SECURITIES AND EXCHANGE COMMISSION

SEC FORM 17-Q

QUARTERLY REPORT PURSUANT TO SECTION 17 OF THE SECURITIES REGULATION CODE AND SRC RULE 17(2)(b) THEREUNDER

1. For the quarterly period ended **September 30, 2026**

2. Commission identification number: **66381**

3. BIR Tax Identification No. **000-169-125-000**

4. Exact name of issuer as specified in its charter: **ENERGY DEVELOPMENT CORPORATION**

5. **PHILIPPINES**
Province, country or other jurisdiction of incorporation or organization

6. [ ] (SEC Use Only)
Industry Classification Code

7. **Rockwell Business Center Tower 3, Ortigas Avenue, Pasig City** — **1604**
Address of issuer's principal office — Postal Code

8. **(02) 7755-2332**
Issuer's telephone number, including area code:

9. Former name, former address and former fiscal year, if changed since last report:

10. Securities registered pursuant to Sections 8 and 12 of the Code, or Sections 4 and 8 of the RSA

Title of each Class	Number of shares outstanding as of September 30, 2026
Common Stock, P1,000,000.00 par value	17,027.832732
Preferred Stock, P10,000.00 par value	9,375
Non-Voting Preferred Stock, P10.00 par value	42,000,000

11. Are any or all of the securities listed on a Stock Exchange?
Yes [ ] No [√]
If yes, state the name of such Stock Exchange and the class/es of securities listed therein:

12. Indicate by check mark whether the registrant:
(a) has filed all reports required to be filed by Section 17 of the Securities Regulation Code ("SRC") and SRC Rule 17 thereunder or Sections 11 of the Revised Securities Act ("RSA") and RSA Rule 11(a)-1 thereunder, and Sections 23 and 177 of the Revised Corporation Code of the Philippines, during the preceding twelve (12) months (or for such shorter period the registrant was required to file such reports)

Yes [√] No [ ]

(b) has been subject to such filing requirements for the past ninety (90) days.

PART I - FINANCIAL INFORMATION

Item 1. Financial Statements

Our unaudited consolidated financial statements for the nine-month period ended September 30, 2026 have been prepared in accordance with Philippine Accounting Standards 34, Interim Financial Reporting, and are filed as Annex I of this report.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A")

The following is a discussion and analysis of the Group's consolidated financial performance for the nine-month period ended September 30, 2026. The prime objective of this MD&A is to help the readers understand the dynamics of the Group's business and the key factors underlying our financial results. Hence, our MD&A includes a discussion of our core business and an analysis of the results of operations. This section also focuses on key statistics from the unaudited financial statements and pertains to risks and uncertainties relating to the geothermal and other renewable power industry in the Philippines where we operate up to the stated reporting period. However, our MD&A should not be considered all inclusive, as it excludes unknown risks, uncertainties and changes that may occur in the general economic, political, and environmental condition after the stated reporting date.

Our MD&A should be read in conjunction with our unaudited consolidated financial statements and the accompanying notes. All financial information is reported in Philippine Pesos (Php) unless otherwise stated.

Any references in this MD&A to "we", "us", "our", or "Group" pertains to the Energy Development Corporation and its subsidiaries. "EDC" pertains to the Parent Company, Energy Development Corporation.

Additional information about the Group can be found on our corporate website www.energy.com.ph.

Business Overview

Principal products or services

The Group has evolved into being the country's premier pure renewable energy player, having interests in geothermal, hydro, wind, and solar power.

For geothermal energy, its standing relationships and/or expertise span the entire geothermal value chain, i.e., from geothermal energy exploration and development, reservoir engineering and management, engineering design and construction to environmental management and energy research and development. The Group, through EDC, Green Core Geothermal Inc. ("GCGI") and Bac-Man Geothermal Inc. ("BGI"), commercially operates in the four (4) geothermal service contract areas, where it is principally involved in the generation and sale of electricity through company-owned geothermal power plants to electric cooperatives, privately-owned distribution utilities, and large and mid-sized industrial clients thru Retail Competition and Open Access ("RCOA") and the Green Energy Option Program ("GEOP"), and sales to the Wholesale Electricity Spot Market ("WESM"). GCGI and BGI each holds a Retail Electricity Supplier ("RES") license and a GEOP operating permit, through which it contracts with contestable customers and end-users.

In addition, EDC and GCGI are active participants in the Reserve Market, providing ancillary services to support grid reliability and system stability. The Sogongon units of GCGI's Palinpinon II were the first to commence the Group's participation in the Reserve Market on September 16, 2025, followed by other units of Palinpinon. To date, the Group provides approximately 107 MW of total reserve capacity, including the Battery Energy Storage Systems ("BESS") under EDC.

The Group's wind energy expertise covers project research and development and wind data assessment. EDC Burgos Wind Power Corporation's ("EBWPC") Burgos Wind Power project has a concession area in Burgos, Ilocos Norte and is under the Feed-in-Tariff ("FIT") arrangement.

With FG Hydro, the Group has not only acquired expertise in hydropower operation and maintenance but also improved its capability to sell power on a merchant basis. Through its 60% equity interest in FG Hydro, EDC indirectly operates the 132 MW Pantabangan-Masiway hydroelectric plants ("PAHEP/MAHEP") located in Nueva Ecija.

EDC also operates the Burgos Solar Project (Phases 1 and 2), which is inside the same concession area as EBWPC wind farm and is also under the FIT arrangement. The Group, through EDC Siklab Power Corporation ("EDC Siklab"), also has solar rooftop projects in Gaisano La Paz, Kalibo, Oton, Passi, Balasan, Sogod, Ormoc and Sorsogon.

Distribution methods of products or services

1,516.0 GWh of electricity sold by Unified Leyte was delivered mainly to the WESM, electric cooperatives, distribution utilities, industrial customers, and retail energy suppliers.

465.7 GWh of electricity sold by the Mindanao geothermal power plants was delivered mainly to the WESM and other industrial customers.

232.0 GWh of electricity sold by the Nasulo geothermal power plant was delivered mainly to the distribution utilities, WESM and other industrial customers.

301.6 GWh of electricity sold by EDC's BESS in Bac-Man, Southern Negros, and Tongonan was delivered to the Ancillary Services Reserve Market ("ASRM"), while 12.7 GWh was delivered to the WESM.

1,906.2 GWh sold by the geothermal power plants in Tongonan and Palinpinon was delivered to electric cooperatives, distribution utilities, industrial customers and to the WESM in the Visayas region. Tongonan also delivered electricity to contestable customers through its RES and GEOP contracts. Palinpinon also sold 56.6 GWh to the ASRM.

1,907.1 GWh of electricity sold by the Bac-Man geothermal power plants was delivered mainly to contestable customers through RES and GEOP contracts, to the WESM and electric cooperatives in the Luzon region.

178.2 GWh and 6.6 GWh of electricity sold by the Burgos Wind power plants, and Burgos Solar power plants, respectively, were delivered mainly to WESM and National Transmission Corporation ("TransCo.").

186.5 GWh of electricity sold by FG Hydro's PAHEP/MAHEP was mainly delivered to the WESM and through power supply agreements with distribution utilities. 80.1 GWh was also sold to the ASRM.

3.8 GWh of electricity sold by EDC Siklab pertained to solar rooftop projects.

The electricity generated by the Group's power plants is transmitted to its customers through the high voltage backbone system of the National Grid Corporation of the Philippines.

Competition

The government, in implementing the thrust of the Electric Power Industry Reform Act ("EPIRA"), has paved the way for a more independent and market-driven Philippine power industry. Various policies and programs allow for the sale of electricity to different markets and buyer groups and encourage investment from RE developers and generators through policy mechanisms.

Essentially, selling power and consequently the dispatch of power plants depend on the ability to offer competitively priced power supply to the market. However, unique to the renewable energy resources is the granting of its preferential dispatch in the market. Wind, solar, run-of-river hydro or ocean energy, are considered "Must Dispatch" units while geothermal, biomass and impounding hydro were granted "Priority Dispatch", which guarantees its dispatch to the grid at prevailing merchant WESM prices.

The Group has multiple power projects in Luzon, Visayas, and Mindanao. While the Luzon and Visayas grids have been in operation since 2006 and 2010, respectively, the WESM in Mindanao commenced operations last January 26, 2023. In addition, the Mindanao Visayas Interconnection Line, which connects the island to the rest of the Luzon and Visayas grids, was energized last April 30, 2023. These

enabled the unified market across the three islands and allowed the transfer of energy surplus to the region experiencing deficit.

In addition, the Reserve Market, which aims to co-optimize the dispatch schedule and prices for both the energy and reserve requirements of the grid, was launched on January 26, 2024. On March 26, 2024, the Energy Regulatory Commission ("ERC") ordered the temporary suspension of the billing and settlement of the Reserve Market for the March billing period. On March 27, 2024, DOE directed the reversion of the Reserve Market to Trial Operations. On July 26, 2024, the ERC resolved to lift the suspension of the billing and settlement and on August 5, 2024, DOE directed the Market Operator to resume commercial operations of the Reserve Market.

Aside from selling through the market, the RCOA, which started commercial operations on June 26, 2013, is another mechanism which allows competition in the retail level wherein qualified end-users, called Contestable Customers, may directly contract with RES for the supply of electricity instead of coursing the same through the franchised distribution utility.

Moreover, Republic Act No. 9513, otherwise known as the Renewable Energy Act of 2008 (the "RE Act"), provides for policy mechanisms, such as the Renewable Portfolio Standards ("RPS") and the GEOP, to further promote the development and utilization of renewable energy resources. Under the RPS, mandated participants such as but not limited to electric cooperatives, distribution utilities and RES are required to source a portion of their energy requirement from RPS-eligible plants. In line with this, a Renewable Energy Market ("REM") was established where Renewable Energy Certificates corresponding to energy generated from eligible RE facilities can be traded, which shall be used by Mandated Participants to comply with their RPS obligations. On December 26, 2024, DOE declared the full commercial operations of the REM.

In addition, GEOP gives end-users the opportunity to source their power supply purely from renewable energy suppliers. On August 16, 2021, the ERC issued Resolution No. 08, Series of 2021 adopting the Rules for the GEOP, which took effect on September 3, 2021. Following the issuance of GEOP rules, the Independent Electricity Market Operator of the Philippines ("IEMOP") launched the GEOP on December 3, 2021.

Another program under the EPIRA framework, the ERC launched the Retail Aggregation Program ("RAP") in 2022 (ERC Resolution No. 04, Series of 2022) which allows end-users within the same franchise area to pool their demand to meet the 500 kW threshold. This enables smaller consumers to collectively choose their own electricity providers and transition to clean energy sources. Effective June 26, 2026, ERC Resolution No. 22, Series of 2025 lowered the eligibility threshold for both RCOA and RAP from 500 kW to 100 kW average monthly peak demand. This expansion significantly broadens the contestable market, enabling medium-sized enterprises (100–499 kW) to directly select their retail electricity supplier.

