6. Scanned copy of the Proxy's valid government-issued ID showing photo and personal details (in JPG format with a file size no bigger than 10 MB).

SBC will validate the above registration requirements. Stockholders are advised to register as early as possible.

Stockholders who cannot or will opt not to use the Platform will be allowed to vote through a proxy with instructions to the Chairman of the meeting. Please submit the proxy with voting instructions (together with documents required for stockholders submitting a proxy) to the Office of the Corporate Secretary by email to sbc-asm@securitybank.com.ph on or before **5:00 p.m. on 10 April 2025**.

SBC reserves the right to request for additional information and original signed copies of the documents forming part of the Registration Requirements at a later time.

5. Validation of Registration

- a. Only Stockholders who registered **and** passed the validation process can use the Platform to participate in the Meeting.
- b. After registration and passing the validation process, the Stockholder will receive an email confirmation on his/her successful and validated registration together with a username and password for the participation in the Meeting via remote communication. The username and password will be required to access the Meeting on 29 April 2025 at 9:00 am at www.securitybank.com/asm.
- c. Stockholders with successful and validated registration may cast their votes until the voting on the agenda item is closed during the Meeting.

6. Voting

All agenda items indicated in the Notice of the Meeting will be set out in the digital absentee ballot and the registered Stockholder may vote as follows:

- a. For all items, except for Election of Directors, the registered Stockholder has the option to vote: For, Against or Abstain. The vote is considered cast for all the registered Stockholder's shares.
- b. For the Election of Directors, a Stockholder entitled to vote:
 - i. may vote such number of shares owned for as many persons as there are Directors to be elected; or
 - ii. may cumulate said shares and give one candidate as many votes as the number of Directors to be elected multiplied by the number of their shares; or
 - iii. may distribute them on the same principle among as many candidates as may be seen fit.
- c. The Company's stock transfer agent and Office of the Corporate Secretary will tabulate all votes received and will validate the results.
- d. Except for the Election of Directors, all the items in the Agenda for the approval by the stockholders will need the affirmative vote of stockholders representing at least a majority of the issued and outstanding voting stock present at the meeting. For the Election of Directors, the top fifteen (15) nominees with the most number of votes are elected.

7. Participation at the virtual meeting

- a. The Stockholder will be required to enter his/her username and password to access the Meeting on 29 April 2025 at 9:00 am at www.securitybank.com/asm.
- b. The Platform will allow participants to send questions during the Meeting. To ensure a productive and orderly Meeting, however, Stockholders are encouraged to send their questions relating to items in the agenda of the Meeting on or before **10 April 2025** by email to sbc-asm@securitybank.com.ph. Relevant questions will be answered by concerned officers during the Meeting.
- c. A link to the recorded webcast of the Meeting will be posted on SBC's website after the Meeting.

For any questions or inquiries, including request for assistance in the registration process, please contact our Office of the Corporate Secretary through sbc-asm@securitybank.com.ph.

Revocability of Proxy

The shareholder may revoke the proxy issued by him at any time prior to its use by the party who is thereby authorized to exercise the same. The By-Laws do not provide for any formal procedure by which revocation may be done.

Proxy forms must be filed and received by the Office of the Corporate Secretary not later than **10 April 2025**. Forms received after the cut-off date will not be recognized and counted for the Annual Shareholders' Meeting.

Person Making the Solicitation

The solicitation of proxies is being undertaken by the Bank in order to obtain the required quorum and the required votes to approve the matters to be taken up at the annual meeting. The total estimated amount to be spent in connection with the release and sending of the proxy statements is approximately Php 250,000.00.

Procedure for Solicitation

Solicitation from stockholders will be by airmail, by ordinary mail, by electronic means, or by other legal means as allowed by law. The Bank, in coordination with its stock and transfer agent, may utilize the usual couriers and messengers to undertake the personal delivery of the proxy forms. No special contracts have been entered into. Costs will be limited to the normal costs of such services.

Who shall bear Cost of Solicitation

The costs of distributing the Information Statement and of soliciting the relevant proxies shall be borne by the Bank.

Interest of Certain Persons in Matters to be Acted Upon

The directors and officers do not have a substantial interest, direct or indirect, in any matter to be acted upon other than the ratification of all acts, resolutions and proceedings of the Board of Directors, the Board Committees, the Management Committees, Officers and Agents of the Corporation and election of the Board of Directors to office. The registrant has not received any written information from anyone seeking to oppose any action to be taken up in the meeting.

Should any other matter come properly before the stockholders which may require my vote, I hereby confer discretionary authority upon the Chairman of the meeting to vote my shares in the manner he deems fit.

This Proxy revokes and supersedes any proxy or proxies the undersigned may have previously executed and shall not apply in instances where the undersigned personally attends such stockholders' meeting.

IN WITNESS WHEREOF, the undersigned stockholder has executed this Proxy this _____ day of _____, 2025 in _____.

Item 2. Dissenters' Right of Appraisal

There are no matters or proposed corporate actions included in the Agenda of the Meeting which may give rise to a possible exercise by security holders of their appraisal rights as provided under Title X of the Revised Corporation Code.

The appraisal right may be exercised by any stockholder who shall have voted against the proposed corporate action by making a written demand on the corporation for payment of the fair value of his shares within thirty (30) days after the date on which the vote was taken. Provided, that failure to make the demand within such period shall be deemed a waiver of appraisal right. If the proposed action is implemented or affected, the corporation shall pay to such stockholder, upon surrender of the certificate(s) of stock representing his shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If within a period of sixty (60) days from the date corporate action was approved by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation and the third by the two thus chosen. The findings of the majority of the appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made. Provided, that no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment and provided further, that upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer his shares to the corporation.

Item 3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

No current director or officer of Security Bank or nominee for election or director of the Bank, nor any associate of such persons, has any substantial interest, direct or indirect, by security holdings or otherwise, in any matter to be acted upon in the stockholders' meeting, other than election to office.

No director has informed the Bank in writing that he intends to oppose any action to be taken by the Bank at the meeting.

* Member of the Board ** Will end his term as Director on April 29, 2025 *** Also known as Juan Alfredo Mestas Jara **** New Nominee for Election

Age as of February 28, 2025

The Executive Officers are appointed/elected by the Board of Directors at the organizational meeting following the stockholders' meeting, each to hold office for a period of one (1) year.

The information required by Part IV, paragraphs A and D(1) and D(3) of Annex C of SRC Rule 12 relating to the identity, positions held, business experience and related transactions of directors and executive officers is found on the attached Annex "A". There are no executive officers of the Bank who work with the government.

(b) Significant Employees

The Bank values its human resources and considers the entire manpower force as significant employees.

(c) Family Relationships

Mr. Daniel S. Dy, Director, is the son of the Bank's Chairman Emeritus, Mr. Frederick Y. Dy.

(d) Involvement in Certain Legal Proceedings

To the knowledge and information of the Bank, none of the above-named directors and executive officers have been involved in any material legal proceedings or subject to the following legal proceedings during the past five (5) years:

- i. Bankruptcy petition against any business of which such director was a general partner or executive officer whether at the time of the bankruptcy or within two (2) years prior to that time
- ii. ⁴Fees for services charged to related entities not covered in (2) or (3).

Audit Committee's Approval Policies and Procedures for the Above Services

1. Selection of external auditors

The Audit Committee is responsible for the annual evaluation and selection of the external auditors based on established criteria. The committee recommends the selected auditor to the Board of Directors for approval, ensuring compliance with independence and governance standards.

2. Audit planning and fee approval

Prior to the commencement of each annual audit, the external auditors present the proposed audit plan—including its scope, key focus areas, and timeline—along with the associated audit fee for the Audit Committee's review and approval. The committee ensures the audit plan aligns with regulatory requirements and the organization's financial reporting objectives.

3. Audit results review and endorsement

Upon completion of the audit, the Audit Committee reviews the audit findings and financial reporting implications. The committee evaluates key audit matters and endorses the audit results for final approval by the Board of Directors, ensuring transparency and integrity in financial disclosures.

4. Oversight of non-audit services

The Audit Committee reviews and pre-approves the scope and fees of any non-audit services provided by the external auditors before engagement. The committee assesses whether such services comply with regulatory restrictions, maintain auditor independence, and do not impair the integrity of financial reporting.

Item 8. Compensation Plans

There are no actions to be taken up in the meeting with respect to any plan pursuant to which cash or non-cash compensation may be paid or distributed.

C. ISSUANCE AND EXCHANGE OF SECURITIES

Item 9. Authorization or Issuance of Securities Other than for Exchange

There are no matters or actions to be taken up in the meeting with respect to the authorization or issuance of Securities other than for Exchange.

Item 10. Modification or Exchange of Securities

There are no matters or actions to be taken up in the meeting with respect to the modification or exchange of securities.

Item 11. Financial and Other Information –

The audited financial statements as of 31 December 2024 and other data related to the Company's financial information are attached hereto as Annex "C".

Item 12. Mergers, Consolidations, Acquisitions and Similar Matters

There are no matters or actions to be taken up in the meeting relating to mergers, consolidations, acquisitions and similar matters.

Item 13. Acquisition or Disposition of Property

There are no matters or actions to be taken up in the meeting relating to acquisition or disposition of property.

Item 14. Restatement of Accounts

There are no matters or actions to be taken up in the meeting relating to restatement of accounts.

D. OTHER MATTERS

Item 15. Action with Respect to Reports

(a) Financial Statements and Management Report

Management shall report on the significant business transactions undertaken by Management and accomplishments for the fiscal year 2024. Attached as Annexes "B" and "C" are the Management Report of the Bank and the Audited Financial Statements for the period ending 31 December 2024, respectively.

The Board of Directors recommends that shareholders NOTE and APPROVE the Management Report together with the financial statements for the period ending 31 December 2024.

Item 16. Matters Not required to be Submitted

All matters or actions that will require the vote of the security holders will be submitted during the meeting.

Item 17. Amendment of Charter, Bylaws or other Documents

There are no matters or actions to be taken up in the meeting relating to the Amendment of Charter, Bylaws or other Documents.

Item 18. Other Proposed Actions

There are no other actions proposed to be taken at the annual meeting other than the agenda matters indicated in the Notice included in this Information Statement.

Please refer to Annex E for the May 7, 2024 Annual Stockholders' Meeting (ASM) minutes with the following:

- a. List of directors, officers and stockholders who attended the annual stockholders
- b. Requirements for the SBC Annual Stockholders' Meeting and Procedures for participation via remote communication and voting in absentia.

Item 19. Voting Procedures

(a) Except in cases where a higher vote is required under the Revised Corporation Code, the approval of any corporate action shall require the majority vote of all stockholders present in the meeting, if constituting a quorum.

(b) Except in cases where voting by ballot is applicable, voting and counting shall be by viva voce. If by ballot, the counting shall be supervised by the External Auditors and transfer agent of the Company.

Requirements and procedure for participation and voting through remote communication is as follows:

All agenda items indicated in the Notice of the Meeting will be set out in the digital absentee ballot and the registered Stockholder may vote as follows:

- a. For all items, except for Election of Directors, the registered Stockholder has the option to vote: For, Against or Abstain. The vote is considered cast for all the registered Stockholder's shares.
- b. For the Election of Directors, a Stockholder entitled to vote:
 - i. may vote such number of shares owned for as many persons as there are Directors to be elected; or
 - ii. may cumulate said shares and give one candidate as many votes as the number of Directors to be elected multiplied by the number of their shares; or
 - iii. may distribute them on the same principle among as many candidates as may be seen fit.
- c. The Company's stock transfer agent and Office of the Corporate Secretary will tabulate all votes received and will validate the results.
- d. Except for the Election of Directors, all the items in the Agenda for the approval by the stockholders will need the affirmative vote of stockholders representing at least a majority of the issued and outstanding voting stock present at the meeting.

Cumulative voting is allowed provided that the total votes cast by a stockholder shall not exceed the number of shares registered in his name as of the record date multiplied by the number of directors to be elected. The fifteen (15) nominees receiving the highest number of votes shall be declared elected, provided that the minimum number of Independent Directors as required by law is satisfied.

The Bank proactively encourages the full participation of all shareholders, including institutional shareholders, at the ASM each year. Shareholders are encouraged to ask questions at the ASM to ensure accountability and identification with the Board of Directors' and Management's strategy and goals for the business of the Bank.

The foregoing addresses the requirement of Section 49 of the Revised Corporation Code to disclose to the stockholders material information on the current stockholders and their voting rights.

SB Finance, Inc. (SBF), formerly a private development bank incorporated in 1960 as Premiere Development Bank, renamed Security Bank Savings (“SBS”) after the Bank’s acquisition of its shares in February 2012 and subsequently converted into a financing company after securing regulatory approvals from Bangko Sentral ng Pilipinas (BSP) and SEC in 2017. On September 21, 2022, SEC approved the Amended Articles of Incorporation and By-Laws of the company amending the corporate name from SB Finance Company, Inc to SB Finance, Inc.

On August 8, 2019, the Board of Directors (BOD) of the Bank approved the terms and conditions of the joint venture agreement and other transaction documents necessary to establish a consumer finance joint venture with Bank of Ayudhya Public Company Ltd. (BAY), commonly known as Krungsri, including the sale of 50% of the outstanding shares of SBF to BAY.

On October 20, 2020, after obtaining regulatory approvals in the Philippines and in Thailand, the Joint Venture Agreement (JVA) between the Bank and Krungsri was executed, with the Bank completing the sale of 50% outstanding shares of SBF shares to Krungsri. Accordingly, SBF ceased to be a subsidiary of the Bank. The financial statements of SBF were deconsolidated from the consolidated financial statements of the Group. Under the JVA, the parties agreed to use SBF as a joint venture entity and requires the unanimous consent of both the Bank and Krungsri for any significant decisions made in the ordinary course of business of SBF.

SB Capital Investment Corporation (Security Bank Capital) is Security Bank’s wholly-owned investment banking arm. It provides a wide range of investment banking and financial services aimed at satisfying the diverse financial needs of institutions and individuals. Since the onset of its commercial operations in 1996, Security Bank Capital has participated in a myriad of significant capital raising and advisory services involving conglomerates, top-tier and middle-market clients as well as the public sector.

Despite the global economic headwinds and geo-political concerns in 2024, Security Bank Capital managed to remain resilient in its business operations and managed to deliver a decent financial performance as the company completed and participated in notable investment banking transactions during the year.

In terms of public debt issuances, the debt market saw an improvement in terms of both volume and value of corporate bond offerings as issuers tapped the debt capital market space to fund capital expenditure requirements, expansion plans, refinance maturing debt obligations and other general corporate purposes. For 2024, Security Bank Capital acted in joint lead capacities in big-ticket fixed rate bond offerings of top-tier corporations including Filinvest Development Corporation (₱10 billion in February 2024); Energy Development Corp. (₱10 billion in May 2024); SM Prime Holdings, Inc. (₱25 billion in June 2024); San Miguel Corporation (₱20 billion in July 2024); Megawide Construction Corporation (₱5 billion in July 2024); and SMC Tollways Corporation (₱35 billion in December 2024).

Security Bank Capital was also involved as joint lead underwriter and bookrunner for Ayala Land, Inc.’s consecutive ₱6 billion and ₱8 billion Sustainability bond issues in July 2024 and November 2024, respectively. Said issuances by Ayala Land, Inc. are the only sustainability-linked bonds issued to date by a Philippine company. Moreover, this debt capital transaction earned numerous recognitions from international award giving bodies, to include: Best Sustainability-linked Transaction 2024 and Best Local Currency Bond Deal of the Year 2024, respectively, during Alpha Southeast Asia’s 18th Annual Best Deal & Solution Awards 2024 held in Hongkong last December 2024. The transaction was also given the award of Most Innovative Deal 2024 (APAC) Southeast Asia Highly Commended Philippines Winner by Finance Asia.

Amid the muted equities capital market environment during the year highlighted by the decline in equity capital market offerings brought about by financial market jitters and geo-political uncertainties, Security Bank Capital was present and remained visible in a number of perpetual preferred share offerings of its clients acting as joint lead underwriter and joint bookrunner capacities for the following transactions: Petron Corporation (₱16 billion in September 2024); Ayala Corporation (₱15 billion in October 2024); and Vista Land & Lifescapes, Inc. (₱3 billion in October 2024). Security Bank Capital was also a domestic lead underwriter for the ₱5.3 billion initial public offering of Citicore Renewable Energy Corporation in June 2024.

Security Bank Capital likewise lead arranged a number of big-ticket and landmark project finance syndicated term loans during the year involving the renewable energy sector particularly solar and onshore wind projects including: Negros PH Solar, Inc.’s ₱4.85 billion loan facility (solar); Alternergy Tanay Wind Corporation’s ₱8.0 billion loan facility (wind); Hexa Renewables’ combined ₱4.21 billion loan facilities for acquisition financing (solar); and 3 Barracuda Energy Corp.’s ₱18.2 billion syndicated term loan facility for the company’s 550 MW solar power project in Bugallon, Pangasinan, which was the largest renewable energy project finance as of 2024. Security Bank Capital was also a joint lead arranger for the ₱80 billion syndicated loan facility of New NAIA Infra Corp., the proceeds of which, would partially fund the redevelopment of the Ninoy Aquino International Airport. (“NAIA”). The foregoing loan transaction accorded the Best Syndicated Loan Deal of the Year during the during the 18th Annual Best Deal & Solution Awards 2024 of Alpha Southeast Asia Awards 2024 held in Hongkong last December 2024.

Security Bank Capital also acted as mandated lead arranger and bookrunner for the US\$70 million top-up loan in favor of Silangan Mindanao Mining Co Inc. in February 2024. Security Bank Capital also capped 2024 with the successful signing of the facility agreement for the US\$100 million term loan facility of Prime Energy Resources Development Corp.,

the proceeds of which will be used to finance Prime Infra Group's corresponding share in the equity requirement in the Malampaya Expansion Project.

Other notable private debt transactions lead arranged by Security Bank Capital during the year also included the ₱800 million corporate notes issuance of Country Funders Finance Corp. in November 2024 and the ₱4 billion corporate notes facility of Unistar Finance and Credit Corp. also in November 2024, the proceeds of which were utilized by the foregoing companies to expand their loan receivables portfolios which cater to serve the needs of the unbanked and underserved customers in line with said companies' commitment to provide financial inclusion to those who have limited access to formal financing channels. Security Bank Capital was also a mandated lead arranger for the US\$115 million loan facility of Asialink Finance Corporation ("Asialink"), together with the Asian Development Bank and the Hongkong Shanghai Banking Corp (Philippines). The proceeds from this social notes facility will be utilized by Asialink to provide financing to more small and medium-sized enterprises ("SMEs") in the country. including those owned by women.

Security Bank Capital also earned advisory income/fees in the form of retainer, upfront and certain milestone-based activities (e.g. preparation of valuation reports) in relation to the financial advisory services rendered to its clients who are either (i) in search of potential joint venture or strategic partners, (ii) divesting or selling assets/business as well as those (iii) in search of investment or acquisition opportunities.

In 2024, Security Bank Capital also garnered accolades and recognitions for some of its completed landmark deals from the following prestigious and reputable award giving bodies:

SB Rental Corporation (SBRC) is a wholly owned subsidiary of SB Capital. The company is the operating lease arm of Security Bank group of companies with primary purpose to engage in the business of renting / leasing (excluding financial leases) of various machineries and equipment, automotive equipment, automotive vehicles such as cars, vans, pick-ups, trucks, tractors, trailers, buses and a variety of land, air or water transportation equipment.

SB Equities, Inc., a subsidiary of SB Capital, was incorporated on August 1, 1987 ranks 10th overall among domestic brokerages in the country in terms of volume turnover according to the Philippine Stock Exchange (PSE) as of December 31, 2024.

SB Cards Corporation (SB Cards) was incorporated on October 9, 1980 as Security Diners International Corporation and formerly also known as Security International Card Corporation. SB Cards acquired the exclusive franchise ownership of Diners Club international credit card in the Philippines. In September 2016, SB Cards sold the Diners Card portfolio to Banco De Oro. The corporate term of SB Cards ended on December 31, 2024.

SBM Leasing, Inc. (SBML), formerly Security Finance, Inc. incorporated on August 1, 1994) is a joint venture leasing and finance company of Security Bank Corporation (60%) and Marubeni Corporation of Japan (40%). SBML specializes in heavy equipment (i.e. construction and mining), finance and services the clientele of Maxima Machineries Inc. (a Marubeni subsidiary and exclusive distributor of Komatsu Trucks and Heavy Equipment in the Philippines) and of Security Bank.

SB Forex, Incorporated (SB Forex) was incorporated on September 27, 1994 to handle the foreign exchange brokerage business of the Bank but has been inactive due to changes in the regulatory environment. The Bank has absorbed the foreign exchange business previously coursed through SB Forex. The operations for this subsidiary were suspended in 2008. The corporate term of SB Forex ended on February 28, 2022.

Security Finance and Leasing Inc. (formerly Landlink Property Investments (SPV-AMC), Inc.), was incorporated in the Philippines primarily to engage third parties to manage, operate, collect and dispose of nonperforming assets acquired from a financial institution. The Company started its commercial operations in February 2020.

(ii) Percentage of Sales or Revenues and Net Income Contributed by Foreign Sales

This is not relevant to the operations of the Group.

(iii) Distribution Network

The Bank's principal office is located along Ayala Avenue, Makati City. As of December 31, 2024, Security Bank had a network of 346 branches, 186 branches of which are located in National Capital Region (NCR) and 160 situated outside NCR.

The Bank also has 689 ATMs which are part of the Bancnet consortium as of December 31, 2024. Of this, 392 are on-site while 297 are off-site.

(iv) Status of Publicly-Announced New Product or Service

All publicly-announced new products or services of the Bank are in commercial distribution.

(v) Competition

The Philippine banking industry is characterized by a highly competitive price and service offerings and high level of regulation. All banks have similar products and compete via differentiation in servicing and targeting specific niches. In 2024, the industry experienced intensified competition alongside increased customer service standards.

There is a total of 22 universal banks in the Philippine banking system, of which 13 are domestic private universal banks, three are government banks and six are branches/subsidiaries of foreign banks, as of March 2025. In addition, there are

22 commercial banks in the country. Six domestic universal banks have branches and/or remittance offices abroad while Security Bank and the rest of the players in the industry compete mainly in the domestic market, serving their respective mix of corporate, middle market, small/micro size enterprise and retail clients.

Security Bank has distinguished itself against competition in its 73 years of banking service with its record of financial strength and stability over this period and its service quality to its loyal clientele base. Solid earnings performance coupled with emphasis on asset quality places Security Bank among the top performing banks. In January 2016, Security Bank forged a strategic partnership with The Bank of Tokyo-Mitsubishi UFJ Ltd., now known as MUFG Bank, Ltd. (MUFG). MUFG invested ₱36.9 billion for a 20% stake in Security Bank. This gave Security Bank the unique advantage of being a local independent bank with the global network of MUFG.

(vi) Sources and Availability of Raw Materials and Names of Principal Suppliers

This is not relevant to the operations of the Bank.

(vii) Customer Concentration

The Bank has a diversified customer base with its loan portfolio and deposit mix skewed towards Corporate and Commercial clients in terms of size and Retail clients in terms of count. The Bank is not dependent upon a single customer, the loss of any or more of which would have a material adverse effect on the Bank and its subsidiaries taken as a whole.

(viii) Transactions with and/or Dependence on Related Parties

In the ordinary course of business, the Bank has loan transactions with some subsidiaries and with certain directors, officers, stockholders and related interests. Under the Bank's policies, these loans are made substantially on the same terms as loans to other individuals and businesses of comparable risks.

The employees receive salaries, bonuses, and usual bank benefits. Aside from these, they have no other compensation plan or arrangement with the Bank. There are no warrants or options held by directors, officers and staff.

(xv) Risk Management

The Bank's risk management organization and culture is a fundamental component of its corporate governance.

Policy Statement

The BODs and Management of Security Bank Corporation and its subsidiaries commit to the principles and best practices that promote good corporate governance such as the "Principles for Enhancing Corporate Governance" issued by the Basel Committee on Banking Supervision as embodied in the regulations of the regulatory authorities of the Philippines such as the BSP and the SEC.

Security Bank's BOD and Management believe that corporate governance is a necessary component of what constitutes sound strategic business management and will therefore undertake every effort necessary to create awareness and ensure compliance with corporate governance policies and practices within the organization.

Under the Bank's Governance System, the BOD has ultimate responsibility for the Bank's business and risk strategy, organization, financial soundness and governance.

The Board reviews and approves the strategic plans and the operational plans of the Bank, taking into account the Bank's long-term financial interests, its exposure to risks and its ability to manage risks effectively. Accordingly, the Board monitors the overall business strategy execution of the Bank.

Risk Management Organization

The Group is faced with multiple risks inherent to the business it has chosen, largely in the form of market, liquidity, credit, operational and sustainability risks. Customer protection, growth and value creation guide our risk taking. The Group's risk management is structured to address risks continuously and effectively by category via structures of policies, processes and measurement tools established and provided by the Risk Management Group (RMG) for the Bank. The same structures are adapted by the subsidiaries and customized to suit their specific activities.

In 2021, the Bank's Board approved an Environmental and Social Risk Management Framework which sets out policy and process in identifying, assessing, and managing environmental and social risks.

The Group's risk management, internal control process and infrastructure are designed to keep pace with developments of the Group, including balance sheet and revenue growth, increasing complexity of the business, risk configuration or operating structure, geographical expansion, mergers and acquisitions, or the introduction of new products or business lines, as well as with the external risk landscape, business environment and industry practice. In this respect, the Group's risk data aggregation and risk reporting are conducted with accuracy, integrity, completeness, timeliness and adaptability. Actual risk management processes are outlined by risk category.

