MEDIA RELEASE
10 November 2026

Alternergy declares dividends as four new projects reach completion in 2026

Alternergy Holdings Corporation (PSE: ALTER), a Philippine pioneer in renewable power development, today announced that its board of directors has declared cash dividends for its common shareholders. This is the second common dividend declaration since its initial public offering in March 2023.

The board approved a cash dividend of one centavo (P0.01) per share, amounting to P40 million, payable to shareholders of record as of 20 November 2026. The dividends will be paid on 26 November 2026.

“Once again, we are pleased to declare dividends to our common shareholders, who represent a mix of retail, institutional and foreign investors,” said Gerry Magbanua, president of Alternergy Holdings Corporation. “While modest, this dividend declaration, reflects our continued financial discipline and focus on long-term sustainability. It also demonstrates our commitment to delivering value to our investors as our portfolio continues to grow and mature,” he added.

Alternergy previously paid dividends to preferred shareholders in 2024 and 2025.

The dividend declaration comes as Alternergy achieves major project milestones across its renewable energy portfolio.

Earlier this year, the company commenced operations of its 28 MWp Balsik Solar Power Farm in Hermosa, Bataan and its 4.6 MW Dupinga Run-of-River Power Plant in Gabaldon, Nueva Ecija. The completion of Dupinga also brings Alternergy’s Triple Play strategy into operation, establishing a diversified renewable energy portfolio spanning wind, solar and run-of-river hydro technologies.

Meanwhile, both the 128 MW Tanay Wind Farm and the 64 MW Alabat Wind Farm have recently been energized and are already generating and earning pre-commissioning revenues, with at least eight wind turbines currently supplying power to the Luzon grid.

“With the upcoming completion of the Tanay and Alabat Wind Farms in the coming months, we expect more robust financials that will yield more value to our shareholders from our Triple Play portfolio,” Mr. Magbanua also said.

pioneer in renewable power

About Alternergy

• Alternergy is a renewable power pioneer with a portfolio of projects across multiple technologies, including wind, run-of-river hydro, utility-scale and commercial rooftop solar, and battery energy storage.

• Alternergy is led by a seasoned management team of renewable energy pioneers headed by former Energy Secretary Vince Pérez and President Gerry Magbanua.

• Alternergy ("ALTER") debuted on the Philippine Stock Exchange in March 2023. In August 2024, ALTER was included in the PSE Industrial Index. In December 2024, the company declared its first dividend payments to preferred shareholders, including the Government Service Insurance System (GSIS).

• Alternergy has four projects commencing commercial operations by 2026: the 4.6 MW Dupinga run-of-river hydro Plant, the 28 MW Balsik Solana Solar Plant, the 64 MW Alabat Wind and 128 MW Tanay Wind projects.

•In September 2026, Alternergy had its maiden public debt issue of P2 Billion Enrolled Green Corporate Notes.

• Alternergy has received Certificates of Award from the DOE for its five projects with a combined capacity of up to 500 MW under the Green Energy Auction Program 4 (GEAP 4).

• With a robust project pipeline, Alternergy is on track to achieve its One Green Gigawatt target by 2030.
