Alternergy Holdings Corporation ("ALTER"), a Philippine pioneer in renewable power development, reported an 88% increase in consolidated revenues to P154.4 million for the first quarter of fiscal year 2027, driven by contributions from its newly operational Balsik Solar Power Farm and the continued strong performance of its existing renewable energy assets. The 28 MWp Balsik Solar Farm in Hermosa, Bataan, which began commercial operations in January this year, contributed P51 million, accounting for 33% of the total operating revenues during the quarter. Total consolidated equity grew 34% to P6.7 billion, primarily driven by the P1.7 billion investment of ABC Energy in the company's two wind projects. ALTER also maintained a healthy cash position of P3.8 billion despite ongoing capital expenditures and dividend payments, while total assets increased 10% to P27 billion from P24.6 billion.

MEDIA RELEASE
13 November 2026

Balsik Solar Farm revenues boost Alternergy's Q1 FY2027 performance

- 28 MWp Balsik Solar Farm contributes 33% of total revenues in first full quarter of operations
- Existing solar and wind operating assets continue to deliver stable performance
- Total consolidated equity rises 34% to 6.7 billion
- EBITDA surges 61% to P144 million

Alternergy Holdings Corporation (PSE: ALTER), a Philippine pioneer in renewable power development, reported an 88% increase in consolidated revenues to P154.4 million for the first quarter of fiscal year 2027, driven by contributions from its newly operational Balsik Solar Power Farm and the continued strong performance of its existing renewable energy assets.

The 28 MWp Balsik Solar Farm in Hermosa, Bataan, which began commercial operations in January this year, contributed P51 million, accounting for 33% of the total operating revenues during the quarter.

"These results mark the beginning of a growing revenue stream as we progressively bring into operation the four projects we set out to complete in 2026 across our Triple Play portfolio of wind, solar and hydro resource technologies," said Gerry Magbanua, president of Alternergy Holdings Corporation.

The four projects have a total combined capacity of 225 MW, significantly expanding Alternergy's operating renewable energy portfolio.

"With the 128 MW Tanay Wind Farm and 64 MW Alabat Wind Farm now more than 90% complete, we expect stronger operating revenues and overall improved financial performance in the months ahead, laying the foundation for sustainable returns for our shareholders," he added.

Alternergy's other operating assets – the 12.5 MWp Kirahon Solar Power Farm and the 15.3 MWp Palau Solar Battery Farm, each contributed 33% of total operating revenues for the quarter. Meanwhile, the 54 MW Pililla Wind Farm posted improved revenue performance, supported by higher Feed-In-Tariff (FIT) revenues.

Total consolidated equity grew 34% to P6.7 billion, primarily driven by the P1.7 billion investment of ABC Energy in the company's two wind projects.

Alternergy also maintained a healthy cash position of P3.8 billion despite ongoing capital expenditures and dividend payments, while total assets increased 10% to P27 billion from P24.6 billion.

Earnings before interest, taxes, depreciation and amortization (EBITDA) rose significantly by 61% to P144 million from P89 million, supported by the stronger energy generation performance reflected in the increase in operating revenues, continued cost-efficiency across operations and increase in gross profit.

Net income increased 27% to P28 million from P22 million in the same period last year.

As Alternergy prepares to bring the Tanay and Alabat wind farms into commercial operations, the company expects its growing portfolio of operating assets to further strengthen revenues, cash flows, and long-term shareholder value.

64 MW Tanay Wind Farm in Tanay, Rizal

About Alternergy

- Alternergy is a renewable power pioneer with projects across multiple technologies, including wind, run-of-river hydro, utility-scale and commercial rooftop solar, and battery energy storage systems.
- Alternergy is led by a seasoned management team of renewable energy pioneers headed by former Energy Secretary Vince Pérez and president Gerry Magbanua.
- Alternergy ("ALTER") debuted on the Philippine Stock Exchange in March 2023. In August 2024, ALTER was included in the PSE Industrial Index. In December 2024, the company declared its first dividend payments to preferred shareholders, including the Government Service Insurance System (GSIS).
- Alternergy has four projects commencing commercial operations by 2026: the 4.6 MW Dupinga Run-of-River Hydro Power Plant and the 28 MW Balsik Solana Solar Project, while the 64 MW Alabat Wind Project and the 128 MW Tanay Wind project are slated to begin commercial operations later this year.
- In September 2026, Alternergy had its maiden public debt issue of P2 billion Enrolled Green Corporate Notes.
- Alternergy has received Certificates of Award from the DOE for its five projects with a combined capacity of up to 500 MW under the fourth Green Energy Auction (GEA 4).
- With a robust project pipeline, Alternergy is on track to achieve its One Green Gigawatt target by 2030.