RMG's activities mainly assist the BOD, through the Risk Oversight Committee (ROC), in fulfilling its risk management responsibilities through the following fundamental tasks:

1. Oversee the risk management framework:
 - Oversee the development of and approve the Bank's primary risk management policies, risk appetite statements (RAS) and risk limits, and annually review and approve any material changes to such.
 - Work with management to identify significant risk issues and ensure that said risks are promptly and properly assessed in terms of probability and impact, prioritized, mitigated or corrected, and monitored.
 - Ensure that there is periodic review of the effectiveness of the risk management systems, contingency plans, and recovery plans
2. Assessment, measurement, monitoring and reporting of the Group's risk-taking and risk management activities, including risk limit utilization and performance;
3. Providing subject matter expertise in business, product and project developments, and other strategic decision-making activities;
4. Elevation of issues and findings to Management and the ROC.

Credit Risk

Credit risk is the risk of loss resulting from the failure of a borrower or counterparty to perform or complete in a timely manner its obligations during the life of a transaction. This includes the risk of non-payment by borrowers or issuers, failed settlement of transactions, and default on contracts. Credit risk arises from both the lending and investment activities of the Group. As one of the primary risks inherent to the banking business, the Group manages credit risk through a systemized approach which includes:

- Policy Development and Implementation – The Credit Portfolio Risk Management Department (CPRMD) maintains and develops credit policies and guidelines to guide business and support units involved in the credit

process to make appropriate actions and decisions pertaining to credit transactions. Policy formulation also supports the Bank's "Single Credit Engine" concept which provides for a uniform understanding and consistent application of credit policies and guidelines across the entire institution.

- Risk Assessment and Measurement – Credit risk officers identify and evaluate existing and potential exposures, assess the probability of each risk materializing and estimate possible effect and cost of risk factors. The team uses different credit risk measurement and valuation methods such as Probability of Default (PD), Expected Credit Loss (ECL), Credit Classification, credit concentrations, residual risks on collateral, credit stress testing.
- Risk Control and Mitigation – Credit facilities are granted primarily based on the borrower's credit quality and repayment capacity. Where possible, Security Bank takes credit risk mitigants as a secondary recourse to the borrower to mitigate credit risk. On the Wholesale Credit side, the Bank accepts collateral such as cash deposit, real estate, chattel, marketable securities, trade receivables, and standby letters of credit. In addition, the Bank limits vulnerabilities and manages risks to an acceptable level through the following: (i) lending limits that encompass industry, single name, group and large exposures; (ii) proactive impairment process involving the Lending Units as well as the Remedial Management Division (RMD); (iii) timely ECL provisioning, and (iv) Early Warning System. On the Retail Credit side, acceptable collateral includes cash, automobile, equipment, and real estate. In addition, the Bank limits vulnerabilities and manages risks to an acceptable level through the following: (i) Minimum Risk Acceptance Criteria; (ii) regular Portfolio Quality Reviews with Business, Credit, Collections and Risk Units; and (iii) timely ECL provisioning.
- Risk Monitoring and Reporting – Continuous monitoring and periodic reporting of credit risk positions are integral parts of the Bank's credit risk management activities. Regular reporting to the ROC and Management covers credit risk exposures, concentration risks, early warning indicators, credit mitigation and residual risks across the Group.
- Independent Risk Assessment (IRA) – The IRA is the pre-approval evaluation of individual credits by the Independent Credit Risk Assessment Department (ICRA). In scope credit proposals are subject to IRAs which evaluate the soundness of credits by documenting identified risk issues, assessing alignment of account plans with industry risk-reward portfolio actions, and providing recommendations on risk mitigations and credit structures to ensure portfolio quality.
- Credit Risk Review (CRR) – The CRR is an independent audit exercise conducted by the Credit Portfolio Risk Management Department (CPRMD) to assess both portfolio quality as well as credit process quality of the Wholesale Banking Segment. The CRR's emphasis is on identifying weaknesses, trends, and other risk issues to allow for proactive mitigation as needed via collateral, covenants and alternative repayment sources, as well as adjustments to policies, procedures or awareness activities where applicable.
- Remedial Management – The remediation function on Wholesale Banking Segment borrowing accounts encountering payment difficulties is within the responsibility of the Remedial Management Division (RMD). The RMD is tasked to devise and implement remedial strategies to correct the problem and/or maximize recovery/minimize loss within the shortest possible time of the accounts endorsed to it for handling.

Market Risk

Market risk is the risk that movements in market factors will have an adverse impact on the Bank's portfolio values, income and/or capital. Market factors include foreign exchange rates, interest rates, equity prices and their volatilities. The risk applies to both the Group's trading and banking book positions, largely in two forms:

- 1) Price Risk: the risk that the Bank's capital and gains will decline due to the impact of changes in the level or volatility of market factors to positions taken or held in the trading books.
- 2) Interest Rate Risk in the Banking Book (IRRBB): the risk that the Bank's capital and earnings will deteriorate due to effects of interest rate movements on the Bank's balance sheet, mainly on the accrual books.

Given the sensitivity to and the pace of change of market factors, the Bank manages market risk through a variety of structures involving the following:

- 1) Use of Value-at-Risk (VaR) methodologies, Earnings-at-Risk (EaR) techniques, Economic Value of Equity (EVE) measures, loss triggers and stress testing;
- 2) Adoption of limits aside from those related to VaR, EaR, EVE and P&L, such as exposure and position limits, and performance of stress testing to augment the primary measures;
- 3) Periodic reporting of limit status, re-pricing gaps (for IRRBB) and P&L to the ROC, Senior Management and other concerned parties;
- 4) Development and review of risk models that are used for monitoring market risk, as well as validating the models developed internally or by third party vendors.

Risk appetite is defined by the limits set by the ROC, encompassing all market risk-taking activities of the Bank and its subsidiaries. The Market Risk Management Team establishes these limits annually, based on objectives identified in the planning process. The Bank also manages concentration and market liquidity risks by setting specific exposure or position limits for various investment types and products as necessary.

The Chief Risk Officer, Market Risk Officer, Risk Analysts and Model Risk Officers ensure the continuous enhancement of market risk management across the Bank, monitoring and reporting regularly to Senior Management, the Assets and Liabilities Committee (ALCO) and the ROC.

Integral to the effectiveness of the Bank's market risk management infrastructure is the dynamic relationship between the independent risk management unit and the business unit it supports and looks after. Risk Management goes beyond the traditional control function and seeks to add greater value to the institution by being an independent risk partner with its own voice and assessments of proposals and exposures. By being in step with the developments in the business side, Risk Management not only readily identifies potential risk areas, but also helps the business manage risks from the onset.

Liquidity Risk

Liquidity risk is the risk that the Bank will not be able to meet its obligations when they become due. It may be classified into two sub-types:

- **Funding Liquidity Risk:** the risk that a firm cannot obtain the necessary funds to meet its obligations as they fall due, including intraday. It stems from the mismatch of asset, liability, exchange contract and contingent commitment maturities.
- **Market Liquidity Risk:** the risk that an entity will be unable to unwind a position in a particular instrument at or near its market value because of lack of depth or disruption in the market for that instrument.

Liquidity risk is mainly monitored through tools such as liquidity gap reports including the Maximum Cumulative Outflow (MCO) status, Basel liquidity ratios (Liquidity Coverage Ratio and Net Stable Funding Ratio) and assessment of deposit concentration. This is further augmented by periodic liquidity stress testing. Regular reports and dashboards are then provided to Senior Management, the ALCO and the ROC. Moreover, the Bank has established Contingency Funding Plan to deal with potential liquidity crisis situations.

Through the ALCO, RMG provides an independent assessment of the depth and magnitude of funding liquidity risk that the Bank takes and suggests ways that can be explored to enhance the Bank's liquidity risk profile or keep exposure within risk appetite. RMG also provides its views on proposals or strategies concerning balance sheet structure, funding mix or concentration, and bond or note issuance.

To address market liquidity concerns, the Group also established bond issue concentration limits effective across the trading and investment entities of the Group. The limit puts a cap on the relative share of the Group vis-à-vis the total bond issue size. The aim is to minimize concentration risk.

Operational Risk

SBC aligns with the Basel II framework's definition of operational risk as the risk of loss due to inadequate or failed internal processes, people, and systems, or from external events. Operational risk management covers processing errors, fraudulent activities, inappropriate behavior of staff, systems failure, inability to deliver products and services to customers, natural and man-made disasters.

The Bank's Operational Risk Management Division (ORMD) is currently composed of the following:

- **Information Security and Technology Risk Department** – Headed by the Chief Information Security Officer (CISO), the department monitors the technology and information security risks of the Bank and its Subsidiaries, aligning with corporate plans, strategies, and objectives of the Group. Actively working with ITG and other support functions of the Group, it monitors the key risk levels, assists in process and control improvements to protect information assets, and ensures confidentiality, integrity, and availability of systems.
- **Business Continuity Management Department** – The department focuses on maintaining and developing the Bank's capabilities to recover from system failures, natural or man-made disasters, pandemics, and other crisis events, to ensure that the Bank's operations and core business functions remain up and running through disruptive events. This department is also tasked to support the Bank in ensuring Operational Resilience requirements are being met.
- **Fraud Risk Management Department** – The department is responsible for defining and monitoring adherence to policies specific to fraud risk. It provides complementary expertise, support, monitoring, challenge to, and independent oversight of the Enterprise Fraud Team as second line of defense.

- Third Party Risk Department– The department maintains oversight of all aspects of operational risk management relating to the Bank’s engagements with various third parties, covering outsourcing, vendor management, partnerships, and others.
- Operational Risk Assessment, Mitigation and Monitoring – The Operational Risk Assessment and Mitigation (ORAM) Department with the Risk Monitoring Department helps develop and implement the mechanisms used by the Bank to manage operational risk. These include policies, procedures, and tools used by the various businesses in identifying, assessing, mitigating, and monitoring non-financial risks, as well as those for resolving identified issues and managing operational risk incidents.

Model Risk

Model risk is the potential loss that an institution may incur primarily due to fundamental errors in the design, implementation or use of a model. A model refers to a quantitative method, system or approach that applies statistical, economic, financial or mathematical theories, techniques and assumptions to process input data into quantitative estimates for decision making. This also includes expert judgement models which are based on views of subject matter experts provided that the outputs are quantitative in nature.

- Model Development – Model development represents the very beginning of the model lifecycle where the model owner identifies its objectives and business requirements. The development of the models can be carried out by the model owners themselves, or externally if there are no available resources.
- Model Validation – The Model Risk Management Division (MRMD) is responsible for the independent review, attestation and validation of all models to support existing supervisory guidance and business objectives.
- All model components (inputs, processes and outputs) shall be subjected to both quantitative and qualitative review to ensure that the model is sound and can be relied upon for decision-making purposes. This is to ensure that the models are within the model risk appetite of the Bank and are compliant to the internal policies and regulatory requirement/s.
- Model Approval – Once the model passed the independent validation, the model will be endorsed by the model owner to the designated approving body for approval. For models that cannot be validated prior to use, this will be approved by the designated Board-level committee and the BOD prior to implementation.
- Testing and Implementation – Testing is an integral part of the model lifecycle to ensure an accurate and smooth implementation of the model. As such, there will be a rigorous pre- & post-implementation testing procedures to determine if the model is performing as intended and is producing accurate results.
- Model Monitoring – When the model goes into use, its performance shall be validated against experience to make sure that the model functions as intended. The monitoring will serve as an early warning indicator for any performance deterioration and trigger appropriate action.
- The MRMD shall monitor the models on an ongoing basis, the frequency of which depends on the model rating, the nature of the model, & best practices. To aide in the monitoring of the models, a model inventory will be maintained by the MRMD to provide a comprehensive overview of all models in use. It will contain all implemented, developed, and recently discontinued models with the following components.

Management of Other Risks

While the risks that the Bank faces are chiefly categorized either as credit, market, liquidity or operational types, the Bank recognizes with as much importance the other risks that can hinder its pursuit of value creation. In particular, the Bank acknowledges the threats posed by reputational, sustainability and strategic (or business) risks.

Reputational risk refers to the potential adverse effects arising from the Bank’s reputation deviating negatively from its expected level with regard to competence, integrity and reliability. The Bank manages this risk within the institution through policies and processes implemented under Operational Risk (including Information Security), Compliance and Human Resources, such as those related to complaints resolution and management; fraud detection, prevention and overall management; and service quality assurance. As part of the Bank’s corporate-wide risk management, the Board ensures the maintenance of a sound consumer protection risk management system.

- Sustainability risk refers to the negative impact of an environmental, social or governance event or condition to the Bank’s financial and operating performance. To mitigate sustainability risk, the Bank has begun to incorporate environmental and social factors into the lending process and customer dialogue to ensure sustainable lending. The Bank understands the consequences of failing to appropriately manage environmental, social, and governance (ESG) issues can directly impact its reputation, its clients’ operations, and its environment and communities where the Bank and its clients operate.

- Strategic or business risk is the current and prospective impact on earnings or capital arising from adverse business decisions, ineffective or failed implementation of decisions, or lack of responsiveness to industry changes that may affect the franchise value of the Bank. This risk is not managed separately from other risks. In essence, the Bank manages this risk through careful planning and close monitoring of execution of plans. To wit:
- The Group undergoes an annual Planning Cycle, where the business environment, medium-term plans of business units and potential risks to the Bank are assessed. Budget Plan is produced at the end of this activity. Through this plan, the BOD provides direction for the Group taking into account probable new risks that may emerge over the planning cycle.
- Periodic review of the strategies and performance of key functional areas of indicators are undertaken by Senior Management and the BOD. The Bank understands that the risk universe is not limited to the ones enumerated above. As such, other types of risk – new or evolving – are uncovered and addressed through the different initiatives in the main risk management groups, which motivate risk-taking and risk management units to assess and to attend to emerging threats to capital adequacy and profitability.

Capital

The primary objectives of the Group's capital management are to ensure that the Group maintains strong credit ratings and healthy capital ratios in support of its business, and to remain compliant with capital requirements, all while maximizing shareholder value. RMG assists Senior Management through the ALCO by providing the relevant information with respect to the management of all risks related to the Group's assets and liabilities, and the trading and accrual books. The impact of the Group's activities on capital is also monitored by the ALCO with the RMG providing the necessary data to the Committee for assessment. Results of their analysis are reported on a periodic basis to the ROC. Currently, the Bank remains well in compliance with the capital requirements of the Basel III Framework. This is largely driven by the Bank's approach to risk and capital management. Minimum capital levels and adequacy ratios as required by regulatory standards are used by the Bank merely as a starting point. Annually, the Bank assesses its current and planned business and risk-taking activities, and their comparison to the BOD's risk appetite taken in the context of macroeconomic and industry developments. This assessment is summarized in the Bank's Internal Capital Adequacy Assessment Process (ICAAP) document.

The Executive Committee is primarily responsible for driving the Group's ICAAP, working alongside the ROC and other members of Management in implementing the strategic goals as approved by the BOD. In essence, this Committee assesses the Group's capital adequacy relative to its risk profile, understanding capital requirements as scenarios vary or become stressed.

Risk exposures and corresponding capital requirements vis-à-vis current levels are periodically reviewed, ensuring risk and capital are aligned with the Bank's appetite and activities, as well as with regulatory standards.

Security Bank has adopted a dividend policy that will enable the Bank to weather the uncertainties and volatilities in the market; comply with the requirements of Basel III and the BSP; maintain strong credit ratings; minimize the need for capital calls in the medium-term; and provide a capital base for business expansion that will create value over the long-term for all stakeholders. In declaring dividend pay-outs, Security Bank uses a combination of regular and special dividends such that the total dividend pay-out shall range from 15% to 30% of the prior year's NIAT.

Capital structure is managed in the light of changes in economic conditions, risk characteristics of activities and assessment of prospective business directions. Capital management begins with an assessment of regulatory capital and capital adequacy, followed by the determination of the optimal capital structure based on a risk-based capital planning approach, taking into consideration risk appetite, risk exposures, provision of a capital buffer, capital mix, leverage, target return on equity (ROE), opportunities in the capital markets and sustainability.

Recent Sales of Unregistered Securities

There were no sales of unregistered securities within the past three (3) years.

Material Commitments for Capital Expenditures

The Bank's commitments for capital expenditures will be funded out of cash flows from operations. This covers investments in electronic systems to comply with regulatory requirements (e.g. electronic money laundering monitoring system), investments in other systems (e.g. credit evaluation system), upgrades of existing systems (e.g. telecommunications system), expansion of the Bank's electronic banking channels, ATM installations, renovation or relocation or branch premises, and investments for new branches.

Material Impact on Income from Continuing Operations

In the normal course of operations, the Bank's activities are affected by changes in interest rates, foreign currency exchange rates and other market changes. The Bank follows a prudent policy on managing its assets and liabilities so as to ensure that exposure to fluctuations in interest rates and foreign currency exchange rates are kept within acceptable limits and within regulatory guidelines.

Significant Elements of Income or Loss that did not arise from Continuing Operations

There are no significant elements of income or loss that did not arise from the continuing operations of the Bank.

Seasonal aspects that have a material effect on the financial position or results of operations.

The Bank's financial position or results of operations are not affected by seasonal aspects.

Future Prospects

The Philippine economy continues to exhibit upbeat growth prospects. This is on the back of solid domestic demand led by household consumption and capital formation that are underpinned by remittance flows and foreign investments. External trade in goods and services is likely to post a positive performance amid headwinds emanating from heightened global economic uncertainty. Sectoral outperformers are seen to buoy economic growth on the production side, and these include accommodation and F&B services, construction, finance, professional and business services, retail trade, transport, and utilities. Inflation is expected to be manageable and settle within the central bank's target range. Interest rates are projected to be reduced by more policy rate cuts, which in turn would translate into lower borrowing costs and raise net worth. Fiscal consolidation would help narrow further the fiscal deficit and national debt in terms of their respective shares to GDP. External buffers will continue to be more than adequate given foreign reserve accumulation and help ensure foreign exchange stability.

ITEM 7. FINANCIAL STATEMENTS

The consolidated financial statements of the Bank are filed as part of this Information Statement as Annex C.

ITEM 8. INFORMATION ON INDEPENDENT ACCOUNTANT AND OTHER RELATED MATTERS

1) External Audit Fees and Services

The aggregate fees billed for each of the last two fiscal years for professional services rendered by the Group's external auditors are summarized as follows:

Nature of Services Rendered	Aggregate Fees ¹ (in thousands)	
	2024	2023
Total audit fees ²	₱8,450	₱7,321
Non-audit services ³		
Other assurance services	5,300	—
Tax services	874	—
All other services	1,055	—
	7,229	—
	₱15,679	₱7,321
Audit and Non-audit fees of other related entities ⁴		
Audit fees	₱4,417	₱3,977
Non-audit services	—	—
	₱4,417	₱3,977

¹Excluding out of pocket expenses and value added tax (VAT)

²Agreed fees for the audit of the Bank's stand-alone and consolidated financial statements and the Bank's consolidated subsidiaries' financial statements on which the external auditor expresses an opinion. These do not include fees for special purpose audit or review of financial statements.

³ Agreed fees for non-audit services to the Bank and its related entities over which the Bank has direct or indirect control that are consolidated in the financial statements on which the external auditor expresses an opinion.

⁴Fees for services charged to related entities not covered in (2) or (3).

Audit Committee's Approval Policies and Procedures for the Above Services

- **Selection of external auditors**
The Audit Committee is responsible for the annual evaluation and selection of the external auditors based on established criteria. The committee recommends the selected auditor to the Board of Directors for approval, ensuring compliance with independence and governance standards.
- **Audit planning and fee approval**
Prior to the commencement of each annual audit, the external auditors present the proposed audit plan—including its scope, key focus areas, and timeline—along with the associated audit fee for the Audit Committee's review and approval. The committee ensures the audit plan aligns with regulatory requirements and the organization's financial reporting objectives.
- **Audit results review and endorsement**
Upon completion of the audit, the Audit Committee reviews the audit findings and financial reporting implications. The committee evaluates key audit matters and endorses the audit results for final approval by the Board of Directors, ensuring transparency and integrity in financial disclosures.

- **Oversight of non-audit services**

The Audit Committee reviews and pre-approves the scope and fees of any non-audit services provided by the external auditors before engagement. The committee assesses whether such services comply with regulatory restrictions, maintain auditor independence, and do not impair the integrity of financial reporting.

2) Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

There were no changes in and disagreements with SGV, the Bank's external auditor, on accounting and financial disclosure.

ITEM 9. CORPORATE GOVERNANCE

a. The evaluation system established by the company to measure or determine the level of compliance of the BOD and top-level management with its Manual of Corporate Governance

On an annual basis, the Bank submits to the SEC the Integrated Annual Corporate Governance report (IACGR) which is a tool to publicly disclose the Bank's compliance to the SEC Code of Corporate Governance for Publicly Listed Corporations. It contains all relevant information and disclosures with regard to the Bank's corporate governance policies and practices for the previous year using the "comply or explain" approach". The IACGR is a board approved document and is signed by the Chairman of the Board, all Independent Directors, President & CEO, Corporate Secretary and Compliance Officer. It is submitted to the SEC every May 30th, disclosed in the PSE and thereafter published in the Bank's website.

b. Measures being undertaken by the company to fully comply with the adopted leading practices on good corporate governance

The Bank has a Manual of Corporate Governance approved by the Board. Every so often, amendments are made due to changes in requirements brought about by new regulations, internal policy changes or adoption of new best practices. Board approved revisions are submitted to the SEC, disclosed in the PSE and published in the Bank's website. The last amendment was made in January 30, 2024.

Under the Bank's Manual of Corporate Governance, the Bank is led by a Board which is the highest authority in matters of governance and in managing the business of the Bank. The Board establishes the vision, strategic objectives, key policies, and procedures for the management of the Bank, as well as the mechanism for monitoring and evaluating management's performance. The Board also ensures the presence and adequacy of internal control mechanisms for good governance.

The Board is composed of fifteen (15) directors, seven (7) of whom are independent directors. The roles of the Chairman and President & CEO are separate and clearly defined while the independent directors are a strong source of independent advice and judgment. They bring considerable knowledge and experience to the Board's deliberations.

Security Bank Corporation as a bank and publicly listed corporation conducts an annual evaluation to assess the performance and effectiveness of its BOD as a whole, the individual members of the Board, the Chairman, the Chief Executive Officer, the Corporate Secretary, the Board-level Committees, and Management-level Committees pursuant to the requirements of Section 132 of the Manual of Regulations for Banks and SEC Memorandum Circular No. 19, Series of 2016 as duly embodied in the Bank's Manual on Corporate Governance. This activity is facilitated by the Corporate Governance Committee for the Board as a whole, the Chairman, Corporate Secretary CEO and Committees while the Nominations and Remuneration Committee is in charge of individual directors and the Chief Executive Officer. Every three years, the assessment is supported by an external facilitator who may be any independent third party such as, but not limited to, a consulting firm, academic institution or professional organization.

The Board meets every last Tuesday of the month in accordance with the Bank's by-laws. A schedule of the Board meetings is presented to the new Board upon their election in April as part of the Organizational Board meeting. In 2024, the Board held a total of 16 meetings.

The attendance record of the Board members is as follows:

Non-performing Loan (NPL) Cover (Based on Circulars 941 and 1011)	$\frac{\text{Allowance for Probable Losses Loans}}{\text{Non-performing Loans (gross of specific allowance)}}$
Liquid Assets to Total Assets	$\frac{\text{Total Liquid Assets}}{\text{Total Assets}}$
Return on Average Equity	$\frac{\text{Net Income (or Loss) after Income Tax} \times 100}{\text{Average Total Capital Accounts}}$
Net Interest Margin	$\frac{\text{Net Interest Income} \times 100}{\text{Average Interest Earning Assets}}$

2024 versus 2023 Results of Operations

Financial Position

Total Assets increased by 29.6% to ₱1.1 trillion on account of increases in Due from Other Banks, Interbank Loans Receivable and Securities Purchased Under Resale Agreements (SPURA) with BSP, Financial Assets at Fair Value through Profit or Loss, Derivative Assets Designated as Hedges, Financial Assets at Fair Value through Other Comprehensive Income, Investment Securities at Amortized Cost, Loans and Receivables - Net, Investment in Subsidiaries and Joint Ventures, Property, Equipment and Right-of-use - Net, Investment Properties - Net, Deferred Tax Assets, Intangible Assets, and Other Assets tempered by decreases in Cash and Other Cash Items, and Due from BSP.

Decrease in **Cash and Other Cash Items** by ₱0.8 billion or 5.6% can be attributed to the Bank's daily operations while decrease in **Due from BSP** by ₱10.7 billion or 23.4% is due to asset-liability management.

Due from Other Banks increased by 27.9% or ₱3.3 billion due to increased level of working balances with counterparty banks. **Interbank Loans Receivable and SPURA with the BSP** increased by ₱5.3 billion or 130.2% due to increased level of placements.

Financial Assets at Fair Value Through Profit or Loss increased by ₱5.9 billion or 54.5% to ₱16.8 billion due to trading-related activities of the Bank. **Derivative Assets Designated as Hedges** amounted to ₱0.6 billion. **Financial Assets at Fair Value through Other Comprehensive Income** increased by ₱42.0 billion to ₱181.8 billion or 30.0% mainly due to purchases of treasury notes and bills and treasury bonds during the year. **Investment Securities at Amortized Cost** increased to ₱138.7 billion by ₱62.6 billion or 82.2% mainly due to purchases of corporate bonds and government securities during the period.

Loans and Receivables increased by 25.9% to ₱677.8 billion from ₱538.3 billion in 2023 primarily attributable to increase in wholesale, retail and MSME loans during the period.

