29/F, BDO Equitable Tower,
8751 Paseo de Roxas, Makati City

Attention: ATTY. SUZY CLAIRE R. SELLEZA
Head, Issuer Compliance and Disclosure Department

Subject: Clarification of News Article

Dear Atty. Selleza:

This is in reply to the correspondence by the Philippine Dealing and Exchange Corp. (the "Exchange") dated July 25, 2025, seeking confirmation with respect to accuracy of news relating to Converge Information and Communications Technology Solutions, Inc. ("CNVRG" or the "Company"). The Exchange cited a news article entitled "'Converge transitioning from telco to 'techco'" posted in *Inquirer* on July 25, 2025, which reported in part that:

"MANILA, Philippines – Converge ICT Solutions Inc. has refreshed its corporate identity to reflect what the company describes as its transition from a traditional telecommunications provider to a "forwardlooking" technology company or "techco."

During the company's mid-year town hall, the country's leading fiber broadband provider unveiled a new logo as management charted the course for future growth.

"This new corporate identity was created with the future in mind," says Converge president and cofounder Maria Grace Uy.

"We're at an inflection point in our journey – from simply connecting people through fiber broadband to delivering digital-first, value-added solutions. Our transformation into a full-fledged 'techco' is well underway, and this refreshed identity captures that momentum. It represents our charge to go from fiber to the future, a future where technology and humanity converge."

Aside from connectivity, Converge is investing in allied technology and infrastructure.

It is building a 1,200-rack data center in Pampanga and has two international submarine cables (Bifrost and SEA-H2X) to switch on this year. It is developing consumer solutions related to smart homes and

digital lifestyle, alongside customized solutions for enterprises and the public sector.

Xxx''

The Company confirms the abovementioned information, as similarly published on our corporate website¹. Converge has previously mentioned its plan of offering services beyond and on-top of its connectivity solutions² for both residential and enterprise customers. This plan will be supported by our investments in data centers and international subsea cables systems^{2,3}.

We hope these clarify the matter. Please do not hesitate to contact us for further queries.

Very truly yours,

**CONVERGE INFORMATION AND
COMMUNICATIONS TECHNOLOGY
SOLUTIONS, INC.**

Owen Kieffer Dy Ocampo
Investor Relations Officer

###

About Converge ICT Solutions, Inc.

Converge Information and Communications Technology Solutions, Inc. (PSE: CNVRG) is the fastest-growing broadband service and technology provider in the Philippines. It is the first to operate an end-to-end pure fiber internet network in the country, delivering simple, fast, and reliable connectivity to Filipinos across all major islands. In addition to connectivity services, Converge offers integrated data center, enterprise and network solutions. Converge is ISO 9001 and CE2.0 Certified.
