I. Policy Statement

Philippine National Bank (“PNB,” the “Bank”) subscribes to the highest standards of corporate governance as we believe that good governance supports long-term value creation. PNB adheres to the values of integrity, ethics, and good governance in the conduct of its business and affairs in order to strengthen the safety and soundness of its operations, which in turn, increases public confidence and trust.

PNB is committed to a corporate governance framework guided by the principle that:

“Good governance needs to be embedded in the corporate culture as deeply as the desired corporate goals of achieving the revenue targets and expense management and in the process preserve the franchise value of the Bank.”

Our corporate governance framework is anchored on accountability, prudence, ethics, and responsible business practices cutting across all levels of the enterprise. This framework is designed to provide a solid foundation for the consistent conduct of our affairs and withstand the demands of strict and rigorous supervision, examination, disclosure, and best practices.

This Corporate Governance Manual and the policies contained herein document PNB’s obligations and expectations in institutionalizing the principles of good corporate governance in the entire PNB Group. These are reinforced regularly at all levels of the Bank.

Furthermore, this Manual provides guidance for employees on good corporate governance practices. Generally, these guidelines are principles-based and are not prescriptive. Hence, directors, advisors, officers and employees are expected to exercise judgment in evaluating whether heightened standards should be adopted, taking into consideration the nature and complexity of the particular area of responsibility.

The provisions of this Manual are aligned and consistent with the requirements of the following laws, rules, regulations and prevailing best practices:

- a. Relevant provisions of the Manual of Regulations for Banks (MORB), as amended, and other issuances of the BSP not yet incorporated in the MORB;
- b. SEC Memorandum Circular No. 19, Series of 2016: Code of Corporate Governance for Publicly Listed Companies;
- c. Republic Act No. 11232 otherwise known as the Revised Corporation Code of the Philippines, and its implementing rules and regulations;
- d. ASEAN Corporate Governance Scorecard; and
- e. PNB’s Amended By-laws, Articles of Incorporation, and other internal policies and procedures.

The provisions of this Manual apply to the Bank's directors, advisors, officers, and employees in the head office, domestic branches and subsidiaries, and, if applicable depending on the host country rules, overseas branches/offices and foreign subsidiaries as well.

The program should include a system for identifying and developing potential successors for the CEO and other critical positions.
- 6.3.5. Ensure that personnel's expertise and knowledge remain relevant. The Board of Directors shall provide its personnel with regular training opportunities as part of a professional development program to enhance their competencies and stay abreast of developments relevant to their areas of responsibility.
- 6.4. The Board of Directors shall be responsible for approving and overseeing implementation of the Bank's corporate governance framework. In this regard, the Board of Directors shall:
 - 6.4.1. Define appropriate governance structure and practices for its own work, and ensure that such practices are followed and periodically reviewed:
 - 6.4.1.1. The Board of Directors shall structure itself in a way, including in terms of size and frequency of meetings, so as to promote efficiency, critical discussion of issues, and thorough review of matters. The Board of Directors shall meet regularly to properly discharge its functions, and likewise have discussions on values, conduct, and behaviors.
 - 6.4.1.2. The Board of Directors shall create committees to increase efficiency and allow deeper focus in specific areas. The number and nature of board-level committees would depend on the size of the Bank and the Board of Directors, the Bank's complexity of

operations, as well as the Board of Directors' long-term strategies and risk tolerance.

- 6.4.1.3. The Board of Directors shall regularly review the structure, size and composition of the Board of Directors and board-level committees with the end in view of having a balanced membership. Towards this end, a system and procedure for evaluation of the structure, size and composition of the Board of Directors and board-level committees shall be adopted which shall include, but not limited to, benchmark and peer group analysis. The results of assessment shall form part of the ongoing improvement efforts of the Board of Directors.
- 6.4.1.4. The Board of Directors shall adopt policies aimed at ensuring that the members of the Board are able to commit to effectively discharge their responsibilities, which shall include policy on the number of directorship positions and/or other internal/external professional commitments that a director may have, commensurate with the responsibilities placed on the director, as well as the nature, scale and complexity of the Bank's operations.
- 6.4.1.5. All members of the Board shall have reasonable access to any information about the Bank at all times. The Board shall also ensure that adequate and appropriate information flows internally and to the public.
- 6.4.1.6. The Board of Directors shall assess at least annually its performance and effectiveness as a body, as well as its various committees, the CEO, the individual directors, and the Bank itself, which may be facilitated by the Corporate Governance Committee or external facilitators. This exercise shall cover the assessment of the ongoing suitability of each board member taking into account his/her or her performance in the Board of Directors and board-level committees.
- 6.4.1.7. The Board of Directors shall maintain appropriate records (e.g., meeting minutes or summaries of matters reviewed, recommendations made, decisions taken and dissenting opinions) of its deliberations and decisions. The Board of

Directors shall also ensure that independent views in meetings of the Board shall be given full consideration and all such meetings shall be duly minuted.