DOE also issued Department Circular No. DC 2021-11-0036 providing the Revised Guidelines for the Green Energy Auction Program ("GEAP") in the Philippines. The GEAP succeeds the FIT award mechanism; however, the twenty (20)-year tariffs will be determined through a competitive selection process. DOE further clarified under DC 2023-09-0027 published in September 2023 that the Green Energy Tariff ("GET") from the Green Energy Auction of the winning bidder is considered as the FIT.

The GEAP was designed to continuously trigger the increase of RE capacity in the country, which will help realize the government's target of 35% RE in the energy mix by 2030 and 50% by 2040. For its first round of auction in 2022 or Green Energy Auction-1, DOE set an installation target of 2,000 MW of RE capacity for 2023-2025 and awarded nineteen (19) winning bidders. This was able to generate 1,967 MW of committed renewable energy capacity or 98% of installation target to be delivered between 2023 to 2025. The first round offered capacities utilizing hydro, biomass, solar and wind generation technologies, with the bulk (1,490 MW) of awarded capacities coming from solar projects.

In 2023, for Green Energy Auction-2, DOE set an installation target of 11,600 MW of RE capacity for 2024-2026 and released the Notice of Award to a hundred and five (105) winning bidders. While it was able to raise 3,581 MW worth of committed RE capacity targeted to be delivered between 2024 to 2026, it was only 32% of the DOE's ambitious target. The DOE published the Notice of Auction and Terms of Reference for Green Energy Auction-3 for geothermal, impounding hydro, and pumped-storage hydro facilities on November 14, 2024. On June 25, 2025, the DOE announced that bidders had formally accepted awards for over 6,500 MW of capacity, scheduled for delivery between 2025 and 2035.

The DOE launched the Green Energy Auction-4 in 2025 as the nation's first auction round to incorporate Integrated Renewable Energy and Energy Storage Systems ("IRESS"), specifically pairing solar power generation with Battery Energy Storage Systems. In addition to IRESS, the auction covered ground-mounted solar, roof-mounted solar, floating solar, and onshore wind technologies. On June 11, 2025, the DOE issued the Notice of Auction and Terms of Reference for the fifth round of Green Energy Auction, marking the country's first auction dedicated exclusively to fixed-bottom Offshore Wind technology, with a target capacity of 3,300 MW for commercial delivery between 2028 and 2030. However, the DOE placed all Green Energy Auction-5 activities on hold until further notice following its advisory issued on 4 July 2026.

Further enhancing competition in the renewable energy sector is the passage of Republic Act No. 11659 or the Public Services Act ("RA 11659"), as amended, which was signed into law on March 21, 2022. This removed foreign equity restrictions on most public service companies, except those considered as public utility and critical infrastructure. The government's move to open competition in the RE market is further strengthened with the issuance of DOE Department Circular No. DC2022-11-0034 on November 15, 2022, amending the Implementing Rules and Regulations of RA 9513, which now allows foreign citizens or 100% foreign-owned companies to undertake the exploration, development, and utilization of solar, wind, hydro, and ocean or tidal energy resources. This shift in government policy to allow full foreign ownership of certain renewable energy projects aims to attract more investments in the renewable energy sector and meet the long-term climate target commitments of the country. The Group will face competition in both the development of new power generation facilities and the acquisition of existing power plants, as well as in the financing for these activities.

The performance of the Philippine economy and the historical high returns of power projects in the country have attracted many potential competitors, including multinational development groups and equipment suppliers, to explore opportunities in the development of electric power generation projects in the Philippines. Accordingly, competition for and from new power projects may increase in line with the long-term economic growth of the Philippines.

The Group believes that it will be able to compete because of its competitively priced power, the reliability of its power plants, its use of clean and renewable fuels, and its expertise and experience in power supply contracting and trading.

Dependence on one or a few major customers

For the period ended September 30, 2026, the Group's revenue from sale of electricity is not dependent on one or a few major customers.

Concessions

As of September 30, 2026, the Group holds the following service contracts:

Geothermal Resource

EDC holds five (5) Geothermal Renewable Energy Service Contracts ("GRESCs") and the corresponding DOE Certificates of Registration as an RE Developer for the following geothermal projects:

1) Tongonan Geothermal Project;
2) Southern Negros Geothermal Project;
3) Bacon-Manito Geothermal Project;
4) Mt. Apo Geothermal Project; and
5) Northern Negros Geothermal Project

On May 8, 2012, EDC, through its subsidiaries GCGI and BGI, also secured three (3) Geothermal Operating Contracts ("GOCs"). Each has a twenty-five (25) year contract period expiring in 2037, renewable for another twenty-five (25) years. These cover the following power plant operations:

1) Tongonan Geothermal Power Plant under DOE Certificate of Registration No. GOC 2012-04-038;
2) Palinpinon Geothermal Power Plant under DOE Certificate of Registration No. GOC 2012-04-037; and
3) Bacon-Manito Geothermal Power Plant under DOE Certificate of Registration No. GOC 2012-04-039.

The Parent Company also holds Geothermal Service Contracts ("GSC") for the following prospect areas:

- Mt. Zion 2 Geothermal Power Project - Converted to the new RE contract template per DOE Department Circular No. DC2019-10-0013, with a pre-development period expiring in 2028; twenty-five (25)-year contract period expiring in 2040, renewable for another twenty-five (25) years.
- Amacan Geothermal Power Project - Converted to the new RE contract template per DOE Department Circular No. DC2019-10-0013, with an ongoing request to extend the pre-development period to August 2027; twenty-five (25)-year contract period expiring in 2041, renewable for another twenty-five (25) years.
- Mainit-Sadanga Geothermal Power Project - Seven (7)-year pre-development period expiring in 2028; twenty-five (25)-year contract period expiring in 2046, renewable for another twenty-five (25) years.
- Mt. Sembrano Geothermal Power Project - Converted to the new RE contract template per DOE Department Circular No. DC2024-06-0018, with a Certificate of Authority ("COA") valid from August 04, 2025 to August 03, 2028.
- Buguias-Tinoc Geothermal Power Project - Converted to the new RE contract template per DOE Department Circular No. DC2024-06-0018, with a COA valid from August 01, 2025 to July 31, 2028.

Wind Resource

The Group holds eight (8) Wind Energy Service Contracts ("WESC"), each with a twenty-five (25)-year contract terms covering the following projects:

Project	DOE Certificates of Registration	WESC Expiration
1) 150 MW Wind Project in Burgos, Ilocos Norte	WESC 2009-09-004	2034
2) 84 MW Wind Project in Pagudpud, Ilocos Norte	WESC 2010-02-040	2035
3) Iloilo 1 Wind Project in Batad and San Dionisio, Iloilo*	WESC 2014-07-078	2039
4) Burgos 4 Wind Project in Burgos, Ilocos Norte	WESC 2015-09-086	2038
5) Ilocos Norte Wind Power Project in Burgos and Pasuquin, Ilocos Norte	WESC 2021-01-147	2046
6) Pasuquin Wind Power Project in Pasuquin Ilocos Norte	WESC 2021-01-148	2046
7) Guimaras Onshore Wind Project	WESC 2022-03-199	2047
8) Laguna 1 Onshore Wind Project	WESC 2022-10-224	2047

** WESC surrendered on 17 May 2024; pending approval by DOE*

In August 2025, EDC secured four (4) Certificates of Authority ("COAs") pursuant to DOE Department Circular No. DC2024-06-0018, entitled "Revised Omnibus Guidelines Governing the Award and Administration of Renewable Energy Contracts and the Registration of Renewable Energy Developers". Each COA is valid for three (3) years and covers the following offshore wind projects:

Project	DOE Certificates of Authority	Conversion from WESC
1) Guimaras 1 Offshore Wind Project	OsWCOA2025-07-074	WESC 2022-05-202
2) Iloilo-Guimaras Offshore Wind Project	OsWCOA2025-08-084	WESC 2022-05-203
3) Guimaras-Negros Occidental Offshore Wind Project	OsWCOA2025-07-078	WESC 2022-05-204
4) Negros Occidental Offshore Wind Project	OsWCOA2025-07-077	WESC 2022-10-225

Solar Resource

The Group holds two (2) Solar Energy Service Contracts ("SESCs") with the DOE, each with a twenty-five (25)-year contract period. The SESCs cover the following:

Project	DOE Certificates of Registration	SESC Expiration*
1) 6.82 MW Burgos Solar Project in Burgos, Ilocos Norte	SESC No. 2014-07-088	2039
2) Gaisano Iloilo, Iloilo City Solar Rooftop Project**	SESC No. 2016-11-352	2042

** Renewable for another twenty-five (25) years*
***SESC assigned to EDC Siklab Power Corporation*

New Products or Services

The Group is in various phases of early stage/pre-development activities in some of its concession areas.

FG Hydro is developing the Aya pumped-storage facility designed to increase the capacity of the Pantabangan-Masiway plant complex by up to 120MW. The facility is expected to store and generate electricity by moving water between the Pantabangan reservoir and the Masiway reservoir, which are situated at different elevations. The project is designed to allow full year operations independent of the irrigation demands from the National Irrigation Administration ("NIA"). Construction of the Aya pumped-storage facility is targeted to start in the second quarter of 2027.

Financial Highlights

Period ended September 30, 2026 vs. September 30, 2025

During the period ended September 30, 2026, recurring net income attributable to equity holders of the Parent Company ("RNIA") posted at ₱15,050.8 million, higher by 220.6% as compared to the ₱4,694.8 million RNIA during the same period in 2025.

The recurring net income for the period ended September 30, 2026 increased by 202.6% or ₱10,525.5 million to ₱15,721.5 million from ₱5,196.0 million during the same period in 2025. The increase was mainly from the higher recurring revenue by ₱17,979.8 million, partly offset by the higher recurring operating expenses by ₱5,347.7 million, recurring income tax expense by ₱1,472.8 million and net financial expense by ₱759.8 million.

The net income for the period ended September 30, 2026 increased by 176.9% or ₱9,351.0 million to ₱14,637.4 million from ₱5,286.4 million net income during the same period in 2025. The increase was mainly from the higher revenue by ₱17,997.0 million, partly offset by the higher operating expenses by ₱6,259.5 million, income tax expense by ₱1,353.1 million, net financial expense by ₱759.8 million, and net foreign exchange losses by ₱342.5 million.

Net income is equivalent to 28.2% of total revenue for the period ended September 30, 2026 as compared to the 15.6% during the same period in 2025.

Net income attributable to equity holders of the Parent Company at ₱13,975.9 million for the period ended September 30, 2026, was a ₱9,199.8 million increase from ₱4,776.1 million during the same period in 2025.

Results of Operations

The following table details the results of operations of the Group for the period ended September 30, 2026 and 2025.

