of land was derived using the observable recent prices of the reference properties, which were adjusted for differences in key attributes such as property size, zoning and accessibility. The most significant input into this valuation approach is the price per square foot; hence, the higher the price the higher the fair value. On the other hand, if fair value of the land was derived using the market comparable approach that reflects the recent transaction prices for similar properties in nearby locations, fair value is included in Level 2. Under this approach, when sales prices of comparable land in close proximity are used in the valuation of the subject property, minor adjustments on the price is made to consider peculiarities of the property with that of the benchmark property.

(b) Fair Value Measurement for Buildings and Improvements

The Level 3 fair value of the buildings and improvements was determined using the replacement cost approach that reflects the cost to a market participant to construct an asset of comparable usage, constructions standards, design and lay-out, adjusted for obsolescence. The more significant inputs used in the valuation include direct and indirect costs of construction such as but not limited to, labor and contractor's profit, materials and equipment, surveying and permit costs, electricity and utility costs, architectural and engineering fees, insurance and legal fees. These inputs were derived from various suppliers and contractor's quotes, price catalogues, and construction price indices. Under this approach, higher estimated costs used in the valuation will result in higher fair value of the properties.

(c) Fair Value Measurement for Assets Held for Sale

The fair value of assets held for sale is determined based on the recent experience in the valuation of similar properties. The fair value, determined under Level 3 measurement, was derived using the market data approach that reflects that recent transaction prices for similar properties, adjusted for differences in property age and condition.

There has been no change to the valuation techniques used by BDO Unibank Group during the year for its non-financial assets. Further, there were no transfers into or out of Level 3 fair value hierarchy in 2024 and 2023.

Under BSP rules, investments in premises, furniture, fixtures and equipment should not exceed 50.00% of a bank's unimpaired capital. As of December 31, 2024 and 2023, the BDO Unibank Group and the Parent Bank have complied with this requirement.

Certain fully depreciated premises, furniture, fixtures and equipment as of December 31, 2024 and 2023 are still being used in operations with acquisition costs amounting to P10,228 and P11,147, respectively, in the BDO Unibank Group's financial statements and P9,851 and P9,348, respectively, in the Parent Bank's financial statements.

On March 9, 2023, the Parent Bank recorded the derecognition of fully depreciated BDO Corporate Tower located in Makati City with a total cost amounting to P2,907.

13. LEASES

The BDO Unibank Group and the Parent Bank have leases for certain land and building. With the exception of short-term leases and leases of low-value underlying assets, each lease is reflected as a Right-of-use asset under Premises, Furniture, Fixtures and Equipment (see Note 12) and a Lease liability under Other Liabilities (see Note 21) on the statements of financial position.

Each lease generally imposes a restriction that, unless there is a contractual right for the BDO Unibank Group and the Parent Bank to sublet the asset to another party, the right-of-use asset can only be used by the BDO Unibank Group. Leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee. The BDO Unibank Group and the Parent Bank are prohibited from selling or pledging the underlying leased assets as security.

For leases over land and office spaces, the BDO Unibank Group and the Parent Bank must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Further, the BDO Unibank Group and the Parent Bank must insure the leased assets and incur maintenance fees on such items in accordance with the lease contracts.

The tables below describe the nature of BDO Unibank Group and the Parent Bank's leasing activities by type of right-of-use asset.

13.2 Lease Liabilities

Lease liabilities amounting to P14,001 and P13,034 as of December 31, 2024 and 2023, respectively, for the BDO Unibank Group and P13,215 and P12,807, as of December 31, 2024 and 2023, respectively, for the Parent Bank are presented in the statements of financial position as part of Other Liabilities (see Note 21).

The use of extension and termination options gives the BDO Unibank Group and the Parent Bank added flexibility in the event that it has identified more suitable premises in terms of cost and/or location or determined that it is advantageous to remain in a location beyond the original lease term. An option is only exercised when consistent with the BDO Unibank Group and the Parent Bank's regional markets strategy and the economic benefits of exercising the option exceeds the expected overall cost. As of December 31, 2024, the terms of the lease contracts of the BDO Unibank Group and the Parent Bank are renewable upon mutual agreement of the parties.

The lease liabilities are secured by the related underlying assets. The undiscounted maturity analyses of lease liabilities are as follows:

16.2.1 Key Assumptions

Material judgment is required in determining the liabilities and in the choice of assumptions relating to insurance contracts. The liability for life insurance contracts uses the discount rate as provided by the IC with other assumptions based on best estimate with regard to significant recent experience and appropriate margins for adverse deviations from the expected experience. Assumptions are further evaluated on a continuous basis in order to ensure adequacy of valuations. Assumptions are subject to the provisions of the Code and guidelines set by the IC.

16.2.2 Liability Adequacy Test

To test the adequacy of the statutory reserve liability, the present value of the current estimates of future cash flows is calculated without margins for adverse deviations and compared to the booked statutory reserve liability. The test for adequacy is sensitive to the following key assumptions.

(a) *Mortality rates.* Assumptions are based on standard industry and morbidity tables, according to the type of contract written and adjusted, if appropriate, to reflect the BDO Unibank Group's own experiences. The 2017 Philippine Intercompany Mortality Table was chosen as an appropriate base table used in projecting death claims. Higher mortality and morbidity rates would lead to a larger number of claims, increasing the benefit payments and reducing profits for the shareholders.

