SEC FORM 17-C

**CURRENT REPORT UNDER SECTION 17
OF THE SECURITIES REGULATION CODE
AND SRC RULE 17.2(c) THEREUNDER**

- 1. Date of Report (Date of earliest event reported): **19 January 2026**
- 2. SEC Identification Number: **39274**
- 3. BIR Tax Identification No.: **000-506-020-000**
- 4. Exact name of issuer as specified in its charter: **ACEN CORPORATION**
- 5. Province, country or other jurisdiction of incorporation: **Makati City, Philippines**
- 6. Industry Classification Code: (SEC Use Only)
- 7. Address of principal office: **35th Floor, Ayala Triangle Gardens Tower 2,
Paseo de Roxas corner Makati Avenue, Makati City** Postal Code: **1226**
- 8. Issuer's telephone number, including area code: **(632) 7730 6300**
- 9. Former name or former address, if changed since last report: **N/A**
- 10. Securities registered pursuant to Sections 8 and 12 of the SRC or Sections 4 and 8 of the RSA:

Title of Each Class	Number of Shares of Common Stock Outstanding
Common Shares	39,951,435,064
Series A Preferred Shares	8,341,500
Series B Preferred Shares	16,658,500

- 11. Indicate the item numbers reported herein: **Item 9: Other Events
Please see attachment.**

SIGNATURES

Pursuant to the requirements of the Securities Regulation Code, the issuer has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

ACEN strengthens Northern Luzon presence with Pangasinan solar project

19 January 2026 – ACEN continues to expand its renewable energy footprint in Northern Luzon through San Manuel Solar, its first solar project in Pangasinan, reinforcing the company’s commitment to supporting the Philippines’ transition to a low-carbon future.

San Manuel Solar forms part of ACEN’s strategic expansion following the company’s acquisition of Sinocalan Solar Power Corp. in December 2022, which enabled the development of the 60-megawatt solar facility in San Manuel, Pangasinan. The project is a key pillar of ACEN’s growing portfolio in Northern Luzon, a region with strong potential to accelerate the shift to clean and sustainable energy.

With 108,752 solar panels installed, San Manuel Solar generates approximately 94 gigawatt-hours of renewable electricity annually—enough to meet the energy needs of around 55,000 households. This is equivalent to avoiding more than 58,000 metric tons of carbon dioxide emissions each year, contributing to national climate goals while strengthening energy security in Luzon.

The solar farm utilizes ground-mounted photovoltaic panels and is directly connected to the National Grid Corporation of the Philippines (NGCP) via a dedicated 1.8-kilometer transmission line linked to the 69-kilovolt San Manuel Substation, ensuring efficient and reliable delivery of renewable energy to the grid.

Beyond energy generation, ACEN remains committed to creating long-term value for host communities. Through its Brigada Eskwela and Brigada Pagbasa initiatives in collaboration with the Department of Education, the company has supported the refurbishment of local schools, provided essential learning supplies, and strengthened literacy programs in Pangasinan—reflecting ACEN’s dedication to empowering communities alongside advancing the clean energy transition.

San Manuel Solar is part of ACEN’s expanding renewables portfolio in the Philippines and underscores the company’s support for the government’s target of 35% renewable energy in the country’s power generation mix by 2030. As ACEN continues to scale its clean energy investments across Northern Luzon and beyond, the company remains focused on enabling a just, inclusive, and sustainable energy transition for the Philippines.

###

About ACEN

ACEN (PSE:ACEN), the Ayala group’s listed energy platform, is one of the fastest-growing renewable energy platforms in Asia Pacific, with the Philippines as its core and largest market. It also has a significant presence in Australia, Vietnam, India, and Lao PDR, along with strategic investments in Indonesia and other markets. The company currently has ~7 GW of attributable renewable energy capacity spanning operational, under-construction, and committed projects.

As a developer, builder, and operator, ACEN leverages its agility and collaborative approach to accelerate the energy transition. The company has 100% renewable energy generation and aims to achieve Net Zero greenhouse gas emissions by 2050—turning bold ambitions into real impact for businesses, communities, and indigenous groups.