Statements of Income

Non-controlling interests	**670.7**	**501.2**	**169.5**	33.8%	1.3%	1.5%

Revenue

Revenue increased by 53.1% or ₱17,997.0 million to ₱51,884.8 million for the period ended September 30, 2026 from ₱33,887.8 million during the same period in 2025, from the combined higher average sales price and higher sales volume.

Costs of Sale of Electricity

Costs of sale of electricity increased by 30.8% or ₱6,029.4 million to ₱25,581.8 million for the period ended September 30, 2026 from ₱19,552.4 million during the same period in 2025 mainly due to the increase in purchased services and utilities by ₱2,677.9 million, depreciation and amortization by ₱2,641.4 million, rental, insurance and taxes by ₱627.5 million, and repairs and maintenance by ₱272.5 million, partly offset by the decrease in parts and supplies issued by ₱313.4 million.

General and Administrative Expenses

General and administrative expenses increased by 4.1% or ₱230.1 million to ₱5,793.8 million for the period ended September 30, 2026 from ₱5,563.7 million during the same period in 2025 mainly due to increase in rental, insurance and taxes by ₱237.6 million, and provision for impairment of parts and supplies inventories ₱132.4 million, partly offset by the lower personnel costs by ₱107.7 million.

Financial Income (Expense)

Net financial expense increased by 20.4% or ₱759.8 million to ₱4,484.2 million for the period ended September 30, 2026 from ₱3,724.4 million during the same period in 2025.

Interest Expense

Interest expense increased by 18.6% or ₱755.9 million to ₱4,823.4 million for the period ended September 30, 2026 from ₱4,067.5 million during the same period in 2025 mainly due to the increase in interest on long-term debts including amortization of transaction costs.

Interest Income

Interest income slightly declined by 1.1% or ₱3.9 million to ₱339.2 million for the period ended September 30, 2026 from ₱343.1 million during the same period in 2025. BGI's interest income declined from the lower money market placements.

Other Income (Charges)

Other income decreased by 35.1% or a ₱273.6 million to ₱506.8 million for the period ended September 30, 2026 from ₱780.4 million during the same period in 2025.

Income from insurance claims

Income from insurance claims increased by 9.2% or ₱63.8 million to ₱754.8 million for the period ended September 30, 2026 from ₱691.0 million during the same period in 2025 mainly from higher insurance claims related to Palinpinon assets.

Foreign exchange gains (losses) - net

Net foreign exchange loss increased by 981.4% or ₱342.5 million to ₱377.4 million for the period ended September 30, 2026 from ₱34.9 million during the same period in 2025. This was mainly attributable to realignment of accounts of EBWPC and EDC's foreign currency denominated loans.

The comparative foreign exchange rates were as follows:

	PHP:US$
December 31, 2024	57.845
September 30, 2025	58.196
December 31, 2025	58.790
September 30, 2026	62.640

Miscellaneous income (charges) - net

Net miscellaneous income increased by 4.1% or ₱5.1 million to ₱129.4 million for the period ended September 30, 2026 from the ₱124.3 million net miscellaneous income during the same period in 2025. This was mainly due to the increase in dividend income and income from the sale of renewable energy certificates, partly offset by the loss on loan extinguishment and loss on joint venture for the period ended September 30, 2026.

Provision for (Benefit from) Income Tax

Current

Provision for current income tax increased by 254.9% or ₱1,438.3 million to ₱2,002.6 million for the period ended September 30, 2026 from ₱564.3 million during the same period in 2025 mainly due to the higher taxable income.

Deferred

Benefit from deferred income tax increased by 370.4% or ₱85.2 million to ₱108.2 million for the period ended September 30, 2026 from ₱23.0 million during the same period in 2025 mainly due to the movement of EDC's deferred tax on foreign exchange gain or loss and right-of-use assets, partly offset by the deferred tax related to FG Hydro's utilization of its net operating loss carry over.

Net Income

As a result, the Group's net income increased by 176.9% or ₱9,351.0 million to ₱14,637.4 million for the period ended September 30, 2026 from ₱5,286.4 million net income for the same period in 2025.

Net income is equivalent to 28.2% of total revenue for the period ended September 30, 2026 as compared to 15.6% for the same period in 2025.

Financial Condition

The following table details the financial condition of the Group as of September 30, 2026 and December 31, 2025.

Statement of Financial Position

Cash and cash equivalents

Cash and cash equivalents increased by 80.9% or ₱8,638.2 million to ₱19,312.3 million as of September 30, 2026 from the ₱10,674.1 million balance as of December 31, 2025 mainly due to the ₱21,150.7 million net cash generated from operating activities, ₱11,877.7 million loan proceeds, and ₱1,501.0 million redemption of financial assets at FVPL, partly offset by the ₱15,563.0 million payments for long-term debt and interest and other financing charges, ₱8,148.4 million acquisition of property, plant and equipment, ₱1,388.4 million payments for cash dividends, ₱474.6 million acquisitions of financial assets at FVPL, and ₱431.4 million payments for lease liability.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss decreased by 56.9% or ₱1,050.7 million to ₱794.6 million as of September 30, 2026 from the ₱1,845.3 million balance as of December 31, 2025 mainly due to FG Hydro's redemption of its investments for the period.

Trade and other receivables

Trade and other receivables increased by 23.5% or ₱1,991.5 million to ₱10,459.1 million as of September 30, 2025 from the ₱8,467.6 million balance as of December 31, 2025 mainly due to increased receivables from customers, partly from the increase in revenue for the period.

Due from related parties

Due from related parties decreased by 29.7% or ₱13.1 million to ₱31.0 million as of September 30, 2026 from the ₱44.1 million balance as of December 31, 2025 mainly due to transactions with First Gen Energy Solutions, Inc.

Parts and supplies inventories

Parts and supplies inventories decreased by 2.6% or ₱360.8 million to ₱13,775.2 million as of September 30, 2026 from the ₱14,136.0 million balance as of December 31, 2025 mainly due to the inventory withdrawals for the period, primarily for drilling activities.

Derivative assets

			Increase (Decrease)	
In PHP millions	September 30, 2026	December 31, 2025	Amount	%
Current	84.0	8.6	75.4	876.7%
Noncurrent	407.3	26.6	380.7	1,431.2%
	491.3	35.2	456.1	1,295.7%

Derivative assets increased by 1,295.7% or ₱456.1 million to ₱491.3 million as of September 30, 2026 from the ₱35.2 million balance as of December 31, 2025 mainly due to valuation of EDC's call spread and EBWPC's interest rate swap derivative contracts.

Other current assets

Other current assets increased by 31.2% or ₱965.4 million to ₱4,060.7 million as of September 30, 2026 from the ₱3,095.3 million balance as of December 31, 2025 mainly due to the increase in creditable withholding taxes by ₱668.7 million and deposits and special funds by ₱341.0 million.

Property, plant and equipment

Property, plant and equipment slightly decreased by 0.2% or ₱326.3 million to ₱151,876.4 million as of September 30, 2026 from the ₱152,202.7 million balance as of December 31, 2025 mainly due to the ₱8,467.4 million depreciation and amortization for the period and ₱365.9 million net disposals, retirements, reclassifications and foreign exchange adjustments, partly offset by the ₱8,507.0 million additions for the period.

Exploration and evaluation assets

Exploration and evaluation assets increased by 6.1% or ₱254.1 million to ₱4,443.4 million as of September 30, 2026 from the ₱4,189.3 million balance as of December 31, 2025 mainly due to the additions for the period for the Amacan project.

Deferred tax assets - net

Deferred tax assets - net increased by 20.2% or ₱172.4 million to ₱1,027.4 million as of September 30, 2026 from the ₱855.0 million balance as of December 31, 2025 mainly due to the movement of the deferred tax on foreign exchange gain or loss and right-of-use assets.

Other noncurrent assets

Other noncurrent assets increased by 7.8% or ₱1,162.7 million to ₱16,119.1 million as of September 30, 2026 from the ₱14,956.4 million balance as of December 31, 2025 mainly due to the increase in long-term receivables and special deposits by ₱410.1 million, deposits and special funds by ₱354.0 million, and investment in associate by ₱350.8 million.

Trade and other payables

Trade and other payables decreased by 24.1% or ₱4,891.5 million to ₱15,408.7 million as of September 30, 2026 from the ₱20,300.2 million balance as of December 31, 2025 mainly due to the payments to contractors.

Due to related parties

Due to related parties increased by 233.3% or ₱4.2 million to ₱6.0 million as of September 30, 2026 from the ₱1.8 million balance as of December 31, 2025 mainly due to the transactions with First Gen Corporation.

Income tax payable

Income tax payable increased by 1,131.1% or ₱1,370.9 million to ₱1,492.1 million as of September 30, 2026 from the ₱121.2 million balance as of December 31, 2025 mainly due to the income tax payable recognized for the period.

Long-term debts

			Increase (Decrease)	
In PHP millions	September 30, 2026	December 31, 2025	Amount	%
Current	15,939.4	12,864.8	3,074.6	23.9%
Noncurrent	84,449.1	86,159.5	(1,710.4)	-2.0%
	100,388.5	99,024.3	1,364.2	1.4%

Long-term debts increased by 1.4% or ₱1,364.3 million to ₱100,388.5 million as of September 30, 2026 from the ₱99,024.3 million balance as of December 31, 2025 mainly due to the loan drawdowns during the period, offset by the principal payments.

Lease liability

			Increase (Decrease)	
In PHP millions	September 30, 2026	December 31, 2025	Amount	%
Current	617.4	599.2	18.2	3.0%
Noncurrent	2,493.5	3,419.7	(926.2)	-27.1%
	3,110.9	4,018.9	(908.0)	-22.6%

Lease liability decreased by 22.6% or ₱908.0 million to ₱3,110.9 million as of September 30, 2026 from the ₱4,018.9 million balance as of December 31, 2025 mainly due to the reassessments and retirement of lease contracts and payments for lease liabilities for the period.

Derivative liabilities

			Increase (Decrease)	
In PHP millions	September 30, 2026	December 31, 2025	Amount	%
Current	–	9.2	(9.2)	-100.0%
Noncurrent	–	47.8	(47.8)	-100.0%
	–	57.0	(57.0)	-100.0%

Derivative liabilities decreased by 100.0% or ₱57.0 million as of September 30, 2026 to nil from the ₱57.0 million balance as of December 31, 2025 mainly due to valuation of EDC and EBWPC's interest rate swap derivative contracts, resulting in a reclassification to derivative assets.

Net retirement and other post-employment benefits

Net retirement and other post-employment benefits increased by 5.0% or ₱126.0 million to ₱2,642.9 million as of September 30, 2026 from the ₱2,516.9 million balance as of December 31, 2025 mainly due to the retirement expense provision recognized during the period.

Deferred tax liabilities - net

Deferred tax liabilities - net increased by 56.8% or ₱84.3 million to ₱232.7 million as of September 30, 2026 from the ₱148.4 million balance as of December 31, 2025 mainly due to EBWPC's deferred tax related to the differences between the carrying amount of EBWPC's nonmonetary assets and liabilities and the tax base, and deferred tax on its derivatives.