Investments in Joint Ventures represent Parent Company's 60.0% interest in SBM Leasing, Inc. (SBML) and 49.96% interest in SB Finance, Inc. (SBFI). Increase by 0.1% or ₱1.5 million is mainly due to increase in share in net income.

Property, Equipment and Right-of-use Assets increased by 25.0% to ₱8.0 billion due to additions during the year, while **Investment Properties** increased by 31.2% to ₱6.3 billion due to real and other properties foreclosed during the year.

Deferred Tax Assets increased by 9.7% from ₱5.7 billion as of year-end 2023 to ₱6.3 billion in 2024.

Intangible Assets grew by 32.6% to ₱6.6 billion with the additional software costs during the period.

Other Assets increased by 90.9% to ₱9.6 billion from ₱5.0 billion due to increases in cash collateral deposits, other investment, other properties acquired, documentary stamps, and items in process for clearing .

Total Liabilities increased by 34.4% or ₱252.6 billion to ₱988.0 billion on account of increases in Deposit Liabilities, Derivative Liabilities Designated as Hedges, Bills Payable and Securities Sold Under Repurchase Agreements (SSURA), Margin Deposits and Cash Letters of Credit, Manager's and Certified Checks Outstanding, Notes and Bonds Payable, Accrued Interest, Taxes and Other Expenses, and Other Liabilities tempered by decreases in Financial Liabilities at Fair Value through Profit or Loss, Acceptances Payable, and Income Tax Payable.

Deposit Liabilities went up by 32.1% from ₱606.5 billion as of year-end 2023 to ₱801.1 billion mainly contributed by the increase in Time, Demand, and Savings Deposits.

Financial Liabilities at Fair Value through Profit or Loss decreased by 42.2% to ₱1.7 billion. **Derivative Liabilities Designated as Hedges** amounted to ₱3.8 billion. **Bills Payable and SSURA** increased by 77.6% to ₱91.2 billion due to increase in the Bank's repo transactions during the period.

Acceptances Payable decreased by 40.0% to ₱1.7 billion. **Margin Deposits and Cash Letters of Credit** increased by 195.2% to ₱0.2 billion. **Manager's and Certified Checks Outstanding** at ₱5.3 billion increased by ₱0.1 billion or 2.5%.

Income Tax Payable decreased by ₱0.3 billion from year-end 2023's ₱0.8 billion. **Notes and Bonds Payable** increased by ₱12.2 billion or 25.0% mainly due to issuance of senior unsecured notes amounting to USD 400 million on May 9, 2024 and fixed rate bonds amounting to ₱20.0 billion on August 20, 2024 tempered by settlements of fixed rate bonds amounting to ₱16.0 billion and ₱14.6 billion on January 22 and May 10, 2024, respectively. **Accrued Interest, Taxes and Other Expenses** increased by 22.4% to ₱5.9 billion. **Other Liabilities** went up by 29.8% to ₱15.4 billion.

Total Equity grew by 3.7% to ₱141.1 billion on account of net income during the period tempered by increases in net unrealized loss on debt instruments at fair value through other comprehensive income and cost of hedging reserve.

Surplus increased by 9.0% due to net income for the period, after accounting for dividends. **Net Unrealized Loss on Financial Assets at Fair Value through Other Comprehensive Income of the Parent** increased by 35.1% due to decline in market valuation of outstanding debt securities. **Cumulative Foreign Currency Translation** decreased by ₱58.7 million. **Cost of hedging reserve** amounted to ₱1.6 billion.

The **Capital Adequacy Ratio (CAR)** is 13.8% in December 2024. This is well above BSP minimum requirement of 10%, indicative of the sufficiency of the Bank's capital to support the current level of its risk assets.

Results of Operations

Net income attributable to the Bank's equity holders amounted to ₱11.2 billion for the year ended December 31, 2024 from a year ago level of ₱9.1 billion or an increase of 23.4%. This translates to earnings per share of ₱14.91 from ₱12.08 for the year ended December 31, 2023.

Interest Income ended higher than prior period by 27.9% or ₱13.7 billion. **Interest Income on Loans and Receivables** amounted to ₱48.4 billion from ₱38.1 billion or an increase of 26.9% from the same period last year due to higher volume of loans and receivables on a period-on-period basis. **Interest income on Financial assets at fair value through other comprehensive income and investment securities at amortized cost** increased by 45.8% or ₱3.9 billion on account of higher securities portfolio while **Interest income on Financial assets at fair value through profit or loss** decreased by ₱0.3 billion due to lower interest rates and volume in 2024. Decrease in **Interest Income on Interbank Loans Receivables and SPURA with the BSP** by 21.8% or ₱0.2 billion was due to the decrease in volume of placements during the period. **Interest income on Deposits with Banks and Others** increased by 104.3% due to increase in volume of margin deposits.

Interest Expense increased by 32.9% or ₱4.7 billion from prior period. **Interest Expense on Deposits** decreased by 15.9% or ₱1.3 billion primarily from lower rates offered on time deposits. **Interest Expense on Notes and Bonds Payable, Bills Payable and SSURA and Other Borrowings** increased by 18.3% or ₱1.0 billion due to higher borrowing transactions. **Interest Expense on Derivative Instruments** decreased by ₱0.6 billion. **Interest Expense on Derivatives Designated as Hedges** recognized during the year is ₱5.6 billion. **Interest Expense on Lease Liabilities** increased by 23.4% or ₱19.0 million compared to 2023 on a period-on-period basis.

Net Interest Income increased to ₱43.7 billion, up by 25.9% or ₱9.0 billion compared to 2023 on a period-on-period basis.

Other Income rose to ₱11.2 billion, a 36.3% increase, primarily due to ₱2.9 billion increase in **Service Charges, Fees and Commission** from higher fees in bancassurance, credit cards and loans. **Foreign Exchange Loss - Net** decreased by ₱0.3 billion from ₱2.1 billion in 2023. **Rent Income** increased by 0.2 billion. **Profit from Assets Sold/Exchanged** decreased by ₱0.3 billion during the period on account of lower gains on acquisition and sale of foreclosed assets. **Share in Net Income of Joint Ventures**

decreased by ₱177.7 million to ₱1.9 million from ₱179.6 million of the same period last year. **Securities Trading Gain - net** decreased by ₱5.4 million. **Miscellaneous Income** increased by ₱35.4 million.

Operating expenses (excluding provisions for credit and impairment losses) were higher by 26.8%. **Depreciation and Amortization** increased by 27.7% while **Amortization of Software Costs** increased by 34.1%. **Compensation and Fringe Benefits, Occupancy Costs, Taxes and Licenses** and **Miscellaneous Expenses** increased by 21.6%, 20.7%, 17.9% and 33.2%, respectively.

Provision for Credit Losses increased by ₱2.0 billion as a result of the Bank's proactive stance towards the current economic environment. **Provision for impairment losses** decreased by ₱0.2 billion.

Provision for Income Tax amounting to ₱4.0 billion for the period ended December 31, 2024 increased by ₱1.0 billion mainly due to higher provision for final taxes and lower benefit from deferred income tax tempered by lower current income tax.

Total Comprehensive Income for the period ended December 31, 2024 decreased to ₱7.3 billion from ₱12.5 billion in 2023 on a period-on-period basis on account of net unrealized loss on financial assets at fair value through other comprehensive income and changes in cost of hedging reserve.

2023 versus 2022 Results of Operations

Financial Position

Total Assets increased by 3.47% to ₱871.5 billion on account of increases in Cash and Other Cash Items, Financial Assets at Fair Value through Profit or Loss, Financial Assets at Fair Value through Other Comprehensive Income, Investment Securities at Amortized Cost, Loans and Receivables - Net, Investment in Subsidiaries and Joint Ventures, Property, Equipment and Right-of-use – Net, Investment Properties – Net, Deferred Tax Assets and Intangible Assets tempered by decreases in Due from BSP, Due from Other Banks, Interbank Loans Receivable and SPURA with BSP and Other Assets.

Increase in **Cash and Other Cash Items** by ₱0.8 billion or 5.8% can be attributed to the Bank's daily operations while decrease in **Due from BSP** by ₱17.2 billion or 27.3% is due to asset-liability management. **Due from Other Banks** decreased by 40.2% or ₱8.1 billion due to decreased level of working balances with counterparty banks. **Interbank Loans Receivable and SPURA with the BSP** decreased by ₱23.4 billion or 85.2% due to decreased level of placements.

Financial Assets at Fair Value Through Profit or Loss increased by ₱3.3 billion or 43.9% to ₱10.9 billion due to trading related activities of the Bank. **Financial Assets at Fair Value through Other Comprehensive Income** increased by ₱27.0 billion to ₱139.9 billion or 23.9% mainly due to purchases during the year.

Investment Securities at Amortized Cost increased to ₱76.2 billion by ₱6.9 billion or 10.0% mainly due to purchases of corporate bonds and government securities during the period.

Loans and Receivables increased by 7.1% to ₱538.3 billion from ₱502.6 billion in 2022 primarily attributable to increase in consumer and residential mortgages lending during the period.

Investments in Subsidiaries and Joint Ventures represent Parent Company's 60.0% interest in SBML and 49.96% interest in SBFI. Increased by 7.6% or ₱184.5 million mainly due to increase in share in net income.

Property, Equipment and Right-of-use Assets increased by 21.8% to ₱6.4 billion due to additions during the year, while **Investment Properties** increased by 49.5% to ₱4.8 billion due to real and other properties foreclosed during the year.

Total Equity grew by 8.2% to ₱136.1 billion on account of net income during the period and decrease in net unrealized loss on debt instruments at fair value through other comprehensive income.

Surplus was up by 7.4% due to the net income during the period. **Net Unrealized Loss on Financial Assets at Fair Value through Other Comprehensive Income of the Parent** decreased by 40.1% due to improved market valuation of outstanding debt securities. **Cumulative Foreign Currency Translation** decreased by ₱23.1 million.

The **CAR** is 16.19% in December 2023. This is well above BSP minimum requirement of 10%, indicative of the sufficiency of the Bank's capital to support the current level of its risk assets.

Results of Operations

Net income attributable to the Bank's equity holders amounted to ₱9.1 billion for the year ended December 31, 2023 from a year ago level of ₱10.6 billion or a decrease of 13.7%. This translates to earnings per share of ₱12.08 from 14.00 for the period ended December 31, 2022.

Interest Income ended higher than prior period by 33.6% or ₱12.3 billion. **Interest Income on Loans and Receivables** amounted to ₱38.1 billion from ₱29.7 billion or an increase of 28.5% from the same period last year due to higher volume of Loans & Receivables on a period-on-period basis. **Interest income on Financial assets at fair value through other comprehensive income and investment securities at amortized cost** increased by 46.3% or ₱2.7 billion on account of higher securities portfolio. **Interest income on Financial assets at fair value through profit or loss** increased by ₱544.2 million due to higher interest rates and volume in 2023. Increase in **Interest Income on Interbank Loans Receivables and SPURA with the BSP** by 165.7% or ₱619.8 million was due to the increase in volume of placements during the period. **Deposits with Banks and Others** increased by 17.8% due to increase in volume of transactions.

Interest Expense increased by 91.3% or ₱6.9 billion from prior period. **Interest Expense on Deposits** increased by 62.5% or ₱3.2 billion due to increase in volume and interest rate of deposits on a period-on-period basis. **Interest Expense on Notes and Bonds Payable, Bills Payable and SSURA and Other Borrowings** increased by 175.4% or ₱3.5 billion mainly due to increase in SSURA and issuance of fixed rate bonds amounting to ₱18.5 billion on July 13, 2023 tempered by maturity of \$300.0 million senior unsecured notes. **Interest Expense on Derivative Instruments** increased by ₱205.7 million. **Interest Expense on Lease Liabilities** increased by 13.3% or ₱9.5 million compared to 2022 on a period-on-period basis.

Net Interest Income increased to ₱34.7 billion, 18.8% or grew by ₱5.5 billion compared to 2022 on a period-on-period basis.

Other Income decreased to ₱8.2 billion or a decrease of 20.8% mainly due to decrease in **Foreign Exchange-Net** by ₱3.1 billion and in **Profit from Assets Sold/Exchanged** by ₱285.0 million during the period on account of lower gains on acquisition and sale of foreclosed assets. **Gain on redemption of Investment Securities at Amortized Cost** decreased by ₱4.0 million. **Miscellaneous Income** decreased by ₱22.4 million. **Service Charges, Fees and Commissions** increased by ₱783.0 million or 14.8%, due to higher transaction volumes and the increase in **Share in Net Income of Joint Ventures** by ₱32.2 million is attributable to the Bank's share in the net income of SBM Leasing, Inc. and SBFI during the period. **Securities Trading Gain** increased by ₱314.4 million.

Operating expenses (excluding provisions for credit and impairment losses) were higher by 13.9%. **Compensation and Fringe Benefits** increased by 18.2%. **Amortization of Software Costs and Miscellaneous Expenses** increased by 22.5% and 16.2%, respectively while **Taxes and Licenses** increased by 4.4%. **Depreciation and Amortization** increased by 1.7% while **Occupancy Costs** increased by 5.0%.

Provision for Credit Losses increased by ₱2.0 billion as a result of the Bank's proactive stance towards the current economic environment. **Provision for impairment losses** decreased by ₱72.4 million.

Provision for Income Tax amounting to ₱3.0 billion for the period ended December 31, 2023 decreased by ₱376.1 million, mainly due to higher benefit from deferred income tax.

Total Comprehensive Income for the period ended December 31, 2023 increased to ₱12.5 billion from ₱3.0 billion in 2022 on a period-on-period basis on account of lower net unrealized loss on financial assets at fair value through other comprehensive income tempered by lower net income.

2022 versus 2021 Results of Operations

Financial Position

Total Assets increased by 20.39% to ₱842.3 billion on account of increases in Cash and Other Cash Items, Due from Other Banks, Financial Assets at Fair Value through Profit or Loss, Financial Assets at Fair Value through Other Comprehensive Income, Investment Securities at Amortized Cost, Loans and Receivables - Net, Investment in Subsidiaries and Joint Ventures, Property, Equipment and Right-of-use - Net, Investment Properties - Net, Intangible Assets and Other Assets tempered by decreases in Due from BSP, Interbank Loans Receivable and SPURA with BSP and Deferred Tax Assets.

Increase in **Cash and Other Cash Items** by ₱2.1 billion or 18.9% can be attributed to the Bank's daily operations while decrease in **Due from BSP** by ₱4.4 billion or 6.5% is due to asset-liability management. **Due from Other Banks** increased by 53.1% or ₱7.0 billion due to increased level of working balances with counterparty banks. **Interbank Loans Receivable and SPURA with the BSP** decreased by ₱1.9 billion or 6.5% due to decreased level of placements.

Financial Assets at Fair Value Through Profit or Loss increased by ₱0.6 billion or 9.3% to ₱7.6 billion due to trading-related activities of the Bank. **Financial Assets at Fair Value through Other Comprehensive Income** increased by ₱32.2 billion to ₱112.9 billion or 39.9% mainly due to purchases during the year.

Investment Securities at Amortized Cost increased to ₱69.2 billion by ₱47.4 billion or 217.0% mainly due to purchases of government securities and corporate bonds during the period.

Loans and Receivables increased by 12.0% to ₱502.6 billion from ₱448.6 billion in 2021 primarily attributable to additions in corporate lending during the period and the decrease in Group's provisions for credit losses during the year.

Investments in Subsidiaries and Joint Ventures represent Parent Company's 60.0% interest in SBML and 49.96% interest in SBFI. Increased by 58.5% or ₱900.3 million mainly attributed to the second tranche of capital infusion from the Parent Company and Bank of Ayudhya Public Company Ltd. (BAY), commonly known as Krungsri obtained on January 18, 2022.

Property, Equipment and Right-of-use Assets increased by 1.8% to ₱5.3 billion due to additions during the year, while **Investment Properties** increased by 170.9% to ₱3.2 billion due to real and other properties foreclosed during the year.

Deferred Tax Assets decreased by 7.5% from ₱5.2 billion as of year-end 2021 to ₱4.9 billion in 2022.

Intangible Assets grew by 16.0% to ₱3.7 billion with the additional software costs during the period.

Other Assets increased by 73.4% to ₱5.8 billion from ₱3.4 billion due to increase in cash collateral deposits and other properties acquired tempered by decrease in pension assets and creditable withholding taxes.

Total Liabilities increased by 24.7% or ₱141.9 billion to ₱716.4 billion on account of increases in Deposit Liabilities, Financial Liabilities at Fair Value through Profit or Loss, Bills Payable and SSURA, Acceptances Payable, Margin Deposits and Cash Letters of Credit, Income Tax Payable, Notes and Bonds Payable, Accrued Interest, Taxes and Other Expenses and Other Liabilities tempered by decrease in Manager's and Certified Checks Outstanding.

Deposit Liabilities went up by 15.7% from ₱523.6 billion as of year-end 2021 to ₱605.8 billion mainly contributed by the increase in Time and Demand Deposits.

Financial Liabilities at Fair Value through Profit or Loss increased by 36.4% to ₱1.8 billion. **Bills Payable and SSURA** increased by 1,081.2% to ₱40.9 billion due to increase in the Bank's repo transactions and borrowings from local banks during the period.

Acceptances Payable increased by 8.36% to ₱1.1 billion. **Margin Deposits and Cash Letters of Credit** increased by 59.1% to ₱63.9 million. **Manager's and Certified Checks Outstanding** at ₱4.1 billion decreased by ₱118.3 million or 2.8%.

Income Tax Payable increased to ₱198.3 million from year-end 2021's ₱85.8 million due to higher income tax liability for the 4th quarter of 2022 versus the last quarter of 2021. **Notes and Bonds Payable** increased by ₱18.4 billion or 64.0% mainly due to bond issuance of fixed rate bonds amounting to ₱16.0 billion and ₱14.6 billion on July 20, 2022 and November 10, 2022, respectively, tempered by maturity of ₱13.5 billion fixed rate bonds on July 24, 2022. **Accrued Interest, Taxes and Other Expenses** increased by 43.4% to ₱4.2 billion. **Other Liabilities** went up by 21.4% to ₱11.2 billion.

Total Equity grew by 0.6% to ₱125.8 billion on account of net income during the period tempered by the increase in net unrealized loss on debt instruments at fair value through other comprehensive income. **Surplus** was up by 10.1% due to the net income during the period. **Net Unrealized Loss on Financial Assets at Fair Value through Other Comprehensive Income of the Parent** increased by 352.2% due to decrease in market valuation of outstanding debt securities. **Cumulative Foreign Currency Translation** decreased by ₱186.4 million.

The **CAR** is 16.60% in December 2022. This is well above BSP minimum requirement of 10%, indicative of the sufficiency of the Bank's capital to support the current level of its risk assets.

Results of Operations

Net income attributable to the Bank's equity holders amounted to ₱10.6 billion for the year ended December 31, 2022 from a year ago level of ₱6.9 billion or an increase of 52.6%. This translates to earnings per share of ₱14.00 from ₱9.17 for the period ended December 31, 2021.

Interest Income ended higher than prior period by 11.7% or ₱3.9 billion. **Interest income on Financial assets at fair value through other comprehensive income and investment securities at amortized cost** increased by 80.1% or ₱2.6 billion on account of the additional securities. **Interest Income on Loans and Receivables** amounted to ₱29.7 billion from ₱28.1 billion or an increase of 5.8% from the same period last year due to higher volume of Loans & Receivables on a period-on-period basis. **Interest income on Financial assets at fair value through profit or loss** increased by ₱96.7 million due to higher securities portfolio. Increase in **Interest Income on Interbank Loans Receivables and SPURA with the BSP** by 16.7% or ₱53.5 million was due to the increase in volume of placements during the period. **Deposits with Banks and Others** declined by 85.8% due to decrease in volume of transactions.

Interest Expense increased by 37.8% or ₱2.1 billion from prior period. **Interest Expense on Deposits** increased by 71.5% or ₱2.1 billion due to increase in volume on a period-on-period basis. **Interest Expense on Derivative Instruments** increased by ₱57.6 million. **Interest Expense on Notes and Bonds Payable, Bills Payable and SPURA and Other Borrowings** dropped by 4.1% or ₱85.9 million mainly due to maturity of ₱13.5 billion and ₱18.0 billion fixed rate bonds on July 24, 2022 and June 28, 2021, respectively, tempered by bond issuance of fixed rate bonds amounting to ₱16.0 billion and ₱14.6 billion on July 20, 2022 and November 10, 2022, respectively. **Interest Expense on Lease Liabilities** decreased by 14.9% or ₱12.5 million compared to 2021 on a period-on-period basis.

Net Interest Income increased to ₱29.2 billion, 6.5% or grew by ₱1.8 billion compared to 2021 on a period-on-period basis.

Other Income increased to ₱10.4 billion or an increase of 11% mainly due to increase in **Foreign Exchange Gains** by ₱796.4 million and in **Service Charges, Fees and Commissions** by ₱754.1 million or 16.6%, due to higher transaction volumes. **Miscellaneous Income** increased by ₱430.8 million and **Profit from Assets Sold/Exchanged** increased by ₱106.0 million during the period on account of higher gains on acquisition and sale of foreclosed assets. The increase in **Share in Net Income of Joint Ventures** by ₱66.0 million is attributable to the Bank's share in the net income of SBM Leasing, Inc. and SBFI during the period. **Gain on redemption of Investment Securities at Amortized Cost** decreased by ₱62.0 million and **Securities Trading Gain** decreased by ₱1.1 billion.

Operating expenses (excluding provisions for credit and impairment losses) were higher by 7.6%. **Compensation and Fringe Benefits** increased by 8.9%. **Amortization of Software Costs and Miscellaneous Expenses** increased by 52.1% and 13.8%, respectively while **Taxes and Licenses** decreased by 7.3%. **Depreciation and Amortization** decreased by 2.7% while **Occupancy Costs** decreased by 1.4%.

Provision for Credit Losses decreased by ₱2.6 billion due to overall improvement in non-performing loans. **Provision for impairment losses** grew by ₱222.2 million mainly due to impairment from investment properties and other properties acquired.

Provision for Income Tax amounted to ₱3.3 billion for the period ended December 31, 2022 decreased by ₱15.1 million, mainly due to lower provision for deferred income tax.

Total Comprehensive Income for the period ended December 31, 2022 decreased to ₱3.0 billion from ₱4.0 billion in 2021 on a period-on-period basis on account of higher net unrealized loss on financial assets at fair value through other comprehensive income tempered by higher net income.

Report on the Consolidated and Parent Company Financial Statements

Opinion

We have audited the consolidated financial statements of Security Bank Corporation and its subsidiaries (the Group) and the parent company financial statements of Security Bank Corporation (the Parent Company), which comprise the consolidated and parent company statements of financial position as at December 31, 2024 and 2023, and the consolidated and parent company statements of income, consolidated and parent company statements of comprehensive income, consolidated and parent company statements of changes in equity and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2024, and notes to the consolidated and parent company financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated and parent company financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2024 and 2023, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2024 in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (the Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated and parent company financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and parent company financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and parent company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated and parent company financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated and parent company financial statements.

Applicable to the Audit of the Consolidated and Parent Company Financial Statements

Allowance for Credit Losses on Loans and Receivables

The Group's and the Parent Company's application of the expected credit loss (ECL) model in calculating the allowance for credit losses on loans and receivables is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's and the Parent Company's credit risk exposures; determining the method to estimate ECL; defining default; identifying exposures with significant deterioration in credit quality; determining assumptions to be used in the ECL model such as the counterparty credit risk rating, the expected life of the financial asset, expected recoveries from defaulted accounts both for secured and unsecured accounts and incorporating forward-looking information in calculating ECL.

Allowance for credit losses on loans and receivables as of December 31, 2024 amounted to ₱16.3 billion for the Group and the Parent Company, respectively. Provision for credit losses on loans and receivables of the Group and the Parent Company in 2024 amounted to ₱6.5 billion.

The disclosures related to the allowance for credit losses on loans and receivables are included in Note 14 to the financial statements.

Audit Response

We obtained an understanding of the board approved methodologies and models used for the Group's and the Parent Company's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments* to reflect an unbiased and probability-weighted outcome, and to consider time value of money and the best available forward-looking information.

We (a) assessed the Group's and the Parent Company's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default and significant increase in credit risk criteria against historical analysis of accounts, credit risk management policies and practices in place, (c) tested the Group's and the Parent Company's application of internal credit risk rating system by reviewing the ratings of sample credit exposures; (d) assessed whether expected life is different from the contractual life by testing the maturity dates reflected in the Group's and the Parent Company's records and considering management's assumptions regarding future collections, advances, extensions, renewals and modifications; (e) tested loss given default by inspecting historical recoveries and related costs, management's strategies in disposing collaterals, write-offs and collateral valuations,

and the effects of any financial support and credit enhancements provided by any party; (f) tested exposure at default considering outstanding commitments and repayment scheme; (g) checked the reasonableness of forward-looking information used for overlay through statistical test and corroboration using publicly available information and our understanding of the Group's and the Parent Company's lending portfolios and broader industry knowledge and (h) tested the EIR used in discounting the expected loss.

Further, we compared the data used in the ECL models by reconciling data from source system reports to the data warehouse and from the data warehouse to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets of debt financial assets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis.

We recalculated impairment provisions on a sample basis. We reviewed the disclosures made in the financial statements.

We involved our internal specialists in the performance of the above procedures.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A, and Annual Report for the year ended December 31, 2024, but does not include the consolidated and parent company financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A, and Annual Report for the year ended December 31, 2024 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent company financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated and parent company financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and parent company financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and parent company financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and parent company financial statements, management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Parent Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and parent company financial statements, including the disclosures, and whether the consolidated and parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and parent company financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Reports on the Supplementary Information Required Under Section 174 of the Manual of Regulations for Banks (MORB) and Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Section 174 of the MORB in Note 41 and Revenue Regulations 15-2010 in Note 40 to the financial statements is presented for purposes of filing with the BSP and Bureau of Internal Revenue, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of Security Bank Corporation. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

SECURITY BANK CORPORATION AND SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

Security Bank Corporation (the Parent Company) is a domestic corporation registered with the Securities and Exchange Commission (SEC) in 1951 and was listed in the Philippine Stock Exchange (PSE) in 1995. The Parent Company's head office is located at Security Bank Centre, 6776 Ayala Avenue, Makati City.