- 6.4.2. Develop a remuneration and other incentives policy for directors that shall be submitted for approval of the stockholders. The Board of Directors shall ensure that the policy is consistent with the long-term interest of the Bank, does not encourage excessive risk-taking, and is not in conflict with the director's fiduciary responsibilities.
- 6.4.3. Adopt a policy on retirement for directors and officers, as part of the succession plan, to promote dynamism and avoid perpetuation in power.
- 6.4.4. Conduct and maintain the affairs of the Bank within the scope of its authority as prescribed in its charter and in existing laws, rules and regulations. It shall ensure effective compliance with the latter, which include prudential reporting obligations. Serious weaknesses in adhering to these duties and responsibilities may be considered as unsafe or unsound banking.
- 6.4.5. Maintain, and periodically update, organizational rules, by-laws, or other similar documents setting out its organization, rights, responsibilities and key activities. The Board of Directors shall ensure that the Bank's organizational structure facilitates effective decision-making and good governance. This includes clear definition and delineation of the lines of responsibility and accountability.
- 6.4.6. Oversee the development, approve, and monitor implementation of corporate governance policies. The Board of Directors shall ensure that corporate governance policies are followed and periodically reviewed for ongoing improvement.
- 6.4.7. Approve an overarching policy on the handling of RPTs to ensure that there is effective compliance with existing laws, rules and regulations at all times, that these are conducted on an arm's length basis, and that no stakeholder is unduly disadvantaged. In this regard:
 - 6.4.7.1. The Board of Directors shall approve all material RPTs, those that cross the materiality threshold, and write-off of material exposures to related parties, and submit the same for confirmation by majority vote of the stockholders in the annual stockholders' meeting. Any renewal or material changes in the terms and conditions of RPTs shall also be approved by the Board of Directors. All final decisions of the Board of Directors

- on material RPTs, including important facts about the nature, terms, conditions, original and outstanding individual and aggregate balances, justification and other details that would allow stockholders to make informed judgment as to the reasonableness of the transaction, must be clearly disclosed during stockholders' meetings and duly reflected in the minutes of Board of Directors and stockholders' meetings.
- 6.4.7.2. The Board of Directors shall delegate to appropriate management committee the approval of RPTs that are below the materiality threshold, subject to confirmation by the Board of Directors. This shall, however, exclude DOSRI transactions, which are required to be approved by the Board. All decisions under the delegated authority must be properly recorded in the minutes of the committee meetings.
- 6.4.7.3. The Board of Directors shall establish an effective system to:
- 6.4.7.3.1. Determine, identify and monitor related parties and RPTs;
 - 6.4.7.3.2. Continuously review and evaluate existing relationships between and among businesses and counterparties; and
 - 6.4.7.3.3. Identify, measure, monitor and control risks arising from RPTs. The system should be able to define related parties' extent of relationship with the Bank; assess situations in which a non-related party (with whom the Bank has entered into a transaction) subsequently becomes a related party and vice versa; and generate information on the type and amount of exposures to a particular related party. The said system will facilitate submission of accurate reports to the regulators/supervisors. The system as well as the overarching policies shall be subject to periodic assessment by the internal audit and compliance functions and shall be updated regularly for their sound implementation. The overarching policy and the system shall be made available to the Banko Sentral and audit functions for review. Any changes in the policies and procedures shall be approved by the Board of Directors.