(b) *Discount rates.* The discount rate affects the calculated present value of the cash flows. The estimate is based on current market returns as well as expectations about future economic and financial developments. A decrease in the discount rate will increase the present value of the cash flows. The discount rate used in the LAT is 5.50% for Peso and 5.00% for Dollar in 2024, and 5.50% for Peso and 5.00% for Dollar in 2023.

(c) *Expense assumptions.* The expense assumptions are based on the BDO Unibank Group's actual current expense experience as determined by an expense study. Future expense assumptions are projected based on the BDO Unibank Group's expense forecasts.

(d) *Lapse and surrender rates.* The lapse and surrender rates assumed vary by product type and policy duration. These assumptions are based on the BDO Unibank Group's experience.

Reinsurers' share of liabilities is recorded as part of Others Resources under Investment Securities and Other Assets for Life Insurance Contracts - Net in the BDO Unibank Group's statements of financial position.

17.1 Deferred Charges

Deferred charges represent the unamortized portion of loan origination fees, which consist of commission and other fees related to auto loans, presented as part of Receivables from customers - Loans and discounts account under Loans and Other Receivables in the statements of financial position (see Note 11). In addition, this account also includes origination costs related to Long-term Negotiable Certificate of Deposits (LTNCD) presented as part of Time deposit liabilities under Deposit Liabilities account in the statements of financial position (see Note 19). This also includes originating costs related to Fixed Rate Bonds, Bills Payable and Senior Notes (see Note 20).

17.2 Goodwill

Goodwill represents the excess of the cost of acquisition of the Parent Bank over the fair value of the net assets acquired at the date of acquisition and relates mainly to business synergy for economics of scale and scope. This is from the acquisition of BDO Card Corporation, United Overseas Bank Philippines (UOBP), American Express Bank, Ltd., GE Money Bank, Rural Bank of San Juan, Inc., BDO RIH, BDO Network and Rural Bank of Pandi, Inc., which were acquired in 2005, 2006, 2007, 2009, 2012, 2013, 2015 and 2019, respectively.

The reconciliation of the carrying amount of goodwill (net of allowance for impairment) of the BDO Unibank Group and the Parent Bank is as follows:

	BDO Unibank Group		Parent Bank	
	2024	2023	**2024**	2023
Balance at beginning of year	**P 4,535**	P 4,535	**P 1,391**	P 1,391
Allowance for impairment	**(1,514)**	(1,514)	**(1,391)**	(1,391)
Carrying amount	**P 3,021**	P 3,021	**P -**	P -

In 2024 and 2023, there was no movement for the goodwill account of the Parent Bank, which was already provided with full allowance.

Significant portion of goodwill of the BDO Unibank Group pertains to the goodwill from acquisition of BDO Network amounting to P2,907.

The BDO Unibank Group and the Parent Bank provided impairment losses on some of its goodwill as it does not expect any economic benefit from this asset in the succeeding periods since the branch business grew as a result of the efforts and brand of the Parent Bank and is not a result of the customers of the previous banks acquired. The recoverable amount used to determine any impairment on the goodwill from acquisition of BDO Network was based on value-in-use computed through discounting the five-year cash flow projection to be realized by the acquired entity, which do not include restructuring activities that the BDO Unibank Group is not yet committed to or significant future investments that will enhance the asset base of the cash-generating unit being tested.

The calculation of value-in-use is most sensitive to the following assumptions:

(a) *Discount rate.* Discount rates reflect the current market assessment of the risks and are estimated based on the weighted average cost of capital. The rates are further adjusted to reflect the market assessment of any risk specific to the cash-generating unit for which future estimates of cash flows have not been adjusted. The discount rates applied to cash flow projections in 2024 and 2023 are 5.42% and 5.50%, respectively.

(b) *Total income growth rate.* The growth rates used to extrapolate cash flow projections range from 12.56% to 14.53% in 2024 and 10.67% to 17.89% in 2023. Total income forecasts to calculate the cash flow projections are the management's best estimates after considering factors affecting growth target projection on salary loans and micro, small and medium enterprises loans offered by BDO Network.

Management assessed that no reasonably possible change in discount rates and growth rates would cause the carrying value of goodwill in 2024 and 2023 to materially exceed its recoverable amount.

The BDO Unibank Group did not recognize any impairment loss in 2024, 2023 and 2022.

17.3 Branch Licenses

Branch licenses represent the rights granted by the BSP to the Parent Bank to establish certain number of branches as an incentive in acquiring The Real Bank (A Thrift Bank), Inc. and Banco De Oro Savings Bank, Inc. in addition to the current branches of the acquired banks. The Parent Bank performs annual impairment testing of branch licenses.

The recoverable amount used to determine any impairment on the branch licenses was based on value-in-use computed through discounting the five-year cash flow projection, which does not include restructuring activities that the BDO Unibank Group is not yet committed to or significant future investments that will enhance the asset base of the cash-generating unit being tested.

The calculation of value-in-use is most sensitive to the following assumptions:

(a) *Discount rate.* Discount rates reflect the current market assessment of the risks and are estimated based on the weighted average cost of capital. The rates are further adjusted to reflect the market assessment of any risk specific to the cash-generating unit for which future estimates of cash flows have not been adjusted. The discount rates applied to cash flow projections in 2024 and 2023 are 6.10% and 6.33%, respectively.

(b) *Compound annual growth rate.* The growth rates used to extrapolate cash flow projections are 9.44% in 2024 and 8.64% in 2023. The growth rates are based on the total assets of the Parent Bank for the last five years.

