## Item 2. Identity and Background

The entity filing this report is International Finance Corporation ("IFC"), with its principal office at 2121 Pennsylvania Avenue, NW, Washington DC, USA 20433.

IFC is the largest global development institution focused on the private sector in emerging markets. Established in 1956, IFC is owned by 186 member countries. IFC is a member of the World Bank Group ("WBG") and is a legal entity separate and distinct from the other WBG institutions, with its own Articles of Agreement, share capital, financial structure, management, and staff. IFC is not liable for the obligations of the other institutions. IFC's mission—as one of the WBG entities—is to end extreme poverty and boost shared prosperity on a livable planet. IFC's primary focus is to direct capital to investments with significant potential for job creation. IFC aims to enhance private capital mobilization, scale equity financing, deepen local capital markets, and unlock access to finance for micro, small, and medium enterprises.

Further, IFC is an international organization established by Articles of Agreement among its member countries, including in the Republic of the Philippines, and as such, enjoys certain immunities, privileges and exemptions, including not being subject to national laws or domestic regulatory oversight and enforcement. Therefore, please note that IFC is only providing the information in this filing on a voluntary basis subject to the terms specified therein and that the provision of such information in this filing does not in any way constitute or imply a waiver, termination or modification by IFC of any privilege, immunity or exemption of IFC granted in the Articles of Agreement establishing IFC, international conventions, or applicable law.

## Item 3. Purpose of Transaction

From 14-16 April 2026, IFC sold 2,400,000 common shares of Maynilad.

## Item 4. Interest in Securities of the Issuer

IFC initially purchased 387,420,000 common shares in Maynilad as a cornerstone investor in initial public offering and has since sold 14,892,600 shares. Pursuant to the sale transactions, IFC is filing SEC Form 18-A to disclose the further decrease in shares to 370,127,400.

As a result of this sale, IFC's total shareholdings have decreased below the 5% reporting threshold – equivalent to 370,130,180 shares based on 7,402,603,600 shares outstanding per Maynilad's latest Public Ownership Report as of 31<sup>st</sup> March 2026. Therefore, this is IFC's final disclosure relating to stock sales unless our ownership crosses the reporting threshold again.