Provisions and other long-term liabilities

Provisions and other long-term liabilities increased by 9.2% or ₱481.8 million to ₱5,707.0 million as of September 30, 2026 from the ₱5,225.2 million balance as of December 31, 2025 mainly due to the increase in security deposits from customers.

Net accumulated unrealized gain on financial assets at fair value through other comprehensive income

Net accumulated unrealized gain on financial assets at fair value through other comprehensive income decreased by 8.5% or ₱9.2 million to ₱99.6 million as of September 30, 2026 from the ₱108.8 million balance as of December 31, 2025 mainly due to the valuation of EDC's financial assets at fair value through other comprehensive income.

Fair value adjustments on hedging transactions

Fair value adjustments on hedging transactions decreased by 412.5% or ₱457.1 million to ₱346.3 million as of September 30, 2026 from the (₱110.8) million balance as of December 31, 2025 mainly due to the valuation of hedging transactions.

Cumulative translation adjustment

Cumulative translation adjustment increased by 22.1% or ₱388.6 million to ₱2,143.4 million as of September 30, 2026 from the ₱1,754.8 million balance as of December 31, 2025 mainly due to the translation of EBWPC.

Retained Earnings

Unappropriated

Unappropriated retained earnings increased by 40.0% or ₱13,599.5 million to ₱42,612.1 million as of September 30, 2026 from the ₱34,012.6 million balance as of December 31, 2025 from the net income attributable to the equity holders of the Parent Company amounting to ₱13,975.9 million, partly offset by the dividends declared for the period amounting to ₱376.4 million.

Non-controlling interests

Non-controlling interests decreased by 15.1% or ₱350.5 million to ₱1,964.7 million as of September 30, 2026 from the ₱2,315.2 million balance as of December 31, 2025, mainly due to ₱1,011.9 million cash dividends declared on non-controlling interest, partly offset by the ₱661.5 million share in net income for the period.

Capital and Liquidity Resources

As of September 30 (in millions of pesos)	2026	2025	YoY change
Statement of Financial Position Data			
Total Assets	228,499.5	209,844.8	18,654.7
Total Liabilities	128,988.8	126,702.4	2,286.4
Total Stockholder's Equity	99,510.7	83,142.4	16,368.3

The Group's total assets as of September 30, 2026 amounted to ₱228,499.5 million, 8.9% higher as compared to the ₱209,844.8 million level as of September 30, 2025. This was driven by the increase in cash and cash equivalents by ₱5,896.5 million, trade and other receivables by ₱4,394.7 million, power plant and equipment by ₱4,043.3 million, and other noncurrent assets by ₱3,873.8 million.

Cash Flow

Period ended September 30, 2026 vs. September 30, 2025

Net cash flows from operating activities increased by 89.3% or ₱9,978.0 million to ₱21,150.7 million for the period ended September 30, 2026 from the ₱11,172.7 million during the same period in 2025 mainly due to the higher operating income before working capital changes by ₱14,471.1 million, partly offset by the increase in trade and other receivables by ₱2,864.8 million, and higher decrease in trade and other payables by ₱1,729.6 million.

Net cash flows used in investing activities decreased by 66.2% or ₱13,754.0 million to ₱7,014.7 million for the period ended September 30, 2026 from ₱20,768.7 million during the same period in 2025 mainly due to the lower acquisitions of power, plant and equipment by ₱6,691.2 million, lower acquisitions of financial assets at fair value through other comprehensive income by ₱2,800.0 million, higher redemptions of financial assets at FVPL by ₱1,501.0 million, lower acquisitions of financial assets at FVPL by ₱1,256.4 million and lower additions to noncurrent assets by ₱1,153.1 million.

Net cash flows used in financing activities increased by 158.8% or ₱14,864.7 million to net cash outflow of ₱5,505.8 million for the period ended September 30, 2026 from net cash inflow of ₱9,358.9 million during the same period in 2025. This was mainly due to the lower proceeds from availment of long-term debts by ₱15,826.0 million, higher payments of long-term debt, interest and financing charges by ₱5,116.9 million, partly offset by lower payments of cash dividends by ₱5,914.7 million.

Discussion on the Subsidiaries

Green Core Geothermal Inc. (GCGI)

(Amounts in PHP millions)	For the periods ended September 30 (Unaudited)	
	2026	**2025**
Revenue	16,292.9	14,354.0
Costs of sale of electricity	(12,040.7)	(14,429.8)
General and administrative expenses	(628.9)	(596.8)
Other income (charges) - net	382.8	468.2
Income before income tax	4,006.1	(204.4)
Provision for income tax	(626.2)	(63.8)
Net income	3,379.9	(268.2)
	As of	
	September 30, 2026 (Unaudited)	**December 31, 2025 (Audited)**
Total current assets	7,092.8	4,571.6
Total noncurrent assets	15,574.3	15,547.7
Total current liabilities	4,101.0	4,996.5
Total noncurrent liabilities	5,070.8	5,007.1
Total equity	13,495.3	10,115.7

Revenue increased by 13.5% or ₱1,938.9 million to ₱16,292.9 million for the period ended September 30, 2026 from ₱14,354.0 million for the same period in 2025 due to higher average sales price partly, offset by lower sales volume.

Cost of sale of electricity decreased by 16.6% or ₱2,389.1 million to ₱12,040.7 million for the period ended September 30, 2026 from ₱14,429.8 million for the same period in 2025 mainly due to lower cost of steam by ₱1,856.2 million, lower replacement power cost by ₱1,218.4 million, partly offset by higher rental, insurance and taxes by ₱514.1 million, and higher purchased services and utilities by ₱165.3 million.

General and administrative expenses increased by 5.4% or ₱32.1 million to ₱628.9 million for the period ended September 30, 2026 from ₱596.8 million for the same period in 2025 mainly due to higher rental, insurance and taxes by ₱27.3 million, higher other noncash provisions by ₱25.4 million, and higher purchased services and utilities by ₱16.4 million, partly offset by lower business and related expenses by ₱32.5 million.

Other income - net decreased by 18.2% or ₱85.4 million, to P382.8 million for the period ended September 30, 2026 from ₱468.2 million for the same period in 2025 mainly due to higher interest expense by ₱216.8 million and lower interest income by ₱1.4 million, partly offset by higher miscellaneous income by ₱110.9 million and lower foreign exchange loss by ₱22.0 million.

Provision for income tax increased by 881.5% or ₱562.4 million to ₱626.2 million for the period ended September 30, 2026 from ₱63.8 million for the same period in 2025 on account of higher taxable income.

Total current assets increased by 55.1% or ₱2,521.2 million to ₱7,092.8 million as of September 30, 2026 from ₱4,571.6 million as of December 31, 2025 mainly due to higher cash and cash equivalents by ₱1,933.5 million, higher trade and other receivables by ₱679.3 million, and higher parts and supplies inventories by ₱112.3 million, partly offset by lower other current assets by ₱205.1 million.

Total noncurrent assets increased by 0.2% or ₱26.6 million to ₱15,574.3 million as of September 30, 2026 from ₱15,547.7 million as of December 31, 2025, mainly due to higher other noncurrent assets by ₱88.9 million, partly offset by lower property, plant and equipment by ₱61.8 million.

Total current liabilities decreased by 17.9% or ₱895.5 million to ₱4,101.0 million as of September 30, 2026 from ₱4,996.5 million as of December 31, 2025, mainly due to lower trade and other payables by ₱1,212.2 million, partly offset by higher income tax payable by ₱266.9 million and higher current portion of long-term debts by ₱48.2 million.

Total noncurrent liabilities increased by 1.3% or ₱63.7 million to ₱5,070.8 million as of September 30, 2026 from ₱5,007.1 million as of December 31, 2025, mainly due to higher other long-term liabilities by ₱109.7 million, partly offset by lower long-term debt by ₱44.4 million.

Total equity increased by 33.4% or ₱3,379.6 million to ₱13,495.3 million as of September 30, 2026 from ₱10,115.7 million as of December 31, 2025, mainly due to this year's net income of ₱3,379.9 million.

Bac-Man Geothermal Inc. (BGI)

	For the periods ended September 30 (Unaudited)	
(Amounts in PHP millions)	**2026**	**2025**
Revenue	14,903.2	9,000.4
Costs of sale of electricity	(12,546.3)	(7,312.2)
General and administrative expenses	(339.6)	(333.3)
Other income (charges) - net	79.8	101.1
Income before income tax	2,097.1	1,456.0
Provision for income tax	(284.6)	(18.7)
Net income	1,812.5	1,437.3
	As of	
	September 30, 2026 (Unaudited)	**December 31, 2025 (Audited)**
Total current assets	8,541.5	4,781.4
Total noncurrent assets	14,781.0	14,970.8
Total current liabilities	4,651.4	3,294.9
Total noncurrent liabilities	5,190.5	1,789.1
Total equity	13,480.6	14,668.2

Revenue increased by 65.6% or ₱5,902.8 million to ₱14,903.2 million for the period ended September 30, 2026 from ₱9,000.4 million for the same period in 2025. The favorable variance was due to higher sales volume and increase in average price.

Cost of sale of electricity increased by 71.6% or ₱5,234.1 million to ₱12,546.3 million for the period ended September 30, 2026 from ₱7,312.2 million for the same period in 2025. The increase was primarily from the higher purchased services and utilities by ₱4,135.6 million, mainly from higher distribution and transmission cost and replacement power cost. Cost of sale of electricity also increased from the higher rental, insurance and taxes by ₱894.7 million, depreciation and amortization by ₱162.3 million, repairs and maintenance by ₱89.8 million, business and related expenses by ₱5.7 million, partly offset by lower cost of steam by ₱23.5 million, government share by ₱17.0 million, and parts and supplies issued ₱14.2 million.

General and administrative expense increased by 1.9% or ₱6.3 million to ₱339.6 million for the period ended September 30, 2026 from ₱333.3 million for the same period in 2025. This was mainly due to higher rental, insurance and taxes by ₱37.6 million, partly offset by lower business and related expenses by ₱20.8 million, and purchased services and utilities by ₱9.2 million.

Other income - net decreased by 21.1% or ₱21.3 million to ₱79.8 million for the period ended September 30, 2026 from ₱101.1 million for the same period in 2025, mainly due to the higher financial expense - net by ₱116.8 million, and foreign exchange loss of ₱2.9 million, partly offset by the increase in miscellaneous income by ₱98.3 million.

Provision for income tax increased by 1,421.9% or ₱265.9 million to ₱284.6 million from ₱18.7 million last year on account of higher taxable income subject to regular corporate income tax.

Total current assets increased by 78.6% or ₱3,760.1 million to ₱8,541.5 million as of September 30, 2026 from the ₱4,781.4 million balance as of December 31, 2025. The increase was attributed to higher cash and cash equivalents by ₱2,245.7 million, trade and other receivables by ₱927.2 million, and other current assets particularly on tax credits and security deposits by ₱545.3 million, and parts and supplies inventories by ₱42.4 million.