Management assessed that no reasonably possible change in discount rates and growth rates would cause the carrying value of branch licenses in 2024 and 2023 to materially exceed its recoverable amount.

In 2024 and 2023, with regard to the assessment of value-in-use of the cash-generating unit, there were no allowance on impairment loss on branch licenses recognized in the BDO Unibank Group and Parent Bank's financial statements.

17.4 Non-current Assets Held for Sale

Non-current assets held for sale consist of real and other properties acquired through repossession or foreclosure that BDO Unibank Group and the Parent Bank intend to sell within one year from the date of classification as held for sale. No impairment loss was recognized in 2022 to 2024 in both the BDO Unibank Group and Parent Bank's financial statements.

In 2024, the Parent Bank obtained full ownership of the Podium Mall, located at 12 ADB Avenue, Ortigas Center, Mandaluyong City, with a carrying amount of P9,437 at the date of transfer, following the merger with TPCI (see Note 30.7). The mall was classified as a non-current asset held for sale, as the BSP required it to be disposed of within six months from the date of effectivity of the merger.

17.5 Others

Depreciation and amortization expense on certain assets amounting to P150, P117 and P84 in 2024, 2023 and 2022, respectively, in both BDO Unibank Group and Parent Bank's financial statements are presented as part of Occupancy under Other Operating Expenses account in the statements of income (see Note 25).

No additional impairment loss was recognized by the Parent Bank from 2022 to 2024 on the value of customer lists. The customer list was recognized as a result of the Parent Bank's acquisition of a trust business in 2014.

22.2 BDO American Depositary Receipt Program

On April 18, 2013, the Parent Bank launched its Sponsored Level 1 American Depositary Receipt (ADR) Program by which negotiable securities representing underlying BDO common shares can be traded in the U.S. over-the-counter (OTC) market. This provides flexibility for U.S. investors to trade BDO common shares in their time zone and settle their transactions locally. It is meant to tap the pool of U.S. ADR investors, enhance visibility and global presence and diversify and broaden the Parent Bank's shareholder base. ADRs are quoted and traded in U.S. dollars, and cash dividends received on the underlying shares are paid to investors also in U.S. dollars. The ADR ratio for BDO's sponsored Level 1 ADR Program is 1:10, with each ADR representing ten underlying BDO common shares.

The sponsored Level 1 ADR Program does not necessitate the issuance of new shares as ADRs are traded on the U.S. OTC/secondary market using existing shares, in contrast to the sponsored Level II ADR or sponsored Level III ADR where shares are fully listed on a recognized U.S. exchange (e.g., NYSE, NASDAQ). As such, a Level 1 ADR is not a capital raising transaction, to differentiate it from Level III ADR, which allows the issuer to raise capital through a public offering of ADRs in the U.S. The sponsored Level 1 ADR is exempt, under U.S. SEC Rule 12g3-2(b), from SEC registration, disclosure requirements and reporting obligations, including Sarbanes-Oxley and U.S. generally accepted accounting principles.

The Parent Bank appointed Deutsche Bank (DB) as the exclusive depositary of ADRs for a period of five years. As depositary bank, DB is responsible for the issuance and cancellation, as well as the registration of the ADRs; custody of the underlying BDO common shares and maintenance of the register of holders; the distribution of dividends; and execution of corporate actions and services to the Issuer (i.e., BDO)/Investor/Broker. In October 2018, the Parent Bank renewed the appointment of DB as the exclusive depositary of ADRs for another five years. Subsequently, the Parent Bank has renewed the appointment of DB as the exclusive depositary of ADRs on an annual basis.

As of December 31, 2024 and 2023, 1,665,993 and 802,252 ADRs valued at US$42,482,822 and US$18,451,796 (absolute amount), respectively, remained outstanding (computed using ADR closing price of US$25.50/share and US$23.00/share, respectively).

(a) Characteristics of the Defined Benefit Plan

The BDO Unibank Group and the Parent Bank maintain a fully funded, multi-employer and tax-qualified noncontributory retirement plan that is being administered by the Parent Bank's trust and investment group as trustee covering all regular full-time employees.

Amounts recognized in other comprehensive income were included within the items that will not be reclassified subsequently to profit or loss in the statements of comprehensive income.

In determining the amounts of post-employment benefit obligation, the following significant actuarial assumptions were used:

	BDO Unibank Group		Parent Bank	
	2024	2023	**2024**	2023
Discount rates	**6.04% - 6.13%**	6.92%	**6.09%**	6.92%

Assumptions regarding future mortality experience are based on published statistics and mortality tables. The average remaining working lives of an individual retiring at the age of 60 is 22.8 years. These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of a zero-coupon government bond with terms of maturity approximating the terms of the retirement obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) Risks Associated with the Retirement Plan

The plan exposes the BDO Unibank Group and the Parent Bank to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.

(i) Investment and Interest Risks

The present value of the DBO is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bonds will increase the plan obligation. However, this will be partially offset by an increase in the return on the plan's investments in debt securities and if the return on plan asset falls below this rate, it will create a deficit in the plan. Currently, the plan is composed of investment in debt and equity instruments, UITF, cash and cash equivalents, and loans and receivables. Due to the long-term nature of plan obligation, a level of continuing debt securities is an appropriate element of the BDO Unibank Group's long-term strategy to manage the plans effectively.

(ii) Longevity and Salary Risks

The present value of the DBO is calculated by reference to the best estimate of the mortality of the plan participants both during and after their employment and to their future salaries. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the plan obligation.