The Parent Company was incorporated on May 8, 1951 and started its operations as a commercial bank on June 18, 1951. On May 30, 2000, the Board of Directors (BOD) of the Parent Company approved its Amended Articles of Incorporation to extend the corporate term of the Parent Company, which expired on May 8, 2001, for another 50 years. On February 19, 2001, the SEC approved such amendment.

With the effectivity of Section 11 of Republic Act (RA) No. 1132, otherwise known as "Revised Corporation Code of the Philippines" on February 23, 2019, corporations existing before its enactment are deemed to have perpetual term. Accordingly, the Parent Company's corporate term is considered perpetual.

In 1994, the Parent Company was approved by the Bangko Sentral ng Pilipinas (BSP) to operate as a universal bank, allowing it to expand its financial services and revenue sources.

The Parent Company provides expanded commercial banking services such as deposit products, loans and trade finance, domestic and foreign fund transfers, treasury, foreign exchange and trust services. In addition, the Parent Company is licensed to engage in financial derivatives to service the requirements of its customers and as a means of reducing and managing the Parent Company's foreign exchange and interest rate exposures.

The Parent Company and its subsidiaries and joint ventures (collectively referred to as the "Group"), which are all incorporated in the Philippines, are engaged in the following businesses:

⁶ Joint Ventures

The Parent Company is the ultimate parent company of the Group.

2. Summary of Material Accounting Policy Information

Basis of Preparation

The accompanying consolidated financial statements include the financial statements of the Parent Company and its subsidiaries.

The accompanying financial statements have been prepared on a historical cost basis except for financial assets and financial liabilities at Fair Value through Profit or Loss (FVTPL), financial assets at Fair Value through Other Comprehensive Income (FVTOCI) and derivative assets and liabilities designated as hedges that have been measured at fair value. The carrying values of recognized loans and receivables and investment securities at amortized cost that are hedged items in fair value hedges, and otherwise carried at amortized cost, are adjusted to record changes in fair value attributable to the risks that are being hedged. The financial statements are presented in Philippine Peso and all values are rounded to the nearest thousand peso (₱000) except when otherwise indicated.

The financial statements of the Parent Company include the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The functional currency of the RBU and the FCDU is the Philippine Peso and United States Dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated into their equivalents in Philippine Peso, which is the Parent Company's presentation currency. The financial statements individually prepared for these units are combined after eliminating inter-unit accounts.

The consolidated financial statements provide comparative information in respect of the previous period.

Each entity in the Group determines its own functional currency and the items included in the financial statements of each entity are measured using that functional currency. The functional currency of each of the Parent Company's subsidiaries is the Philippine Peso.

Statement of Compliance

The accompanying financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis of Consolidation

The consolidated financial statements of the Group are prepared for the same reporting period as the subsidiaries, using consistent accounting policies.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statements of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of 'Other comprehensive income (OCI)' are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies used in line with those used by the Group. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- derecognizes the carrying amount of any non-controlling interests;
- derecognizes the cumulative translation differences recorded in equity;
- recognizes the fair value of the consideration received;
- recognizes the fair value of any investment retained;
- recognizes any surplus or deficit in profit or loss; and
- reclassifies the Parent Company's share of components' gains (losses) previously recognized in OCI to profit or loss or surplus, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

Changes in Accounting Policies

Except for these new and amended standards which were adopted as of January 1, 2024, the accounting policies adopted are consistent with those of previous financial year.

The adoption of the following amendments did not have a significant impact on the consolidated financial statements of the Group:

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*
- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

Fair Value Measurement

For measurement and disclosure purposes, the Group determines the fair value of an asset or liability at initial measurement or at each statement of financial position date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

If the asset or liability measured at fair value has a bid and ask price, the price within the bid-ask spread that is most representative of fair value in the circumstances shall be used to measure fair value, regardless of where the input is categorized within the fair value hierarchy.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External appraisers are involved for valuation of significant non-financial assets, such as investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy (see Note 6).

Financial Instruments - Initial Recognition and Subsequent Measurement

Date of recognition

Regular way purchases and sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market, except for derivatives, are recognized on the settlement date. Settlement date is the date on which the transaction is settled by delivery of the assets that are the subject of the agreement. Settlement date accounting refers to (a) the recognition of an asset on the day it is received by the Group, and (b) the derecognition of an asset and recognition of any gain or loss on disposal on the day that it is delivered by the Group. Deposits, amounts due to banks and customers, loans and receivables and spot transactions are recognized when cash is received by the Group or advanced to the borrowers.

Derivatives are recognized on trade date - the date that the Group becomes a party to the contractual provisions of the instrument. Trade date accounting refers to (a) the recognition of an asset to be received and the liability to pay for it on the trade date, and (b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

Initial recognition of financial instruments

All financial assets and financial liabilities are recognized initially at fair value plus any directly attributable cost of acquisition or issue, except in the case of financial assets and financial liabilities at FVTPL.

'Day 1' difference

Where the transaction price is different from the fair value based on other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group immediately recognizes the difference between the transaction price and the fair value of the instrument (a 'Day 1' difference) in the statements of income unless it qualifies for recognition as some other type of asset or liability. In cases where data used is not observable, the difference between the transaction price and model value is only recognized in the statements of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' difference amount.

Classification and Measurement of Financial Assets

For purposes of classifying financial assets, an instrument is an 'equity instrument' if it is a non-derivative and meets the definition of 'equity' from the point of view of the issuer (under PAS 32, *Financial Instruments: Presentation*), except for certain non-derivative puttable instruments presented as equity by the issuer. All other non-derivative financial instruments are 'debt instruments'.

Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- The expected frequency, value and timing of sales are also important aspects of the Group's assessment

The business model assessment is based on reasonably expected scenarios without taking ‘worst case’ or ‘stress case’ scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Group’s original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

The Solely Payments of Principal and Interest (SPPI) test

As a second step of its classification process the Group assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

‘Principal’ for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium/discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Financial assets at amortized cost

Debt financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Group’s business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortized cost using the effective interest method less any impairment in value, with the interest calculated recognized as ‘Interest income’ in the statements of income. The Group classified ‘Cash and other cash items (COCI)’, ‘Due from BSP’, ‘Due from other banks’, ‘Interbank loans receivable and Securities purchased under resale agreements (SPURA) with the BSP’, ‘Investment securities at amortized cost’, ‘Loans and receivables’, and cash collateral deposits and security deposits (included under ‘Other assets’) as financial assets at amortized cost.

The Group may irrevocably elect at initial recognition to classify a debt financial asset that meets the amortized cost criteria above as at FVTPL if that designation eliminates or significantly reduces an accounting mismatch had the debt financial asset been measured at amortized cost.

Financial assets at FVTPL

Debt financial assets that do not meet the amortized cost criteria, or that meet the criteria but the Group has chosen to designate as at FVTPL at initial recognition, are measured at fair value through profit or loss.

Equity investments are classified as at FVTPL, unless the Group designates an investment that is not held for trading as at FVTOCI at initial recognition.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

The Group's financial assets at FVTPL include government securities, private bonds and equity securities held for trading purposes, debt and hybrid instruments that do not meet the amortized cost criteria, and equity investments not designated as at FVTOCI.

As of December 31, 2024 and 2023, the Group has not designated any debt instrument that meets the amortized cost criteria as at FVTPL.

Financial assets at FVTPL are carried at fair value and gains and losses on these instruments are recognized as 'Trading and securities gain (loss) - net' in the statements of income. Interest earned on these investments is reported in the statements of income under 'Interest income' while dividend income is reported in the statements of income under 'Miscellaneous income' when the right of payment has been established. Quoted market prices, when available, are used to determine the fair value of these financial instruments. If a financial asset at FVTPL has a bid and ask price, the price within the bid-ask spread that is most representative of fair value in the circumstances shall be used to measure fair value. If quoted market prices are not available, their fair values are estimated based on market observable inputs. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques.

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the Bankers Association of the Philippines (BAP) closing rate at the statement of financial position date. The foreign exchange component forms part of its fair value gain or loss. For financial assets classified as at FVTPL, the foreign exchange component is recognized in the statements of income. For foreign currency-denominated debt instruments classified as at amortized cost, the foreign exchange gains and losses are determined based on the amortized cost of the asset and are recognized in the statements of income.

Equity instruments at FVTOCI

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVTOCI. Designation as at FVTOCI is not permitted if the equity investment is held for trading.

Equity investments as at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for sale or disposal costs. Gains and losses arising from changes in fair value are recognized in other comprehensive income and accumulated in 'Net unrealized gain (loss) on financial assets at FVTOCI' in the statements of financial position. Where the asset is disposed of, the cumulative gain or loss previously recognized in 'Net unrealized gain (loss) on financial assets at FVTOCI' is not reclassified to profit or loss, but is reclassified to 'Surplus'. Equity instruments at FVTOCI are not subject to an impairment assessment.

As of December 31, 2024 and 2023, the Group has designated certain equity instruments that are not held for trading as at FVTOCI on initial application of PFRS 9 (see Note 12).

Dividends earned on holding these equity instruments are recognized in the statements of income when the Group's right to receive the dividends is established in accordance with PFRS 9, unless the dividends clearly represent recovery of a part of the cost of the investment. Dividends earned are recognized under 'Miscellaneous income' in the statements of income.

Debt instruments at FVTOCI

The Group applies this category under PFRS 9 of debt instruments measured at FVTOCI when both of the following conditions are met:

- The instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset meet the SPPI test.

Debt instruments at FVTOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognized in OCI. Interest income and foreign exchange gains and losses are recognized in profit or loss in the same manner as for financial assets measured at amortized cost. On derecognition, cumulative gains or losses previously recognized in OCI are reclassified from OCI to profit or loss.

Derivative instruments

The Parent Company uses derivative instruments such as cross-currency swaps, interest rate swaps, foreign currency forward contracts, options on foreign currencies and bonds and interest rate futures. These derivatives are entered into as a service to customers and as a means for reducing or managing the Parent Company's respective foreign exchange and interest rate exposures, as well as for trading purposes. Such derivative instruments are initially recorded at fair value and carried as financial assets at FVTPL when their fair value is positive and as financial liabilities at FVTPL when their fair value is negative.

Any gains or losses arising from changes in fair value of derivative instruments (except for foreign currency forwards) are recognized as 'Trading and securities gain (loss) - net'. For foreign currency forwards, changes in fair value are recognized in 'Foreign exchange gain (loss) - net' in the statements of income.

Interest income is recognized in the statements of income if the "receive leg" is higher than the "pay leg" of interest-earning derivatives. Interest expense is recognized in the statements of income if the "pay leg" is higher than the "receive leg" of interest-bearing derivatives.

Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of PFRS 9 (e.g., financial liabilities and non-financial host contracts) are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

The Group assesses the existence of an embedded derivative on the date it first becomes a party to the contract, and performs re-assessment only where there is a change to the contract that significantly modifies the contractual cash flows.

As of December 31, 2024 and 2023, the Parent Company's hybrid financial instruments are classified as at FVTPL (see Note 10).

Reclassification of financial assets

The Group can reclassify financial assets if the objective of its business model for managing those financial assets changes. The Group is required to reclassify the following financial assets:

- from amortized cost to FVTPL if the objective of the business model changes so that the amortized cost criteria are no longer met; and
- from FVTPL to amortized cost if the objective of the business model changes so that the amortized cost criteria start to be met and the instrument's contractual cash flows meet the amortized cost criteria; and
- from FVTOCI to amortized cost if the objective of the business model changes so that the fair value criteria are no longer met but the amortized cost criteria are still met and the instrument's contractual cash flows meet the amortized cost criteria.

Reclassification of financial assets designated as at FVTPL or equity financial assets at FVTOCI at initial recognition is not permitted.

A change in the objective of the Group's business model must be effected before the reclassification date. The reclassification date is the beginning of the next reporting period following the change in the business model.

Hedge Accounting

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when the risk being hedged is the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment;
- Cash flow hedges when the risk being hedged is the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment; and
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Parent Company formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged, and how the Parent Company will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined).

A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is an 'economic relationship' between the hedged item and the hedging instrument.
- The effect of credit risk does not 'dominate the value changes' that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Parent Company actually hedges and the quantity of the hedging instrument that the Parent Company actually uses to hedge that quantity of hedged item.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognized in OCI as cash flow hedge reserve (see Note 11), while any ineffective portion is recognized immediately in the statements of income. The cash flow hedge reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

For cash flow hedges, to calculate the change in fair value of the hedged item attributable to the hedged risk, the Parent Company uses the hypothetical derivative method. The hypothetical derivative method involves establishing a notional derivative that would be the ideal hedging instrument for the hedged exposure (normally an interest rate swap or forward contract with no unusual terms and a zero fair value at inception of the hedge relationship). The fair value of the hypothetical derivative is then used as a proxy for the net present value of the hedged future cash flows against which changes in value of the actual hedging instrument are compared to assess effectiveness and measure ineffectiveness.

When foreign exchange swap contracts are used in hedging relationships, the Parent Company can designate the instrument in its entirety or exclude the forward element by designating the spot element only. The forward element in a foreign exchange swap contract is the difference between the spot and forward prices. When only the spot element is designated, the Parent Company has a choice to apply the cost of hedging accounting to the excluded forward element. In applying the cost of hedging accounting to the forward element of the foreign exchange swap contract, the change in the fair value of the forward element is recognized in OCI and accumulated in a separate component of equity. In case of a time period-related hedged item, the forward element that exists at inception is amortized from the separate component of equity to profit or loss on a systematic and rational basis. The unamortized portion of the cost of hedging is presented under 'Cost of hedging reserve' in the statements of financial position. The amortization of the forward element is presented under 'Interest expense on derivatives designated as hedges' in the statements of income.

The amounts accumulated in OCI under cash flow hedge reserve are accounted for, depending on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a non-financial item, the amount accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and will not be recognized in OCI for the period. This also applies where the hedged forecast transaction of a non-financial asset or non-financial liability subsequently becomes a firm commitment for which fair value hedge accounting is applied. For any other cash flow hedges, the amount accumulated in OCI under cash flow hedge reserve is reclassified to profit or loss as a reclassification adjustment in the same period or periods during which the hedged cash flows affect profit or loss.

When the Parent Company discontinues hedge accounting for a cash flow hedge, it must account for the amount that has been accumulated in the cash flow hedge reserve as follows: (a) the amount remains in accumulated other comprehensive income if the hedged future cash flows are still expected to occur or (b) the amount is immediately reclassified to profit or loss as a reclassification adjustment if the hedged future cash flows are no longer expected to occur. Any amount immediately reclassified to profit or loss as a reclassification adjustment is presented under 'Foreign exchange gain (loss) - net' in the statements of income.

As of December 31, 2024, the Parent Company has foreign exchange swap contracts where the spot element have been designated as hedging instruments in cash flow hedges (see Note 11).

Impairment of Financial Assets

The Group and the Parent Company record the allowance for expected credit losses for all loans and receivables and other debt financial assets not held at FVTPL, together with loan commitments and financial guarantee contracts, all referred to as ‘financial instruments’. Equity instruments are not subject to impairment under PFRS 9.

Expected Credit Loss (ECL) represents credit losses that reflect an unbiased and probability-weighted amount which is determined by evaluating a range of possible outcomes, the time value of money and reasonable and supportable information about past events, current conditions and forecasts of future economic conditions. ECL allowances are measured at amounts equal to either (i) 12-month ECL or (ii) lifetime ECL for those financial instruments which have experienced a significant increase in credit risk (SICR) since initial recognition (General Approach). The 12-month ECL is the portion of lifetime ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date. Lifetime ECL are credit losses that result from all possible default events over the expected life of a financial instrument.

Staging assessment

A three-stage approach for impairment of financial assets is used, based on whether there has been a significant deterioration in the credit risk of a financial asset. These three stages then determine the amount of impairment to be recognized.

For non-credit-impaired financial instruments:

- Stage 1 is comprised of all financial instruments which have not experienced a SICR since initial recognition or is considered of low credit risk as of the reporting date. The criteria for determining whether an account should be assessed under Stage 1 are as follows: (i) current including past due up within the cure period of up to 30 days; or (ii) unclassified. Both (i) and (ii) are applicable to wholesale, business and retail loans. The Group recognizes a 12-month ECL for Stage 1 financial instruments.
- Stage 2 is comprised of all financial instruments which have experienced a SICR as of reporting date compared to initial recognition. A SICR is generally deemed present in accounts with: (i) 31 days up to 90 days past due; (ii) especially mentioned; (iii) substandard; or (iv) with score below defined threshold. For wholesale loans, this includes small accounts with Borrower Risk Rating of 10. For auto loans and credit cards, score cut-offs are 564 and 580, respectively. For home loans, 3-notch downgrade in score is considered as Stage 2. The Group recognizes a lifetime ECL for Stage 2 financial instruments.

For credit-impaired financial instruments:

- Stage 3 is comprised of all financial assets that have objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The Group’s criteria for Stage 3 accounts are generally aligned with the definition of “default” which is explained in the next paragraph. The Group recognizes a lifetime ECL for Stage 3 financial instruments.

Definition of “default” and “restored”

The Group classifies loans, investments, receivables, or any financial asset as in default when it is credit impaired, becomes past due on its contractual payments for more than 90 days, considered non-performing, under litigation or is classified as doubtful or loss. As part of a qualitative assessment of whether a customer is in default, the Group considers a variety of instances that may indicate unlikelihood to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted. An instrument is considered to be no longer in default

(i.e., restored) if there is sufficient evidence to support that full collection is probable and payments are received for at least six months.

Credit risk at initial recognition

The Group uses internal credit assessment and approvals at various levels to determine the credit risk of exposures at initial recognition. Assessment can be quantitative or qualitative and depends on the materiality of the facility or the complexity of the portfolio to be assessed.

For accounts originated before the transition date, an approximation of the initial probability of default (PD) at origination was utilized. Average PD per portfolio was used as approximated initial PD at origination. Average of the Point-in-Time PDs was used since most of the accounts were booked in the same year.

Modification

In certain circumstances, the Group modifies the original terms and conditions of a credit exposure to form a new loan agreement or payment schedule. The modifications can be given depending on the borrower's or counterparty's current or expected financial difficulty. The modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments and accrual of interest and charges.

Significant increase in credit risk (SICR)

The assessment of whether there has been a significant increase in credit risk is based on an increase in the probability of a default occurring since initial recognition. The SICR criteria vary by portfolio and include quantitative changes in probabilities of default and qualitative factors, including a backstop based on delinquency. The credit risk of a particular exposure is deemed to have increased significantly since initial recognition if, based on the Group's internal credit assessment, the borrower or counterparty is determined to require close monitoring or with well-defined credit weaknesses.

Or, if contractual payments are more than 30 days past due, the credit risk is deemed to have increased significantly since initial recognition. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the borrower except as provided by law. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, the Group shall revert to recognizing a 12-month ECL.

ECL parameters and methodologies

ECL is a function of the PD, loss given default (LGD) and exposure at default (EAD), with the timing of the loss also considered, and is estimated by incorporating forward-looking economic information and through the use of experienced credit judgment.

The PD is an estimate of the likelihood of default over a 12-month horizon for Stage 1 or lifetime horizon for Stages 2 and 3. The PD for each individual instrument is modelled based on historic data and is estimated based on current market conditions and reasonable and supportable information about future economic conditions. The Group segments its credit exposures based on homogenous risk characteristics and developed a corresponding PD methodology for each portfolio. The PD methodology for each relevant portfolio is determined based on the underlying nature or characteristic of the portfolio, behavior of the accounts and materiality of the segment as compared to the total portfolio.

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from any collateral. It makes use of defaulted accounts that have either been identified as cured, restructured, or liquidated. The Group segmented its LGD based on homogenous risk characteristics and calculated the corresponding averages based on security.

EAD is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, and expected drawdowns on committed facilities.

Forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. A broad range of forward-looking information are considered as economic inputs, such as gross domestic product (GDP) growth, exchange rate, interest rate, inflation rate and other economic indicators. The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

The key forward-looking economic variables used in each of the economic scenarios for the ECL calculations are GDP changes in inventory, current prices, Business outlook index on the macroeconomy – Real Estate, Unemployment Rate, Industry NPL of Universal Banks and Parent Company's Wholesale Banking Segment (WBS) Loan Portfolio NPL Rate.

Debt instruments measured at FVTOCI

The ECLs for debt instruments measured at FVTOCI do not reduce the carrying amount of these financial assets in the statements of financial position, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets are measured at amortized cost is recognized in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognized in OCI is recycled to the profit and loss upon derecognition of the assets.

Consumer loans and credit card receivables

The Group does not limit its exposure to credit losses to the contractual notice period, but instead calculates ECL over a period that reflects the Group's expectations of the customer behavior, its likelihood of default and the Group's future risk mitigation procedures, which could include reducing or cancelling the facilities. Based on past experience and the Group's expectations, the period over which the Group calculates ECLs for these products is based on the remaining term.

Restructured loans

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered as past due but remains adversely classified until the account has established sufficient track record of payment. Management continuously reviews restructured loans to ensure that all criteria are met and that future payments are likely to occur.

Financial Liabilities

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

Financial liabilities held for trading include:

- derivative liabilities that are not accounted for as hedging instruments;
- obligations to deliver financial assets borrowed by a short seller (i.e., an entity that sells financial assets it has borrowed and does not yet own);
- financial liabilities that are incurred with an intention to repurchase them in the near term (e.g., a quoted debt instrument that the issuer may buy back in the near term depending on changes in its fair value); and
- financial liabilities that are part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short-term profit-taking.

Management may designate a financial liability as at FVTPL upon initial recognition when the following criteria are met, and designation is determined on an instrument-by-instrument basis:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the liabilities or recognizing gains or losses on them on a different basis; or
- The liabilities are part of a group of financial liabilities which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- The financial instrument contains an embedded derivative, unless the embedded derivative does not significantly modify the cash flows or it is clear, with little or no analysis, that it would not be separately recorded.

Financial liabilities at FVTPL are recorded in the statements of financial position at fair value. Changes in fair value of financial instruments are recorded in 'Trading and securities gain (loss) - net' in the statements of income. Interests incurred are recorded in 'Interest expense' in the statements of income.

Bills payable and other borrowed funds

Bills payable and other borrowed funds are issued financial instruments or their components, which are not financial liabilities at FVTPL. They are classified as such when the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

After initial measurement, bills payable and similar financial liabilities not qualified as and not recognized as financial liabilities at FVTPL, are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the EIR.

Derivative liabilities

Derivative liabilities are recognized initially and subsequently measured at fair value with changes in fair value recognized in the statements of income, unless designated as an accounting hedge.

Derecognition of Financial Assets and Liabilities

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired; or

- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a pass-through arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risks and rewards of the asset, but has transferred control over the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control over the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

The Group considers both qualitative and quantitative factors in assessing whether a modification of financial asset is substantial or not. When assessing whether a modification is substantial, the Group considers the following factors, among others:

- Change in currency
- Introduction of an equity feature
- Change in counterparty
- If the modification results in the asset no longer considered "solely payment for principal and interest"

The Group also performs a quantitative assessment similar to that being performed for modification of financial liabilities. In performing the quantitative assessment, the Group considers the new terms of a financial asset to be substantially different if the present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate (EIR), is at least 10% different from the present value of the remaining cash flows of the original financial asset.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in the statements of income.

When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of a new financial asset, the modified asset is considered a 'new' financial asset. Accordingly, the date of the modification shall be treated as the date of initial recognition of that financial asset when applying the impairment requirements to the modified financial asset. The newly recognized financial asset is classified as Stage 1 for ECL measurement purposes, unless the new financial asset is deemed to be originated as credit impaired.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statements of income.

Financial Guarantees

In the ordinary course of business, the Parent Company provides financial guarantees. Financial guarantees are initially recognized in the financial statements at fair value, and the initial fair value is amortized over the life of the financial guarantee in accordance with PFRS 15. The financial guarantee is subsequently carried at the higher of the amount of loss allowance determined in accordance with the expected credit loss model and the amount initially recognized, less when appropriate, the cumulative amount of income recognized in accordance with PFRS 15.

Offsetting of Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the statements of financial position, if and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to either settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, therefore, the related assets and liabilities are presented gross in the statements of financial position.

Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents consist of 'COCI', 'Due from BSP', 'Due from other banks', and 'Interbank loans receivable and SPURA with the BSP' that are convertible to known amounts of cash, with original maturities of three months or less from dates of placements and that are subject to insignificant risk of changes in value. 'Due from BSP' includes the statutory reserves required by the BSP which the Parent Company considers as cash equivalents wherein drawings can be made to meet cash requirements.

Repurchase and Reverse Repurchase Agreements

Securities sold under agreements to repurchase at a specified future date ('repos') are not derecognized from the statements of financial position. The corresponding cash received, including accrued interest, is recognized in the statements of financial position as 'Securities sold under repurchase agreements (SSURA)', reflecting the economic substance of such transaction.

Conversely, securities purchased under agreements to resell at a specified future date ('reverse repos') are not recognized in the statements of financial position. The corresponding cash paid, including accrued interest, is recognized in the statements of financial position as SPURA, and is considered a loan to the counterparty. The difference between the purchase price and resale price is treated as interest income and is accrued over the life of the agreement using the effective interest method.