- 6.4.7.4. The Board of Directors shall maintain adequate capital against risks associated with exposures to related parties. In this regard, material risks arising from RPTs shall be considered in the capital planning process. The prescribed scenario/stress tests under the capital planning process shall also capture RPTs in order to determine whether the Bank is well-insulated from any going concern issue of related parties.
 - 6.4.7.5. The Board of Directors shall oversee the integrity, independence, and effectiveness of the policies and procedures for whistleblowing. The Board of Directors should ensure that senior management addresses legitimate issues on RPT that are raised. The Board should take responsibility for ensuring that staff who raise concerns are protected from detrimental treatment or reprisals.
- 6.4.8. Define an appropriate corporate governance framework for group structures, which shall facilitate effective oversight over entities in the group. The Board of Directors shall ensure consistent adoption of corporate governance policies and systems across the group. In this regard:
- 6.4.8.1. The Board of Directors shall define and approve appropriate governance policies, practices and structure that will enable effective oversight of the entire group, taking into account the nature and complexity of operations, size and the types of risks to which the Bank and its subsidiaries are exposed. The Board shall also establish means to ensure that such policies, practices and systems remain appropriate in light of the growth, increased complexity and geographical expansion of the group. Further, it shall ensure that the policies include the commitment from the entities in the group to meet all governance requirements.
 - 6.4.8.2. The Board of Directors shall define the risk appetite for the group, which shall be linked to the process of determining the adequacy of capital of the group.
 - 6.4.8.3. The Board of Directors shall ensure that adequate resources are available for all the entities in the group to

effectively implement and meet the governance policies, practices and systems.

- 6.4.8.4. The Board of Directors shall define and approve policies and clear strategies for the establishment of new structures.
 - 6.4.8.5. The Board of Directors shall understand the roles, the relationships or interactions of each entity in the group with one another and with the parent company. The Board shall understand the legal and operational implications of the group structure and how the various types of risk exposures affect the group's capital, risk profile and funding under normal and contingent circumstances. The Board shall ensure that the group's corporate governance framework includes appropriate processes and controls to identify and address potential intragroup conflicts of interest, such as those arising from intragroup transactions.
 - 6.4.8.6. The Board of Directors shall develop sound and effective systems for generation and sharing of information within the group, management of risks and effective supervision of the group.
 - 6.4.8.7. The Board of Directors shall require the risk management, compliance function and internal audit group to conduct a periodic formal review of the group structure, their controls and activities to assess consistency with the Board of Directors approved policies, practices and strategies and to require said groups to report the results of their assessment directly to the Board.
- 6.5. The Board of Directors shall be responsible for approving Bank's risk governance framework and overseeing management's implementation thereof. In this regard, the Board of Directors shall:
- 6.5.1. Define the Bank's risk appetite. In setting the risk appetite, the Board of Directors shall take into account the business environment, regulatory landscape, and the Bank's long-term interests and ability to manage risk.

- 6.5.2. Approve and oversee adherence to the RAS, risk policy, and risk limits.
- 6.5.3. Oversee the development of, approve, and oversee the implementation of policies and procedures relating to the management of risks throughout the Bank.
- 6.5.4. Define organizational responsibilities following the three lines of defense framework. The business line functions will represent the first line of defense, the risk management and compliance functions for the second line of defense, and the internal audit function for the third line of defense. In this regard:
 - 6.5.4.1. The Board of Directors shall ensure that the risk management, compliance and internal audit functions have proper stature in the organization, have adequate staff and resources, and carry out their responsibilities independently, objectively and effectively.
 - 6.5.4.2. The Board of Directors shall ensure that non-executive board members meet regularly, with the external auditor and heads of the internal audit, compliance and risk management functions other than in meetings of the audit and risk oversight committees, in the absence of senior management.

3. Specific Duties and Responsibilities of a Director³⁷

The position of a director is a position of trust. A director assumes certain responsibilities to different constituencies or stakeholders, i.e., the Bank itself, its stockholders, its depositors and other creditors, its management and employees, the regulators, deposit insurer and the public at large. These constituencies or stakeholders have the right to expect that the institution is being run in a prudent and sound manner. The members of the Board of Directors should exercise their “duty of care” and “duty of loyalty” to the institution.

- 3.1. To remain fit and proper for the position for the duration of his/her term. A director is expected to remain fit and proper for the position for the duration of his/her term. He/She should possess unquestionable credibility to make decisions objectively and resist undue influence. He/She shall treat board directorship as a profession and shall have a clear understanding of his/her duties and responsibilities as well as his/her role in promoting good governance. Hence, he/she shall maintain his/her professional integrity and continuously seek to enhance his/her skills, knowledge and understanding of the activities that the bank is engaged in or intends to pursue as well as the developments in the banking industry including regulatory changes through continuing education or training.
- 3.2. To conduct fair business transactions with the BSFI and to ensure that personal interest does not bias board decisions. Directors should, whenever possible, avoid situations that would give rise to a conflict of interest. If transactions with the institution cannot be avoided, it should be done in the regular course of business and upon terms not less favorable to the institution than those offered to others. The basic principle to be observed is that a director should not use his position to make profit or to acquire benefit or advantage for himself/herself and/or his/her related interests. He/She should avoid situations that would compromise his/her impartiality.
- 3.3. To act honestly and in good faith, with loyalty and in the best interest of the institution, its stockholders, regardless of the amount of their stockholdings, and other stakeholders such as its depositors, investors, borrowers, other clients and the general public. A director must always act in good faith, with the care which an ordinarily prudent man would exercise under similar circumstances. While a director should always strive to promote the interest of all stockholders, he/she should also give due regard to the rights and interests of other stakeholders.