(d) Other Information

The information on the sensitivity analysis for certain significant actuarial assumptions, asset-liability matching strategy, and the timing and uncertainty of future cash flows related to the retirement plan are described in the succeeding pages.

(i) Sensitivity Analysis

The table below summarizes the effects of changes in the significant actuarial assumptions used in the determination of the retirement benefit asset as of December 31, 2024 and 2023.

	BDO Unibank Group			Parent Bank		
	Change in Assumption	Increase in Assumption	Decrease in Assumption	Change in Assumption	Increase in Assumption	Decrease in Assumption
December 31, 2024						
Discount rate	**+/-1%**	**P 3,622**	**(P 3,958)**	**+/-1%**	**P 3,010**	**(P 3,258)**
Salary increase rate	**+/-1%**	**(4,089)**	**3,584**	**+/-1%**	**(3,359)**	**2,982**
December 31, 2023						
Discount rate	+/-1%	P 2,913	(P 3,276)	+/-1%	P 2,449	(P 2,723)
Salary increase rate	+/-1%	(3,201)	2,906	+/-1%	(2,666)	2,447

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation recognized in the statements of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous years.

(ii) Asset-liability Matching Strategies

To efficiently manage the retirement plan, BDO Unibank Group through its Compensation Committee, ensures that the investment positions are managed in accordance with its asset-liability matching strategy to achieve that long-term investments are in line with the obligations under the retirement scheme. This strategy aims to match the plan assets to the retirement obligations by investing in long-term fixed interest securities (i.e., government or corporate bonds or UITFs) with maturities that match the benefit payments as they fall due and in the appropriate currency. BDO Unibank Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the retirement obligations.

In view of this, investments are made in reasonably diversified portfolio, such that the failure of any single investment would not have a material impact on the overall level of assets.

A large portion of the plan assets as of December 31, 2024 and 2023 consists of debt instruments and equity instruments, although the BDO Unibank Group and the Parent Bank also invest in cash and cash equivalents, UITFs and properties. The debt instruments include government bonds and corporate bonds.

There has been no change in the BDO Unibank Group and the Parent Bank's strategies to manage its risks from previous periods.

(iii) Funding Arrangements and Expected Contributions

As of December 31, 2024, the plan of the BDO Unibank Group and the Parent Bank is overfunded by P7,263 and P6,668, respectively, based on the latest actuarial valuation report.

The BDO Unibank Group and the Parent Bank expect to pay P4,412 and P3,672, respectively, as contributions to retirement benefit plans in 2025.

The expected maturity of undiscounted expected benefits payments of BDO Unibank Group and the Parent Bank from the plan for the next ten years is presented as follows:

	BDO Unibank Group	Parent Bank
Between one to five years	P 52,224	P 48,614
Between six to ten years	43,858	39,392
	P 96,082	**P 88,006**

The weighted average duration of the defined benefit obligation at the end of the reporting period is 4.4 to 15.9 years for the BDO Unibank Group and 5.6 years for the Parent Bank.

29. UNIT-LINKED FUNDS

VUL insurance contracts of BDO Life are life insurance policies wherein a portion of the premiums received are invested in VUL funds, which are composed mainly of investments in equity and debt securities. The withdrawal or surrender amount of a VUL policy can be computed by multiplying the total units held by the policyholder by the fund's Net Asset Value per unit, which changes daily depending on the fund's performance.

In 2013, BDO Life obtained the approval from IC to issue VUL products, where payments to policyholders are linked to internal investment funds set up by BDO Life. The VUL funds are managed by the Trust and Investment Group of the Parent Bank.

As of December 31, 2024 and 2023, BDO Life has both 11 VUL funds. The details of the investment funds, which comprise the assets backing the unit-linked liabilities, are presented in the table below. In August 2016, PDIC authorized the release of a total amount of P4,650 from escrow inclusive of proportional interest. However, as of August 26, 2016, the amount of P1,224 remains in escrow, which includes: (i) P602, which covers assets BDO Unibank still considers capable of delivery worth P214 and the remaining assets PDIC classified as undeliverable; and (ii) all interest earnings thereon. Unable to agree on the release of the remaining amount in escrow, on September 20, 2016, the PDIC filed a Complaint for Specific Performance and Damages against BDO Unibank, which case was raffled to RTC Makati City Branch 60.

On October 14, 2016, BDO Unibank filed its Answer to the Complaint affirming that it has assumed P10,000 in liabilities of FeB and is thus entitled to release of the remaining escrow of P1,224.

In a judgment dated May 31, 2018, RTC Makati dismissed the complaint, granted BDO Unibank's counterclaim and ordered BDO – TIG to immediately release the remaining escrow amount, plus interests, to BDO Unibank. On June 18, 2018, the Parent Bank received an amount of P1,243 for the full termination of escrow. PDIC filed Notice of Appeal. In the Decision dated June 15, 2020, the Court of Appeals (CA) dismissed PDIC's appeal. PDIC filed Motion for Reconsideration but the same was denied by the CA in a Resolution dated January 25, 2021. PDIC filed Petition for Review with the Supreme Court. The BDO Unibank filed a comment. In a resolution dated July 5, 2023, the Supreme Court denied PDIC's petition for Review. PDIC filed Motion for Reconsideration.

As of December 31, 2024, the difference between the amount received and the balance of the amount in escrow amounts to P572. This is presented as part of Others under Other Liabilities account and is not yet recognized as income due to the pending Petition for Review filed by PDIC (see Note 21). The case is still pending before the Supreme Court as of December 31, 2024.