Total noncurrent assets decreased by 1.3% or ₱189.8 million to ₱14,781.0 million as of September 30, 2026 from the ₱14,970.8 million balance as of December 31, 2025. The decrease was mainly from the depreciation of plant, property and equipment by ₱491.5 million, partly offset by increase of other noncurrent assets particularly creditable withholding taxes and due from others by ₱237.7 million, and capital expenditures of ₱66.3 million.

Total current liabilities increased 41.2% or ₱1,356.5 million to ₱4,651.4 million as of September 30, 2026 from ₱3,294.9 million balance as of December 31, 2025, mainly from the increase in trade and other payables by ₱1,107.3 million, income tax payable by ₱185.5 million, and current portion of long-term debts by ₱63.9 million.

Total noncurrent liabilities increased by 190.1% or ₱3,401.4 million to ₱5,190.5 million as of September 30, 2026 from the ₱1,789.1 million balance as of December 31, 2025. The increase was mainly from the increase of long-term debts - net of current portion by ₱2,919.5 million, other long-term liabilities by ₱473.8 million, and net retirement and other post-employment by ₱8.8 million.

Total equity decreased by 8.1% or ₱1,187.6 million to ₱13,480.6 million as of September 30, 2026 from the ₱14,668.2 million balance as of December 31, 2025 due to this year’s dividend declaration of ₱3,000.0 million, partly offset by current year’s net income of ₱1,812.5 million.

EDC Burgos Wind Power Corporation (EBWPC)

(Amounts in USD millions)	For the periods ended September 30 (Unaudited)	
	2026	**2025**
Revenue	31.5	30.9
Costs of sale of electricity	(22.4)	(19.2)
General and administrative expenses	(3.2)	(2.7)
Other charges - net	(4.1)	(2.2)
Income before income tax	1.8	6.8
Provision for income tax	(0.9)	(0.4)
Net income	0.9	6.4
	As of	
	September 30, 2026 (Unaudited)	**December 31, 2025 (Audited)**
Total current assets	45.8	51.7
Total noncurrent assets	251.5	249.7
Total current liabilities	32.7	28.1
Total noncurrent liabilities	181.1	194.1
Total equity	83.5	79.2

Revenue increased by 1.9% or US$0.6 million to US$31.5 million for the period ended September 30, 2026, from US$30.9 million for the same period in 2025 mainly due to slightly favorable price, partly offset by lower energy production.

Costs of sale of electricity increased by 16.7% or US$3.2 million to US$22.4 million for the period ended September 30, 2026, from US$19.2 million for the same period in 2025 mainly due to higher repairs and maintenance by US$2.1 million, and rental, insurance and taxes by US$1.5 million

General and administrative expenses increased by 18.5% or US$0.5 million to US$3.2 million for the period ended September 30, 2026, from US$2.7 million for the same period in 2025 mainly due to higher business and related expenses by US$0.7 million, partly offset by lower purchased services and utilities by US$0.2 million.

Other charges - net increased by 86.4% or US$1.9 million to US$4.1 million for the period ended September 30, 2026, from US$2.2 million for the same period in 2025, mainly due to the decrease in net miscellaneous income by US$1.6 million and foreign exchange gains by US$1.0 million, increase in interest expense by US$0.2 million, partly offset by higher interest income by US$0.9 million.

Total current assets decreased by 11.4% or US$5.9 million to US$45.8 million as of September 30, 2026, from the US$51.7 million balance as of December 31, 2025, mainly due to the decrease in trade and other receivables by US$17.4 million, partly offset by the increase in cash and cash equivalents by US$9.5 million, other current assets by US$1.8 million and derivative assets by US$0.3 million.

Total noncurrent assets increased by 0.7% or US$1.8 million to US$251.5 million as of September 30, 2026, from the US$249.7 million balance as of December 31, 2025, mainly due to the increase in other noncurrent assets by US$7.2 million and non-current derivative asset by US$3.8 million, partly offset by the net decrease in the book value of property, plant and equipment by US$9.2 million.

Total current liabilities increased by 16.4% or US$4.6 million to US$32.7 million as of September 30, 2026, from the US$28.1 million balance as of December 31, 2025, mainly due to the increase in trade and other payables by US$4.5 million and current portion of long-term debts by US$0.4 million, partly offset in part by the decrease in income tax payable by US$0.2 million and current portion of lease liability by US$0.1 million.

Total noncurrent liabilities decreased by 6.7% or US$13.0 million to US$181.1 million as of September 30, 2026, from the US$194.1 million balance as of December 31, 2025, mainly due to the decrease of long-term debt - net of current portion by US$13.4 million, derivative liability - net of current portion by US$0.4 million, and asset retirement obligation US$0.4 million, partly offset by increase in deferred tax liabilities - net by US$1.2 million.

Total equity increased by 5.4% or US$4.3 million to US$83.5 million as of September 30, 2026, from the US$79.2 million balance as of December 31, 2025, due to the decrease in cumulative translation adjustment by US$3.4 million and the net income for the year of US$0.9 million.

FG Hydro Power Corporation (FG Hydro)

(Amounts in PHP millions)	**For the periods ended September 30 (Unaudited)**	
	2026	**2025**
Revenue	2,651.7	2,340.7
Costs of sale of electricity	(616.6)	(511.2)
General and administrative expenses	(489.6)	(351.2)
Operating income	1,545.5	1,478.3
Net income	1,651.9	1,275.7
	As of	
	September 30, 2026 (Unaudited)	**December 31, 2025 (Audited)**
Total assets	12,092.1	13,113.2
Total liabilities	7,113.1	7,256.3
Total equity	4,979.0	5,856.9

Revenue increased by 13.3% or ₱311.0 million to ₱2,651.7 million for the period ended September 30, 2026 from ₱2,340.7 million for the same period in 2025. The increase was primarily driven by higher volume sold through power supply agreements and higher average selling prices in the Reserve Market.

Costs of sale of electricity increased by 20.6% or ₱105.4 million to ₱616.6 million for the period ended September 30, 2026 from ₱511.2 million for the same period in 2025, primarily driven by higher WESM purchases and related charges for replacement power and higher service fees paid to NIA.

General and administrative expenses increased by 39.4% or ₱138.4 million to ₱489.6 million for the period ended September 30, 2026 from ₱351.2 million for the same period in 2025, mainly due to higher taxes and licenses, professional fees and other outside services.

Net income increased by 29.5% or ₱376.2 million to ₱1,651.9 million for the period ended September 30, 2026 from ₱1,257.7 million for the same period in 2025, driven by higher operating income, higher dividend income from an investment in non-voting preferred stocks and higher interest income, partly offset by the higher interest expense on long-term debt availed in February 2025 and higher provision for taxes.

Total assets decreased by 7.8% or ₱1,021.1 million to ₱12,092.1 million as of September 30, 2026 from the ₱13,113.2 million balance as of December 31, 2025, mainly due to redemptions of financial assets at FVPL, offset by higher cash balance from operations.

Total liabilities decreased by 2.0% or ₱143.2 million to ₱7,113.1 million as of September 30, 2026 from the ₱7,256.3 million balance as of December 31, 2025, primarily due to the scheduled principal and interest payments on long-term debt in February and August 2026, alongside the settlement of trade payables, partially offset by the recognition of a lease liability for its principal office.

Total equity decreased by 15.0% or ₱877.9 million to ₱4,979.0 million as of September 30, 2026 from the ₱5,856.9 million balance as of December 31, 2025, mainly due to the cash dividends paid, partly offset by the net income earned during the period.

EDC Siklab Power Corporation (EDC Siklab)

	For the periods ended September 30 (Unaudited)	
(Amounts in PHP millions)	**2026**	**2025**
Revenue	22.1	29.1
Costs of sale of electricity	(10.5)	(10.4)
General and administrative expenses	(7.0)	(6.2)
Other income - net	0.1	0.1
Income before income tax	4.7	12.6
Provision for income tax	(1.7)	(3.2)
Net income	3.0	9.4
	As of	
	September 30, 2026 (Unaudited)	**December 31, 2025 (Audited)**
Total current assets	85.2	76.8
Total noncurrent assets	219.1	226.6
Total current liabilities	12.4	14.5
Total equity	291.9	288.9

Revenue decreased by 24.1% or ₱7.0 million to ₱22.1 million for the period ended September 30, 2026 from ₱29.1 million for the same period in 2025 due to lower sales volume.

Cost of sales increased by 1.0% or ₱0.1 million to ₱10.5 million for the period ended September 30, 2026 from ₱10.4 million for the same period in 2025 due to higher rental, insurance and taxes by ₱0.1 million.

General and administrative expenses increased by 12.9% or ₱0.8 million to ₱7.0 million for the period ended September 30, 2026 from ₱6.2 million for the same period in 2025 with this year's higher business and related expenses by ₱1.0 million and purchased services and utilities by ₱0.2 million, partly offset by lower rental, insurance and taxes by ₱0.4 million.

Provision for income tax decreased by 46.9% or ₱1.5 million to ₱1.7 million for the period ended September 30, 2026 from ₱3.2 million on account of lower taxable income.

Net income decreased by 68.1% or ₱6.4 million to ₱3.0 million for the period ended September 30, 2026 from ₱9.4 million for the same period in 2025.

Total current assets increased by 10.9% or ₱8.4 million to ₱85.2 million as of September 30, 2026 from the ₱76.8 million balance as of December 31, 2025 due to the increase in cash and cash equivalents by ₱9.1 million and trade and other receivables by ₱3.0 million, partly offset by the decrease in other current assets by ₱3.7 million.

Total non-current assets decreased by 3.3% or ₱7.5 million to ₱219.1 million as of September 30, 2026 from the ₱226.6 million balance as December 31, 2025 due to lower property, plant, and equipment by ₱9.1 million, partly offset by the increase in other non-current assets by ₱1.6 million.

Total current liabilities decreased by 14.5% or ₱2.1 million to ₱12.4 million as of September 30, 2026 from the ₱14.5 million balance as December 31, 2025 due to the decrease in trade and other payables.

Total equity increased by 1.0% or ₱3.0 million to ₱291.9 million as of September 30, 2026 from the ₱288.9 million balance as of December 31, 2025 due to this period's net income of ₱3.0 million.

Key Performance Indicators

The top eight (8) key performance indicators are set forth below:

	September 30, 2026	**September 30, 2025**
Current Ratio	1.45	1.22
Debt-to-Equity Ratio	1.01	1.15
Net Debt-to-Equity Ratio	0.81	0.99
Return on Assets (%)	7.64	3.81
Return on Equity (%)	18.34	8.83
Solvency Ratio	0.23	0.12
Interest Rate Coverage Ratio	4.47	2.27
Asset-to-Equity Ratio	2.30	2.52

Current Ratio - Total current assets divided by total current liabilities. This ratio is a rough indication of a company's ability to pay its short-term obligations. Generally, a current ratio above 1.00 is indicative of a company's greater capability to settle its current obligations.