Foreign Currency Translation

Transactions and balances

For financial reporting purposes, the foreign currency-denominated assets and liabilities in the RBU are translated into their equivalents in Philippine Pesos based on the Bankers Association of the Philippines (BAP) closing rate, prevailing at the statement of financial position date and foreign currency-denominated income and expenses, at the prevailing exchange rate at the date of transaction. Foreign exchange differences arising from revaluation and translation of foreign-currency denominated assets and liabilities are credited to or charged against operations in the year in which the rates change.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

FCDU

As at the reporting date, the assets and liabilities of the FCDU of the Parent Company are translated into the Parent Company's presentation currency (the Philippine Peso) at BAP closing rate prevailing at the statements of financial position date, and its income and expenses are translated at BAP weighted average rate (BAPWAR) for the year. Exchange differences arising on translation to the presentation currency are taken to the statements of comprehensive income under 'Cumulative translation adjustment'. Upon disposal of the FCDU or upon actual remittance of FCDU profits to RBU, the deferred cumulative amount recognized in the statements of comprehensive income is recognized in the statements of income.

Investments in Subsidiaries and Joint Ventures

Investment in subsidiaries

Subsidiaries pertain to all entities over which the Group has control.

Interest in joint ventures

A joint venture is a type of joint arrangement where the multiple parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The Group's investment in joint ventures represent its 60.0% interest in SBML and 49.96% interest in SBF.

The considerations made in determining joint control are similar to those necessary to determine control over subsidiaries.

The Group and the Parent Company's investment in its subsidiaries and joint ventures are accounted for using the equity method. Under the equity method, the investment in a subsidiary and/or joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group and the Parent Company's share of net assets of the subsidiary and/or joint venture since the acquisition date. Goodwill relating to the subsidiary and/or joint venture is included in the carrying amount of the investment and is neither amortized nor individually tested for impairment.

The statements of income reflects the Group and the Parent Company's share of the results of operations of the subsidiary and/or joint venture. Any change in OCI of the investee is presented as part of the Group and the Parent Company's OCI. In addition, when there has been a change recognized directly in the equity of the subsidiary and/or joint venture, the Group and the Parent Company recognizes its share of any changes, when applicable, in the statements of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

The aggregate of the Group's share of profit or loss of a subsidiary and joint venture is shown on the face of the statements of income under 'Share in net income of subsidiaries and joint ventures' and represents profit or loss after tax and non-controlling interests in the subsidiaries and joint ventures.

The financial statements of the subsidiaries and joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group and the Parent Company determine whether it is necessary to recognize an impairment loss on its investment in subsidiaries and joint ventures. At each statement of financial position date, the Group and the Parent Company determines whether there is objective evidence that the investment in subsidiaries and joint ventures is impaired. If there is such evidence, the Group and the Parent Company calculate the amount of impairment as the difference between the recoverable amount of the subsidiaries and joint ventures and their carrying value, then recognizes the loss in the statements of income.

Upon loss of joint control over the subsidiary or joint venture, the Group and the Parent Company measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of joint control and the fair value of the retained investment and proceeds from disposal is recognized in the statements of income.

Transfer of business from subsidiary to the Parent

The Parent Company accounts for the transfer as if it has effectively received a distribution that it accounts for at the fair value of the business received. Any excess in the fair value of the net assets received over the consideration is recognized in the statements of income. This reflects the assets acquired and liabilities assumed at their fair value, including goodwill, which will be measured as at the date of the transfer. These transfers have no effect on the consolidated financial statements.

Property and Equipment

Land is stated at cost less any impairment in value. Depreciable properties including building and improvements, furniture, fixtures and equipment, transportation equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization, and any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance are charged against operations in the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment. When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and any impairment in value are removed from the accounts, and any resulting gain or loss is reflected as income or loss in the statements of income.

Depreciation is computed using the straight-line method based on the estimated useful life (EUL) of the depreciable assets. The range of EUL of property and equipment follows:

	Years
Building and improvements	20
Furniture, fixtures and equipment	3-5
Transportation equipment	5
Leasehold improvements	5-15

Leasehold improvements are amortized over the applicable EUL of the improvements or the terms of the related leases, whichever is shorter.

The EUL and the depreciation and amortization method are reviewed periodically to ensure that the period and the method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amounts (see accounting policy on Impairment of Non-financial Assets).

Right-of-use Assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term, as follows:

	Years
Buildings and improvements	2 to 15
Transportation equipment	2 to 3

Investment Properties

Investment properties are measured initially at cost including transaction costs. An investment property acquired through an exchange transaction is measured at fair value of the asset acquired unless the fair value of such an asset cannot be measured in which case the investment property acquired is measured at the carrying amount of asset given up. Any gain or loss on exchange is recognized in the statements of income. Foreclosed properties are classified under 'Investment properties' upon:

- entry of judgment in case of judicial foreclosure;
- execution of the Sheriff's Certificate of Sale in case of extra-judicial foreclosure; or
- notarization of the Deed of Dacion in case of payment in kind (*dacion en pago*).

Real properties acquired

Depreciable real properties acquired are carried at cost, which is the fair value at acquisition date, less accumulated depreciation and any impairment in value. Land is carried at cost less any impairment in value. Transaction costs, which include non-refundable capital gains tax and documentary stamp tax, incurred in connection with foreclosure are capitalized as part of the cost of the real properties acquired.

The Group applies the cost model in accounting for investment properties. Depreciation is computed on a straight-line basis over the EUL of 10 years. The EUL and the depreciation method are reviewed periodically to ensure that the period and the method of depreciation are consistent with the expected pattern of economic benefits from items of real properties acquired.

The carrying values of the real properties acquired are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying value exceeds the estimated recoverable amount, the assets are written down to their recoverable amounts (see accounting policy on Impairment of Non-financial Assets).

Investments in real estate

Investments in real estate consist of investments in land and building. Investments in land are carried at cost less impairment in value. Building is carried at cost less accumulated depreciation and impairment in value. All costs that are directly attributable to the acquisition and development of property are capitalized, including borrowing costs incurred to finance the property development. Depreciation is computed on a straight-line basis over 10-15 years.

Investment properties are derecognized when they have either been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on retirement or disposal of investment properties are recognized in the statements of income in the year of retirement or disposal as 'Profit from assets sold/exchanged'.

Other Properties Acquired

Other properties acquired include chattel mortgage properties acquired in settlement of loan receivables. The Group applies the cost model in accounting for other properties acquired. Under the cost model, these assets are carried at cost, which is the fair value at acquisition date, less accumulated depreciation and any impairment in value.

Depreciation is computed on a straight-line basis over the EUL of 3 years. The EUL and the depreciation method are reviewed periodically to ensure that the period and the method of depreciation are consistent with the expected pattern of economic benefits from items of other properties acquired.

The carrying values of the other properties acquired are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amounts (see accounting policy on Impairment of Non-financial Assets).

An item of other properties acquired is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statements of income as 'Profit from assets sold/exchanged' in the year the asset is derecognized.

Intangible Assets

Intangible assets consist of software costs, exchange trading right and branch licenses. An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Group.

Software costs

Costs related to software purchased by the Group for use in operations are amortized on a straight-line basis over 3 to 10 years. The amortization period and the amortization method for software cost are reviewed periodically to be consistent with the changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset. The amortization expense on software costs is recognized in the statements of income.

Exchange trading right

The exchange trading right of SBEI is an intangible asset regarded as having an indefinite useful life as there is no foreseeable limit to the period over which this asset is expected to generate cash inflows. It is carried at the amount allocated from the original cost of the exchange membership seat (after a corresponding allocation was made to the value of the Philippine Stock Exchange shares) less impairment in value. SBEI does not intend to sell the exchange trading right in the near future.

Branch licenses

Branch licenses have been acquired and granted by the BSP, and capitalized on the basis of the cost incurred to acquire and bring to use in operation. Branch licenses are determined to have indefinite useful lives and are tested for impairment annually.

The carrying values of intangible assets with definite useful lives are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amounts (see accounting policy on Impairment of Non-financial Assets).

Business Combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in 'Miscellaneous expense' in the statements of income.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and is within the scope of PFRS 9 is measured at fair value with changes in fair value either in profit or loss or as a change to OCI. If the contingent consideration is not within the scope of PFRS 9, it is measured in accordance with the appropriate PFRS Accounting Standards. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill

Goodwill is initially measured at cost, being the excess of the aggregate of fair value of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the Group assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of assets acquired over the aggregate consideration transferred, then the gain is recognized in statements of income.

Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is reviewed for impairment annually, or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's Cash Generating Unit (CGU) or a group of CGUs, which are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit to which the goodwill is allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purposes, and is not larger than an operating segment in accordance with PFRS 8.

Where goodwill has been allocated to a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed of in these circumstance is measured based on the relative values of the disposed operation and the portion of the CGU retained.

When an entity reorganizes its reporting structure in a way that changes the composition of one or more cash-generating units to which goodwill has been allocated, the goodwill shall be reallocated to the units affected. This reallocation shall be performed using a relative value approach similar to that used when an entity disposes of an operation within a cash-generating unit, unless the entity can demonstrate that some other method better reflects the goodwill associated with the reorganized units.

When subsidiaries are sold, the difference between the selling price and the net assets plus cumulative translation differences and goodwill is recognized in the statements of income.

Impairment of Non-financial Assets

Non-financial assets include property, equipment and right-of-use assets, investment properties, investment in subsidiaries and joint ventures, software costs, goodwill, exchange trading right, branch licenses and other properties acquired.

Property, equipment and right-of-use assets, investments in subsidiaries and joint ventures, investment properties, and other properties acquired

The Group assesses at each statements of financial position date whether there is any indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less cost to sell and its value in use (VIU). Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators. Any impairment loss is charged to operations in the year in which it arises.

An assessment is made at each statement of financial position date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the

statements of income. After such a reversal, the depreciation expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

Intangible assets - branch licenses, exchange trading right and software costs

Intangible assets with indefinite useful lives are tested for impairment annually at each statement of financial position date either individually or at the CGU level, as appropriate or when circumstances indicate that the intangible asset may be impaired. Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Goodwill

Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in the statements of income. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods.

Income Taxes

Current income tax

Current income tax assets and liabilities for the current periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the statements of financial position date.

Deferred tax

Deferred tax is provided on all temporary differences at the statements of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income; and
- In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry-forward of unused tax credits from excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that future taxable income will be available against which the deductible temporary differences and carry-forward of unused MCIT and unused NOLCO can be utilized except:

- Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income; and

- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable income will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each statement of financial position date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the statement of financial position date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Revenue Recognition

Revenue from contracts with customers is recognized upon transfer of services to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services.

PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers.

The five-step model is as follows:

- a. Identify the contract(s) with a customer
- b. Identify the performance obligations in the contract
- c. Determine the transaction price
- d. Allocate the transaction price to the performance obligation in the contract
- e. Recognize revenue when (or as) the entity satisfies a performance obligation

The standard requires the Group to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The following specific recognition criteria must also be met before revenue is recognized:

Revenues within the scope of PFRS 15:

Service charges and penalties

Service charges and penalties are recognized only upon collection or accrued when there is reasonable degree of certainty as to its collectibility.

Fees and commissions

a. Fee income earned from services that are provided over time

Fees earned for the provision of services over a period of time are accrued over that period. Loan commitment fees are recognized as earned over the term of the credit lines granted to each borrower. However, loan commitment fees for loans that are likely to be drawn are deferred (together with any incremental costs) and recognized as an adjustment to the EIR on the loan.

Fees received in connection with the issuance of credit cards are deferred and amortized on a straight-line basis over the period the cardholder is entitled to use the card.

b. Bancassurance fees

Non-refundable access fees are recognized on a straight-line basis over the term of the period of the provision of the access.

Refundable access fees and milestone fees are recognized in reference to the stage of achievement of the milestones.

c. Fee income from providing transaction services

Fees arising from negotiating or participating in the negotiation of a transaction for a third party, such as underwriting fees, corporate finance fees, and brokerage fees for the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses, are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognized after fulfilling the corresponding criteria. Loan syndication fees are recognized in the statements of income when the syndication has been completed and the Group retains no part of the loans for itself or retains part at the same EIR as for the other participants.

Discounts earned and awards revenue on credit cards

Discounts received are taken up as income upon receipt from member establishments of charges arising from credit availments by the Group's cardholders and other credit card companies' cardholders when the Group is acting as an acquirer. These discounts are computed based on certain agreed rates and are deducted from the amounts remitted to the member establishments.

Award credits under customer loyalty programs are accounted for as a separately identifiable component of the transaction in which they are granted. The fair value of the consideration received in respect of the initial sale is allocated based on the estimated stand-alone selling prices. The amount allocated to the loyalty programs is deferred under 'Other Liabilities' in the statements of financial position and recognized as revenue when the award credits are redeemed. Income generated from customer loyalty programs is recognized in 'Service charges, fees and commissions' in the statements of income.

Other income

Income from the sale of services is recognized upon completion of service. Income from sale of properties is recognized upon completion of earnings process and the collectibility of the sales price is reasonably assured under 'Profit from assets sold/exchanged' in the statements of income.

Revenues outside the scope of PFRS 15:

Interest income

Interest on interest-bearing financial assets at FVTPL and Held-for-Trading (HFT) investments are recognized based on the contractual rate. Interest on financial instruments measured at amortized cost and FVTOCI are recognized based on the effective interest method of accounting.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and allocating the interest income or interest expense over the relevant period.

The EIR is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the EIR, the Group estimates cash flows from the financial instrument (e.g., prepayment options) but does not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the EIR, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognized thereafter using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Trading and securities gain (loss) - net

Results arising from trading activities include all gains and losses from changes in fair value of financial assets and financial liabilities at FVTPL, gains and losses from disposal of investment securities at amortized cost and any ineffectiveness recognized on accounting hedges. Costs of investment securities sold are determined using the weighted average cost method.

Dividend income

Dividend income is recognized when the Group's right to receive the payment is established.

Rental income

Rental income arising on leased premises is accounted for on a straight-line basis over the lease terms on ongoing leases.

Expense Recognition

Expenses are recognized when decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably. Expenses are recognized when incurred.

Operating expenses

Operating expenses constitute costs which arise in the normal business operation and are recognized when incurred.

Taxes and licenses

This includes all other taxes, local and national, including gross receipts taxes (GRT), documentary stamp taxes, real estate taxes, licenses and permit fees and are recognized when incurred.

Pension Cost

The Parent Company and certain subsidiaries have a non-contributory defined benefit plan that defines the amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation. The Group's retirement cost is determined using the projected unit credit method. The retirement cost is generally funded through payments to a trustee-administered fund, determined by periodic actuarial calculations.

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statements of income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as interest income or expense in the statements of income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise and are closed to surplus at the end of the year. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest (included in 'Interest expense on lease liabilities) and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term or a change in the lease payments.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statements of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as 'Interest expense' in the statements of income.

Contingent liabilities are not recognized but are disclosed in the financial statements except if the possibility of an outflow of assets embodying economic benefits is remote. Contingent assets are not recognized but are disclosed in the financial statements when an inflow of economic benefits is probable.

Debt Issuance Costs

Issuance, underwriting and other related costs incurred in connection with the issuance of debt instruments are deferred and amortized over the terms of the instruments using the effective interest method. Unamortized debt issuance costs are included in the carrying amount of the debt instrument in the statements of financial position.

Earnings Per Share

Basic earnings per share (EPS) is computed by dividing the net income for the year attributable to equity holders of the Parent Company after deducting dividends declared to preferred shareholders by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock dividends declared and stock rights exercised during the year, if any.

Diluted EPS is calculated by dividing the net income attributable to common shareholders by the weighted average number of common shares outstanding during the year adjusted for the effects of any dilutive potential common shares.

Equity

'Capital stock' is measured at par value for all shares issued and outstanding. When the shares are sold at a premium, the difference between the proceeds and the par value is credited to 'Additional paid-in capital'. Direct costs incurred related to equity issuance, such as underwriting, accounting and legal fees, printing costs and taxes are chargeable to 'Additional paid-in capital'. If the additional paid-in capital is not sufficient, the excess is charged against 'Surplus'.

When the Group issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

‘Surplus’ represents accumulated earnings of the Group less dividends declared.

Surplus reserves pertain to the 10.0% of the net profits realized by the Parent Company from its trust business is appropriated to surplus reserve in compliance with existing BSP regulations. The yearly appropriation is required until the surplus reserve for trust business equals 20.0% of the Parent Company’s regulatory capital.

Dividends on Common Shares and Preferred Shares

Cash dividends on common shares and preferred shares are recognized as a liability and deducted from equity when approved by the BOD of the Parent Company, while stock dividends are deducted from equity when approved by the BOD and shareholders of the Parent Company.

Segment Reporting

The Group’s operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. If the Group changes the structure of its internal organization in a manner that causes the composition of its reportable segments to change, the corresponding information for earlier periods, including interim periods, shall be restated unless the information is not available and the cost to develop it would be excessive. Financial information on business segments is presented in Note 35.

Fiduciary Activities

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements where the Parent Company acts in a fiduciary capacity such as nominee, trustee or agent.

Events after the Reporting Period

Any post-year-end event that provides additional information about the Group’s position at the statement of financial position date (adjusting event) is reflected in the financial statements. Any post-year-end events that are not adjusting events are disclosed when material to the financial statements.

Standards Issued but Not Yet Effective

Standards issued but not yet effective up to the date of issuance of the Group’s consolidated financial statements are listed below. The listing consists of standards and interpretations issued, which the Group reasonably expects to be applicable at a future date. The Group intends to adopt these standards when they become effective. Except as otherwise indicated, the Group does not expect the adoption of these new and amended standards and interpretations to have a significant impact on the consolidated financial statements.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of

entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

- Amendments to PAS 21, *Lack of Exchangeability*

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025. Earlier adoption is permitted and that fact must be disclosed. When applying the amendments, an entity cannot restate comparative information.

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*

The amendments clarify that a financial liability is derecognized on the ‘settlement date’, i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. They also introduce an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met.

The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features. Furthermore, the amendments clarify the treatment of non-recourse assets and contractually linked instruments.

- Annual Improvements to PFRS Accounting Standards - Volume 11

The amendments are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversight or conflicts between the requirements in the Accounting Standards. The following is the summary of the Standards involved and their related amendments.

- Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*

The amendments included in paragraphs B5 and B6 of PFRS 1 cross references to the qualifying criteria for hedge accounting in paragraph 6.4.1(a), (b) and (c) of PFRS 9. These are intended to address potential confusion arising from an inconsistency between the wording in PFRS 1 and the requirements for hedge accounting in PFRS 9.

- Amendments to PFRS 7, *Gain or Loss on Derecognition*
The amendments updated the language of paragraph B38 of PFRS 7 on unobservable inputs and included a cross reference to paragraphs 72 and 73 of PFRS 13.
- Amendments to PFRS 9
 - Lessee Derecognition of Lease Liabilities
The amendments to paragraph 2.1 of PFRS 9 clarified that when a lessee has determined that a lease liability has been extinguished in accordance with PFRS 9, the lessee is required to apply paragraph 3.3.3 and recognize any resulting gain or loss in profit or loss.
 - Transaction Price
The amendments to paragraph 5.1.3 of PFRS 9 replaced the reference to ‘transaction price as defined by PFRS 15 *Revenue from Contracts with Customers*’ with ‘the amount determined by applying PFRS 15’. The term ‘transaction price’ in relation to PFRS 15 was potentially confusing and so it has been removed. The term was also deleted from Appendix A of PFRS 9.
- Amendments to PFRS 10, *Determination of a ‘De Facto Agent’*
The amendments to paragraph B74 of PFRS 10 clarified that the relationship described in B74 is just one example of various relationships that might exist between the investor and other parties acting as de facto agents of the investor.
- Amendments to PAS 7, *Cost Method*
The amendments to paragraph 37 of PAS 7 replaced the term ‘cost method’ with ‘at cost’, following the prior deletion of the definition of ‘cost method’.

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*

The standard replaces PAS 1 Presentation of Financial Statements and responds to investors’ demand for better information about companies’ financial performance. The new requirements include:

- Required totals, subtotals and new categories in the statement of profit or loss
- Disclosure of management-defined performance measures
- Guidance on aggregation and disaggregation

- PFRS 19, *Subsidiaries without Public Accountability*

The standard allows eligible entities to elect to apply PFRS 19’s reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other PFRS accounting standards. The application of the standard is optional for eligible entities.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or

contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Significant Accounting Judgments and Estimates

The preparation of the financial statements in compliance with PFRS Accounting Standards requires the Group to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosures of contingent assets and contingent liabilities. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

a. Leases

Determination of the lease term for lease contracts with renewal and termination options (Bank as a lessee)

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term whether there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization of the leased asset).

Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ('IBR') to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific adjustments (such as the subsidiary's stand-alone credit rating, or to reflect the terms and conditions of the lease).

b. *Business model test*

The Group manages its financial assets based on business models that maintain adequate level of financial assets to match expected cash outflows and maintain adequate level of high-quality liquid assets while maintaining a strategic portfolio of financial assets for trading activities.

The Group's business model can be to hold financial assets to collect contractual cash flows even when sales of certain financial assets occur. PFRS 9, however, emphasizes that if more than an infrequent number of sales are made out of a portfolio of financial assets carried at amortized cost and those sales are more than insignificant in value (either individually or in aggregate), the entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows.

In making this judgment, the Group considers the circumstances surrounding the disposal as well as the requirements of BSP Circular No. 1011, *Guidelines on the adoption of PFRS 9*. For changes in business models, the Group considers whether the internal and external changes that triggered the change in business model are significant to the Group and are demonstrable to third parties.

In June 2022, the Parent Company decided to re-establish the HTC Government Securities business. In making the assessment, the Bank considered the impact of the COVID-19 pandemic and the Ukraine-Russia war to its ability to deploy its funds as envisioned in 2020 affecting its overall strategy and risk appetite. The objective of the business model is to hold a core portfolio of government securities, which is funded primarily from the Parent Company's capital, core deposits, and other long-term liabilities (see Note 13). The Parent Company also imposed limits based on the long-term funding sources for the reestablished HTC government securities business model to ensure that there will be no sale that is more than infrequent and more than insignificant from the HTC government securities portfolio.

In April 2024, the Parent Company undertook a holistic review of its business models as part of its established policy. Enhancements were made at this point, and subsequently in July 2024, to define certain terms (i.e., significance, frequency, increase in credit deterioration), to revise the list of permitted sales under the HTC business model and to clarify existing governance processes covering sales and/or derecognition of financial assets under the HTC business model as well as changes in, abandonment of, or reestablishment of the Parent Company's business models.

c. *Cash flow characteristics test*

In determining the classification of financial assets under PFRS 9, the Group assesses whether the contractual terms of these financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortized cost criteria.

d. *Contingencies*

The Group is currently involved in various legal proceedings, claims and assessments. The estimate of the probable costs for the resolution of these claims and assessments has been developed in consultation with outside counsel handling the Group's defense in these matters and is based on an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on the financial statements. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings (see Note 34).

e. Hedge accounting

Part of the Parent Company's risk management strategies is to mitigate the foreign currency risk arising from the revaluation of the foreign currency denominated loan from FCDU/inter-book payable to FCDU in the RBU book. The Bank's risk management objective is to designate the spot element of the foreign exchange swap contract under the swap investment product to hedge the foreign currency risk associated with the revaluation of the foreign currency denominated loan from FCDU/inter-book payable to FCDU in the RBU book. The forward element of the foreign exchange swap contract shall be subject to cost of hedging accounting.

The Bank employs both qualitative and quantitative methods to assess the effectiveness of the hedge. The effectiveness assessment performed at the inception of the hedge, at each reporting date, and upon a significant change in circumstances relevant to the hedge.

Critical terms matching applied to qualitatively assess the economic relationship between the hedging instrument and the hedged item. All critical terms of the foreign currency denominated loans from FCDU/inter-book payable/s to FCDU and foreign exchange swap contracts are matched. Specifically, there is a 1:1 relationship in terms of nominal amount of the hedging instrument and the hedged item during the relevant period.

A source of ineffectiveness in the hedges is the incorporation of the counterparty's credit risk (i.e., Credit Valuation Adjustment or CVA) and Bank's own credit risk (i.e., Debit Valuation Adjustment or DVA) in measuring the value of foreign exchange swaps as required by PFRS 13, *Fair Value Measurement*, but is not to be reflected in the measurement of the hedged item.

The Parent Company's hedge accounting policies include an element of judgment and estimation, in respect of the existence of highly probable cash flows for inclusion within the cash flow hedge. Estimates of future interest rates and the general economic environment will influence the availability and timing of suitable hedged items, with an impact on the effectiveness of the hedge relationships. Details of the Parent Company's hedging transactions are described in Note 11.

f. Consolidation and joint venture arrangements

The Group has determined that it controls and consolidates the subsidiaries in which it owns majority of the shares.

The Group has a Joint Venture Agreement (JVA) with Marubeni Corporation (Marubeni) where the Parent Company owns 60.0% of SBML. Under the JVA, the parties agreed to use SBML as a joint venture entity and requires the unanimous consent of both the Parent Company and Marubeni for any significant decisions made in the ordinary course of business of SBML.

The Group also has a JVA with The Bank of Ayudhya Public Company Ltd. (Krungsri) where the Parent Company owns 49.96% of SBF. Under the JVA, the parties agreed to use SBF as a joint venture entity and requires the unanimous consent of both the Parent Company and Krungsri for any significant decisions made in the ordinary course of business of SBF.

The Group has (after considering the structure and form of the arrangement, the terms agreed by the parties in the contractual arrangements and the Group's rights and obligations arising from the arrangements) classified its interest in SBML and SBF under PFRS 11. Based on the foregoing, the Group accounts for its investment in SBML and SBF using the equity method.

