Independent limited assurance report

The Stockholders and Board of Directors
Alternergy Holdings Corporation
Level 3B, 111 Paseo de Roxas Bldg.
Paseo de Roxas corner Legazpi Street
Legaspi Village, Makati City

Scope

We have been engaged by Alternergy Holdings Corporation ("you," the "Company," or "Alternergy") to perform a limited assurance engagement, as defined by Philippine Standard on Assurance Engagements 3000 (Revised) [PSAE 3000 (Revised)], *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, hereafter referred to as the engagement, to report on Alternergy's Green Equity alignment (the "Subject Matter") contained in Alternergy Holdings Corporation and Subsidiaries' Green Equity Report for the year ended June 30, 2026 (the "Report").

Subject Matter

The Subject Matter covered by our limited assurance engagement is as follows:

Green Equity Criteria	**Description of the Criteria**	**Management's assessment**
Revenue	At a minimum, more than 50% of the company's revenue, as reported in its latest audited annual financial statements, must be derived from Green Activities.	100% of the Company's revenue from electricity sales is derived from renewable sources.
Investment	At a minimum, more than 50% of the investments (sum of capital expenditure and operating expenditure) of the company as reported in the latest audited annual financial statements must be channeled toward Green Activities.	The Company channels over 90% of its operating expenses and capital expenditures toward green activities, primarily in wind, solar, run-of-river hydro, and battery energy storage development.
Fossil Fuel Limitation	Revenues of the company derived from fossil fuels must be limited to less than 5% for the company to be eligible for the Philippine Green Equity Label.	In June 2022, the Company made a public commitment to exclusively pursue renewable energy development, formally excluding fossil fuel generation (e.g., coal, fuel oil, and natural gas) and nuclear power from its investment strategy. Hence, no revenue is derived from fossil fuel.

Taxonomy Alignment	The company's activities must meet the eligibility criteria of the Sustainable Finance Taxonomy Guidelines (SFTG).	The Company's core business is dedicated to renewable energy generation, with a clear environmental objective of contributing to climate change mitigation. Accordingly, its sustainability assessment is anchored on the SFTG of the Philippines.

Criteria applied by Alternergy

In preparing the Subject Matter, Alternergy applied the Green Equity Guidelines set out in SEC Memorandum Circular No. 13, Series of 2025 (the "Criteria").

Alternergy's responsibilities

Alternergy's management is responsible for selecting the Criteria and presenting the Subject Matter in accordance with the Criteria, in all material respects. This responsibility includes establishing and maintaining internal controls, maintaining adequate records, and making estimates relevant to the preparation of the Subject Matter so that it is free from material misstatement, whether due to fraud or error.

SGV's responsibilities

Our responsibility is to express a conclusion on the presentation of the Subject Matter based on the evidence we have obtained.

We conducted our engagement in accordance with *Philippine Standard on Assurance Engagements 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information* [PSAE 3000 (Revised)], and the terms of reference for this engagement as agreed with Alternergy. That standard requires that we plan and perform our engagement to express a conclusion on whether we are aware of any material modifications that need to be made to the Subject Matter for it to be in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusion.

Our independence and quality management

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the Professional Regulation Commission and have the required competencies and experience to conduct this assurance engagement.

SGV also applies Philippine Standard on Quality Management 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related*

Services Engagements, which requires us to design, implement, and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

Description of procedures performed

Procedures performed in a limited assurance engagement vary in nature and timing from, and are less extensive than, those performed in a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures related to checking the aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making inquiries, primarily of persons responsible for preparing the Subject Matter and related information, and applying analytical and other appropriate procedures.

Our procedures included:

1. Conducting interviews with management and relevant process owners to understand the business, entity-level controls, and the process for initiating, recording, processing, and reporting the Subject Matter during the reporting period.
2. Assessing the completeness and accuracy of the Subject Matter information.
3. Performing analytical procedures on the data, making inquiries of management, and obtaining documentation or reports on a sampling basis to test the assumptions, estimates, and computations made by management in relation to the Subject Matter in the Report.
4. Checking the mathematical accuracy of calculations performed.
5. Reviewing the contents of the Report to check compliance with the Criteria, including the following matters:
    a. Revenue derived from Green Activities (i.e., renewable energy generation) is more than 50% of the revenue of the Company, as reported in its latest audited annual financial statements.
    b. Investments (i.e., the sum of capital expenditure and operating expenditure) channeled toward Green Activities are more than 50% of the Company's total investments.
    c. Revenue derived from fossil fuels is less than 5% of the Company's revenue.
    d. The activities classified by the Company as Green Activities are aligned with the SFTG, considering the following assessments of whether each activity:
        - is an excluded activity
        - is compliant with relevant Philippine environmental laws and regulations
        - substantially contributes to either of the two existing environmental objectives, namely, Climate Change Mitigation and Climate Change Adaptation
        - fulfills the SFTG essential criteria, namely Do No Significant Harm, Remedial Measures to Transition, and Minimum Social Safeguards.

We also performed such other procedures as we considered necessary in the circumstances.

Shape the future
with confidence

Conclusion
Based on the procedures performed and the evidence obtained, we are not aware of any material modifications that should be made to the Subject Matter for the year ended June 30, 2026, for it to be, in all material respects, in accordance with the Criteria.

CERTIFICATION

I, GERRY P. MAGBANUA, of legal age, Filipino, and with office address at Level 3B 111 Paseo de Roxas Bldg. Paseo de Roxas Ave. cor. Legazpi St., Legaspi Village, Makati City, after having been duly sworn in accordance with law, hereby certify that:

1. I am the incumbent President of Alternergy Holdings Corporation (the "Company"), a corporation duly organized and existing under the laws of the Republic of the Philippines, with principal address at Level 3B 111 Paseo de Roxas Bldg. Paseo de Roxas Ave. cor. Legazpi St., Legaspi Village, Makati City;

2. This Certification is executed and submitted pursuant to the requirements of The Philippine Stock Exchange, Inc. (the "PSE") in connection with the Company's compliance with the Memorandum Circular No. 13, series of 2025, issued by the Securities and Exchange Commission (the "SEC Guidelines on Green Equity");

3. As President, and pursuant to the authority vested in me by the Company, I hereby certify that the attached Independent Limited Assurance Report dated October 15, 2026 (the "Report") has been duly reviewed and approved by the Company and is being submitted in accordance with the requirements of the PSE;

4. Based on the available records and information discussed with the Company's External Review Provider, which prepared the foregoing Report, and pursuant to the authority granted to me by the Company's Board of Directors, I hereby certify that the Report has been duly reviewed and approved by the Company and, to the best of my knowledge, are complete, accurate, and not misleading in any material respect, and comply with the Securities and Exchange Commission ("SEC") Guidelines on Green Equity;

5. I certify that no material information required under the SEC Guidelines on Green Equity has been withheld or omitted from the Company's submission to the PSE or, where applicable, from the information and documentation provided to the External Review Provider of the Company for purposes of its assessment and any subsequent review conducted in connection therewith;

6. I certify that the Company has conducted appropriate due diligence on the independence of the External Review Provider, and that, to the best of my knowledge, the External Review Provider has no relationship, arrangement, or interest that could reasonably be expected to impair its objectivity in the preparation of the Report; and

7. This Certification is being executed for the purpose of complying with the requirements of the PSE and for whatever lawful purpose it may serve.

IN WITNESS WHEREOF, I have hereunto affixed my signature on October 29, 2026 at Makati City, Philippines.

GERRY P. MAGBANUA
President
