1. Corporate Information

Rockwell Land Corporation (Rockwell Land or the Parent Company) is incorporated in the Philippines and is engaged in real estate development and sale or lease of condominium and commercial units and lots.

Rockwell Land became a public company in 2012 following the declaration of 51% ownership by Manila Electric Company (Meralco) as property dividend in favor of common stockholders, except for foreign common shareholders who were paid the cash equivalent of the property dividend.

As at September 30, 2026 and December 31, 2025, First Philippine Holdings Corporation (FPHC) owns 86.58% of Rockwell Land and the rest by the public. Lopez, Inc. is the ultimate parent company.

The Parent Company's principal office address is 2F, 8 Rockwell, Hidalgo Drive, Rockwell Center, Makati City.

2. Basis of Preparation

Basis of Preparation

The accompanying consolidated financial statements of Rockwell Land and its subsidiaries (collectively referred to as the "Group") have been prepared on a historical cost basis, except for investment in equity instruments at fair value through other comprehensive income (FVOCI) which have been measured at fair value. The consolidated financial statements are presented in Philippine Peso, which is the Parent Company's functional and presentation currency and all values are rounded to the nearest thousands, except when otherwise indicated.

Statement of Compliance

The consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

PFRS also includes Philippine Accounting Standards (PAS), including Philippine Interpretations based on equivalent interpretations of IFRIC issued by the Financial Reporting Standards Council (FRSC).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at September 30, 2026. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company using consistent accounting policies.

The consolidated financial statements comprise of the financial statements of Rockwell Land and the following subsidiaries that it controls.

Short-term Loans

The "Term loan" under the current portion includes the company's short-term borrowing activities. The Parent Company obtained short-term loans at 5.00% interest with a three-month term. As of September 30, 2026, it secured Php2,500 million in short-term financing and repaid Php3,500 million.

JV Partner Loan

On June 5, 2018, Rockwell MFA entered into a shareholder loan agreement with the Parent Company and Mitsui, through SEAI Metro Manila One, Inc., for the purpose of funding "The Arton by Rockwell" project.

On August 14, 2025, Rockwell Nepo Development Corporation entered into a shareholder loan agreement with the Parent Company and T.G.N. Realty Corporation, for the purpose of funding "Rockwell at Nepo Center" project

For 2026, RNDC obtained loans amounting to Php1,001.0 million and Php539.0 million from the company and T.G.N. Realty Corporation, respectively. The loan from the Company was eliminated in consolidation, while the loan from TGN was presented as an availment in the consolidated financial statements.

The outstanding balance of the JV Partner loans from SEAI Metro Manila One, Inc., and T.G.N. Realty Corporation, amounted to Php207.0 million and Php770.7 million as of September 30, 2026, respectively.

Bonds Payable

On March 18, 2026, the Parent Company successfully raised Php10.0 billion through the issuance of (i) 3-year bonds due 2029 with an interest rate of 5.5666% per annum, and (ii) 5-year bonds due 2031 with an interest rate of 5.8595% per annum. This issuance is the first tranche out of the Parent Company's P20.0 billion bonds under the shelf-registered program of the SEC. The bonds have been duly listed on the Philippine Dealing & Exchange Corp.

Gross, net proceeds and balance of the bonds as of September 30, 2026 are as follows;

Others	**8**	33
	₱11,786	₱9,132

Retention payable is the portion of the amount billed by contractors that is being withheld as security in case the Parent Company incurs costs during the defects and liability period, which is one year after a project's completion. This is subsequently released to the contractors after the said period.

The Group uses discounted cash flow analysis to measure the fair value of retention payable. The resulting difference between the transaction price and fair value at initial recognition is recognized in the consolidated statements of financial position as a reduction from "Real estate inventories". The retention payable is carried at amortized cost using effective interest method. The amortization of discount on retention payable is expensed as part of the "Interest expense" account in the consolidated statements of comprehensive income.

Deferred lease income pertains to two months advance rent included in the initial billing to mall tenants, which shall be applied to the monthly rental at the end of the lease term.

Deposits from pre-selling of condominium units represent cash received from buyers of certain projects with pending recognition of revenue. The current portion of these deposits are expected to be applied against receivable from sale of condominium units the following year.

Security deposits mainly consist of the four months deposits paid by mall tenants at the beginning of the lease term, to be refunded at the end of the contract.

Condominium and utility deposits primarily pertains to customer's security upon purchase of a unit and upfront payments for services such as water and electricity.

	₱45,230	₱36,300	₱ –	₱ –	₱36,300

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Cash and Cash Equivalents, Trade Receivables from Sale of Real Estate, Trade Receivables from Lease, Other Receivables, Restricted Cash, Refundable Deposits and Trade and Other Payables. Due to the short-term nature of transactions, the carrying values of these instruments approximate the fair values as at financial reporting period.

Investments in Equity Securities. The fair values of quoted equity securities were determined by reference to published two-way quotes of brokers as at financial reporting date. Unquoted equity securities for which no other reliable basis for fair value measurement is available were valued at cost as the difference between the carrying value and fair value of these unquoted equity securities is not material to the consolidated financial statements.

Due from Related Parties. The fair value was calculated by discounting the expected future cash flows at prevailing credit adjusted BVAL interest rate of 5.18% and 7.50% as at September 30, 2026 and 4.69% to 6.41% as at December 31, 2025, respectively.

Interest-bearing Loans and Borrowings. The fair values of fixed rate loans were calculated by discounting the expected future cash flows at prevailing credit adjusted BVAL interest rates ranging 5.18% and 7.50% as at September 30, 2026 and 4.69% to 6.41% as at December 31, 2025.

