FINAL

ACEN recognized for sustainability leadership at ASEAN Business Awards 2026

The regional recognition highlights ACEN's commitment to responsible renewable energy development, decarbonization and sustainable value creation.

MANILA, Philippines, 19 November 2026 — ACEN, the Ayala group's listed energy platform, has received the ASEAN Sustainable Business Leadership Award at the ASEAN Business Awards 2026, held on November 15 on the sidelines of the ASEAN Summit.

The award recognizes enterprises demonstrating exemplary sustainable business practices, including environmental, social and governance (ESG) reporting, decarbonization strategies and circular economy initiatives.

The recognition underscores ACEN's commitment to embedding sustainability across its operations and investment decisions as it advances the energy transition and creates long-term value for its stakeholders.

Over the last decade ACEN has grown from approximately 100 MW of attributable renewable energy capacity in 2016 to around 7,500 MW today, establishing a renewable energy presence across the Philippines and Asia Pacific.

Beyond expanding its renewable energy portfolio, ACEN has taken significant steps to accelerate the energy transition, including its early pivot away from coal and the pioneering of the Philippines' first market-based Energy Transition Mechanism in 2022. The company continues to advance innovative financing solutions, including Transition Credits, to support the accelerated retirement of coal-fired power plants and their replacement with cleaner energy sources.

ACEN's sustainability efforts are anchored on its *PositiveCharge*+ strategy, which integrates environmental stewardship, community development and responsible business practices into its operations. Through its renewable energy projects, the company works closely with host communities and partners to advance biodiversity conservation, livelihood development, education and inclusive growth.

The ASEAN recognition comes as ACEN enters its next phase of growth, with greater emphasis on delivering existing investment commitments, strengthening operational performance, capital efficiency and sustained profitability.

"Sustainability has always been central to ACEN's strategy and how we grow our business. As we enter our next phase, our focus is on sharper execution, stronger performance and creating long-term value for our shareholders and the communities we serve," said Eric Francia, ACEN President and CEO.

The award reinforces ACEN's commitment to demonstrating that responsible business practices, environmental stewardship and financial performance can go hand in hand in building a more sustainable energy future.

###

About ACEN

ACEN, the Ayala group's listed energy company, is one of the fastest-growing renewable energy companies in Asia Pacific, with the Philippines as its core and largest market. It also has a significant presence in Australia, Vietnam, India, and Lao PDR, along with strategic investments in Indonesia and other markets. The company currently has 7.5 GW of attributable renewable energy capacity spanning projects in operation, under construction and with signed agreements.

As a developer, builder, and operator, ACEN leverages its agility and collaborative approach to accelerate the energy transition. The company has 100% renewable energy generation and aims to achieve Net Zero greenhouse gas emissions by 2050—turning bold ambitions into real impact for businesses, communities, and indigenous groups.