34.2 Lease Commitments – as Lessor

The following are the significant lease commitments involving the BDO Unibank Group:

34.2.1 Finance Leases

BDO Unibank Group, as a lessor, enters into finance leases covering various equipment and vehicles with lease term ranging from one to more than four years. The BDO Unibank Group is subject to risk incidental to the operation of its leased properties, which include, among others, changes in market rental rates, inability to renew leases upon lease expiration, and inability to collect rent from lessees due to bankruptcy or insolvency of lessees. Majority of the BDO Unibank Group's revenue from rental properties are derived from various equipment and vehicles. If the expected growth, particularly from the lessees, does not meet management's expectations, the BDO Unibank Group may not be able to lease their properties in a timely manner or collect rent at profitable rates.

To manage its risks over these finance leases, the BDO Unibank Group retains its legal title over the underlying assets and uses these as securities over the finance lease receivables. Moreover, it requires lessees to pay security deposits, which are presented as Lease deposits under Other Liabilities in the BDO Unibank Group's statements of financial position (see Note 21).

Lead Independent Director Dioscoro I. Ramos, Chairman of the Meeting, proceeded to the next item in the agenda which was the reading and approval of the Minutes of the Annual Stockholders' Meeting held on April 19, 2023.

The Corporate Secretary stated that a copy of the said Minutes was posted on the Bank's website within five (5) banking days from the date of the meeting. A copy of the Minutes was also appended to the Bank's Definitive Information Statement posted on PSE EDGE and the Bank's website at <www.bdo.com.ph> and available to BDO shareholders for download.

The Minutes reflect the proceedings of the last meeting, including resolutions adopted and approved, with corresponding tabulation of votes.

Upon motion duly made and seconded, the Minutes of the Annual Stockholders' Meeting held on April 19, 2023 were approved and the following resolution was passed and adopted:

Stockholders' Resolution No. 01-2024

"RESOLVED, That the Stockholders of BDO Unibank, Inc. approve, as they hereby approve, the Minutes of the Annual Stockholders' Meeting held on April 19, 2023."

The Chairman of the Meeting instructed the Corporate Secretary to reflect in the Minutes of the meeting a tabulation of total votes cast for all agenda items requiring stockholder approval. The Corporate Secretary acknowledged the instructions of the Chairman of the Meeting, adding that all unqualified votes cast for each agenda item at the meeting shall be counted in favor of the matter under consideration.

Based on P&A's tabulation, the votes cast and received relative to the approval of the Minutes of the Annual Stockholders' Meeting held on April 19, 2023 were as follows:

5,886,615,917	4,720,422,839	4,720,422,839	0	0

Accordingly, stockholders owning 4,720,422,839 voting shares or 100.00% of the total number of voting shares represented at the meeting approved the Minutes of the Annual Stockholders' Meeting held on April 19, 2023. None of the stockholders voted against nor abstained from the voting for the approval of the Minutes.

V. Report of the President's and Approval of the Audited Financial Statements for 2023

The Chairman of the Meeting then gave the floor to the President and Chief Executive Officer (CEO) of the Bank, Mr. Nestor V. Tan, to present his report to the stockholders, covering the 2023 Review, 2024 Outlook, 1Q 2024 Results, Board Matters and Summary.

2023 Review

The President reported the performance of the Philippine economy in 2023. The Gross Domestic Product (GDP) growth of 5.5% in 2023 was the lowest since 2011, coming out from the Global Financial Crisis. The very strong GDP growth in 2021 and 2022 (coming out of the pandemic) seems to be slowing down. He said the 5.5% GDP growth is not a bad growth compared to the Asian countries. The Philippines outperformed most of the countries in the region. Thus, although the Philippines' performance was not as good, it was better than the regional average.

The drivers of Philippine economic growth were (a) continued consumer spending; (b) resilient Overseas Filipino Workers (OFW) remittances; (c) Growing business process outsourcing (BPO) revenues; and (d) improving tourist arrivals. The industries that performed well in 2023 were (a) financial and insurance activities (8.9% growth); (b) construction (8.8%); and (3) wholesale and retail trade including the repair of motor vehicles and motorcycles (5.5%).

In terms of financial indicators, inflation remained high, from 5.8% to 6.0%. Consequently, interest rates were raised to combat inflation, i.e. 3M T-Bill rate (from 4.09% to 5.00%), BSP Overnight rate (from 5.50% to 6.50%) and TDF rate (from 6.09% to 6.67%). As a result, as of the end of 2023, the Peso appreciated slightly from ₱56.12 to ₱55.57.

Against that backdrop, BDO recorded ₱73.4 Billion net income in 2023, 29% higher over the previous year. The first driver was the growth in net interest income (NII) of 29% on the back of improving margins and 9% growth in loans. Fee income from payments and electronic banking, asset management, insurance brokerage and other related services, consistently grew by 11%. Strong performance of Treasury's trading and FX of 19%, was generally better than 2022. The Bank remained conservative in terms of its provisioning philosophy. Non-performing loans (NPL) ratio remained low. The Bank continued to raise

provisions to ensure that the Bank had adequate coverage for unexpected losses. Again, ₱73.4 Billion net income was good enough for a 15.2% return on common equity (ROE).