Estimates

a. Fair value of financial instruments

The fair values of financial instruments that are not quoted in active markets are determined using valuation techniques such as discounted cash flow analysis and standard option pricing models for some derivative instruments. Where valuation techniques are used to determine fair values, they are reviewed by qualified personnel independent of the area that created them. All financial models are reviewed before they are used and to the extent practicable, financial models use only observable data, however, areas such as credit risk (both own and counterparty) volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect reported fair value of financial instruments. Refer to Note 6 for the fair value measurements of financial instruments.

b. Impairment of financial assets

The measurement of impairment losses under PFRS 9 across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- Internal credit grading model, which assigns PDs to the individual grades
- Criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a lifetime CL basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as GDP changes in inventory, current prices, Business outlook index on the macroeconomy - Real Estate, Unemployment Rate, Industry NPL of Universal Banks and Parent Company's WBS Loan Portfolio NPL Rate
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models
- Segmentation of the portfolio, where the appropriate model or ECL approach is used

The ECL models and all ECL-related policies are assessed and approved by the Risk Oversight Committee (ROC) and the BOD.

Model calibration or the process of improving the accuracy of ECL model to reflect the as-built status and actual operating conditions shall be performed at least annually. These will require the following approvals:

- ECL Steering Committee consisting of the Business Segment Heads, Chief Financial Officer and Chief Risk Officer, for changes in the model estimates
- the ROC for changes in model assumptions or inputs with material increase or decrease on portfolio-level ECL of at least 10% or ₱200.0 million.

In 2024, the Bank implemented new ECL models for the Home Loan portfolio. The vintage default rate methodology in 2023 was replaced by an enhanced model to better capture the behavior of borrowers and predict PD. The LGD is based on the blended recovery from ROPA and cash payments.

In 2024 and 2023, changes in the model estimates and/or assumptions as a result of calibration were accordingly assessed and approved by the ECL Steering Committee and/or the ROC.

In 2024, probability weights used in ECL calculations were revised from 60 – Base, 30 – Bad and 10 – Good to 50 – Base, 30 – Bad and 20 – Good. The adjustments reflect the Bank's increased confidence in the good assumptions given the more stable macroeconomic conditions. The Bank still provides a significant weightage on the downside risks to consider the still elevated loans of the banking industry.

In 2023, probability weights used in ECL calculations were revised from 50 – Base, 40 – Bad and 10 – Good to 60 – Base, 30 – Bad and 10 – Good. This is due to the Bank's increased confidence in the base assumptions given removal of uncertainties like COVID 19 pandemic and better predictability of macroeconomic variables.

The ECL models and all ECL-related policies are assessed and approved by the ROC and the BOD.

The gross carrying amounts of financial assets and the related allowance for credit losses are disclosed in Notes 7, 12, 13 and 14

c. Recognition of deferred tax assets

The Group reviews the carrying amounts of deferred tax assets at each statements of financial position date and reduces it to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred tax assets to be utilized. Significant judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable income together with future tax planning strategies. The recognized net deferred tax assets and unrecognized deferred tax assets of the Group and the Parent Company are disclosed in Note 28.

d. Impairment of non-financial assets

Investments in subsidiaries and joint ventures and other non-financial assets

The Parent Company and SBCIC assess impairment on its investments in subsidiaries and joint ventures whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Among others, the factors that the Parent Company and SBCIC consider important which could trigger an impairment review on its investments include the following:

- deteriorating or poor financial condition;
- recurring net losses; and
- significant changes with an adverse effect on the subsidiary or associate have taken place during the period, or will take place in the near future, the technological, market, economic, or legal environment in which the subsidiary operates.

The Group assesses impairment on other non-financial assets (i.e., ‘Property and equipment’, ‘Investment properties’, ‘Software costs’, and ‘Other properties acquired’) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired nonfinancial assets or the strategy for overall business; and
- significant negative industry or economic trends.

The Group recognizes an impairment loss whenever the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is computed based on the higher of the asset’s fair value less cost to sell or VIU. Recoverable amounts are estimated for individual nonfinancial assets or, if it is not possible, for the CGU to which the nonfinancial asset belongs.

The Group is required to make estimates and assumptions that can materially affect the carrying amount of the asset being assessed.

As of December 31, 2024 and 2023, the carrying values of the Parent Company’s investments in subsidiaries and joint ventures are disclosed in Note 15.

The carrying values of the Group’s and the Parent Company’s non-financial assets (other than ‘Goodwill’) follow:

	Consolidated		Parent Company	
	2024	2023	2024	2023
Property, equipment and right-of-use assets (Note 16)	₱8,034,827	₱6,429,496	₱5,093,758	₱4,318,021
Investment properties (Note 17)	6,282,770	4,790,602	6,282,770	4,789,827
Branch licenses (Note 18)	1,445,000	1,445,000	1,445,000	1,445,000
Software costs (Note 18)	5,137,675	3,516,055	5,135,198	3,515,263
Other properties acquired (Note 18)	989,931	872,153	989,931	872,153
Exchange trading right (Note 18)	8,000	8,000	–	–

The provision for (recovery of) impairment losses on non-financial assets of the Group and the Parent Company are disclosed in Notes 16 and 17.

Intangible assets with indefinite useful life

Intangible assets with indefinite useful lives such as exchange trading right and branch licenses are tested for impairment annually at statement of financial position date either individually or at the cash generating unit level, as appropriate. Impairment is determined by assessing the recoverable amount of the CGU (or group of CGUs) to which the intangible assets relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in the statements of income.

The recoverable amount of the CGU has been determined based on a VIU calculation using cash flow projections from financial budgets approved by senior management covering a three-year period. Key assumptions in VIU calculation of CGUs are most sensitive to discount rates and growth rates used to project cash flows.

Goodwill

Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in the statements of income. The carrying value of goodwill is disclosed in Note 4.

e. Estimated useful lives of property, equipment and right-of-use assets, investment properties, software costs and other properties acquired

The Group reviews on an annual basis the estimated useful lives of property, equipment and right-of-use assets, depreciable investment properties, software costs and other properties acquired based on expected asset utilization as anchored on business plans and strategies that also consider expected future technological developments and market behavior. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned. A reduction in the estimated useful lives of property and equipment, depreciable investment properties, software costs and other properties acquired would decrease their respective balances and increase the recorded depreciation and amortization expense.

The carrying values of depreciable property and equipment, investment properties, software costs and other properties acquired follow:

	Consolidated		Parent Company	
	2024	2023	2024	2023
Property, equipment and right-of-use assets (Note 16)*	₱7,569,812	₱5,986,459	₱4,628,743	₱3,874,984
Investment properties (Note 17)*	3,057,994	2,715,404	3,057,994	2,715,404
Software costs (Note 18)	5,137,675	3,516,055	5,135,198	3,515,263
Other properties acquired (Note 18)	989,931	872,152	989,931	872,152

f. Pension benefits

The cost of defined benefit pension plans and other post-employment medical benefits as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The present value of the defined benefit obligation of the Group and the Parent Company are disclosed in Note 29.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific country and is modified accordingly with estimates of mortality improvements. Future salary increases and pension increases are based on expected future inflation rates.

Further details about the assumptions used are provided in Note 29.

Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly before twelve months after the end of the annual reporting period is recognized for services rendered by employees up to the end of the reporting period. As of December 31, 2024 and 2023, accrual for other employee benefit obligations and expenses included under 'Accrued other expenses payable' (included under 'Accrued interest, taxes and other expenses' in the statements of financial position) amounted to ₱2.0 billion and ₱1.8 billion, respectively, in 2024 and 2023 for the Group and the Parent Company (see Note 23).

4. Goodwill

Impairment Testing of Goodwill

In 2012, goodwill acquired through business combination has been allocated to Security Bank Savings (SBS) as the CGU. In 2015, the entire goodwill was reallocated to the Branch Banking Group (BBG) as a result of the integration of SBS to the Parent Company. As of December 31, 2024 and 2023, the carrying amount of goodwill amounted to ₱841.6 million and there was no impairment loss recognized in 2024 and 2023.

The recoverable amount of the CGU has been determined based on a VIU calculation using cash flow projections from financial budgets approved by senior management covering a three-year period. Key assumptions in VIU calculation of CGUs are most sensitive to discount rates and growth rates used to project cash flows. Future cash flows and growth rates were based on experiences and strategies developed and prospects. The discount rate used for the computation of the net present value is the cost of equity and was determined by reference to a comparable entity. In 2024 and 2023, the pre-tax discount rate applied to cash flow projections is 11.53% and 13.01%, respectively, while the growth rate used to extrapolate cash flows beyond the three-year period is 6.00% and 9.33%, respectively.

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the goodwill to materially exceed its recoverable amount.

5. Financial Risk Management Objectives and Policies

Introduction

Integral to the Parent Company's value creation process is risk management. It therefore operates an integrated risk management system to address the risks it faces in its banking activities, including (a) credit; (b) liquidity; (c) market; (d) operational; and (e) sustainability. Exposures across these risk areas are regularly identified, measured, controlled, monitored and reported to Senior Management, the ROC and the BOD.

Risk Management Structure

Board of Directors

The BOD directs the Parent Company's over-all risk management strategy. The risk management processes of the subsidiaries are the separate responsibilities of their respective BOD. The BOD performs an oversight function on the Parent Company's implementation of its risk policies through various committees that it has created as follows:

Executive Committee

The Executive Committee oversees the strategy, financial, liquidity and capital management of the Group. It exercises the authority of the BODs as delegated by the Board and as may be allowed by law during intervals between meetings of the BODs.

Risk Oversight Committee

The ROC reviews, approves, and ensures effective implementation of the risk management framework. It approves risk-related policies, oversees limits to discretionary authority that the BOD delegates to management, and evaluates the magnitude, distribution and direction of risks in the Parent Company.

Corporate Governance Committee

The Corporate Governance Committee oversees the compliance function and assists the BOD in fulfilling its corporate governance responsibilities across a broad range of areas including sustainability. It is responsible for ensuring the BOD's effectiveness and due observance of corporate governance principles and guidelines.

Audit Committee

The Audit Committee through the Internal Audit Division provides the independent assessment of the overall effectiveness of, and compliance with the Parent Company's governance, internal controls, and risk management functions.

Senior Credit Committee

The Senior Credit Committee is the highest credit decision-making body in the Bank and works closely with the ROC in managing the overall credit risk of the Bank. The committee reviews and approves proposals and facilities related to credit, except for Directors, Officers, Stockholders and Related Interests (DOSRI) and material related party transactions (RPT) accounts. It also approves remedial and/or recovery strategies of the Bank for identified problem loan accounts.

Related Party Transactions Committee

The Related Party Transactions Committee ensures that transactions with related parties are handled in a sound and prudent manner, with integrity, and in compliance with applicable laws and regulations to protect the interest of depositors, creditors and other stakeholders.

Nominations and Remunerations Committee

The Nominations and Remunerations Committee has oversight over Board nominees and other appointments requiring Board approval, as well as their remuneration commensurate with corporate and individual performance.

Trust Committee

The Trust Committee ensures that funds and properties held in trust or in any fiduciary capacity shall be administered with the skill, care, prudence and diligence necessary under the circumstances then prevailing that a prudent person, acting in like capacity and familiar matters, would exercise in the conduct of an enterprise of like character and with similar aims.

Transformation and Technology Committee

The Transformation and Technology Committee oversees the development and implementation of strategy, transformation, innovation and information technology initiatives of the Bank and its subsidiaries and affiliates, in support of the Group's vision, mission and strategic objectives.

The Parent Company's organizational structure includes the Risk Management Group (RMG), which is responsible for driving the following risk management processes of the Group:

- Independent assessment, measurement, monitoring and reporting of the Group's risk-taking activities; and
- Formulation, review and recommendation of risk-related policies and control structures.

Nevertheless, the Group's risk management framework adopts the basic tenet that risks are owned by the respective business and process owners. Everyone in the organization is therefore expected to proactively manage the risks inherent to their respective area by complying with the Group's risk management framework, policies and standards.

The Parent Company and its subsidiaries manage their respective financial risks separately. The subsidiaries have their own risk management procedures but are structured similar to that of the Parent Company. To a certain extent, the respective risk management programs and objectives are the same across the Group.

Risk Measurement and Reporting

The Parent Company's risks are measured using various methods compliant with Basel III standards. The Parent Company also runs worst case scenarios that would arise in the event that extreme events which are unlikely to occur do, in fact, occur.

Expected credit loss models are developed and maintained by the RMG. These models are used as a tool for the Parent Company's risk management process and management reporting systems. The applicable results of the calculations are used as the basis for the assessment of expected credit losses.

Monitoring and controlling risks are primarily performed based on limits established by the Parent Company. These limits reflect the business strategy and market environment of the Parent Company as well as the level of risk that the Parent Company is willing to take. In addition, the Parent Company monitors and measures the overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities.

For all levels throughout the Parent Company, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive, necessary and up-to-date information. These reports include aggregate credit exposure, credit metric forecasts, limit exceptions, Value-at-Risk (VaR), liquidity ratios and risk profile changes.

Credit Risk Management prepares detailed reporting of risks per credit classification, payment status, industry, loan tenor, and other measures of portfolio quality. Senior management assesses the appropriateness of allowance for credit losses on a yearly basis or as the need arises. The ROC and the heads of the concerned business units receive comprehensive portfolio quality reports which are designed to provide the necessary information to assess and conclude on the credit risks of the Parent Company.

In the case of market risk, a monthly report is presented to the ROC on the utilization of market limits and liquidity, plus other risk developments.

Information compiled from businesses is examined and processed in order to analyze, control and identify risks early. This information is assessed and deliberated by the heads of each business unit, the ROC and the BOD.

Risk Mitigation

The Parent Company uses various risk mitigation practices to manage different types of risks, such as credit, market, operational, liquidity, and sustainability. Generally, these include: establishing and reviewing risk limits and policies by considering the risk appetite, strategy and objectives of the Bank, as well as the regulatory requirements and industry best practices; implementing and enforcing these limits by using effective monitoring and reporting systems, and by escalating and resolving any limit breaches or policy violations; and conducting regular and ad hoc stress testing.

Risk Concentration

Concentrations arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Parent Company's performance to developments affecting a particular borrowing group, industry or geographic location.

The Parent Company manages concentration risks by setting exposure limits to borrowing groups, industries, countries, and where appropriate, on products and facilities. These limits are reviewed as the need arises, but at least annually.

To avoid excessive concentrations of risks, the Parent Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of risks are controlled and managed accordingly.

Credit Risk

Credit risk is the risk of loss resulting from the failure of a borrower or counterparty to perform its obligations during the life of the transaction. This includes risk of non-payment by borrowers or issuers, failed settlement of transactions, and default on contracts.

The Parent Company drives credit risk management fundamentally via its Credit Policy Manual (CPM), the provisions of which are regularly reviewed and updated to reflect changing regulations and risk conditions. The CPM defines the principles and parameters governing credit activities, ensuring that each account's creditworthiness is thoroughly understood and regularly reviewed. Lending units assume overall responsibility for the management of credit exposures while middle and back-office functions are clearly defined to provide independent checks and balance to credit risk-taking activities. A system of approving and signing limits ensures adequate senior management involvement for larger and more complex transactions. Large exposures of the Group are kept under rigorous review as these are subjected to stress testing and scenario analysis to assess the impact of changes in market conditions or key risk factors (examples are economic cycles, interest rate, liquidity conditions or other market movements) on its profile and earnings.

The risk management structure of policies, accountabilities and responsibilities, controls and senior management involvement is similarly in place for non-performing assets.

Derivative financial instruments

Credit risk in respect of derivative financial instruments is limited to those with positive fair values, which are included under 'Financial assets at FVTPL'. As a result, the maximum credit risk, without taking into account the fair value of any collateral and netting agreements, is limited to the amounts in the statements of financial position.

Credit-related commitments

The Parent Company makes available to its customers guarantees which may require the Parent Company to make payments on their behalf and enter into commitments to extend credit lines to secure their liquidity needs. Letters of credit and guarantees (including standby letters of credit) commit the Parent Company to make payments on behalf of customers in the event of a specific act, generally related to the import or export of goods. Such commitments expose the Parent Company to similar risks to loans and these are mitigated by the same control processes and policies. This also includes the unutilized credit limit of the Group's credit card customers.

Credit card receivables and receivables of SBEI are presented separately for the purpose of identifying receivables that are subjected to different credit risk rating systems.

Other receivables include accrued interest receivable, accounts receivable, sales contracts receivable and dividend receivable.

Risk concentrations of the maximum exposure to credit risk

The Group considers loans and receivables as highly concentrated when Herfindahl-Hirschman Index (HHI) reaches 2,500 or greater. The maximum acceptable HHI set by the Group for its loan concentration is 1,500 to 2,500, which means moderately concentrated. HHI is a measure of concentration, calculated by squaring the share of each loan segment to total loan portfolio and then summing the resulting numbers. In addition, the Group limits its total exposure to most industry segments at 15.0% each of the total credit risk exposure and complies with regulatory caps set by the BSP such as 25% real estate limit.

The distribution of financial assets and off-balance sheet items by industry sector of the Group and the Parent Company, before taking into account collateral held or other credit enhancements (maximum exposure) follows (amounts in millions):

Offsetting of financial assets and financial liabilities

The Parent Company has various derivative financial instruments with various counterparties transacted under the International Swaps and Derivatives Association (ISDA) which are subject to enforceable master netting agreements. Under the agreements, the Parent Company has the right to settle its derivative financial instruments either: (1) upon election of the parties; or (2) in the case of default and insolvency or bankruptcy. The Parent Company, however, has no intention to net settle or to gross settle the accounts simultaneously. Also, the enforceability of netting upon default is contingent on a future event, and so the offsetting criteria under PAS 32 are not met. Consequently,

the gross amount of the derivative asset and the gross amount of the derivative liability are presented separately in the Parent Company's statements of financial position.

Cash collaterals have also been received from and pledged to the counterparties for the net amount of exposures from the derivative financial instruments. These cash collaterals do not meet the offsetting criteria under PAS 32 since it can only be set off against the net amount of the derivative asset and derivative liability in the case of default and insolvency or bankruptcy, in accordance with an associated collateral arrangement.

The Parent Company has entered into sale and repurchase agreements with various counterparties that are accounted for as collateralized borrowing. The Parent Company has also entered into a reverse sale and repurchase agreements with various counterparties that are accounted for as a collateralized lending. These transactions are subject to a global master repurchase agreement with a right of set-off only against the collateral securities upon default and insolvency or bankruptcy and therefore do not meet the offsetting criteria under PAS 32. Consequently, the related SSURA is presented separately from the collateral securities in the Parent Company's statements of financial position.

The table below presents the recognized financial instruments of the Group and the Parent Company that are offset, or subject to enforceable master netting agreements or other similar arrangements but not offset, as at December 31, 2024 and 2023, taking into account the effects of over-collateralization.

Collateral and other credit enhancements

The amount and type of collateral required depends on the assessment of the credit risk of the borrower or counterparty. The Group follows guidelines on the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained are as follows:

- For corporate accounts - cash, guarantees, securities and physical collaterals (e.g., real estate, chattels, inventory, etc.); as a general rule, commercial, industrial and residential lots are preferred.
- For retail lending - mortgages on residential properties and financed vehicles.

Management monitors the market value of real property collateral every two years or if there is a trigger event, whichever comes earlier, and as needed for marketable securities to preserve collateral cover. The existing market value of collateral is considered during the review of the credit facilities and adequacy of the allowance for credit losses.

It is the Parent Company's policy to dispose assets acquired in an orderly fashion. The proceeds from the sale of the foreclosed assets (classified as 'Investment properties' in the statements of financial position) are used to reduce or repay the outstanding claim. In general, the Parent Company does not use repossessed properties for business.

Credit quality per class of financial assets

In compliance with BSP Circular No. 855, the Parent Company has developed and continually reviews and calibrates its internal risk rating system for credit exposures aimed at uniformly assessing its credit portfolio in terms of risk profile. Where appropriate, it obtains security, enters into master netting agreements, and limits the duration of exposures to maintain and even further enhance the quality of the Parent Company's credit exposures.

The credit quality of financial assets is monitored and managed using internal ratings and where available, external ratings.

The credit quality of trading and financial investment securities is generally monitored through internal ratings except for foreign entities which use external ratings of eligible external credit rating institutions. Credit exposures to foreign corporations and foreign financial institutions are limited to entities that are rated investment grade. The minimum acceptable risk rating is BBB- stable (for S&P) and Baa3 (for Moody's).

Presented below is the credit risk rating table of S&P & Moody's:

Agency		Investment Grade								
S&P	AAA	AA+	AA	AA-	A+	A	A-	BBB+	BBB	BBB-
Moody's	Aaa	Aa1	Aa2	Aa3	A1	A2	A3	Baa1	Baa2	Baa3

Agency		Non-Investment Grade						
S&P		BB+	BB	BB-	B+	B	B-	Below B-
Moody's		Ba1	Ba2	Ba3	B1	B2	B3	Below B3

In the Bank's mapping of risk ratings of its asset classes, S&P and Moody's investment grade ratings and BB+/Ba1 are considered high grade, BB/Ba2 down to B-/B3 ratings are considered medium grade, and below B-/B3 ratings are considered low grade.

For loan exposures, the credit quality is generally monitored using its internal credit risk ratings system. It is the Parent Company's policy to maintain accurate and consistent risk ratings across the credit portfolio. This facilitates management to focus on major potential risk and the comparison of credit exposures across all lines of business, demographics and products. The rating system is supported by a variety of financial analytics, combined with an assessment of qualitative factors such as management and market information to provide the main inputs for the measurement of credit or counterparty risk. Other variables that may impact the borrower's creditworthiness but are not yet factored into the baseline rating are considered in the model overlay to arrive at the final PD. All PD ratings are tailored with various categories and are derived in accordance with the Group's rating policy. The attributable risk ratings are assessed and updated regularly.

The Group uses PD Ratings to classify the credit quality of its receivables portfolio. This is currently undergoing upgrade to enhance credit evaluation parameters across different market segments and achieve a more sound and robust credit risk assessment. The description of the loan grades used by the Group for receivable from customers, except credit card receivables and receivables of SBEL, are as follows:

Wholesale Banking Segment Scorecards

The Parent Company has two Wholesale Banking Segment scorecards, differentiated according to the revenue size of the borrower: Big Accounts scorecard for borrowers with at least ₱2.0 billion in revenue size, and Small Accounts scorecard for borrowers with less than ₱2.0 billion revenue size. Both scorecards are mapped to an 11-grade scale masterscale with each grade having a corresponding PD.

High Grade (PD Rating of 1 to 7)

Accounts in this category have a low probability of defaulting on their obligations over the next 12 months. A comfortable degree of stability and diversity can be found in these borrowers.

Medium Grade (PD Rating of 8 to 9)

The PD of accounts in this category is slightly higher than high grade borrowers. Accounts whose financial ratios exhibit an amount of buffer though somewhat limited. These accounts can withstand minor economic weaknesses but may suffer if conditions deteriorate in a significant way and therefore, default risk is present under such adverse conditions. Repayment ability is more or less assured if economic and industry conditions remain stable.

Low Grade (PD Rating of 10 to 11)

Accounts for which default risk are very much present and those that have defaulted already are included in this category.

For SBEL's receivable portfolio, the Group classifies accounts that are neither past due nor impaired as follows:

High Grade – receivables from counterparties with no history of default and with apparent ability to settle the obligation. In case of receivables from customers, the outstanding amount must be more than 200.0% secured by collateral.

Medium Grade – receivable from counterparties with no history of default, with apparent ability to settle the obligation and the outstanding amount must be 100.0% – 200.0% secured by collateral.

Low Grade – receivable from counterparties with history of default and partially secured or unsecured accounts.

Unrated – Receivables from employees and refundable deposits.

For Auto Loan receivables, the Parent Company classifies accounts that are neither past due nor impaired as follows:

High Grade – Accounts with behavioral score >752

Medium Grade – Accounts with behavioral score >679-752; or with behavioral score >565-679 and uses 0 Delinquency Segment scorecard.

Low Grade – Accounts with behavioral score >565-679 and uses 0+ Delinquency Segment scorecard; or with behavioral score <=564.

Unrated – Accounts with no behavioral score such as new bookings.

For Credit Card receivables, the Parent Company classifies accounts that are neither past due nor impaired as follows:

High Grade – Accounts with behavioral score >715.

Medium Grade – Accounts with behavioral score >580-715.

Low Grade – Accounts with score <=580.

Unrated – Accounts which are inactive in the last 12 months; too early or not enough information to rate.

For Business Banking and Home Loan receivables, scorecards are used to determine the PD of the account. The Parent Company classifies accounts that are neither past due nor impaired as follows:

High Grade (PD Rating of <1%)

Accounts in this category have a low probability of defaulting on their obligations over the next 12 months. A comfortable degree of stability and diversity can be found in these borrowers.

Medium Grade (PD Rating of 1% to 10%)

The PD of accounts in this category is slightly higher than high grade borrowers. These accounts can withstand minor economic weaknesses but may suffer if conditions deteriorate in a significant way and therefore, default risk is present under such adverse conditions. Repayment ability is more or less assured if economic and industry conditions remain stable.

Low Grade (PD Rating of 10+% and above)

Accounts for which an assumed default risk is present.

Unrated – Accounts which are unrated and 0-30 Days Past Due

For the other products in the consumer loans portfolio, the Group is currently building a separate credit rating system to enhance credit evaluation parameters across different market segments and achieve a more sound and robust credit risk assessment. Accounts which are neither past due nor impaired are presented as unrated.

The tables below show the credit quality by class of financial assets (gross of allowance for credit losses and net of unearned discounts and deferred credits) of the Group and the Parent Company.