Debt-to-Equity Ratio - Total interest-bearing debts divided by stockholders' equity. This ratio expresses the relationship between capital contributed by the creditors and the owners. The higher the ratio, the greater the risk being assumed by the creditors. A lower ratio generally indicates greater long-term financial safety.

Net-Debt-to-Equity Ratio - Total interest-bearing debts less cash & cash equivalents divided by stockholders' equity. This ratio measures a company's financial leverage and stability. A negative net debt-to-equity ratio means that the total of cash and cash equivalents exceeds interest-bearing liabilities.

Return on Assets - Net income (annual basis) divided by total assets (average). This ratio indicates how profitable a company is relative to its total assets. This also gives an idea as to how efficient management is at using its assets to generate earnings.

Return on Equity - Net income (annual basis) divided by total stockholders' equity (average). This ratio reveals how much profit a company earned in comparison to the total amount of shareholder equity found on the balance sheet. A business that has a high return on equity is more likely to be one that is capable of internally generating cash. For the most part, the company's return on equity is compared with the industry average. The company is considered superior if its return on equity is greater than the industry average.

Solvency Ratio - Net income excluding depreciation and non-cash provisions divided by total debt obligations. This ratio gauges a company's ability to meet its long-term obligations.

Interest Rate Coverage Ratio - Earnings before interest and taxes of one period divided by interest expense of the same period. This ratio determines how easily a company can pay interest on outstanding debt.

Asset-to-Equity Ratio - Total assets divided by total stockholders' equity. This ratio shows a company's leverage, the amount of debt used to finance the firm.

Foreign Exchange Volatility

EDC, which has a Philippine peso functional currency, has ₱5,912.3 million in long-term US dollar denominated loans as of September 30, 2026 which is 5.9% of the Group's total long-term loans.

EBWPC, a subsidiary of EDC, which has a US dollar functional currency, has ₱4,531.7 million in long-term Philippine peso denominated loans as of September 30, 2026 which is 4.5% of the Group's total long-term loans.

PART II - OTHER INFORMATION

Other Disclosures

(i) Any events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.

There are no material changes in the contingent financial obligations since the last annual balance sheet date.

(ii) Any material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the period.

During the reporting period, there were no material off-balance sheet transactions, arrangements and obligations with unconsolidated entities or persons.

(iii) Any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the company's liquidity increasing or decreasing in any material way.

During the reporting period, there were no known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Group's liquidity increasing or decreasing in any material way.

(iv) Any material commitments for capital expenditures, general purpose of such commitments, and the expected sources of funds for such expenditures should be described.

As of September 30, 2026, the Group has unserved purchase orders and awarded contracts for capital expenditures amounting to ₱2,185.0 million. These will be funded by net cash from operations and loan proceeds.

(v) Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations should be described.

The Group has sales to the WESM. These may be favorable or unfavorable depending on the spot market prices. Spot prices are mostly determined by the supply and demand situation prevailing in the market.

(vi) Any significant elements of income or loss that did not arise from the registrant's continuing operations.

There were no significant elements of income or loss that did not arise from continuing operations.

(vii) Any seasonal aspects that had a material effect on the financial condition or results of operations.

FG Hydro's sale of electricity is affected by seasonality or cyclicality of interim operations. For Burgos Wind, higher revenue and operating profits are expected in the first and last quarters of the year based on the wind generation profile of Burgos. Meanwhile, the solar projects are expected to generate higher revenues during the summer months.

(viii) Any material events subsequent to the end of interim period that have not been reflected in the financial adjustments of the interim period.

On October 28, 2026 the Securities and Exchange Commission approved the decrease of capital stock of EDC Wind Energy Holdings Inc.

Cash Dividends

On February 13, 2026, FG Hydro declared dividends amounting to ₱815.2 million attributable to non-controlling common shareholder and paid on March 18, 2026.

ENERGY DEVELOPMENT CORPORATION
(A Subsidiary of Red Vulcan Holdings Corporation)
AND SUBSIDIARIES
NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

General
Energy Development Corporation (the "Parent Company" or "EDC") was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on March 5, 1976.

The Parent Company and its subsidiaries (collectively referred to as the "Group") are primarily engaged in the business of exploring, developing and operating geothermal energy and other indigenous renewable energy projects in the Philippines.

Red Vulcan Holdings Corporation (Red Vulcan) is the parent company of EDC, while Lopez, Inc. is the ultimate parent company.

Red Vulcan and Lopez, Inc. are both incorporated in the Philippines.

As of September 30, 2026, Red Vulcan holds the controlling voting interest with 63.9% ownership of EDC's outstanding voting shares while Philippines Renewable Energy Holdings Corp. (PREHC) owns 34.9%.

Principal Office Address
The registered principal office address of the Parent Company is Rockwell Business Center Tower 3, Ortigas Avenue, Pasig City, Philippines.

Authorization for Issuance of the Unaudited Interim Condensed Consolidated Financial Statements
The unaudited interim condensed consolidated financial statements were reviewed, approved and authorized for issuance by the Board of Directors (Board) through the Audit and Governance Committee on November 11, 2026.

2. Basis of Preparation

The unaudited interim condensed consolidated financial statements of the Group as of September 30, 2026 and for the nine (9)-month periods ended September 30, 2026 and 2025 have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at December 31, 2025.

The unaudited interim condensed consolidated financial statements have been prepared on a historical cost basis, except for the financial assets at fair value through profit or loss (FVPL), derivative instruments and financial asset at fair value through other comprehensive income (FVOCI) that are measured at fair value. The unaudited interim condensed consolidated financial statements are presented in Philippine peso (₱), which is the Parent Company's functional currency. All values are rounded to the nearest ₱, except when otherwise indicated.

3. Summary of Material Accounting Policy Information

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements as of and for the year ended December 31, 2025, except for the adoption of new standards effective as of January 1, 2026.

The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments apply for the first time in 2026, but do not have an impact on the unaudited interim condensed consolidated financial statements of the Group.

- Amendments to Illustrative Examples on PFRS 7, PFRS 18, PAS 1, PAS 8, PAS 26 and PAS 37, *Disclosures about Uncertainties in the Financial Statements*

  The amendments add illustrative examples to several PFRS Accounting Standards intended to improve the reporting of climate-related and other uncertainties in the financial statements, particularly to address stakeholders' concerns about consistency of information within the general-purpose financial reports and sufficient information on climate-related risks and other uncertainties in the financial statements.

  The examples address topics such as materiality judgements, significant judgements and estimates, and aggregation and disaggregation.

  The illustrative examples are not an integral part of PFRS Accounting Standards and, as such, do not have an effective date or transition requirements. However, an entity is expected to be entitled to sufficient time to implement any changes to align the information disclosed in its financial statements with the illustrative examples. Determining how much time is sufficient is a matter of judgement that depends on an entity's particular facts and circumstances. Nonetheless, an entity would be expected to implement any changes on a timely basis.

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*

  The amendments clarify that a financial liability is derecognized on the 'settlement date', i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. They also introduce an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met.

  The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features. Furthermore, the amendments clarify the treatment of non-recourse assets and contractually linked instruments.

- Amendments to PFRS 9 and PFRS 7, *Contracts Referencing Nature-dependent Electricity*

  The amendments only apply to contracts that reference nature-dependent electricity such as contracts to buy or sell nature-dependent electricity, as well as financial instruments that reference such electricity. This amendment cannot be applied by analogy to other contracts, items or transactions.

The amendments clarify the application of the 'own-use' requirements for in-scope contracts, amend the designation requirements for a hedge item in a cash flow hedging relationship for in-scope contracts and include new disclosure requirements.

- Annual Improvements to PFRS Accounting Standards—Volume 11

  The amendments are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversight or conflicts between the requirements in the Accounting Standards. The following is the summary of the Standards involved and their related amendments.

  - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
    The amendments included in paragraphs B5 and B6 of PFRS 1 cross references to the qualifying criteria for hedge accounting in paragraph 6.4.1(a), (b) and (c) of PFRS 9. These are intended to address potential confusion arising from an inconsistency between the wording in PFRS 1 and the requirements for hedge accounting in PFRS 9.

  - Amendments to PFRS 7, *Gain or Loss on Derecognition*
    The amendments updated the language of paragraph B38 of PFRS 7 on unobservable inputs and included a cross reference to paragraphs 72 and 73 of PFRS 13.

  - Amendments to PFRS 9

    - Lessee Derecognition of Lease Liabilities
      The amendments to paragraph 2.1 of PFRS 9 clarified that when a lessee has determined that a lease liability has been extinguished in accordance with PFRS 9, the lessee is required to apply paragraph 3.3.3 and recognize any resulting gain or loss in profit or loss.

    - Transaction Price
      The amendments to paragraph 5.1.3 of PFRS 9 replaced the reference to 'transaction price as defined by PFRS 15 *Revenue from Contracts with Customers*' with 'the amount determined by applying PFRS 15'. The term 'transaction price' in relation to PFRS 15 was potentially confusing and so it has been removed. The term was also deleted from Appendix A of PFRS 9.

  - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
    The amendments to paragraph B74 of PFRS 10 clarified that the relationship described in B74 is just one example of various relationships that might exist between the investor and other parties acting as de facto agents of the investor.

  - Amendments to PAS 7, *Cost Method*
    The amendments to paragraph 37 of PAS 7 replaced the term 'cost method' with 'at cost', following the prior deletion of the definition of 'cost method'.

4. **Operating Segment Information**

The Group's operating segments are determined based on geographical segment, with each segment representing a strategic business location that has similar economic and political conditions, proximity of operations and specific risks associated with operations in a particular area.

The Group's identified reportable segments below are consistent with the segments reported to the Board, which is the Chief Operating Decision Maker of the Group:

a. Leyte Geothermal Facilities - This segment pertains to Leyte Geothermal Production Field and Power Plants. This includes projects in Tongonan, Mahanagdong, Upper Mahiao, Malitbog, and other projects in Leyte Province.

b. Negros Island Geothermal Facilities - This segment refers to Southern Negros Geothermal Production Field and Power Plants. Power plants included in Negros are Palinpinon I, Palinpinon II, and Nasulo.

c. Bacon-Manito Geothermal Facilities - This segment relates to Bacon-Manito Geothermal Production Field and Power Plants. Power plants included in Bacon-Manito are Bacman I, Bacman II, Palayan Binary and Tanawon Geothermal.

d. Mt. Apo Geothermal Facilities - This segment refers to Mt. Apo Geothermal Production Field and Power Plants. Power plants included in Mt. Apo are Mindanao I, Mindanao II, and Mindanao III.

e. Pantabangan/Masiway - This segment relates to Pantabangan-Masiway hydroelectric complex located in Nueva Ecija Province.

f. Wind Business Facilities - This segment pertains to wind project commercially operating in Northern Luzon.

g. Solar Business Facilities - This segment pertains to solar projects commercially operating in Northern Luzon and Visayas.

h. Battery Energy Storage System (BESS) - This segment pertains to battery energy storage projects commercially operating in Bac-Man, Tongonan and Southern Negros.

i. Others - This refers to other renewable energy projects including foreign investments and head office of the Group.