In terms of the balance sheet, total resources grew by 10.0% to ₱4.477 Trillion. Loans increased by 9.0%. Investment securities went up by 29%. As interest rates are expected to go down, the Bank took advantage of investing in longer securities to soften the blow of declining interest rates, hence, the growth in securities portfolio for 2023, which comprised 21% of the Bank's assets. CASA ratio was still at 72%, while CASA growth has been flattish at 1%. There was a phenomenon that during the pandemic, a lot of companies and individuals shored up their liquidity. They took on loans and put in CASA to manage eventualities. Now, it is normalizing. The companies and individuals took it out from their CASA and paid loans. There was also a phenomenon that interest rates have gone up. Thus, the individuals are managing their CASA closer and moved it to time deposits. This led to flattish growth in CASA. In terms of value creation, book value per share was up 12% every year. Regardless of the multiple, book value per share has been going up from 10% to 12%.

BDO loan growth continued to be stronger than the industry. The only year that the Bank did not perform better than the industry was in 2022. In 2023, BDO outperformed the industry. At a compounded annual growth rate, BDO was still ahead of the industry. It registered healthy loan growth across all segments, led by consumer loans (13.7%), middle market loans (7.7%), and corporate loans (7.7%). Revenge spending boosted the Bank's loan growth. The Bank also saw a pick-up in business activity. The CASA ratio, although slightly down, was still at 72%, which is quite good for the present situation. It also drives the improvement in spreads in NII. Fee income continued to grow at 11%, which is steady and one (1) of the strengths of BDO. Insurance premiums slightly declined at 4%, but traditional insurance was up by 19%, despite the decline in overall premiums. Asset quality continued to improve, with NPL ratio at 1.85% and NPL coverage at 185%. The Bank was more than adequately covered for eventualities in NPL. Net income and ROE were at an all-time high, with ROE of 15.2%. The Bank's consolidated capital adequacy ratios (CAR), at 14.0%, are more than adequate to support growth. The minimum CET-1 ratio was only at 10.375%. In terms of dividends, BDO paid ₱3.00 per share regular dividends in 2023, against the ₱2.20 per share in 2022.

In summary, the President stated that the 2023 Income Statement showed only positive results, i.e., NII (up 25%), fees and commissions (up 11%), trading and FX gains (up 18%), and net income (up 29%). For the Balance Sheet, all went up, i.e. gross customers loans (grew 9%), investment securities (grew 29%), deposits (grew 11%), CASA (grew 1%), except for CASA ratio of 72%, which slowed down coming out of the pandemic. In terms of key metrics, ROCE rose to 15.2%, from 13.0% last year; NIMs improved by 51 bps, from 4.14% to 4.65%; cost-to-income ratio improved from 59.4% to 58.0%; NPL ratio went down to 1.85%, while NPL cover increased to 184.8%; and CAR went up to 14.4% on a solo basis and 14.9% on a consolidated basis.

The President highlighted that all indicators led to positive performance of the Bank. The only thing that was below expectation was the CASA ratio which has gone down a little bit to 72%, which was still a very good number.

2024 Outlook

The President proceeded to report the Philippine macro snapshot in 2024. In terms of economic activity, there is an expected improvement in GDP, targeted at 6% to 7%, which would still be among the best in the region. In terms of inflation, the Philippines is within a 2% to 4% range, which is still within the target of the Bangko Sentral ng Pilipinas (BSP). However, towards the middle of the year, inflation is expected to rise because of weather interruptions and agricultural slowdown but will normalize by the end of the year to within the BSP's target range of 2% to 4%. Other factors that may impact the Bank are: (1) government spending deficit due to slowdown in revenue collection and (2) external factors like unexpected increases in global oil and rice prices, which the Philippines may not be able to control.

In terms of business outlook, for intermediation (borrowing and lending), the Bank expects the same growth, with slight upward possibilities. The Bank may see a slight improvement in loan growth compared to last year, but it is still basically at the same level, not much higher. NIMs are expected to be stable, with a little bit of downward pressure from declining interest rates. However, given that there is an expectation that there will be higher interest rates for longer, that may be deferred. Fee income is expected to continue with steady growth going forward and as experienced in the last few years. Asset quality is expected to continue improving and NPL coverage to continuously go up.

First Quarter 2024 Results

The President reported that for the 1st Quarter 2024, the Bank posted a net income of ₱18.5 Billion, and ROE of 14.3%. NII improved due to the 13% broad-based loan growth across market segments against 9% growth last year. Industry loan growth was about 7% in 2023, which increased to 9% this year. Thus, there might be a slight upside potential on the loan growth. Fee income continued to grow, which slowed down a bit to 5%, year-on-year. However, fee income is expected to normalize by the middle to the end of the year. Insurance premiums grew by 4%, which was a big turnaround from the negative 4% last year. Pre-Provisioning Operating Profit (PPOP) was up 8%, over last year . The Bank maintained a conservative provisioning policy, not letting up on provisions until it believes that it has enough to cushion the next economic downturn.

The balance sheet showed a 13% growth in loans, which was stronger than the previous year. The Bank continued to invest in high yielding securities for cushion in case interest yields start to go down earlier than the end of the year. CASA grew by 1% in 2023. It was on an upward trend to 4% for the 1st Quarter of 2024. Book value per share improved by 12%, year-on-year.

Overall, the Bank's performance for 1Q 2024 was good. In terms of income statement, i.e., NII, fees and commissions, PPOP, and net income were all positive across the board. For the balance sheet, everything was improving, and growth was there across the board, i.e. gross customer loans, investment securities, deposits, CASA, and liquidity ratio. In terms of key metrics, ROE was slightly down by 1%, which is expected to normalize through the year. Cost-to-income ratio slightly increased because of the effect of payment of business taxes. NPL ratio continued to go down, while NPL coverage continued to go up. CAR was still good and enough to support growth.