As of December 31, 2024 and 2023, all investment securities are classified as Stage 1.

Impairment assessment

The Group calculates ECLs based on sophisticated models utilizing its scorecards for the following portfolios:

- Wholesale Banking Segment loans
- Business Banking Segment loans
- Retail Banking Segment loans
- The treasury, trading and interbank relationships (such as investment securities not held for trading, due from other banks, interbank loans and cash collateral deposits)

The Group groups these exposures into smaller homogeneous portfolios, based on a combination of internal and external characteristics of the loans. It includes, but not limited to, product type, property type, geographic location, internal grade, exposure value, utilization and collateral type, as applicable.

Liquidity Risk

Liquidity risk is defined as the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk arises because of the possibility that the Group might be unable to meet its payment obligations when they fall due under both normal and stress circumstances. Liquidity risk is monitored and managed mainly using liquidity gap capped by the approved Maximum Cumulative Outflows (MCO) limits, stress testing, and compliance to Basel III liquidity ratios. A Contingency Funding Plan is likewise in place to ensure readiness for identified liquidity crisis situation.

The Parent Company's Asset and Liability Committee (ALCO) is directly responsible for market and liquidity risk exposures. ALCO regularly monitors the Parent Company's positions and sets the appropriate transfer pricing rate to effectively manage movements of funds across business activities.

In 2022, to manage funding liquidity risk in relation to the reestablishment of the HTC business model, the Bank applied a notional limit to its HTC government securities as a percentage of its core deposits and capital. The Bank continuously monitors the volume of its HTC government securities against the notional limit.

Analysis of financial instruments by remaining contractual maturities

The table below shows the maturity profile of the Group's and the Parent Company's financial instruments, based on the Group's and the Parent Company's internal methodology that manages liquidity based on remaining contractual undiscounted cash flows.

Financial assets

Maturity profile of financial assets held for liquidity purposes is shown below. Analysis of equity and debt securities at FVTPL into maturity groupings is based on the expected date on which these assets will be realized. For other assets, the analysis into maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date or if earlier, the expected date the assets will be realized.

Financial liabilities

The maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date, except for deposits which are based on expected withdrawals. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Group can be required to pay.

Market Risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices. The Group classifies exposures to market risk into either trading or non-trading portfolios and manages those portfolios separately.

The Group manages its market risk exposures through various established structures, processes and measurement tools.

- Treasury Group, the unit in charge of managing customer flows, liquidity and interest rate risk in the banking book (IRRBB), and that which handles the proprietary trading of the Group, is assigned risk limits by the ROC.
- The RMG performs daily monitoring of compliance with policies, procedures and risk limits and accordingly makes recommendations, where appropriate.

- The ALCO is the senior decision-making body for the management of all market risks related to asset and liability management, and the trading and accrual books.
- VaR is the statistical model used by the Group to measure the market risk of its trading portfolio, with the confidence level set at 99%.

The market risk measurement models are subjected to periodic back testing to ensure validity of market assumptions used.

Other risk management tools utilized by the Parent Company are as follows:

- Loss limits
- Position and duration limits, where appropriate
- Mark-to-market valuation
- VaR limits
- Stress testing

Additional risk monitoring tools were likewise adopted to manage under fluid market environment. The tools include sensitivity analyses to identify vulnerabilities in terms of profit or loss and capital erosion.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments. The Bank defines IRRBB as the risk of deterioration in the net interest income or capital of bank arising from the timing and rate mismatch of its assets and liabilities combined with unfavorable movements in interest rates.

The Parent Company follows a prudent policy on managing its assets and liabilities so as to ensure that exposure to fluctuations in interest rates is kept within acceptable limits. Management of IRRBB entails identifications of risks in the banking book, modelling of balance sheet account behavior, measurement of interest rate gap, estimation of Earnings-at-Risk (EaR), interest rate stress-testing, calculation of change in Economic Value of Equity (EVE), reporting to ALCO, the ROC and the BOD, model validation and maintenance, and regular audit.

Interest rate risk exposures are reported via the repricing gap schedule. The repricing gap report highlights mismatches in the repricing tenors of assets and liabilities. Repricing gaps are calculated by distributing the statements of financial position accounts into time buckets based on the next repricing dates of individual items. For non-maturing deposits, distinction is made between the stable (i.e. core) and non-stable portions, where the former is spread in time buckets aligned with Basel's IRRBB document while the latter is bucketed in short-term tenors. For time deposits and loans, model assumptions were developed based on historical experience of the Bank to capture early redemption risk and prepayment risk. These are adjusted using scaling factors under different interest rate shocks and stress scenarios when measuring the impact of IRRBB in economic value. After slotting the balance sheet items into time buckets, the resulting difference between the amount of the assets and the amount of the liabilities that will reprice within a particular time bucket constitutes a repricing gap.

The Group employs gap analysis to measure the sensitivity of its assets and liabilities to fluctuations in market interest rates for any given period. A positive gap occurs when the amount of interest rate-sensitive assets exceeds the amount of interest rate-sensitive liabilities during a period of rising interest rates since it is in a better position to invest in higher yielding assets more quickly than it would need to refinance its interest-bearing liabilities. Conversely, during a period of falling interest rates, a positively gapped position could result in restrained growth or declining net interest income.

The Delta EVE is a cash flow calculation that takes the present value of all asset cash flows and subtracts the present value of all liability cash flows. This measure is defined as a bank's value sensitivity to changes in market rates. Delta EVE complements EaR and VaR as the Group's measure of interest rate risk. As of December 31, 2024, the Parent Company's Delta EVE is at 14.51%, arising from parallel shock up interest rate scenario.

The following tables set forth the asset-liability gap position of the Group and of the Parent Company as of December 31, 2024 and 2023:

Market Risk in the Trading Book

The Parent Company measures VaR in order to estimate if the market value of an asset or of a portfolio of assets is likely to change over a certain time period as market factors change.

VaR computation is a two-step process which involves calculation of the changes in the relevant risk factors then computing for the corresponding impact on the exposure's value. A risk factor is defined as a variable that causes a change in the value of a financial instrument or a portfolio of financial instruments.

VaR Methodology

The Parent Company uses a Historical Model approach to calculate VaR for all products.

Unlike parametric methods, the historical approach does not put specific assumptions on the distribution (ex. normality assumption) of the historical returns. Instead, the Historical Model estimates VaR using historical changes in market factors to construct an empirical distribution of potential profits and losses, and then reading off the loss that is exceeded at a specified confidence level and period. The Parent Company employs Historical Model using a Taylor expansion composed of "Greek" sensitivities (Delta and Gamma) characterizing market behavior.

VaR Parameters

The Group uses one-year historical observations consisting of 365 data points with a 99% confidence level and a 1-day holding period. This implies 99% confidence level that the portfolio will not lose more than the calculated VaR over the next day.

The VaR figures are backtested against actual and hypothetical profit and loss to validate the robustness of the VaR model. Likewise, to complement the VaR measure, the Parent Company performs stress tests wherein the trading portfolios are valued under extreme market scenarios not covered by the confidence interval of the VaR model.

Since VaR is an integral part of the Parent Company's market risk management, VaR limits are set annually for all financial trading activities based on its risk appetite level. Exposures are then monitored daily against the established VaR limits.

The following table provides the VaR summary of the Parent Company as of December 31, 2024 and 2023 (amounts in millions):

**Includes interest rate swap transactions of same currency, e.g., PHP fix/float, and cross currency swaps, e.g., USD/PHP fix/fix*

In September 2023, the Parent Company shifted from the use of component VaR which reflects decomposition of the risk of the portfolio to stand-alone VaR to properly capture the risk per risk factor.

The Parent Company's trading in fixed income securities together with the interest rate swaps are exposed to movements in interest rates. Foreign exchange swaps and other derivatives such as options and gold forwards are exposed to multiple risk factors including foreign exchange rates, interest rates, and sometimes even the volatility of these factors, e.g., for options, the volatility of the FX rates are also being traded.

The high and low of the total portfolio may not equal to the sum of the individual components as the high and low of individual portfolios may have occurred on different trading days.

Equity price risk

Equity price risk is the risk that the fair values of equities will decrease as a result of changes in the levels of equity indices and the value of individual stocks. As of December 31, 2024 and 2023, this risk originates from the open stock positions of SB Equities. The Bank has no significant equity price risk as of December 31, 2024 and 2023.

The Group, except for SBEI, has no equity securities classified under Financial assets at FVTOCI as of December 31, 2024 and 2023 which are affected by changes in the PSEi as these securities are mainly golf and club shares.

Market Risk in the Non-Trading Book

The accrual book pertains to the assets and liabilities that make up the Parent Company’s balance sheet. Such accrual positions are sensitive to changes in interest rates. The Parent Company monitors the exposure of non-trading assets and liabilities to fluctuations in interest rates by measuring the impact of interest rate movements on its interest income.

The following tables set forth, for the period indicated, the sensitivity of the Parent Company’s net interest income to reasonably possible changes in interest rates with all other variables held constant:

Currency	2024				2023			
	PHP		USD		PHP		USD	
Changes in interest rates (in basis points)	+100	-100	+100	-100	+100	-100	+100	-100
Change in annualized net interest income*	(₱1,483)	₱1,483	(₱798)	₱798	(₱348)	₱348	(₱1,036)	₱1,036

**Amounts in millions*

EaR is a key measure of IRRBB. EaR is the sensitivity of the statements of income given assumed changes in interest rates on the net interest income for one year, based on the floating rate, non-trading financial assets and financial liabilities held at each statement of financial position date. This approach focuses on the impact in profit or loss of holding on to the gaps over a one-year time frame.

The take-off point for the EaR calculation is the bank’s repricing gap model which takes into account behavior. To control the interest rate repricing risk in the banking books, the Parent Company sets a limit on the EaR measure.

The Parent Company recognizes that this metric assumes a “business-as-usual” scenario and, therefore, do not show potential losses under a “stress” scenario. To address this limitation, the Parent Company performs regular stress testing to test its ability to cope with adverse changes in interest rates under different stress scenarios. This process involves applying interest rate shocks of different magnitudes to the current repricing gap positions in the balance sheet. Stress-testing involves yield curve shifts based on economic forecasts and regulatory guidelines. The bank uses hedging products such as interest rate swaps to hedge its banking book.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Foreign currency-denominated deposits are generally used to fund the Parent Company’s foreign currency-denominated loan and investment portfolio in the FCDU. The Group’s policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines.

The following tables summarize the Group's and the Parent Company's exposure to currency risk as of December 31, 2024 and 2023. Included in the tables are the Group's and the Parent Company's assets and liabilities at carrying amounts, categorized by currency (amounts in Philippine Peso thousands equivalent and excludes FCDU USD-denominated instruments).

Information relating to the Parent Company's currency derivatives are disclosed in Notes 6 and 11. The Parent Company has outstanding cross-currency swaps with notional amount of USD12.8 million and USD11.8 million as of December 31, 2024 and 2023, respectively, and foreign currency forward transactions with notional amount of USD6.5 billion (bought) and USD1.5 billion (sold) as of December 31, 2024, and USD3.1 billion (bought) and USD0.9 billion (sold) as of December 31, 2023. The impact of the range of reasonably possible changes in the US Dollar-Philippine Peso exchange rate (except those in the FCDU books) on the Parent Company's non-consolidated pre-tax income in 2024 and 2023 has been included in the VaR summary per product line.

Operational Risk

Operational risk is the probability of loss arising from fraud, unauthorized activities, errors, omissions, system failures, cyber incidents or from external events. This is the broadest risk type encompassing product development and delivery, operational processing, systems development, computing systems, complexity of products and services, and the internal control environment.

Operational Risk Management is considered a critical element in the Bank's commitment to sound management and corporate governance. Under the Bank's operational risk management framework, business units are provided extensive guidance on the comprehensive identification and effective assessment of their operational risks and the corresponding controls to promote a forward-looking culture of risk management. This is complemented by continuous focus on issue management to address identified weaknesses, as well as by enhanced incident response capability to ensure preparedness in the event of significant risk occurrences.

Group policies and frameworks have been developed and implemented covering key areas such as technology risks, business continuity, fraud, and information security, as well as new risk areas like social media, environmental, social, and governance (ESG), and reputational risk. Guidelines and tools have also been enhanced for key operational risk activities such as Issue Management, Incident and Loss Reporting and Key Risk Indicators to improve reporting and oversight of the Bank's operational risk environment. The Risk and Control Self-Assessment process has also been updated

to ensure effective identification, assessment, mitigation and monitoring of operational risks by the risk owners in the first line of defense.

There remains increased focus on operational resilience, with ongoing reviews of business continuity plans and crisis management playbooks, and planned upgrades to critical systems as part of IT disaster recovery efforts.

Increased digitalization in response to customer needs has been accompanied by enhanced alignment of the Bank's risk assessment and technology project management processes. Security controls were strengthened to mitigate cybersecurity and external fraud risks, particularly within the online banking services. Security awareness programs for both customers and staff have likewise been enhanced. Finally, third-party experts are contracted to assess and guide further improvements to both cybersecurity maturity and incident response capability. These measures are intended to address information security, fraud, resiliency, and other operational risks.

Sustainability Risk

Environmental & Social Risk Management (ESRM) is the identification, measurement, assessment, monitoring and reporting of environmental and social risks associated with the Bank's lending and investment activities, and its operations. The Bank has incorporated environmental and social factors into the lending process and customer dialogue to align with its policies. The Bank recognizes the consequences of failing to appropriately manage ESG issues can directly impact its reputation, its operations, and the communities where the Bank and its clients operate.

When fair values of listed equity and debt securities, as well as publicly traded derivatives at the reporting date are based on quoted market prices or binding dealer price quotations, without any adjustments for transaction costs, the instruments are included within Level 1 of the hierarchy.

For all other financial instruments, fair value is determined using valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist and other revaluation models, the instruments are included in Level 2. Instruments included in Level 3 include those for which there is currently no active market.

During the years ended December 31, 2024 and 2023, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

The methods and assumptions used by the Group in estimating the fair value of its financial instruments are:

COCI, due from BSP and other banks and interbank loans receivable and SPURA with the BSP
The carrying amounts approximate fair values considering that these accounts consist mostly of overnight deposits and floating rate placements.

Debt securities

Fair values are generally based upon quoted market prices, if available. If the market prices are not readily available, fair values are estimated using either values obtained from independent parties offering pricing services or adjusted quoted market prices of comparable investments or using the discounted cash flow methodology.

Equity securities

Fair values of quoted equity securities are based on quoted market prices. Fair values of unquoted equity securities are derived based on the adjusted net asset value method.

Receivable from customers and sales contracts receivable (included under 'Other receivables')

Fair values of loans and receivables are estimated using the discounted cash flow methodology, using the Group's current incremental lending rates for similar types of loans and receivables.

Other receivables - Accounts receivable and accrued interest receivable

Carrying amounts approximate fair values given their short-term nature.

Investment properties

Fair value of investment properties are determined by independent or in-house appraisers using the market data approach. Valuations were derived based on recent sales of similar properties in the investment properties and taking into account the economic conditions prevailing in the vicinity of the time the valuations were made and comparability of similar properties sold with the property being valued. Significant unobservable inputs in determining fair values include the following:

Location	Location of comparative properties whether on a main road, or secondary road. Road width could also be a consideration if data is available. Generally, properties located along a main road are superior to properties located along a secondary road.
Size	Size of lot in terms of area. Evaluate if the lot size of property or comparable conforms to the average cut of the lots in the area and estimate the impact of the lot size differences on land value.
Time element	An adjustment for market conditions is made if general property values have appreciated or depreciated since the transaction dates due to inflation or deflation or a change in investor's perceptions of the market over time, in which case, the current data is superior to historic data.
Discount	Generally, asking prices in advertisements posted for sale are negotiable. Discount is the amount the seller or developer is willing to deduct from the posted selling price if the transaction will be in cash or equivalent.

Other financial assets

The carrying amounts approximate fair values due to their short-term nature.

Derivative instruments (included under FVTPL and designated as hedges)

Derivative products are valued using valuation techniques using market observable inputs including foreign exchange rates and interest rate curves prevailing at the statements of financial position date. For interest rate swaps, cross-currency swaps and foreign exchange contracts, discounted cash flow model is applied. This valuation model discounts each cash flow of the derivatives at a rate that is dependent on the tenor of the cash flow.

Deposit liabilities (demand and savings deposits excluding long-term deposits)

The carrying amounts approximate fair values considering that these are due and demandable.

Long-term negotiable certificates of deposit (LTNCD) and subordinated note

Fair values of LTNCD and subordinated note are estimated using adjusted quoted market prices of comparable investments. The adjustments on market quoted prices are unobservable inputs.

Other financial liabilities

For accrued interest and other expenses and other financial liabilities, the carrying amounts approximate fair values due to their short-term nature.

The significant unobservable input used in the fair value measurement of the Group's financial assets and financial liabilities is credit-adjusted rates for similar types of financial instruments. Significant increases (decreases) in the credit-adjusted rates would result in a significantly lower (higher) fair value measurement.

Fair value changes of derivatives other than forward contracts amounting to ₱0.6 billion gain and ₱0.2 billion gain in 2024 and 2023, respectively, are recognized as 'Trading and securities gain (loss) - net' in the statements of income (see Note 9), while fair value changes on forward contracts amounting to ₱2.1 billion gain in 2024 and ₱2.8 billion loss in 2023 are recognized as 'Foreign exchange gain (loss) - net' in the statements of income.

As of December 31, 2024 and 2023, the Parent Company has positions in the following types of derivatives:

Forwards

Forward contracts are contractual agreements to buy or sell a specified instrument at a specific price and date in the future. Forwards are customized contracts transacted in the over-the-counter market.

Swaps

Swaps are contractual agreements between two parties to exchange streams of payments over time based on specified notional amounts, in relation to movements in a specified underlying index such as interest rate, foreign currency rate or equity index.

Interest rate swaps relate to contracts taken out by the Parent Company with other financial institutions in which the Parent Company either receives or pays a floating rate in return for paying or receiving, respectively, a fixed rate of interest. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

In a currency swap, the Parent Company pays a specified amount in one currency and receives a specified amount in another currency. Currency swaps are mostly gross-settled.

Interest rate futures

Futures contract is a contractual agreement made on a futures exchange to buy or sell particular assets at a predetermined price in the future. Futures contracts standardize the quality and quantity of the underlying asset.

Foreign currency options

Foreign currency options are contractual agreements that give the holder the right, but not the obligation, to buy or sell a specific amount of foreign currency at a predetermined exchange rate (strike price) on or before a certain date (expiration date).

Derivative financial instruments held or issued for trading purposes

The Parent Company's derivative trading activities relate to deals with customers which are normally laid off with counterparties. The Parent Company may also take positions with the expectation of generating profit from favorable movements in prices and rates on indices. Also included under this heading are any derivatives which do not meet hedge accounting requirements.

Derivatives Designated as Hedges

In March 2024, the Parent Company entered into hedging transactions, particularly cash flow hedges, to hedge its exposure to variability in future cash flows arising from foreign currency risk associated with its inter-book liabilities in the RBU books. The following table shows the summary of the hedging transactions of the Parent Company designated as cash flow hedges and the related balances as of December 31, 2024:

Hedged Item	Hedging Instrument	Notional Amount*	Derivative Asset	Derivative Liability	Cash Flow Hedge Reserve	Cost of Hedging Reserve, Net of Tax	Total Hedge Reserve, Net of Tax
Cash short position in the RBU books	Spot element of FX swap contract	\$4,036,767	₱634,928	₱3,841,204	₱-	(₱1,597,138)	(₱1,597,138)

*In thousands

As of December 31, 2024, the Parent Company assessed the hedging relationships to be effective.

The cost of hedging pertaining to the amortization of the forward element presented under 'Interest expense on derivatives designated as hedges' in the statements of income amounted to ₱5.6 billion for the period ended December 31, 2024. Fair value gain of ₱1.8 billion initially deferred in cash flow hedge reserve were recycled to profit or loss at the same time the revaluation of the inter-book liabilities in RBU books was recognized in profit or loss.

In 2024 and 2023, debt instruments at FVTOCI were carried at Stage 1 and there were no transfers into and out of Stage 1.

As of December 31, 2024 and 2023, Peso-denominated debt financial assets at FVTOCI amounted to ₱138.4 billion and ₱114.6 billion, respectively.

As of December 31, 2024 and 2023, USD-denominated debt financial assets at FVTOCI amounted to ₱42.8 billion and ₱24.7 billion, respectively.

As of December 31, 2024 and 2023, certain treasury bond securities were pledged with foreign banks as collateral for SSURA (see Note 21).

As of December 31, 2024 and 2023, government securities included under 'Financial Assets at Fair Value through Other Comprehensive Income' with a total face value amounting to ₱1.5 billion and ₱1.2 billion, respectively, were deposited with the BSP in compliance with the requirements of the General Banking Law relative to the Parent Company's trust functions (see Note 27).

PSE shares were obtained by SBEI in 2001 as a result of the demutualization of its membership shares in the stock exchange. These investments were for long-term strategic purpose. SBEI designated these equity securities as financial assets at FVTOCI as management believes that this provides a more meaningful presentation for medium or long-term strategic investments, rather than reflecting changes in fair value immediately in the statements of income. The Group also adopted the same classification for its investments in golf and club shares.

	₱138,733,375	₱76,156,084

On May 11, 2022, the Parent Company participated on an issuer-initiated mandatory early redemption of PHP-denominated corporate bond with face value of ₱514.5 million. Total amount of redemptions during the year amounted to ₱2.1 billion resulting to a gain amounting to ₱4.0 million.

On June 28, 2022, the Finance Committee and the BOD of the Parent Company approved a change in business model involving the re-establishment of the HTC business model for government securities. Various factors challenged the Parent Company's ability to execute its strategy of shifting towards more fee-based and client-driven income given a reduction in loan demand and an increase in the deterioration of the credit quality of existing loans as a direct result of the global pandemic. Geopolitical events also triggered significant market volatility which curtailed the Parent Company's ability to deploy its investible funds to government securities under the old business model. The HTC business model for government securities was established to help the Parent Company achieve its desired balance sheet structure by means of medium to long-term gap management while lowering overall portfolio credit risk (see Note 3).

As of December 31, 2024 and 2023, certain private bonds were pledged with foreign banks as collateral for SSURA (see Note 21).

An analysis of changes in the gross carrying amount, and the corresponding ECLs, is as follows:

Reclassification of SBF to Joint Venture

On October 20, 2020, after securing regulatory approvals in the Philippines and Thailand, the Parent Company sold 7,075,000 SBF shares (50% ownership) to Krungsri for ₱1.5 billion, recognizing a ₱933.1 million gain. As a result, SBF ceased to be a subsidiary and was deconsolidated from the Group's financial statements.

In 2021, the Parent Company and Krungsri approved a ₱3.0 billion capital infusion into SBF, disbursed in two tranches: ₱1.5 billion on May 21, 2021, and ₱1.5 billion on January 18, 2022. To accommodate the infusion, SBF issued new shares.

Sale and Purchase Agreement relating to HC Consumer Finance Philippines, Inc.

On November 29, 2024, the Parent Company entered into an agreement with MUFG to acquire HC Consumer Finance Philippines, Inc., subject to the satisfaction of certain completion conditions.

Investment properties are real estate properties acquired in settlement of loans and receivables. The difference between the fair value of the asset upon foreclosure and the carrying value of the loan is recognized under ‘Profit from assets sold/exchanged’. In 2024, 2023 and 2022, the Profit from assets sold/exchanged amounted to ₱1.0 billion, ₱0.9 billion and ₱1.2 billion for the Group and the Parent Company.

The fair values of investment properties are disclosed in Note 6.

As of December 31, 2024 and 2023, the carrying value of investment properties still subject to redemption amounted to ₱1.9 billion and ₱1.3 billion, respectively, for the Group and the Parent Company.

The Group and the Parent Company have no investment properties, which are leased out under operating leases as of December 31, 2024, 2023 and 2022.

In 2024, 2023, and 2022, direct operating expenses, consisting of depreciation and amortization and repairs and maintenance (included under ‘Occupancy costs’ in the statements of income) pertaining to investment properties amounted to ₱107.9 million, ₱72.9 million, and ₱74.8 million, respectively, for the Group and ₱107.9 million, ₱72.9 million, and ₱74.8 million, respectively, for the Parent Company.

Cash collateral deposits represent the Parent Company's restricted deposits for its treasury transactions such as interest rate swaps and SSURA. The carrying amount of these deposits approximates their fair value.

In 2024 and 2023, the gross carrying amount of cash collateral securities were carried at Stage 1 and there were no transfers into and out of Stage 1.

Other properties acquired represent chattel mortgages foreclosed from loan borrowers. Gain or loss upon foreclosure is included under 'Profit from assets sold/exchanged' in the statements of income. In 2024, 2023 and 2022 the Profit from assets sold/exchanged, amounted to (₱108.9 million), ₱59.8 million and ₱0.3 billion, respectively, for the Group and the Parent Company.

As of December 31, 2024 and 2023, 'Other assets - miscellaneous' includes items in process for clearing amounting to ₱634.8 million and ₱177.6 million, respectively, and prepaid employee benefits under car plan program amounting to ₱267.8 million and ₱224.8 million for the Group, respectively, and ₱265.8 million and ₱223.7 million for the Parent Company, respectively.

Other Investment

On April 8, 2024, the Executive Committee as delegated by the BOD of the Parent Company, approved a joint venture agreement with Mitsubishi Motors Corporation (Mitsubishi Motors) of Japan. The agreement establishes Mitsubishi Motors Finance Philippines Inc. (MMFP) and provides for a capital injection totaling to ₱4.0 billion, to be paid in tranches. Pursuant to the agreement, the Parent Company will hold a 49.0% ownership stake in MMFP, while Mitsubishi Motors will hold a 51.0% ownership stake. On November 26, 2024, upon fulfillment of certain closing conditions, the Parent Company paid the first tranche of capital injection amounting to ₱1.25 billion.