Management monitors the operating results of the business segments separately for the purpose of making decisions about resources to be allocated and of assessing performance. Finance costs, finance income, income taxes and other charges and income are managed on a group basis.

Segment performance is evaluated based on net income for the period and earnings before interest, taxes, and depreciation and amortization (EBITDA). Net income for the period is measured consistent with consolidated net income reported in the unaudited interim condensed consolidated financial statements. EBITDA is calculated as revenue from sale of electricity minus costs of sale of electricity and general and administrative expenses, excluding non-cash items such as depreciation and amortization, impairment losses on non-financial assets, and loss on disposal of property, plant and equipment, among others.

Financial information on the operating segments are summarized as follows:

	Leyte	Negros Island	Bacon-Manito	Mt. Apo	Pantabangan/ Masiway	Wind	Solar	BESS	Others	Total
For the Nine-Month Period Ended September 30, 2026

The following table shows the Group's reconciliation of EBITDA to the consolidated net income for the nine-month periods ended September 30, 2026 and 2025:

	September 30, 2026 (Unaudited)	September 30, 2025 (Unaudited)
EBITDA	**₱29,286,724,762**	₱14,772,210,375
Add (deduct):		
Depreciation and amortization (Notes 9, 10, 14 and 15)	**(8,557,888,738)**	(5,932,792,386)
Interest expense (Note 16)	**(4,823,436,859)**	(4,067,551,950)
Provision for income tax	**(1,894,480,333)**	(541,326,515)
Income from insurance claims	**754,770,529**	691,016,181
Foreign exchange losses - net (Note 18)	**(377,415,230)**	(34,884,233)
Interest income (Note 17)	**339,236,210**	343,138,084
Miscellaneous income - net (Note 19)	**129,452,811**	124,313,413
Provision for impairment of trade and other receivables, prepaid taxes, and others (Note 15)	**(113,227,348)**	(93,841,792)
Reversal of (provision for) impairment of parts and supplies inventories (Notes 7 and 15)	**(106,367,382)**	26,077,765
Consolidated net income	**₱14,637,368,422**	₱5,286,358,942

In the normal course of business, entities within the Group engage in intercompany sale and purchase of steam and electricity. Intersegment revenues are all eliminated in consolidation. Segment information is measured in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements. Intersegment revenues are made at normal commercial terms and conditions.

Unallocated expenses pertain to expenses of the corporate, technical and administrative support groups while unallocated corporate assets and liabilities which include among others certain cash and cash equivalents, property, plant and equipment, parts and supplies inventories, trade and other payables and retirement and post-employment benefits, pertain to the Head Office and are managed on a group basis.

5. Cash and Cash Equivalents

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Cash on hand and in banks	**₱10,561,074,795**	₱10,204,972,667
Cash equivalents	**8,751,206,099**	469,145,340
	₱19,312,280,894	₱10,674,118,007

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents consist of money market placements, which are made for varying periods of up to three (3) months depending on the immediate cash requirements of the Group.

6. Trade and Other Receivables

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Trade receivable:		
Third parties	**₱10,830,906,708**	₱8,864,985,751
Related parties (Note 22)	**169,025,467**	117,411,421
	10,999,932,175	8,982,397,172
Others:		
Non-trade accounts receivable	**620,016,041**	597,642,601
Loans and notes receivables	**52,903,420**	37,673,542
Advances to employees	**33,204,401**	57,738,934
	706,123,862	693,055,077
	11,706,056,037	9,675,452,249
Less allowance for doubtful accounts	**1,246,939,970**	1,207,890,588
	₱10,459,116,067	₱8,467,561,661

Trade receivables are noninterest-bearing and are generally collectible in 30 to 60 days. Non-trade receivables are non-interest-bearing and include accrued interest receivable and other receivables arising from transactions not in the usual course of the Group's business.

7. Parts and Supplies Inventories

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Parts and supplies inventories:		
At cost	**₱10,564,710,475**	₱10,721,229,771
At net realizable value (NRV)	**3,210,473,227**	3,414,774,192
	₱13,775,183,702	₱14,136,003,963

Allowance for inventory obsolescence:

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of year	**₱954,311,980**	₱687,820,614
Provision for impairment (Note 15)	**106,367,382**	266,491,366
Balance at end of year	**₱1,060,679,362**	₱954,311,980

Parts and supplies inventories include items that are carried at NRV amounting to ₱3,210.5 million and ₱3,414.8 million as of September 30, 2026 and December 31, 2025, respectively, and have costs amounting ₱4,271.2 million and ₱4,369.1 million, respectively. The rest of the parts and supplies inventories are carried at cost.

8. **Other Current Assets**

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Creditable withholding taxes	**₱1,885,727,299**	₱1,217,068,331
Deposits and special funds	**1,151,120,708**	810,153,788
Prepaid expenses	**412,593,430**	678,022,020
Advances to suppliers	**336,952,011**	119,645,605
Others	**274,315,671**	270,340,603
	₱4,060,709,119	₱3,095,230,347

Prepaid expenses include prepaid insurance and rentals while advances to suppliers pertains mainly to the advances made by the Group for the purchase of parts and supplies, and other goods and services.

Deposits and special funds include deposits to distribution utilities as required under the Distribution Wheeling Service Agreements and cash held in escrow accounts of the Group as required under the retail supply contracts and green energy option program supply contracts.

Advances to suppliers pertains mainly to the advances made by the Group for the purchase of parts and supplies, and other goods and services.

Estimated Rehabilitation and Restoration Costs
FCRS and production wells include the estimated rehabilitation and restoration costs of the Group's steam fields and power plants' contract areas at the end of the contract period. These were based on technical estimates of probable costs, which may be incurred by the Group in the rehabilitation and restoration of the said steam fields and power plants' contract areas, using a risk-free discount rate and adjusted the cash flows to settle the provision.

Also, the Group has recorded provision for asset retirement obligation relating to the removal and disposal of all wind farm materials, equipment and facilities from the contract areas at the end of contract period. The amount of provision was recorded as part of the costs of power plants.

Depreciation and Amortization
Details of depreciation and amortization charges recognized in the unaudited interim consolidated statements of income are shown below:

	September 30, 2026 (Unaudited)	September 30, 2025 (Unaudited)
Property, plant and equipment	**₱8,467,373,554**	₱6,139,449,079
Intangible assets (Note 10)	**104,889,158**	100,231,364
Capitalized depreciation	**(14,373,974)**	(306,888,058)
	₱8,557,888,738	₱5,932,792,385
Costs of sales of electricity (Note 14)	**₱8,316,948,908**	₱5,675,517,643
General and administrative (Note 15)	**240,939,830**	257,274,742
	₱8,557,888,738	₱5,932,792,385

Reclassification
The reclassifications in the cost of property, plant and equipment include adjustments to the provision for rehabilitation and restoration costs amounting to ₱219.3 million and ₱25.0 million in period ended September 30, 2026 and December 31, 2025 respectively. Meanwhile, the reclassifications in the accumulated depreciation of property, plant and equipment include capitalized depreciation charges amounting to ₱14.4 million and ₱464.6 million in period ended September 30, 2026 and December 31, 2025, respectively. Other reclassifications were due to the results of reassessment made by the Group on the nature of the assets.

Income from Insurance Claims

Business interruptions and other claims
In period ended September 30, 2026 and 2025, the Group recognized income from insurance claims totaling ₱572.9 million and ₱691.0 million, respectively, relating to business interruptions and other claims caused by calamities and various events, which include but are not limited to fire damages, Typhoon Uwan, Typhoon Marce, and machinery breakdowns.

Increased Tax Liability
In period ended September 30,2026, the Group recognized income from insurance claims totaling ₱181.9 million, relating to increased tax liability caused by the machinery breakdown in Palinpinon.

	₱16,119,094,118	₱14,956,368,046

Long-term receivables include receivable from TransCo arising from FIT rate adjustments.

Others include capital expenditures funding made by the Group to Compañía De Energia amounting to ₱1,298.8 million and ₱1,299.2 million as of September 30, 2026 and December 31, 2025, respectively.

The Group's continued participation in the Mariposa project is subject to positive results being obtained from resource assessment studies to be conducted by the Group for the project.

12. Trade and Other Payables

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Trade payables:		
Third parties	**₱9,111,578,082**	₱12,322,416,615
Related parties (Note 22)	**1,142,316,508**	4,007,404,431
	10,253,894,590	16,329,821,046
Others:		
Accrued interest on long-term debts	**1,497,796,992**	1,056,941,179
Withholding and other taxes payable	**1,282,512,109**	1,096,318,002
Government share payable	**117,095,591**	30,462,397
SSS and other contributions payable	**82,110,990**	75,687,691
Dividends payable	**42,139,149**	42,232,236
Other payables	**2,133,195,876**	1,668,672,984
	5,154,850,707	3,970,314,489
	₱15,408,745,297	₱20,300,135,535

Trade payables are noninterest-bearing and are normally settled on a 30 to 60 days term.

The accrued interest represents interest accrual on outstanding loans.

"Other payables" account includes provision for shortfall generation amounting to ₱1,051.7 million as of September 30, 2026 and December 31, 2025. Other payables also include deferred output VAT and other accruals.

13. Long-term Debts

The Group has not recognized any impairment loss on trade and other receivables relating to intercompany transactions as of September 30, 2026 and December 31, 2025.

23. Financial Risk Management Objectives and Policies

The Group's financial instruments consist mainly of cash and cash equivalents, trade receivables, financial assets at FVPL and FVOCI, derivative asset and liability, trade payables, long-term debts, and lease liabilities. The main purpose of these financial instruments is to finance the Group's operations and accordingly manage its exposure to financial risks. The Group has various other financial assets and liabilities such as short-term investments, other receivables, other payables and due to/from related parties, which arise directly from operations.

The Group classifies its financial instruments in the following categories:

	September 30, 2026 (Unaudited)				
	Amortized Cost	**Financial Assets at FVOCI**	**Financial Assets at FVPL**	**Derivatives Designated as Cash Flow Hedges**	**Total**
			(In Thousand Pesos)

	₱104,526,112,479	**₱108,945,196,937**	₱103,390,776,692	₱111,201,492,425

Due to their relatively short maturity, ranging from one (1) to three (3) months, the carrying amounts approximate the fair values for cash and cash equivalents, trade and other receivables, short-term investments, amounts due to related parties and trade and other payables.