Board Matters

The President informed the stockholders that, at the special meeting of the Board of Directors held earlier that day, the Board approved an increase in the regular cash dividends on common shares of BDO from ₱0.75 to ₱1.00 per share per quarter beginning on the 2nd Quarter of 2024. Additionally, the Bank is expecting Treasury shares as a result of the merger of SM Keppel Land Inc. and BDO, with BDO as the surviving entity. Rather than selling the Treasury shares to the market, the Board decided to share it with all shareholders as property dividends, which is equivalent to approximately 1% of current outstanding shares.

The President concluded that the Bank's performance reflects continuing strength of the franchise and effectiveness of BDO's business strategy. The Bank has created sustainable businesses, diversified and strong in their own right, most of which are leaders in the field. BDO is expanding into new markets. It is the only major bank that is still expanding its branch network, coverage, and ability to reach new clients. The Bank is also providing unparalleled client access across all channels, from agents to digital channels to physical channels. The multiple drivers of profitability and ROE are in place. BDO has the market leadership across the board, a strong balance sheet to support growth, diversified business franchise (from fee income to NII across market, trading and FX gains), and wide market coverage and extensive distribution network. BDO covers roughly 90% of cities and municipalities across the country. Investments in technology, resiliency, improved processes, and business enablers continue. All of the said investments will yield benefits in the future. Thus, the Bank expects more upside coming from these growth drivers.

After the presentation, the Chairman of the Meeting thanked the President and CEO and emphasized to the stockholders that the mantra or focus of the Bank for 2024 is Synergy, Resilience and Productivity. He expressed his hope that it will be executed and will manifest in the Bank's financial results going forward.

Thereafter, the Report of the President and the Bank's Audited Financial Statements for the period ending December 31, 2023, which were likewise appended to the Definitive Information Statement, were presented for notation and approval, respectively. Upon motion duly made and seconded, the Report of the President and the Bank's Audited Financial Statements for 2023 were noted and approved, respectively, by the stockholders, and the following resolution was passed and adopted:

Accordingly, stockholders owning 4,714,407,752 voting shares or 99.87% of the total number of voting shares represented at the meeting noted and approved the Report of the President and the Bank's Audited Financial Statements for the period ending December 31, 2023, while stockholders owning 4,311,882 voting shares or 0.09% voted against, and stockholders owning 1,703,205 voting shares or 0.04%% of the total number of votes cast abstained.

VI. Open Forum

The Chairman of the Meeting then gave the floor to the Moderator, Mr. Reyes, for the Open Forum.

Mr. Reyes informed the stockholders that, for good order during the Open Forum, the floor will be first opened for any questions or comments from the stockholders attending in person. Thereafter, the questions/remarks sent through email and the Question & Answer (Q&A) panel will be entertained.

He reminded the stockholders that as provided in the Bank's ASM Notice, stockholders attending remotely were given the opportunity to send their questions and/or remarks prior to the meeting by sending an email to <irandcorplan@bdo.com.ph> not later than 2:00 o'clock p.m. of April 19, 2024. Shareholders were also allowed to send their questions or comments via the Q&A panel provided in the livestreaming platform.

The initial question from the floor was raised by *Mr. Paul B. Binag, a proxyholder of Stockholder Lolita L. Damasco*. He inquired about the view of the Bank on interest rates considering inflation and US Federal Reserve actions. The President replied that interest rates are expected to remain elevated for 2024, which might be higher for longer but not much longer than usual. If there is any rate cut, it is likely to occur towards the end of the year.

The next question came from *Ms. Erielle T. Ongchan, a proxyholder of Stockholder Rolando Dillague*. She asked if the Bank is seeing any stress in the loan portfolio given the elevated interest rates. The President replied that the loan portfolio is actually very strong and sound in 2024. He said the stress was more evident during the pandemic. Thus, the Bank has come out of the pandemic with a strong portfolio.

Mr. Alexis D. Mariano, a proxyholder of Stockholder Jaime C. Espiritu, congratulated BDO for a very successful year 2023. In connection with that and with the increase in profit of the Bank, he asked if the stockholders could expect a declaration of special cash dividends. The President replied that as earlier presented, there is no special dividend, but a higher regular quarterly cash dividend, which is better.

Ms. Isabelle Tong, an Analyst from the Asia Research and Engagement (ARE), introduced ARE as a Singapore-based firm that catalyzes corporate change by bringing leading investors in their constructive dialogue with Asian listed companies such as BDO to accelerate the energy transition in line with the Paris Agreement. The investor group, comprising eight (8) global investors representing a combined US$5 Trillion in assets under management, is collectively focused on promoting improved responsible financing, particularly in relation to climate change. She said that ARE appreciated the Bank's commitment to more transparent sustainability reporting, which includes providing the breakdown of BDO's exposure to high emitting-industries in its 2023 Sustainability Report. She subsequently asked if the Bank plans to announce the greenhouse gas emission associated with this lending and BDO's timeline to committing to net zero

emissions. She also mentioned that BDO currently plans to limit its coal exposure to 2% of its total loan portfolio. She asked if the Bank has plans to further reduce its coal exposure to 0% and the timeframe for it.