As of December 31, 2024, articles of incorporation of MMFP were pending approval by the SEC (see Note 38).

On November 26, 2013, the Parent Company's stockholders approved and authorized the following:

1. Creation of 1.0 billion non-cumulative, non-participating, non-convertible voting Preferred Stock with par value of ₱0.1 each and issuance of approximately 602.8 million of such Preferred Stock; and
2. Increase in authorized capital stock from ₱10.0 billion to ₱10.1 billion broken down into ₱10.0 billion Common Stock and ₱100.0 million Preferred Stock.

The Preferred Stock was offered to eligible common stockholders, with each eligible stockholder entitled to subscribe to one voting preferred share for every one common stock held as of the record date, June 16, 2014.

On July 10, 2014, the Parent Company issued the first tranche of non-cumulative, non-participating, non-convertible Preferred Stock of 602,831,109 with ₱0.1 par value. The dividend rate is 3.90% repricing every 10 years.

On April 1, 2016, the Parent Company issued the second tranche of non-cumulative, non-participating, non-convertible Preferred Stock of 397,168,891 with ₱0.1 par value. The dividend rate is 4.805% repricing every 10 years.

The Preferred Stock is redeemable at the sole option of the Parent Company at its issue price. Redemption shall at all times be subject to regulation of the BSP and shall require (i) prior approval of the BSP; (ii) replacement with at least an equivalent amount of newly paid-in shares; (iii) a lapse of at least five years from the date of issuance; and (iv) solvency of the Parent Company. Redemption shall not be allowed when the Parent Company is insolvent or if such redemption will cause insolvency, impairment of capital or inability of the Parent Company to meet its debts as they mature.

A sinking fund for the redemption of Preferred Shares amounting ₱100.0 million is created upon their issuance, to be effected by the transfer of free surplus to a restricted surplus account and shall not be available for dividend distribution.

As part of Preferred Stock features stated in the Seventh Article of the Bank's Amended Articles of Incorporation, the dividend rate will be repriced at the 10-year prevailing rate on each relevant 10th year anniversary from the issue date. On February 27, 2024, the Parent Company's BOD approved to reprice the dividend rate for the first tranche of Preferred Stock on July 10, 2024 using the 10-year PHP BVAL from 10-Year PDST-R2.

Details of the Parent Company's cash dividend distribution follow:

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 16 issued in September 2023 differs to a certain extent from the computation following BSP guidelines including capital adequacy requirements and other considerations such as general loan loss reserves. However, on September 17, 2015, the BSP through MB Resolution No. 1516, allowed banks to declare and pay dividends without prior BSP verification provided that pre-qualification criteria including capital adequacy requirements are met.

Upon adoption of PFRS 9, BSP requires appropriation of a portion of the Group's Surplus at an amount necessary to bring to at least 1% the allowance for credit losses on loans.

In compliance with existing BSP regulations, 10.0% of the net profits realized by the Parent Company from its trust business is appropriated to surplus reserve. The yearly appropriation is required until the surplus reserve for trust business equals 20.0% of the Parent Company's regulatory capital.

To comply with Securities Regulation Code Rule 49.1 (B), *Reserve Fund*, requiring broker dealers to annually appropriate a certain minimum percentage of its audited profit after tax as reserve fund, a portion of the Group's surplus corresponding to the net earnings of SBEI amounting to ₱39.6 million as of December 31, 2024 and 2023, respectively, has been appropriated in the consolidated financial statements and is not available for dividend declaration.

Capital Management

The Group considers the equity attributable to the equity holders of the Parent Company as the capital base of the Group. The primary objectives of the Group's capital management are to ensure that it complies with capital requirements and that it maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its activities and assessment of prospective business requirements or directions. In order to maintain or adjust the capital structure, the Group may adjust the amount and mode of dividend payment to shareholders and issue capital securities. No changes were made in the objectives, policies and processes from the previous year.

The Parent Company adopted a dividend policy that is intended to support the Bank to weather the uncertainties and volatilities in the market; comply with the higher requirements of Basel III and the BSP; maintain strong credit ratings; minimize the need for capital calls in the medium-term; and provide a capital base for business expansion that will create value over the long-term for all stakeholders. In declaring dividend pay-outs, the Parent Company may use a combination of regular and special dividends such that the dividend pay-out for Common Shares generally may range from 15% to 30% of prior year's NIAT.

BSP Reporting

Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the compliance with regulatory requirements and ratios is based on the amount of the "unimpaired capital" (regulatory net worth) as reported to the BSP, which is determined on the basis of regulatory accounting policies that differ from PFRS Accounting Standards in some respects.

The Group complied with BSP Circular No. 781, *Basel III Implementing Guidelines on Minimum Capital Requirements*, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi banks, in accordance with the Basel III standards:

Common Equity Tier 1 (CET1) ratio	6.00%
Tier 1 Capital ratio	7.50%
Total Capital Adequacy Ratio (CAR)	10.00%
Capital Conservation Buffer *	2.50%

**composed of CET1 capital on top of the minimum CET1 requirement*

BSP Circular No. 856 covers the implementing guidelines on the framework for dealing with domestic systemically important banks (DSIBs) in accordance with the Basel III standards. Banks identified as DSIBs are required to have higher loss absorbency, on top of the minimum CET1 capital and capital conservation buffer.

Qualifying capital and risk-weighted assets (RWA) are computed based on BSP regulations. Under Basel III, the regulatory qualifying capital of the Parent Company consists of CET1 capital, which comprises paid-up common stock, additional paid-in capital, retained earnings including current year profit, retained earnings reserves, OCI and non-controlling interest less required regulatory deductions. The other component of regulatory capital is Tier 2 (supplementary) capital, which includes unsecured subordinated debts and general loan loss provision. RWA consist of total assets excluding cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items determined by the Monetary Board (MB) of the BSP. Operational RWA are computed using the Basic Indicator Approach.

The CAR of the Group and of the Parent Company as reported to the BSP as of December 31, 2024 and 2023 follow:

*Deductions to Tier 2 Capital are capped at its total gross amount and any excess shall be deducted from Tier 1 Capital.

The Group and its individually regulated operations have complied with all regulatory capital requirements throughout the year.

The Bank Viability Assessment Process supplements the BSP's risk-based capital adequacy framework. In compliance with this, the Group has adopted and developed its capital and liquidity assessment frameworks to ensure that appropriate level and quality of capital and liquidity are maintained by the Group. Under these frameworks, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Group. The level and structure of capital are assessed and determined in light of the Group's business environment, plans, performance, risks and budget as well as regulatory edicts.

Basel III Leverage Ratio (BLR)

BSP Circular Nos. 881 and 990 cover the implementing guidelines on the BLR framework designed to act as a supplementary measure to the risk based capital requirements and shall not be less than 5.00%.

The details of the BLR as reported to the BSP, as of December 31, 2024 and 2023 follow:

	Consolidated		Parent Company	
	2024	2023	2024	2023
Tier 1 Capital	₱117,140,062	₱109,253,577	₱112,683,354	₱104,995,248
Exposure Measure	1,508,781,507	1,033,488,172	1,504,167,424	1,030,374,836
BLR	7.76%	10.57%	7.49%	10.19%

Under the framework, BLR is defined as the capital measure divided by the exposure measure. Capital measure is Tier 1 capital. Exposure measure is the sum of on balance sheet exposures, derivative exposures, security financing exposures and off-balance sheet items.

Liquidity Coverage Ratio (LCR)

BSP Circular No. 905 provides the implementing guidelines on LCR and disclosure standards that are consistent with the Basel III framework. The LCR is aimed to promote short-term resilience against liquidity risk by requiring banks to maintain an adequate stock of unencumbered high-quality liquid assets (HQLAs) that consists of cash or assets that can be converted into cash at little or no loss of value in private markets, to meet its liquidity needs under stressed conditions. Bank shall maintain an LCR not be lower than 100.00%. As of December 31, 2024 and 2023, the LCR in single currency as reported to the BSP, was at 178.30% and 157.98%, respectively, for the Group, and 177.72% and 157.22%, respectively, for the Parent Company.

Net Stable Funding Ratio (NSFR)

On June 6, 2018, the BSP issued BSP Circular No.1007 covering the implementing guidelines on the adoption of the Basel III Framework on Liquidity Standards NSFR. The NSFR is aimed to promote long term resilience against liquidity risk by requiring banks to maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. It complements the LCR, which promotes short term resilience of a bank's liquidity profile. Banks shall maintain an NSFR of at least 100% at all times. As of December 31, 2024 and 2023, the NSFR as reported to the BSP, was at 130.44% and 131.05%, respectively, for the Group, and 130.82% and 130.94%, respectively, for the Parent Company.

27. Trust Operations

Securities and other properties held by the Parent Company in a fiduciary or agency capacity for clients and beneficiaries are not included in the accompanying statements of financial position since these are not assets of the Parent Company.

As of December 31, 2024 and 2023, government securities included under 'Financial Assets at Fair Value through Other Comprehensive Income' with a total face value of ₱1.5 billion and ₱1.2 billion, respectively, were deposited with the BSP in compliance with the requirements of the General Banking Law relative to the Parent Company's trust functions (see Note 12).

28. Income Taxes

The Group's provision for income tax - current represents final tax, RCIT of the Parent Company's RBU, SBCIC, SBRC and SFLI, and MCIT of the Parent Company's FCDU, SBEI and SBCC.

Under Philippine tax laws, the Parent Company and its financial intermediary subsidiaries are subject to percentage and other taxes (presented as ‘Taxes and licenses’ in the statements of income) as well as income taxes. Percentage and other taxes paid consist principally of documentary stamp tax and gross receipts tax.

RA No. 11534 or the Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act was signed into law on March 26, 2021. It took effect on April 11, 2021 and provides that the RCIT rate shall be 25.0%. Interest expense allowed as a deductible expense is reduced by 20.0%.

Minimum corporate income tax (MCIT) rate reduced from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023, then will revert to two percent (2%) effective July 1, 2023. Accordingly, the rate of minimum corporate income tax (MCIT) for CY’s 2024, 2023 and 2022 are 2%, 1.5% and 1%, respectively.

RA No. 9294, which became effective in May 2004, provides that the income derived by the FCDU from foreign currency transactions with non-residents, offshore banking units (OBUs), and local commercial banks, including branches of foreign banks, is tax-exempt while interest income on foreign currency-denominated loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.0% income tax.

29. Pension Obligations

The Group provides non-contributory defined benefit pension plans for all employees. Provisions for pension obligations are established for benefits payable in the form of retirement pensions. Benefits are dependent on years of service and the respective employees' final compensation. The most recent actuarial valuation was carried out as of December 31, 2024. The present value of the defined benefit obligation, and the related current service cost and past service cost were measured using the projected unit credit actuarial method.

Effective December 31, 2024, the Parent Company amended its retirement plan by changing the retirement age from 55 to 60 years old. This update applies to all eligible employees retiring on or after December 31, 2024.

The amounts of defined benefit plans are presented in the statements of financial position as follows:

In 2014, the Parent Company entered into a distribution agreement with FWD for the marketing of FWD's life insurance products through the Parent Company's marketing and distribution network. The distribution agreement was approved by the BSP on December 22, 2014 under Monetary Board Resolution No. 2073, through its letter to the Parent Company dated January 7, 2015, and by the Insurance Commission (IC) on January 12, 2015. The term of the distribution agreement shall not be less than 11 years but no longer than 19 years. Effective March 26, 2024, the Parent Company and FWD entered into an amendment to the distribution agreement stipulating, among others, the deletion of the termination fee provision requiring a refund by the Parent Company to FWD of a portion of the subsequent milestone fee if the agreement is terminated prior to the end of its term and there is a resulting shortfall from the total annual new premiums target. In 2024, the Parent Company received a milestone fee amounting to ₱1.4 billion and recognized the same as part of bancassurance revenues.

On December 11, 2024, the Parent Company and FWD executed an amended and restated distribution agreement which stipulates, among others, that the term of the agreement shall end no earlier than December 31, 2036 but no later than December 31, 2043. The Parent Company notified the BSP on December 17, 2024. The date of effectivity of the agreement is subject to the approval of the IC as part of FWD governance.

Bancassurance revenues include recognized portion of access fees, recognized portion of milestone fees, commissions and bonuses from the Bancassurance agreement. The Parent Company may also receive milestone fees and performance bonuses over the term of the agreement.

32. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Group's related parties include:

- Key management personnel, close family members of key management personnel and entities which are controlled, significantly influenced by or for which significant voting power is held by key management personnel or their close family members;

- Subsidiaries, joint ventures and their respective subsidiaries;
- Entities under the same group (other affiliates); and
- Post-employment benefit plans for the benefit of the Groups employees

The Group has several business relationships with related parties. Transactions with such parties are made in the ordinary course of business and on substantially same terms, including interest and collateral, as those prevailing at the time for comparable transactions with other parties and are usually settled in cash. These transactions also did not involve more than the normal risk of collectability or present other unfavorable conditions.

33. Long-term Leases

The Group has entered into commercial property leases with various tenants on its investment property portfolio and part of its bank premises, consisting of the Group's surplus offices and real properties acquired. These non-cancellable leases have remaining lease terms of between one and five years as of December 31, 2024 and 2023. Various lease contracts include escalation clauses, most of which bear an annual rent increase of 5.0%. Rent income from long-term leases (included in 'Rent income' in the statements of income) amounted to ₱931.7 million in 2024, ₱708.4 million in 2023 and ₱631.1 million in 2022 for the Group, of which, ₱49.9 million in 2024, ₱39.5 million in 2023 and ₱74.7 million in 2022 pertain to the Parent Company (see Note 16).

Some of its subsidiaries also lease the premises occupied by their head offices and most of their branches. The lease contracts are for periods ranging from one to 15 years and are renewable at the Parent Company's option under certain terms and conditions. Various lease contracts include escalation clauses, most of which bear an annual rent increase of 5.0%.

34. Commitments and Contingent Liabilities

In the normal course of operations of the Group, there are outstanding commitments and contingent liabilities and bank guarantees that are not reflected in the financial statements. The Group does not anticipate losses that will materially affect its financial position and financial performance as a result of these transactions.

There are several suits, claims and assessments that remain unsettled. Management believes, based on the opinion of its legal counsels, that the ultimate outcome of such cases and claims will not have a material effect on the Group's financial position and financial performance.

35. Segment Information

The Group's operating businesses are recognized and managed separately according to the nature of services provided and the different markets served with each segment representing a strategic business unit.

The Group derives revenues from the following main operating business segments:

Wholesale Banking Segment - this segment addresses corporates, institutional, and public sector and commercial clients. Services include relationship management, loans, trade, cash management, deposits and investments. It also provides structured financing and advisory services, debt and equity capital raising, project financing, and mergers and acquisitions advisory offered by SB Capital. Operating leases from SBRC and share in net income from SBML are also part of the segment.

Retail Banking Segment - this segment serves individual clients. It covers deposits, consumer loans, credit cards, bancassurance and investments. Share in net income from SBF is also part of the segment.

Business Banking Segment - this segment serves the micro, small and medium enterprises (MSMEs) with holistic propositions covering deposits, loans, cash management, third-party insurance and investments.

Financial Markets Segment - this segment focuses on providing money market, foreign exchange, financial derivatives, debt and equity securities brokerage, asset management, trust and fiduciary services, as well as the management of the funding operations for the Group. The Group's equity brokerage, SB Equities, is also part of this segment.

Eliminations and Others - This segment includes the Bank's non-reportable segments such as support services and eliminations in accordance with the Bank's group internal reporting. Eliminations in 2024 include net interest income from third party and intersegment amounting to ₱6.0 billion and ₱7.9 billion, respectively; non-interest income and non-interest expense amounting to ₱3.2 billion and ₱18.6 billion, respectively; and total assets and total liabilities amounting to ₱5.6 billion and ₱285.5 billion, respectively. Eliminations in 2023 include net interest income from third party and intersegment amounting to ₱11.1 billion and ₱10.0 billion, respectively; non-interest income and non-interest expense amounting to ₱6.6 billion and ₱13.4 billion, respectively; and total assets and total liabilities amounting to ₱4.3 billion and ₱189.6 billion, respectively.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment assets are those operating assets that are employed by a segment in its operating activities and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment liabilities are those operating liabilities that result from the operating activities of a segment and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

The Group's revenue-producing assets are located in the Philippines (i.e., one geographical location), therefore, geographical segment information is no longer presented.

The Group has no significant customers which contribute 10.0% or more of the consolidated revenue, net of interest expense.

The segment results include internal transfer pricing adjustments across business units as deemed appropriate by management. Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to the business units based on a pool rate which approximates the marginal cost of funds.

The President and Chief Executive Officer, Mr. Sanjiv Vohra, reported on the financial highlights and accomplishments of the Bank for the year 2023:

- Posted an 8% increase in total revenues to PHP43 billion in 2023, driven by the continued growth in net interest income to PHP34.7 billion, given better net interest margins and faster growth in retail and MSME loans.
- Net Income After Tax of 9.1 billion pesos was 14% lower than previous year due to higher operating expenses and credit provisions. The Bank invested more in people and technology to accelerate transformation and better position the Bank for the future.
- Service charges, fees and commissions grew 15% to PHP6.1 billion, led by increase in fees from: credit cards, remittances, InstaPay fees, and Bancassurance.
- Net interest margin for the full year was 4.49%, higher compared to 4.23% in 2022.
- The growth for 2023 in both loans and deposits was evident across the retail and MSME segments. The Wholesale team also successfully secured key mandates to support client growth.
- 2023 ended with Net Loans of 538 billion pesos, up 7% year-on-year. The Retail and Business Banking Loans jointly accelerated to a 29% growth rate from 16% in 2022. Drivers included home loans, credit cards, auto loans, and MSME loans.
- The Wholesale Loan portfolio was flattish on a year-on-year basis, this was up in the 4th quarter by 7%, from a previous 3% quarter-on-quarter.
- Total Deposits were flat year-on-year, progress on deposits was on two fronts: CASA deposits increased 4% year-on-year and Time Deposits were up 13% over the quarter. Total deposits were at 607 billion pesos, up 8% quarter-on-quarter.
- As the economy continues to adjust to moderating levels of inflation and continued

elevated interest rates, the Bank will accelerate its growth in 2024 and continue to deliver on the transformation goals.

- Security Bank continues to be among the country’s best capitalized private domestic universal banks, with Common Equity Tier 1 Ratio of 15.3% and Total Capital Adequacy Ratio (CAR) of 16.2%
- Cash dividends for the year were maintained at 3.00 pesos per common share.
- The Bank remain committed to becoming the most customer-centric bank in the Philippines with the key goals to grow market share, achieve top 3 peer ROE, lead in NPS across all segments, and become the Employer of Choice in Philippine banking.
- Building on the robust people, technology, and process initiatives implemented in 2023, the Bank expect to execute on its ambitions faster in 2024—and create meaningful impact for its customers, employees, and other stakeholders.
- Retail Bank team improved in profitability (27% YoY revenue growth and 18% loan book growth), market share (across credit cards, auto loans, home loans, and CASA) and CSAT. In 2023, the Bank receive the honor of BEST RETAIL BANK from Alpha Southeast Asia.
- Wholesale Bank team demonstrated growth in the sustainable finance portfolio, supply chain finance assets, digital payment volumes, and SB Rental bookings. The Bank was also recognized as the BEST CORPORATE BANK by Asiamoney.
- Business Banking segment was officially launched – it broadened its market outreach, grew loans, increased digital transactions, and improved asset quality.
- Branch Banking Group opened 10 new branches in 2023, expanding its footprint to new locations with high deposit volumes and high potential for business growth. Branch Banking group achieved a strong CSAT score, which was a testament to the distinct BetterBanking service provided at the branches.
- Through the efforts of Financial Markets team, the Bank experienced growth in FX volumes from client transactions and in fixed income securities transactions from institutional clients. The Bank also raised 18.5 billion pesos worth of bonds – it’s largest issue to date. This successful issuance and oversubscription demonstrated investor confidence in the Bank’s commitment to provide BetterBanking service.
- The Bank’s key enablers continue to provide critical support to business segments and there were many remarkable achievements in 2023 which included the following :
 - Implementation of HCM transformation projects, including a new Employee Value Proposition called “YOU matter” and an integrated technology platform, HeRO. Because of these and other HCM initiatives, such as our continued hybrid work arrangement, focused learning, and employee engagement, we were included on Forbes’ World’s Best Employers list (#54 globally, #2 locally, and #1 among Philippine banks), among other awards.
 - The Enterprise Technology and Operations Team worked closely with business, to deliver the best and most secure experiences for the Bank’s customers and they have successfully implemented the following : (1) the new tellering and lobby management system, (2) integrated Falcon, fraud detection tool, into our online banking platform, (3) enabled us to be the first bank to attain the upgraded Information Security Management System ISO/IEC 27001:2022, and (4) laid the foundation for our BetterBanking experience.
 - Risk Management Group was strengthened across all areas: credit, market & liquidity, and operations
 - The new Enterprise Data Office strengthened its capabilities to support business with an expert leadership team, new data governance, and AI development platforms. The Team’s efforts has seen a significant uplift in Retail and Transaction Banking campaigns.

- In 2023, the focus on ESG programs intensified, building upon the groundwork laid in 2021 with the introduction of our Environmental and Social Risk Management System. Other milestones included: approval of our Sustainable Finance Framework, publication of our first Integrated Report, and receiving the ESCAP Sustainable Business Network Asia-Pacific Green Deal Badge. Two of main office buildings were switched to fully renewable energy and solar panels to three branches to increase our use of clean energy. Further, as of December 2023, Wholesale Bank disbursed a total of PHP43.6 billion in qualified Green and Social loans. All these were significant steps towards sustainability and environmental responsibility and this demonstrates the Bank's commitment to reducing our carbon footprint and supporting the transition to a green economy.
- In recognition of our program, product, and service efforts, the Bank received various awards in 2023 which included the Best Retail Bank, Best Corporate Bank. For the second year in the row, the Bank was again recognized as the Philippines Top Employer by Statista and the Philippine Daily Inquirer. The Bank also received recognition for excellence in employee engagement and talent from Retail Banker International and LinkedIn.
- For excellence in corporate governance, the Bank received four golden arrow recognition from the Institute of Corporate Directors and for the fourth consecutive year, the Bank was given five awards by Corporate Governance Asia, including Best Investor Relations company and the Sustainable Asia Award (previously called Asia's Best CSR award).
- SB Capital, our investment banking subsidiary, received recognition as a Top Corporate Issue Manager/Arranger in the Philippines at the Asset Benchmark Research Awards and emerged Top Domestic Bond House at the Philippine Dealing System Awards.
- In 2023, the Bank extended beyond traditional Corporate Social Responsibility (CSR) while remaining aligned with our mission and sustainability objectives. Together with Security Bank Foundation, the Bank formed dynamic partnerships with diverse stakeholders which included national and local government agencies, academic institutions, and foundations. These collaborations were designed to drive progress in education, healthcare, enterprise development, arts and culture, disaster recovery, and women empowerment.
- 2024 will be a year of executing on our bold targets. The Bank will continue to build on the loan growth momentum by emphasizing profitable growth in retail & MSME while being opportunistic in Wholesale given the intensely competitive pricing environment.
- The Bank's BetterBanking apps program is well underway, with milestone launches throughout the year to supercharge customer journeys. Completely built from the ground up, the BetterBanking apps will offer convenience, security, and a wide range of personalized features for our different banking segments.
- The Bank will execute Project: 10x, which is leveraging investments made in the foundational elements of people, technology, data analytics to enhance the Bank's performance and profitability. The 10X execution engine will turbo charge the Bank's growth in 2024 and beyond and bring the Bank closer to realizing its vision of becoming the most customer-centric bank in the Philippines.

For Approval in the 2025 Annual Stockholders Meeting

- c. Stockholders with successful and validated registration may cast their votes until the voting on the agenda item is closed during the Meeting.

6. Voting

All agenda items indicated in the Notice of the Meeting will be set out in the digital absentee ballot and the registered Stockholder may vote as follows:

- a. For all items, except for Election of Directors, the registered Stockholder has the option to vote: For, Against or Abstain. The vote is considered cast for all the registered Stockholder's shares.
- b. For the Election of Directors, a Stockholder entitled to vote:
 - i. may vote such number of shares owned for as many persons as there are Directors to be elected; or
 - ii. may cumulate said shares and give one candidate as many votes as the number of Directors to be elected multiplied by the number of their shares; or
 - iii. may distribute them on the same principle among as many candidates as may be seen fit.
- c. The Company's stock transfer agent and Office of the Corporate Secretary will tabulate all votes received and will validate the results.
- d. Except for the Election of Directors, all the items in the Agenda for the approval by the stockholders will need the affirmative vote of stockholders representing at least a majority of the issued and outstanding voting stock present at the meeting. For the Election of Directors, the top fifteen (15) nominees with the most number of votes are elected.

7. Participation at the virtual meeting

- a. The Stockholder will be required to enter his/her username and password to access the Meeting on 7 May 2024 at 9:00 am at www.securitybank.com/asm.
- b. The Platform will allow participants to send questions during the Meeting. To ensure a productive and orderly Meeting, however, Stockholders are encouraged to send their questions relating to items in the agenda of the Meeting on or before 22 April 2024 by email to sbc-asm@securitybank.com.ph. Relevant questions will be answered by concerned officers during the Meeting.
- c. A link to the recorded webcast of the Meeting will be posted on SBC's website after the Meeting.

For any questions or inquiries, including request for assistance in the registration process, please contact our Office of the Corporate Secretary through sbc-asm@securitybank.com.ph.