The methods and assumptions used by the Group in estimating the fair value of financial instruments are:

Long-term Receivables, Deposits and Special Funds, and Customer Deposits

The fair value of long-term receivables was computed by discounting the expected cash flow using the applicable rate of 6.95% and 5.54% as of September 30, 2026 and December 31, 2025, respectively.

Financial Assets at FVOCI

Fair values of quoted debt and equity securities are based on quoted market prices and other observable data.

Financial assets at Fair Value through Profit or Loss

The fair values of financial assets at fair value through profit or loss are based on quotations provided by the investment manager.

Derivatives designated as Cash Flow Hedges

The fair values of derivative instruments designated as cash flow hedges are based on quotations provided by the counterparty banks.

Long-term Debts

The fair values for the Group's long-term debts are estimated using the discounted cash flow methodology with the applicable rates ranging from 3.35% to 10.04% as of September 30, 2026 and 1.80% to 8.84% as of December 31, 2025.

Lease Liabilities

The fair values for the Group's lease liabilities are estimated using the discounted cash flow methodology with the applicable rates ranging from 7.33% to 9.29% as of September 30, 2026 and 5.97% to 7.41% as of December 31, 2025.

The following tables show the fair value information of financial instruments classified under loans and receivables, financial assets at FVPL, financial assets at FVOCI, and derivatives designated as cash flow hedges and analyzed by sources of inputs on fair valuation as follows:

- Quoted prices in active markets for identical assets or liabilities (Level 1);
- Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3)

For the nine (9) months ended September 30, 2026, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

Financial Risk Management Policy

The main financial risks arising from the Group's financial instruments are credit risk, foreign currency risk, interest rate risk, and liquidity risk. The Group's policies for managing the aforementioned risks are summarized hereinafter below.

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables

The Group trades with customers such as distribution utilities, electric cooperatives, industrial customers, contestable customers and government-owned-and-controlled corporations. Credit risk is controlled by the application of credit approval limit and monitoring procedures. It is the Group's policy to enter into credit-worthy parties to mitigate any significant concentration of credit risk. Trade receivables balances are monitored on an ongoing basis to ensure that the Group's exposure to bad debts is not significant. The maximum exposure of trade receivable is equal to its carrying amount.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

September 30, 2026 (Unaudited)

Expected credit loss	–	–	–	–	19,793	1,093,445	1,113,238

Financial instruments and cash deposits

With respect to the credit risk arising from other financial assets of the Group, which comprise of cash and cash equivalents excluding cash on hand, financial asset at FVPL, short-term investments, other receivables, financial assets at FVOCI, and due from related party, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. Credit risk from these instruments is mitigated by the short-term and/or liquid nature of its cash investments mainly in bank deposits and placements, which are placed with financial institutions and entities of high credit standing.

Credit Quality of Financial Assets

Financial assets are classified as high grade if the counterparties are not expected to default in settling their obligations. Thus, the credit risk exposure is minimal. These counterparties normally include customers, banks and related parties who pay on or before due date. Financial assets are classified as a standard grade if the counterparties settle their obligation with the Group with tolerable delays. Low grade accounts are accounts, which have probability of impairment based on historical trend.

These accounts show propensity of default in payment despite regular follow-up actions and extended payment terms. As of September 30, 2026 and December 31, 2025, financial assets categorized as neither past due nor impaired are viewed by management as high grade, considering the collectability of the receivables and the credit history of the counterparties. Meanwhile, past due but not impaired financial assets are classified as standard grade.

Derivative Financial Instruments

The Group engages in derivative transactions, particularly foreign currency swaps, cross currency swaps, interest rate swaps and call spread swaps to manage its foreign currency risk and/or interest rate risk arising from its foreign-currency denominated loans. These derivatives are accounted for either as derivatives designated as accounting hedges or derivatives not designated as accounting hedges.

The table below shows the derivative financial instruments of the Group:

	September 30, 2026 (Unaudited)		December 31, 2025 (Audited)	
	Derivative Assets	**Derivative Liabilities**	Derivative Assets	Derivative Liabilities

Total derivatives	**₱491,236,874**	**₱–**	₱35,235,529	₱56,898,289

Cross Currency Swap Contracts

As of September 30, 2026, EDC entered into various cross currency swaps (CCS) with aggregate notional amount of US$40.0 million. This is to partially hedge the interest rate and foreign exchange risks on its Commercial Debt Facility (Foreign Facility) that is benchmarked against six (6)-month USD Term SOFR and with flexible interest reset feature that allows EDC to select what interest reset frequency to apply (i.e., monthly, quarterly or semi-annually). As it is EDC's intention to reprice the interest rate on the Foreign facility semi-annually, EDC utilizes CCS with semi-annual interest payments and receipts.

As of September 30, 2026 and December 31, 2025, the outstanding aggregate notional amount of the Group's CCS amounted to US$40.0 million and US$40.0 million, respectively.

The aggregate fair value change of these CCS amounted to (₱223.7million) and ₱14.1 million as of September 30, 2026 and December 31, 2025, respectively.

Call Spread Swap Contracts
EDC entered into various call spread swaps (CSS) with aggregate notional amount of US$60.0 million as of September 30, 2026. This is to partially hedge the foreign exchange risk on its Commercial Debt Facility (Foreign Facility) that is benchmarked against six (6)-month USD Term SOFR and with flexible interest reset feature that allows EDC to select what interest reset frequency to apply (i.e., monthly, quarterly or semi-annually). As it is EDC's intention to reprice the interest rate on the Foreign Facility semi-annually, EDC utilizes CSS with semi-annual interest payments and receipts.

As of September 30, 2026 and December 31, 2025, the outstanding aggregate notional amount of the Group's CSS amounted to US$60.0 million and US$60.0 million, respectively.

The aggregate fair value change of these CSS amounted to (₱33.1 million) and ₱43.5 million as of September 30, 2026 and December 31, 2025, respectively.

Interest Rate Swap Contracts
EDC and EBWPC entered into various interest rate swap (IRS) with aggregate notional amount of US$60.0 million and US$126.8 million, respectively as of September 30, 2026. This is to partially hedge the interest rate risk on its Commercial Debt Facility (Foreign Facility) that is benchmarked against six (6)-month USD Term SOFR and with flexible interest reset feature that allows the Group to select what interest reset frequency to apply (i.e., monthly, quarterly or semi-annually). As it is the Group's intention to reprice the interest rate on the Foreign facility semi-annually, the Group utilizes IRS with semi-annual interest payments and receipts.

As of September 30, 2026 and December 31, 2025, the outstanding aggregate notional amount of the Group's IRS amounted to US$186.8 million and US$186.8 million, respectively.

The aggregate fair value change on these IRS amounted to (₱179.8 million) and ₱57.0 million as of September 30, 2026 and December 31, 2025, respectively.

Fair Value Adjustments
The net movement of fair value changes made to "Fair value adjustments on hedging transactions" account for the Group's cash flow hedges is as follows:

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of year	**(₱110,785,240)**	(₱212,516,994)
Changes in fair value	**312,531,917**	144,367,132
	201,746,678	(68,149,862)
Transferred to consolidated statements of income		
Interest expense	**2,535,811**	–
Gain on unwinding of derivatives	**–**	(36,064,338)
	2,535,811	(36,064,338)
Balance before tax	**204,282,489**	(104,214,200)
Tax	**71,020,568**	(6,571,040)
Balance at end of year	**₱275,303,057**	(₱110,785,240)

Fair Value Changes of Derivatives
The table below summarizes the net movement in fair values of the Group's derivatives as of September 30, 2026 and December 31, 2025.

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of year	**(₱21,662,760)**	₱1,068,436
Net changes in fair value of derivatives designated as accounting hedges	**510,363,823**	13,333,142
Fair value of settled instruments:		
Designated as accounting hedges	**2,535,811**	(36,064,338)
Balance at end of year	**₱491,236,874**	(₱21,662,760)
Presented as:		
Derivative assets	**₱491,236,874**	₱35,235,529
Derivative liabilities	**–**	(56,898,289)
	₱491,236,874	(₱21,662,760)

The effective portion of the changes in the fair value of the derivatives designated as accounting hedges were deferred in equity under "Fair Value Adjustment on Hedging Transactions" account.

Capital Management
The primary objective of the Group's capital management is to ensure that it maintains a healthy capital ratio in order to comply with its financial loan covenants and support its business operations.

24. Events After Financial Reporting Date

On October 28, 2026 the Securities and Exchange Commission (SEC) approved the decrease of capital stock of EDC Wind Energy Holdings Inc. (EWEHI).

25. Other Matters

Seasonality or Cyclicality of Interim Operations
For Wind Ilocos Norte Business Unit, higher revenue and operating profits are expected in the first and last quarters of the year due to stronger average wind speed. Solar power plants are expected to generate their highest revenue during summer months. For the rest of the entities, except for FG Hydro's sale of electricity coming from hydroelectric power/operations, seasonality or cyclicality of interim operations is not applicable. GCGI's and BGI's sales to cooperatives, distribution utilities, and industrial customers are also not subject to seasonality or cyclicality.

Issuances, Repurchases, Repayments, and Subscriptions of Debt and Equity Securities
On February 27, 2026, the following shares has been redeemed:

- BGI redeemed its 4,365,817 and 8,134,183 voting preferred shares with PREHC and First Gen, respectively, both with a par value of ₱0.01 per share; and
- GCGI redeemed its 8,731,633 and 16,268,367 voting preferred shares with PREHC and First Gen, respectively, both with a par value of ₱0.01 per share.

On March 16, 2026, EDC fully prepaid the principal outstanding of the Third Loan with IFC amounting to ₱2.3 billion.

Other than mentioned above, there are no issuances, repurchases, repayments, and subscriptions made of debt and equity securities during the current period.

Changes in Estimates and Amounts Reported in Prior Financial Years
The key assumptions concerning the future and other key sources of estimation uncertainty used in preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements as of and for the year ended December 31, 2025.

Changes in the Composition of the Group During the Interim Period
On June 1, 2026, 11 Peru companies, namely EDC Geotermica SAC, Geotermica Andina SAC, Energy Development Peru SAC, Geotermica Chocopata Peru SAC, EDC Energia Verde Peru SAC, EDC Geotermica Del Sur SAC, EDC Energia Azul SAC, EDC Energia Peru SAC, EDC Energia Geotermica SAC, EDC Progreso Geotermica Peru SAC, EDC Energia Renovable Peru SAC, were merged to EDC Peru Holdings SAC. (EPHS). As a result of this merger, EDC Desarollo Sostenible Ltd. became a minority shareholder of EPHS.

Other than mentioned above, there are no material changes in the composition of the registrant during the period.

Changes in Contingent Liabilities or Contingent Assets Since the Last Annual Reporting Date
There are no material changes in the contingent liabilities or contingent assets since the last annual reporting date.

Existence of Material Contingencies and Any Other Events or Transactions that are Material to an Understanding of the Current Interim Period
There are no material contingencies and any other events or transactions during the period.