Retention Payable and Security Deposits. The fair values were calculated by discounting the expected future cash flows at prevailing credit adjusted BVAL interest rates ranging 5.18% and 7.50% as at September 30, 2026 and 4.69% to 6.41% as at December 31, 2025.

There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

14. Segment Information

PFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker.

For management purposes, the Group's operating segments is determined to be business segments as the risks and rates of return are affected predominantly by differences in the products and services produced. The operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The Group manages its operations under the following business segments:

- *Residential Development* is engaged in the development, selling, and property management of all residential projects of the Group. It also includes the operations of the Rockwell Club.

- *Commercial Development* is engaged in the sale, leasing and other related operations in the course of the management of commercial buildings or spaces used for retail and office leasing, including cinema, hotel and resort operations.

The Group does not have any customers which constitutes 10% or more of the Group's revenue.

Management monitors the operating results of each business unit separately for the purpose of making decisions about resource allocation and performance assessment. Performance is evaluated based on net income for the year and earnings before interest, taxes and depreciation and amortization, or *EBITDA*. Net income for the year is measured consistent with consolidated net income in the consolidated financial statements. *EBITDA* is measured as net income excluding depreciation and amortization, interest expense, provision for income tax, and other adjustments related to the excess of fair value of net assets acquired over consideration paid, gain on remeasurement of investment in an associate and net gain on cash flow hedge reclassified to profit or loss. *EBITDA* is a non-GAAP measure.

The Group centrally manages cash and its financing requirements, income taxes and resource allocation. Resource allocation is measured against profitability among potential investments and made in view of the Group's existing business portfolio.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

RESULTS OF OPERATIONS:

For the nine months ended 30 September 2026 and 2025

Rockwell Land Corporation ("the Group") registered Php19,317 million in consolidated revenues, higher by 29% from last year's Php14,996 million. Residential development accounted for 74% of the total revenues in 2026, lower than last year's 78%.

Total EBITDA reached Php8,492 million, higher than last year's Php6,557 million driven by higher EBITDA from both residential and commercial development. Overall EBITDA margin aligned with prior-year levels at 44% of total revenues. The total revenues used as basis for the EBITDA margin excludes gross revenues from the joint venture with Meralco and International Pharmaceuticals, Inc. as these are reported separately under "Share in Net Losses (Income) in JV". Share in net income in the joint venture contributes 4% to the Company's total EBITDA.

Residential development and commercial development contributed 61% and 39% to the total EBITDA, respectively.

Consolidated net income after tax registered at Php4,201 million, higher than last year's Php3,493 million. NIAT to Parent for the nine months is Php3,788 million, 22% higher from same period last year of Php3,117 million.

Business Segments

Residential Development generated Php14,261 million, contributing 74% of the total revenues for the period. Bulk of the revenues came from the sale of real estate, including accretion from interest income.

EBITDA from this segment amounted to Php5,150 million, 21% higher than the same period last year at Php4,245 million mainly attributable to increase in revenues.

Commercial Development revenues amounted to Php5,056 million, 56% higher than 2025's Php3,242 million, mainly driven by the consolidation of ACC. This segment contributed 26% to total revenues excluding the share in the joint venture with Meralco for the Rockwell Business Center in Ortigas, Pasig City.

Retail Operations which include retail leasing, interest income and other mall revenues generated revenues of Php3,641 million, 74% higher than last year's Php2,098 million due to the contribution from ACC and improved average rental and occupancy rate. Office Operations generated Php1,229 million which is equivalent to 6% of the total revenues. Office operations include office leasing and other office revenues.

Hotel Operations, contributed 1% of the total revenues. Its revenues amounted to Php186 million and costs and expenses at Php142 million. Resulting EBITDA is at Php43 million.

The segment's EBITDA amounted to Php3,342 million, 45% higher from the same period last year. This includes the share in net income in the joint venture amounting to Php295 million, contributing 9% to the segment's EBITDA.

Costs and Expenses

Cost of real estate and selling amounted to Php9,474 million. The cost of real estate and selling to total revenue ratio is at 49% slightly lower than last year's 51% due to higher revenue from residential development and ACC.

General and administrative expenses (G&A) amounted to Php2,301 million, 24% higher than last year mainly due to higher manpower related costs and occupancy expenses from consolidation of ACC. The G&A ratio stood at 12% of total revenue.

Interest Expense amounted to Php2,381 million, higher by 75% than last year's Php1,361 million. The increase was mainly due to higher loan balance.

Share in Net Income (Losses) in JV and associates realized share in net income amounted to Php311 million, lower by 21% from Php393 million last year, primarily driven by higher costs from Rockwell IPI. Based on the Parent's 70% equity interest in RBC, the Company generated Php464 million in total revenues and a share in net income of Php295 million. The share in net income is reported net of taxes and represents the Company's proportionate share of results generated by RBC.

Project and capital expenditures

The Group spent a total of Php9.5 billion (gross of VAT) for project and capital expenditures for the nine months of 2026. Bulk of the expenditures pertained to land acquisitions and development costs, mainly that of Cabo, Powerplant Mall Angeles, BenCab, Mactan Resi and Edades Wes. These were funded mainly by internally generated funds and proceeds from bonds.

Financial Condition

The Group's total assets as of September 30, 2026 amounted to Php143.0 billion, 11% higher than 2025's year-end amount of Php129.2 billion. The growth in total assets was primarily driven by higher cash and cash equivalents, contract assets and other current assets. On the other hand, total liabilities amounted to Php99.1 billion, higher than 2025's year-end amount of Php81.5 billion. The increase is mainly due to issuance of bonds amounting to Php10 billion in March 2026.

As of September 30, 2026, the current ratio improved to 2.04x from 1.81x at year-end 2025. The net debt-to-equity ratio rose to 0.96x from 0.77x.
