**SEC FORM 17-C**

**CURRENT REPORT UNDER SECTION 17  
OF THE SECURITIES REGULATION CODE  
AND SRC RULE 17.2(c) THEREUNDER**

- 1. Date of Report (Date of earliest event reported): **06 January 2026**
- 2. SEC Identification Number: **39274**
- 3. BIR Tax Identification No.: **000-506-020-000**
- 4. Exact name of issuer as specified in its charter: **ACEN CORPORATION**
- 5. Province, country or other jurisdiction of incorporation: **Makati City, Philippines**
- 6. Industry Classification Code: (SEC Use Only)
- 7. Address of principal office: **35th Floor, Ayala Triangle Gardens Tower 2,  
Paseo de Roxas corner Makati Avenue, Makati City** Postal Code: **1226**
- 8. Issuer's telephone number, including area code: **(632) 7730 6300**
- 9. Former name or former address, if changed since last report: **N/A**
- 10. Securities registered pursuant to Sections 8 and 12 of the SRC or Sections 4 and 8 of the RSA:

Title of Each Class	Number of Shares of Common Stock Outstanding
<b>Common Shares</b>	<b>39,951,435,064</b>
<b>Series A Preferred Shares</b>	<b>8,341,500</b>
<b>Series B Preferred Shares</b>	<b>16,658,500</b>

- 11. Indicate the item numbers reported herein: **Item 9: Other Events  
Please see attachment.**

**SIGNATURES**

Pursuant to the requirements of the Securities Regulation Code, the issuer has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

## **Schneider Electric taps ACEN RES to power Cavite facilities with 100% renewable energy**

**06 January 2026** — American Power Conversion (APC) by Schneider Electric, a global leader in uninterruptible power supplies and data center products, has switched its five manufacturing facilities in the Cavite Economic Zone to 100% renewable energy.

The company achieved the sustainability milestone through a renewable energy supply agreement with ACEN RES, the retail electricity unit of the Ayala group, under the Philippine government's Green Energy Option Program (GEOP).

The GEOP is a regulatory mechanism established by the Department of Energy that empowers electricity end-users with an average monthly consumption of at least 100 kilowatts to choose renewable energy as their power source. This initiative allows businesses to directly contract with renewable energy suppliers, bypassing their default distribution utility to meet their sustainability goals. ACEN RES is currently the leading green energy supplier, holding the highest share of the GEOP market at 57%.

The five facilities, primarily engaged in semiconductor manufacturing, have begun the transition to operating entirely on renewable energy in December 2025. The agreement covers the electricity supply for Schneider Electric's office and production sites, avoiding the equivalent of around 11,600 tons of carbon dioxide emissions (tCO<sub>2</sub>e) annually.

"This collaboration sets in motion our transition to 100% renewable energy at the Cavite Smart Factory — a bold stride in our journey toward Net Zero," said Antonio Cheng Jr., Plant Director for Cavite Cluster, Schneider Electric Philippines, Inc.

Cheng added that the Cavite Smart Factory is set to become the first facility within a government eco-zone in Luzon and the first Schneider Electric factory in East Asia to operate entirely on renewable energy. "It is a milestone that underscores our commitment to climate action and positions the Philippines as a regional leader in sustainable industrial transformation," he said.

"This partnership with Schneider Electric demonstrates how leading global manufacturers can actively advance the renewable energy transition in the Philippines," said Eric Francia, President and CEO of ACEN. "By shifting complex industrial operations to 100% renewable energy, Schneider Electric shows that decarbonization is practical, scalable, and achievable today."

Schneider Electric's action supports the Philippines' goals for industrial sustainability and highlights the company's commitment to climate action on a global scale. By adopting the badge, Schneider Electric communicates its dedication to environmental stewardship to its stakeholders.

In recognition of the move toward decarbonization, ACEN RES awarded Schneider Electric its “Powered by Renewable Energy” badge. The proprietary seal is the first of its kind in the Philippines, publicly recognizing businesses and institutions fully committed to a 100% renewable energy supply. To date, the “Powered by Renewable Energy” badge is installed in close to 100 RE-powered facilities in the Philippines.

###

### **About ACEN RES**

ACEN Renewable Energy Solutions (ACEN RES) is the retail electricity supply unit of ACEN.

ACEN (PSE:ACEN), the Ayala group’s listed energy platform, is one of the fastest-growing renewable energy platforms in Asia Pacific, with the Philippines as its core and largest market. It also has a significant presence in Australia, Vietnam, India, and Lao PDR, along with strategic investments in Indonesia and other markets. The company currently has ~7 GW of attributable renewable energy capacity spanning operational, under-construction, and committed projects.

As a developer, builder, and operator, ACEN leverages its agility and collaborative approach to accelerate the energy transition. The company has 100% renewable energy generation and aims to reach Net Zero greenhouse gas emissions by 2050—turning bold ambitions into real impact for businesses, communities, and indigenous groups.

### **About Schneider Electric**

Schneider Electric is a global energy technology leader, driving efficiency and sustainability by electrifying, automating, and digitalizing industries, businesses, and homes. Its technologies enable buildings, data centers, factories, infrastructure, and grids to operate as open, interconnected ecosystems, enhancing performance, resilience, and sustainability. The portfolio includes intelligent devices, software-defined architectures, AI-powered systems, digital services, and expert advisory. With 160,000 employees and 1 million partners in over 100 countries, Schneider Electric is consistently ranked among the world’s most sustainable companies.