³⁷ Section 132, MORB

- 3.4. To devote time and attention necessary to properly discharge their duties and responsibilities. Directors should devote sufficient time to familiarize themselves with the institution's business. They must be constantly aware of the institution's condition and be knowledgeable enough to contribute meaningfully to the board's work. They must attend and actively participate in board and committee meetings, request and review meeting materials, ask questions, and request explanations. If a person cannot give sufficient time and attention to the affairs of the institution, he/she should neither accept his/her nomination nor run for election as member of the board.
- 3.5. To act judiciously. Before deciding on any matter brought before the board of directors, every director should thoroughly evaluate the issues, ask questions and seek clarifications when necessary.
- 3.6. To contribute significantly to the decision-making process of the board. Directors should actively participate and exercise objective independent judgment on corporate affairs requiring the decision or approval of such board.
- 3.7. To exercise independent judgment. A director should view each problem/situation objectively. When a disagreement with others occurs, he/she should carefully evaluate the situation and state his/her position. He/She should not be afraid to take a position even though it might be unpopular. Corollary, he/she should support plans and ideas that he/she thinks will be beneficial to the institution.
- 3.8. To have a working knowledge of the statutory and regulatory requirements affecting the institution, including the content of its articles of incorporation and by-laws, the requirements of the Bangko Sentral and where applicable, the requirements of other regulatory agencies. A director should also keep himself informed of the industry developments and business trends in order to safeguard the institution's competitiveness.
- 3.9. To observe confidentiality. Directors must observe the confidentiality of non-public information acquired by reason of their position as directors. They may not disclose said information to any other person without the authority of the board.

The Corporate Secretary shall furnish first-time directors with a copy of the specific duties and responsibilities of the Board of Directors and as an individual director prescribed under Section 132 of the MORB, upon election. The Corporate Secretary must keep on file certification under oath of the directors concerned that they have received copies of such specific duties and responsibilities and that they fully understand and accept the same.

4. Term Limit³⁸

- 4.1. An independent director of the Bank shall be elected for a term of one (1) year, and shall serve for a maximum cumulative term of nine (9) years. After which, the independent director (ID) shall be perpetually barred from serving as independent director in the Bank but may continue to serve as regular director or officer without any cooling-off period.
- 4.2. The nine (9)-year maximum cumulative term for independent directors shall be reckoned from 2012.
- 4.3. In case of continuous or consecutive service of an ID as such, the nine-year maximum term limit shall fall on (i) the date of the Annual Stockholder's Meeting (ASM) per the by-laws of the company, or (ii) on any other ASM date priorly approved by the SEC.
- 4.4. In case of intermittent service of an ID as such, the cumulative tenure shall not exceed nine (9) years. VI. Compliance Function

The Global Compliance Group (GCG), the compliance function of PNB, is vested with the role of designing the Bank's Compliance Program and ensuring its effective implementation towards the timely identification and mitigation of risks that may erode the franchise value of PNB, such as risks of legal or regulatory sanctions, material financial loss, or loss to reputation as a result of its failure to comply with laws, rules, related self-regulatory organization standards, and codes of conduct applicable to PNB's operations. Compliance risk management, therefore, is an integral part of the culture and risk governance framework of PNB. In this respect, compliance shall be the responsibility and shared accountability of all employees, management and the Board of Directors¹⁰⁶.

Consistent with Section 161 of the MORB, GCG shall facilitate effective management of compliance risk by¹⁰⁷:

1. Advising the board of directors and senior management on relevant laws, rules and standards, including keeping them informed on developments in the area;

GCG officers, and in particular, the CCO and Head of GCG, should not be placed in a position where there is a possible conflict of interest between their compliance responsibilities and any other responsibilities they may have. Independence does not mean that the compliance function cannot work closely with management and staff in the various business units of PNB. Instead, a cooperative working relationship between GCG and the lines of business is vital to identify and manage compliance risks at an early stage.

The resources to be provided for GCG shall be both sufficient and appropriate to ensure that compliance risk within PNB is managed effectively. In particular, GCG officers shall have the necessary qualifications, experience and professional and personal qualities to enable them to carry out their specific duties.