Regarding the net zero emissions, the President replied that the Bank is working on it. As soon as the Bank can come up with net zero emissions, the Bank will disclose the same. He added that the coal powered plants represent about 3.7% of the Bank's loan book. In going to net zero coal exposure, the Bank will take small steps initially and try to achieve its first goal. The Bank may have to adjust that based on the environment it is in, but directionally, BDO is moving to net zero coal exposure. The President further said that about 34% of the Bank's business portfolio is on sustainable lending.

After the questions and comments from the floor, Mr. Reyes proceeded to read the questions and/or remarks sent prior to the meeting via e-mail and the Q&A Panel.

A series of questions came from *Shareholder Patricia Rhodora S. Espiritu.* She asked how many branches BDO plans to open in 2024 and if there is any impact of increasing digital usage to BDO's physical branch operations and/or expansion plans. The President replied that the Bank plans to open 100 to 120 more branches in 2024, a combination of BDO Network Bank, Inc. and BDO Unibank. On the plan to shift to digital, the President said that BDO prefers clients to use digital channels because its more efficient and easier to process. However, BDO is not forcing the client either way. The Bank's strategy is to allow the clients to choose their preferred method of transaction. BDO is trying to ensure that clients move to the other seamlessly. If the clients prefer physical, which at the moment provincial clients still prefer, BDO will continue to increase its branches because that would bring in new clients. If the clients prefer digital, BDO will provide the alternative channel as well.

Stockholder Justino C. Aquino sent two (2) questions. He initially asked what drove the faster 13% loan growth in the 1st Quarter of 2024. He also inquired about the main earnings contributor for BDO in 2024. The President replied that the lack of stability in commodity prices and interest rates in 2023 held back capital investment. As things stabilized in 2023, a lot more clients went in and borrowed for capital investments. He said the pick-up in capital expenditure lending started towards the tail end of 2023 going into the 1st Quarter of 2024. Companies are now borrowing to invest rather than just for plain working capital.

Thereafter, Mr. Reyes thanked all the stockholders for their questions and comments. He informed the stockholders that those who sent questions, which have not been read and answered during the Meeting would be replied to by the Bank through the email address that was provided during the pre-registration process.

VII. Approval and Ratification of All Acts of the Board of Directors, Board Committees, and Management during their respective Terms of Office

The Chairman of the Meeting announced that the next item in the agenda was the ratification of all acts and proceedings of the Board of Directors, its duly constituted Board Committees and of Management during their terms of office, including the criteria and processes for the Board of Directors' evaluation as published in the Bank's website and significant related parties' transactions. The collective efforts of the Board, its Committees and Management are the key success factors to the Bank's 2023 performance. A summary of these acts is found in the Bank's Definitive Information Statement.

Upon motion duly made and seconded, and there being no objection, the motion for the ratification of all acts of the Board, its Committees and Management during their respective terms of office was approved and the following resolution was passed and adopted:

Stockholders' Resolution No. 03-2024

evaluation as published in the Bank's website, significant related parties transactions, be, as they are hereby, approved, confirmed, and ratified."

Based on P&A's tabulation, the votes cast and received on the ratification of all acts of the Board of Directors, its Committees and Management during their respective terms of offices were as follows:

He requested Senior Associate Supreme Court Justice Estela P. Bernabe (Ret.), Chairperson of the Nominations Committee, to announce the nominees for the election of the Bank's Board of Directors for the year 2024-2025.

Justice Bernabe stated that, as of the close of the nomination period pursuant to the Bank's By-Laws, there were only eleven (11) persons nominated and qualified to fill up the eleven (11) seats in the Board. X. Appointment of External Auditor

The Chairman of the Meeting then announced that the next item in the agenda was the appointment of the Bank's external auditor for the year 2024. He requested the Corporate Secretary to discuss the item briefly.

The Corporate Secretary stated that the Board Audit Committee had processed and pre-screened the nominees for external auditor. The current external auditor, *Punongbayan & Araullo, Grant Thornton (P&A)* has been recommended for re-appointment as the Bank's external auditor for the year 2024.

Upon motion duly made and seconded, and there being no objection, P&A was re-appointed external auditor of the Bank for the year 2024, and the following resolution was passed and adopted:

Stockholders' Resolution No. 06-2024

"RESOLVED, That the Stockholders approve, as they hereby approve, the re-appointment of PUNONGBAYAN & ARAULLO, GRANT THORNTON as external auditor of BDO Unibank, Inc. for the year 2024."

XI. Adjournment

Before the meeting formally adjourned, the Chairman of the Meeting, on behalf of the Board of Directors, the Chairperson, the President, and Management of BDO, took the opportunity to thank everyone who participated in the Annual Stockholders' Meeting including those participants who joined remotely. He thanked the stockholders, both as shareholders and as clients, for their support to BDO.

Furthermore, he expressed his gratitude to the stockholders for being part of BDO's journey, from its beginnings as a savings bank to where it is now. He said some of the stockholders may have been with BDO since the very start, both as a client and a shareholder, up to now. He once again thanked the stockholders for joining BDO in its journey going forward as it focuses on resiliency, synergy, and productivity, as it works to be the preferred bank in every market it serves and as it pursues long-term growth opportunities amidst solid balance sheet and diversified set of businesses and as the country's largest and most extensive branch network.

Finally, he thanked BDO for its efforts and dedication in bringing the best of both worlds, with both physical banking on the one hand, and digital banking on the other.

There being no further business to transact, and upon motion duly made and seconded, the meeting was adjourned at 3:03 o'clock in the afternoon.
